Before You Start

Please read all instructions carefully.

Retain instructions for future reference.

Separate and count all parts and hardware.

Read through each step carefully and follow the proper order.

We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.

Always place the product on a flat, steady and stable surface.

Keep all small parts and packaging materials for this product away from babies and children as they potentially pose a serious choking hazard.

FR

Avant de Commencer

Veuillez lire attentivement toutes les instructions.

Conservez les instructions pour vous y référer ultérieurement.

Vérifiez toutes les pièces et les accessoires.

Lisez attentivement chaque étape et suivez l'ordre correct.

Nous recommandons que, dans la mesure du possible, tous les produits soient assemblés à proximité de la zone où ils seront utilisés, afin d'éviter tout déplacement inutile du produit une fois assemblé.

Placez toujours le produit sur une surface plane et stable.

Conservez toutes les petites pièces de ce produit et les matériaux d'emballage hors de portée des bébés et des enfants, car ils pourraient présenter un risque d'étouffement.

EN_ Measure the width of the opening where you intend to install the gate. Please refer to the following diagrams to determine the correct installation configuration.

FR_ Mesurez la largeur de l'ouverture à l'endroit où vous comptez installer le portillon. Veuillez vous reporter aux schémas ci-dessous pour déterminer la configuration d'installation appropriée.

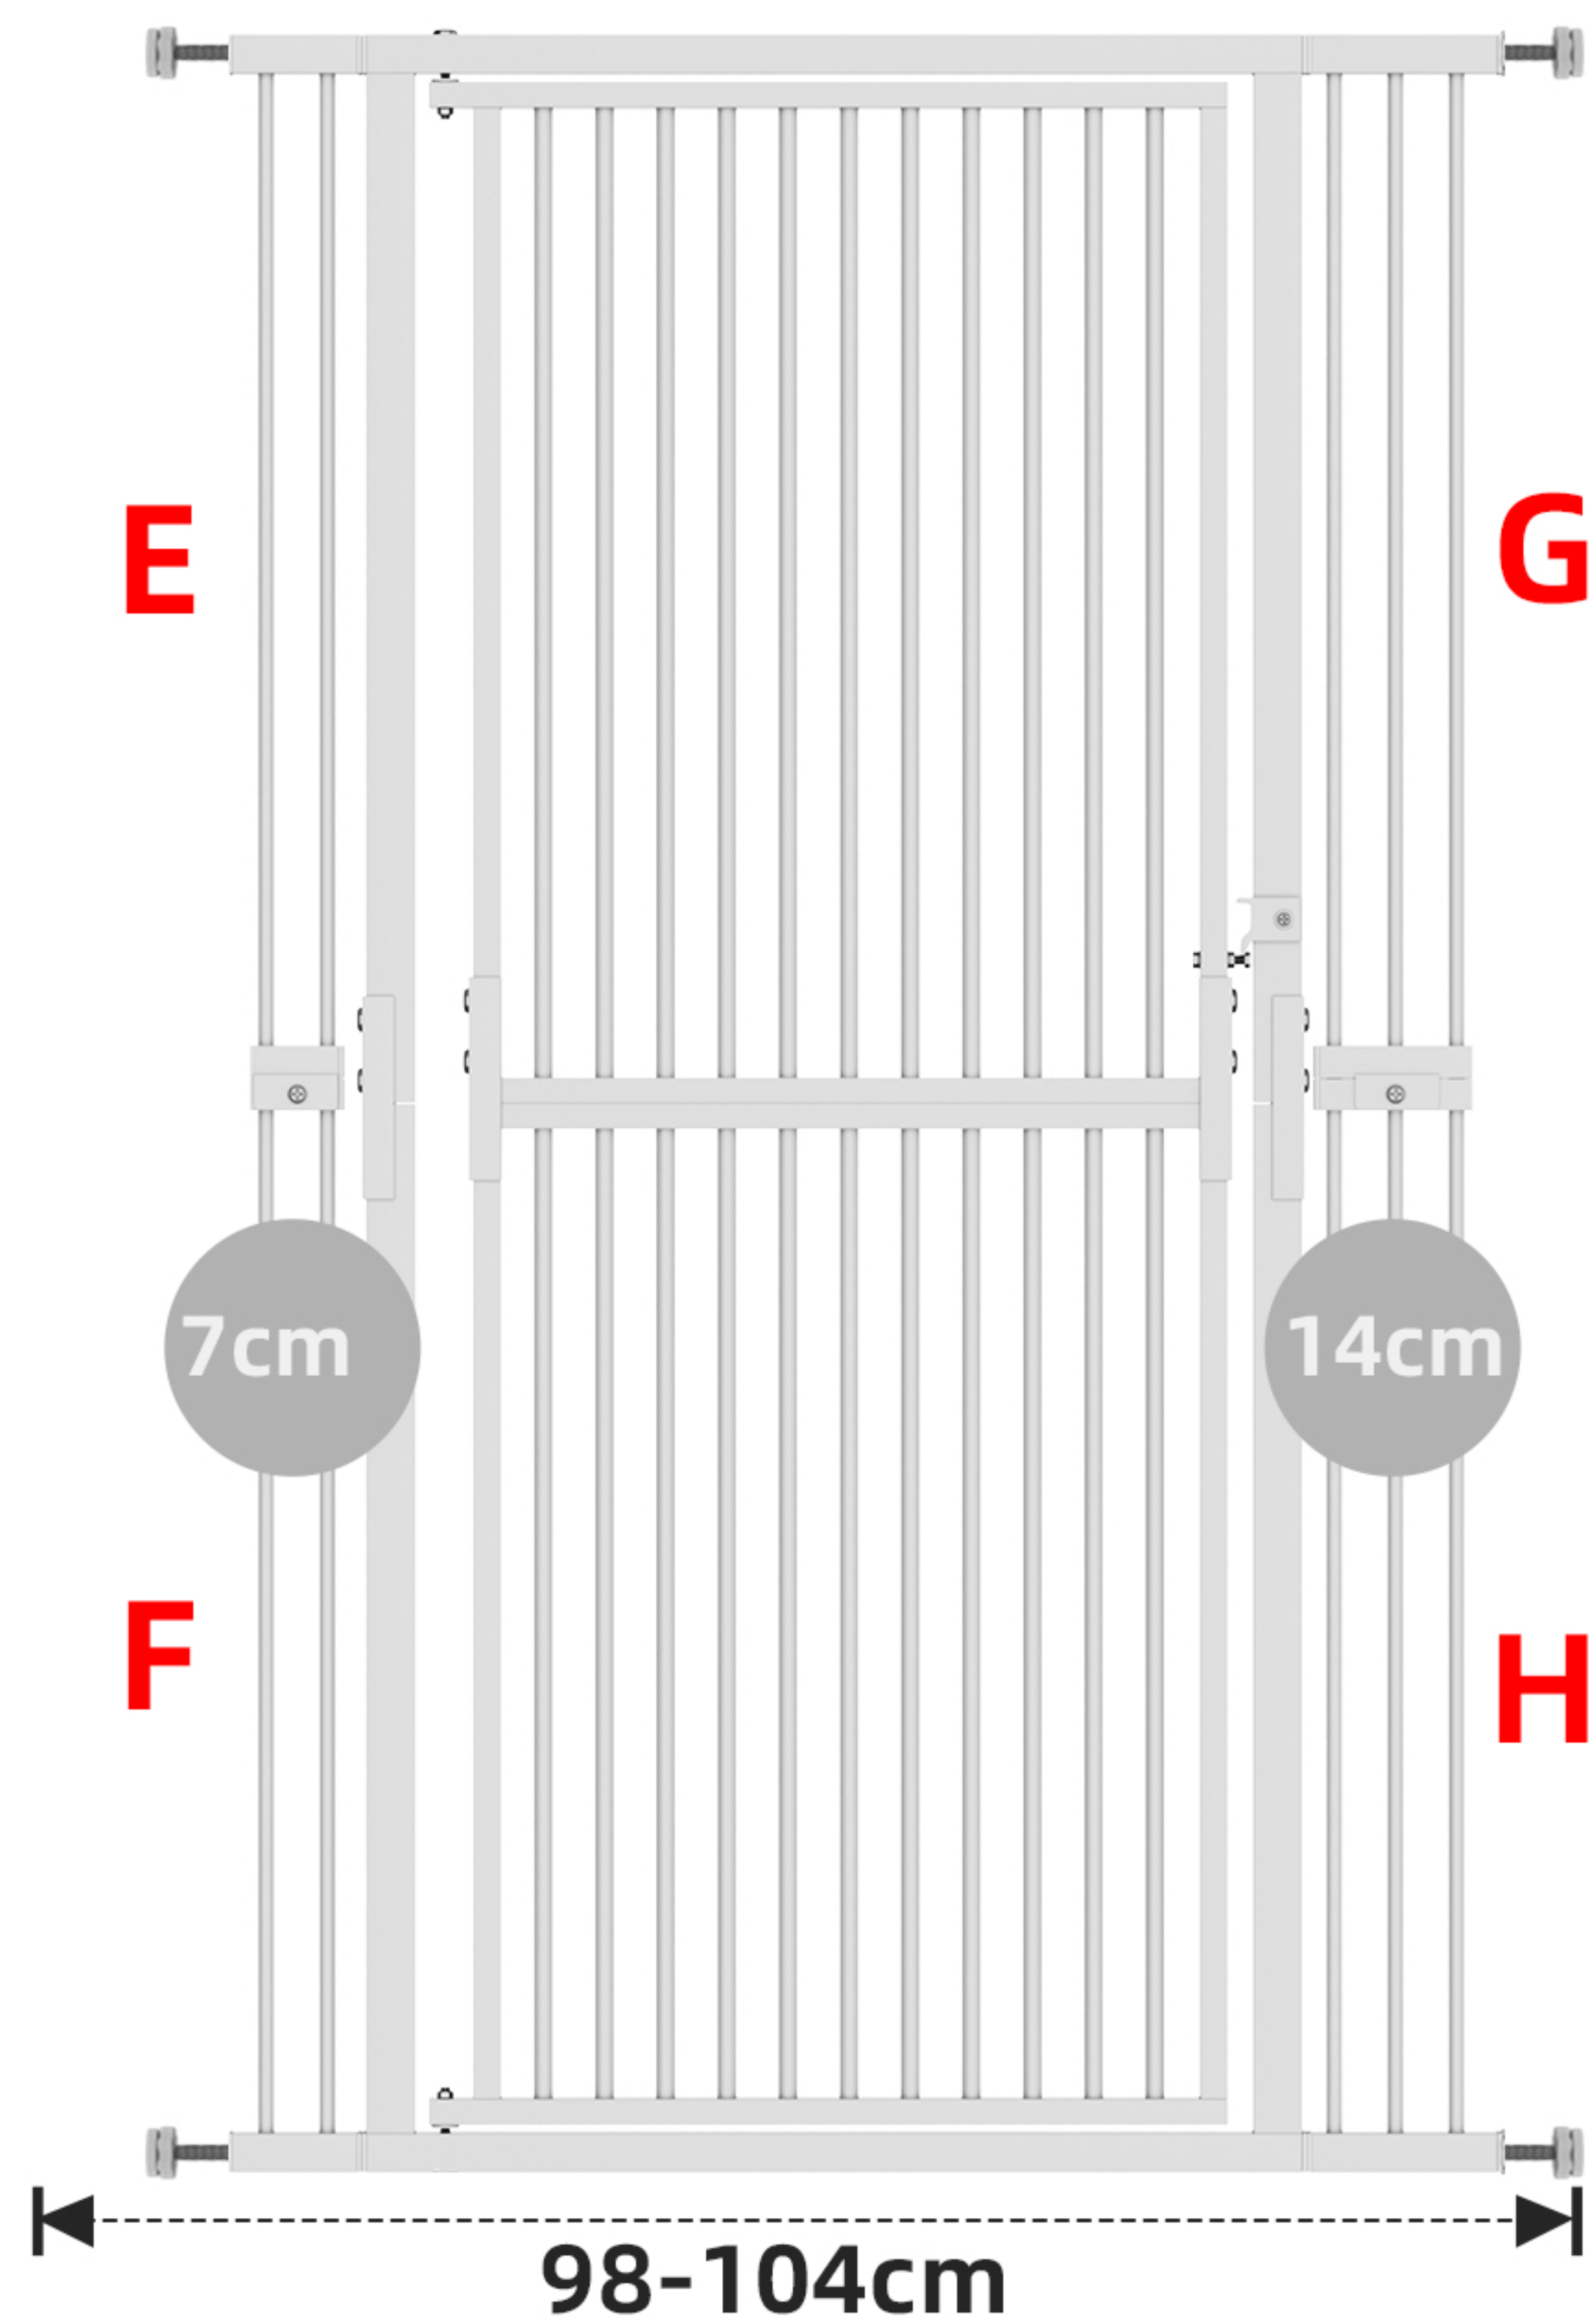

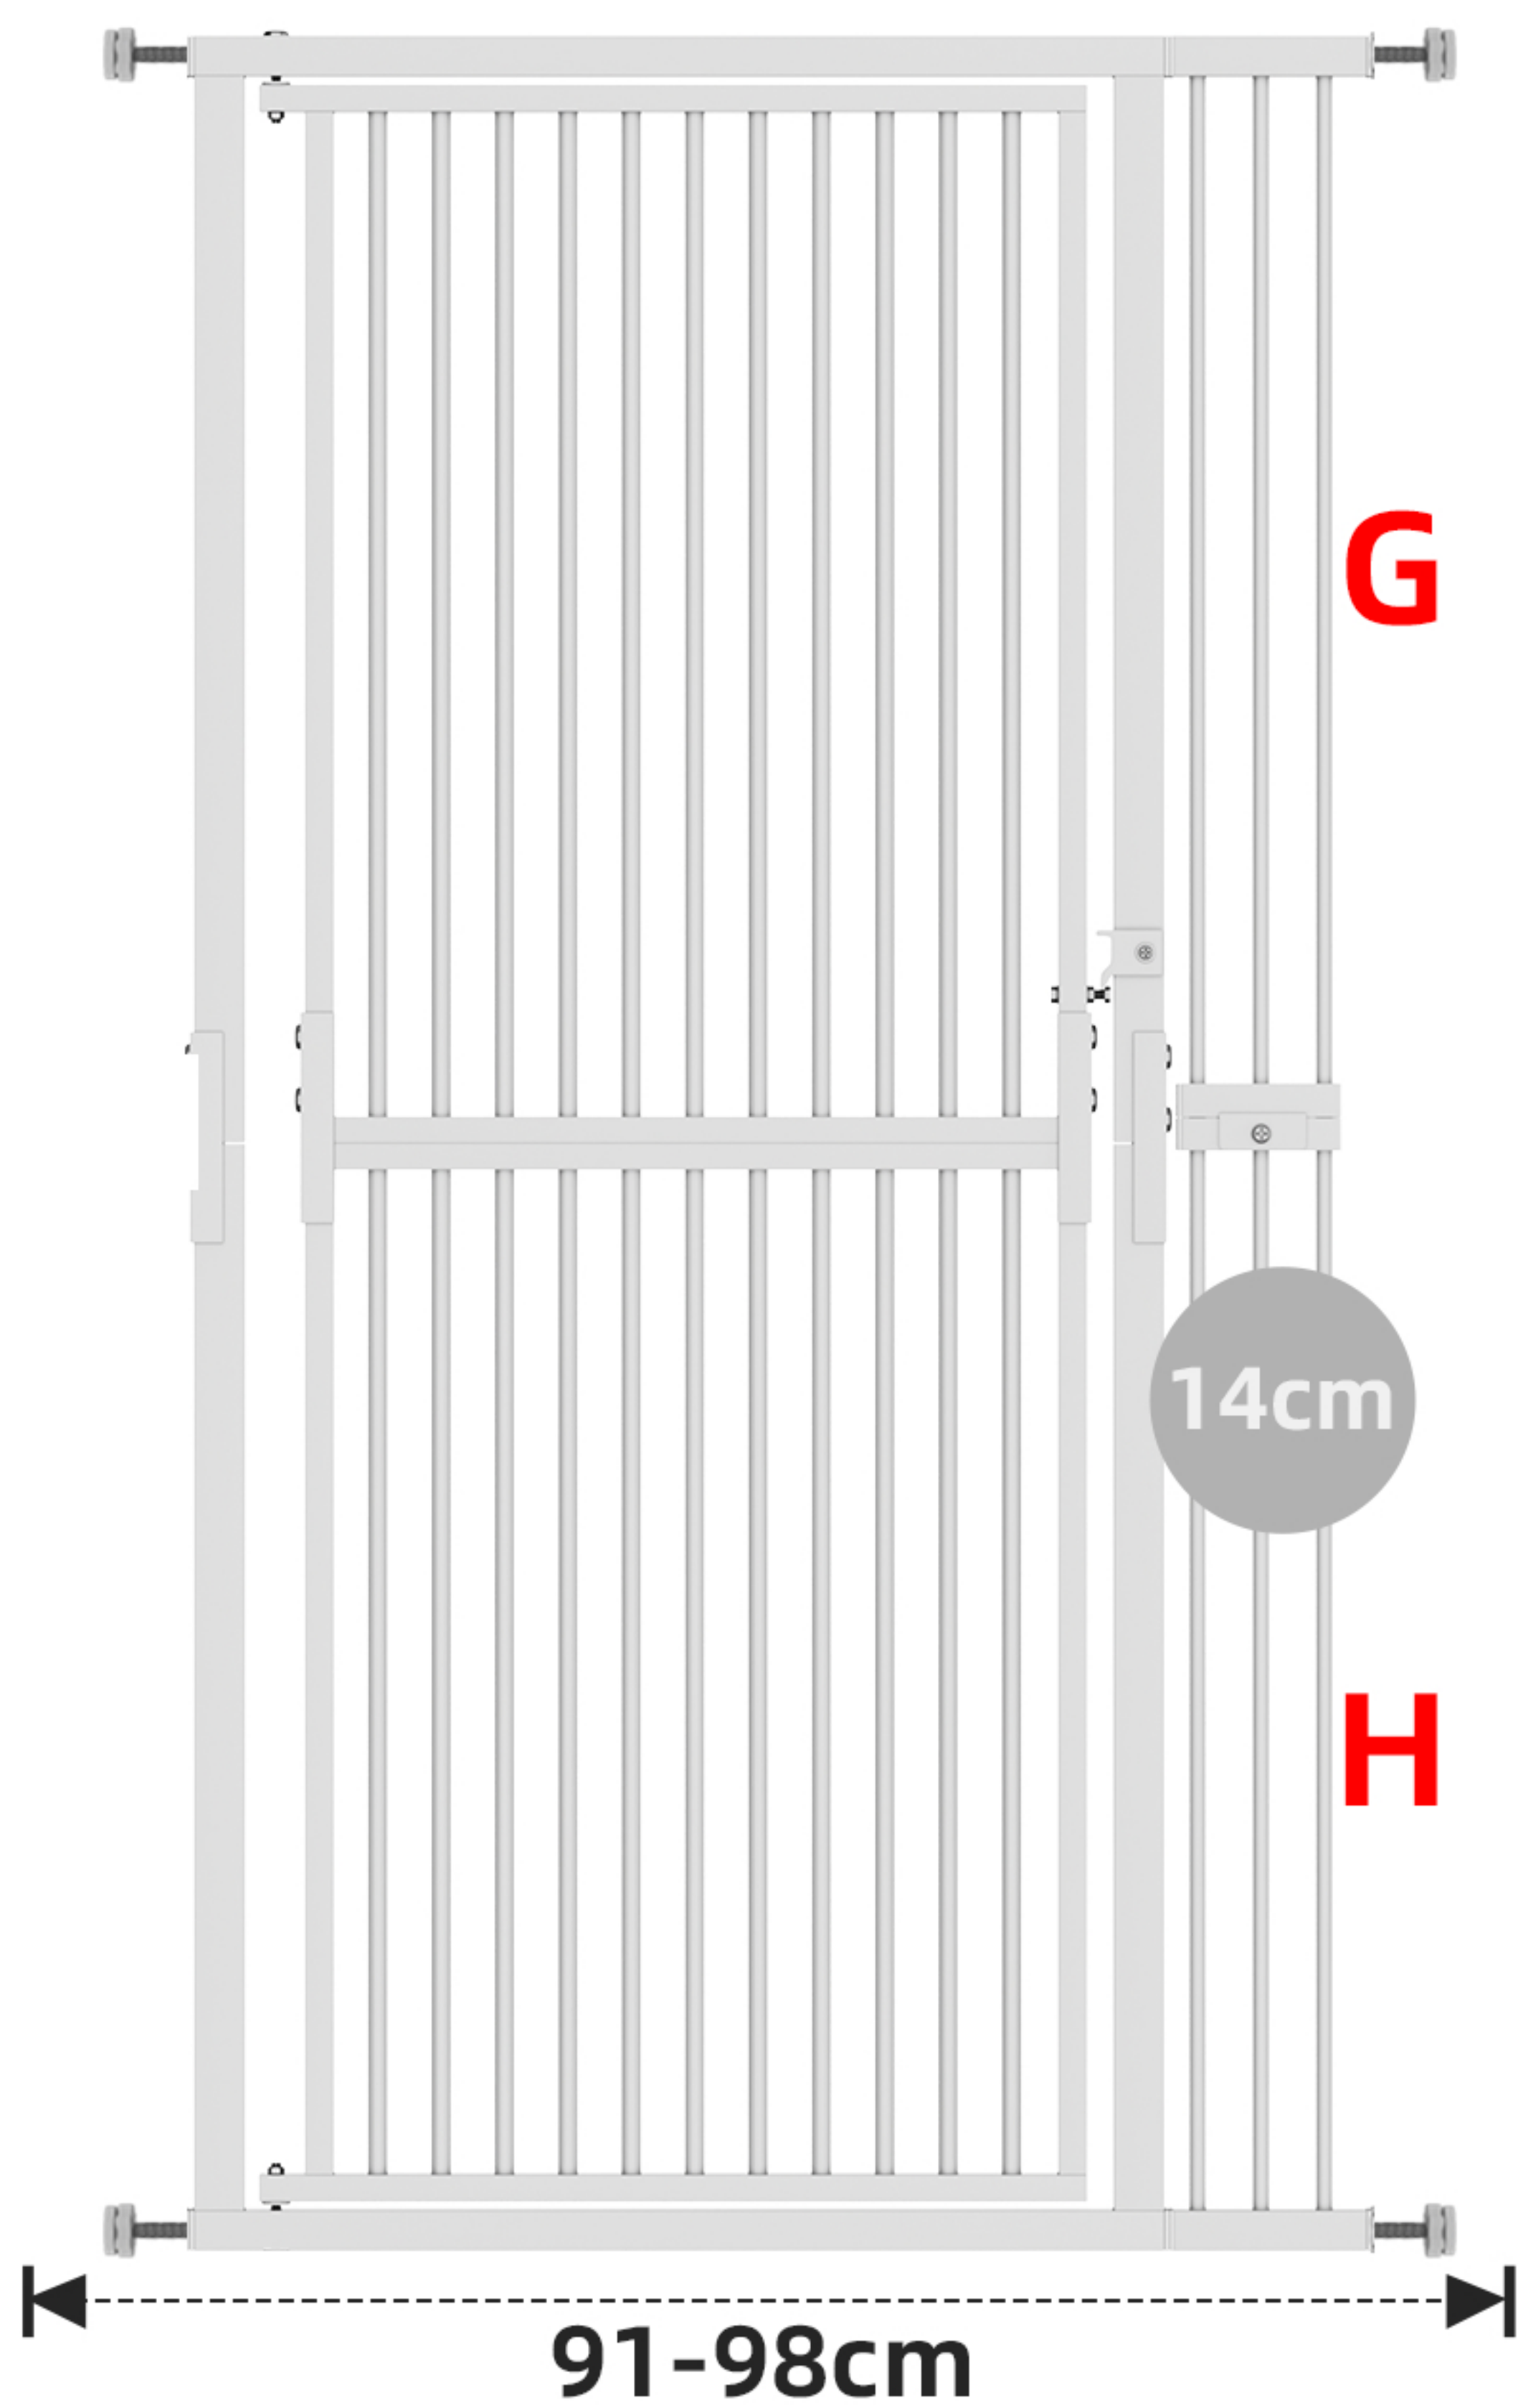

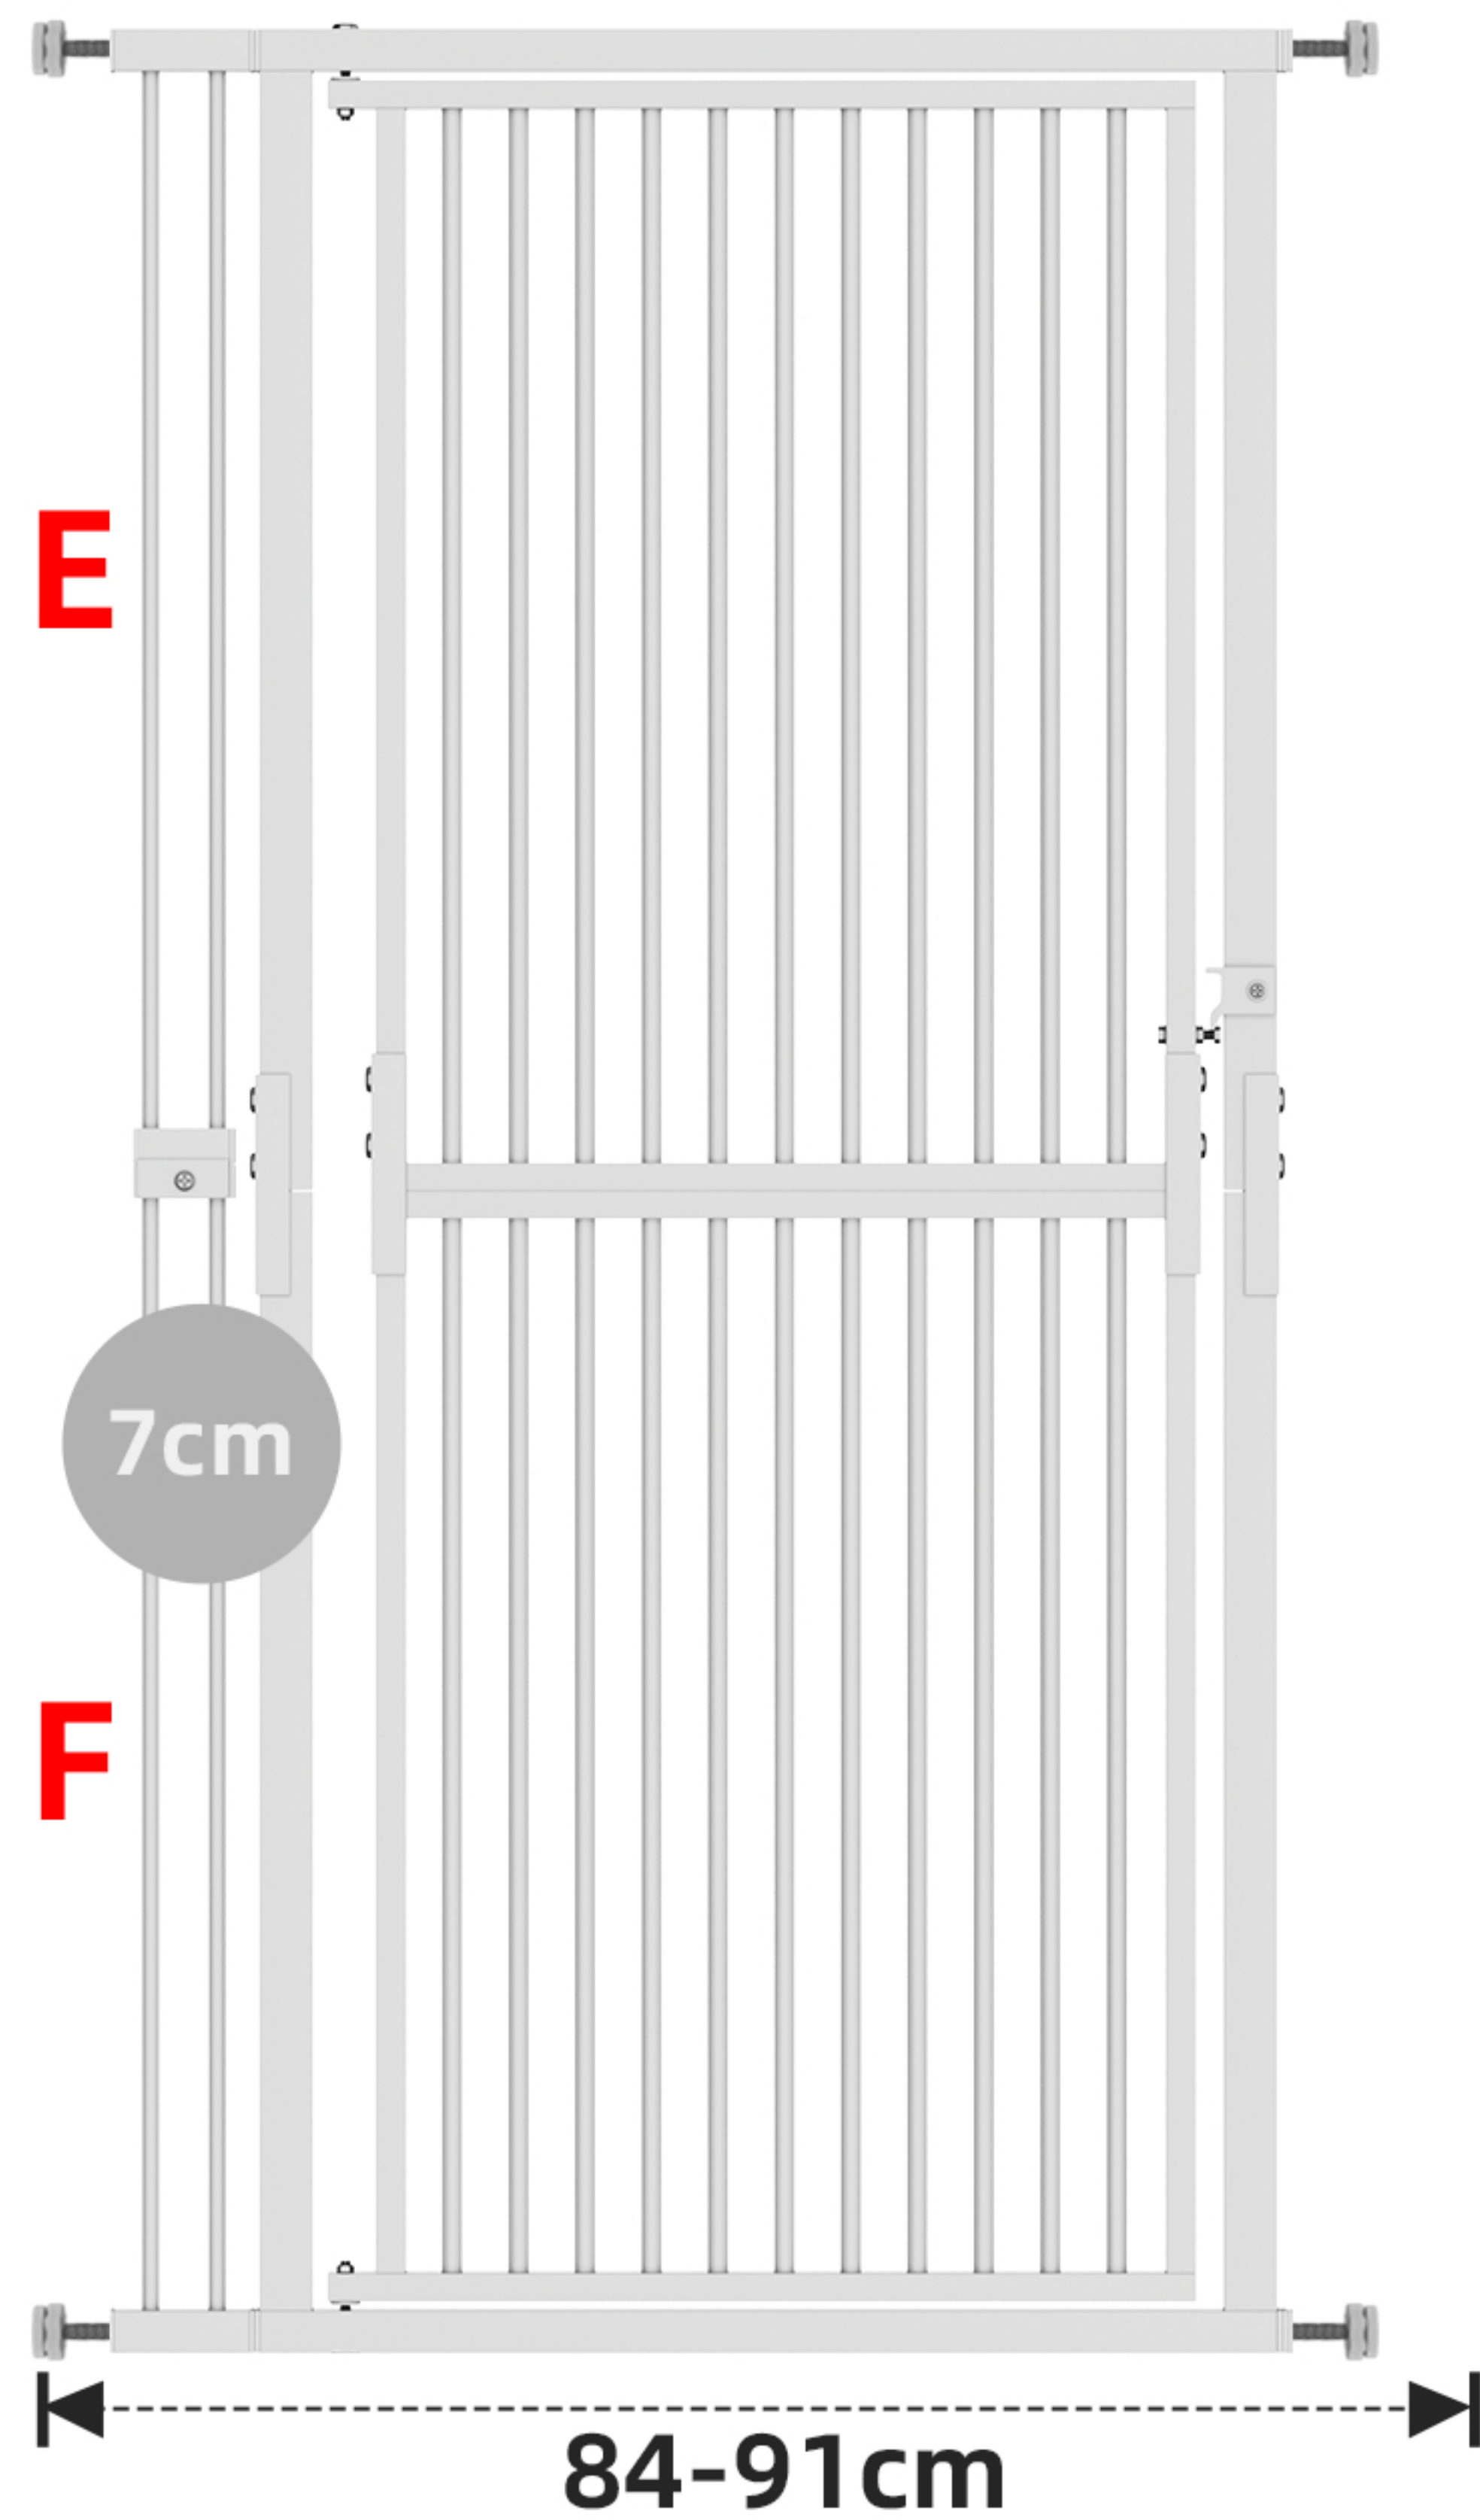

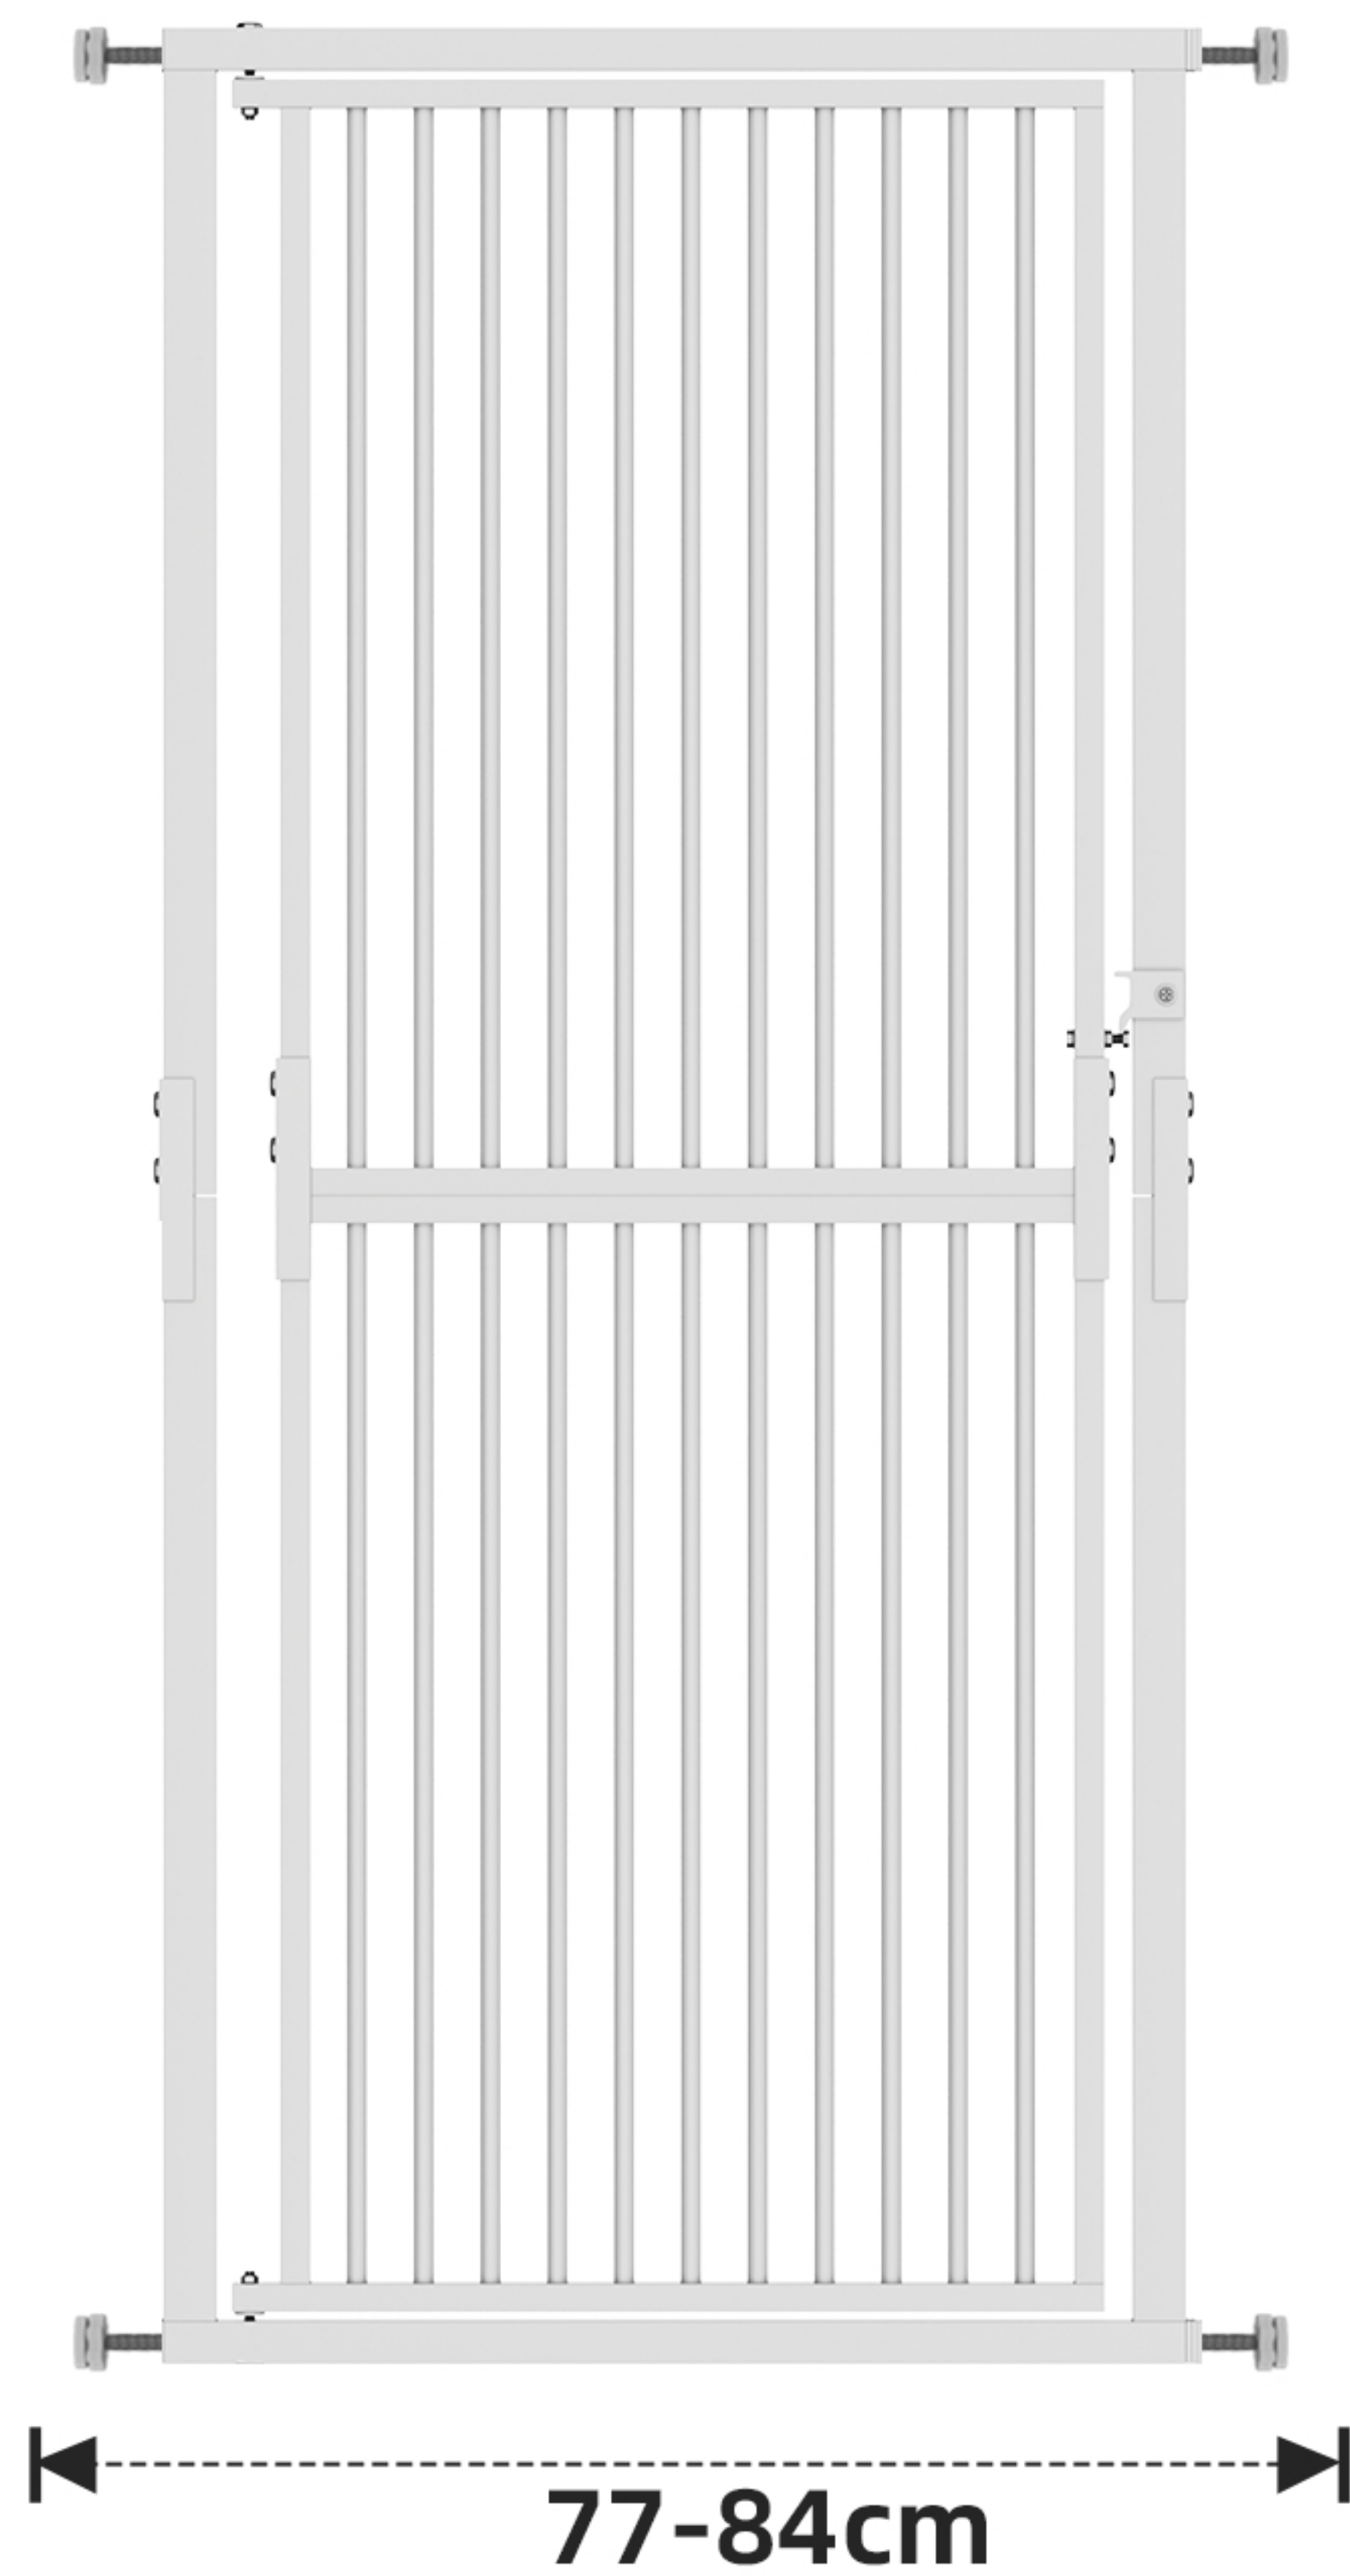

ES_ Mide la anchura de la abertura donde tengas previsto instalar la puerta. Consulta los siguientes diagramas para determinar la configuración de instalación correcta.

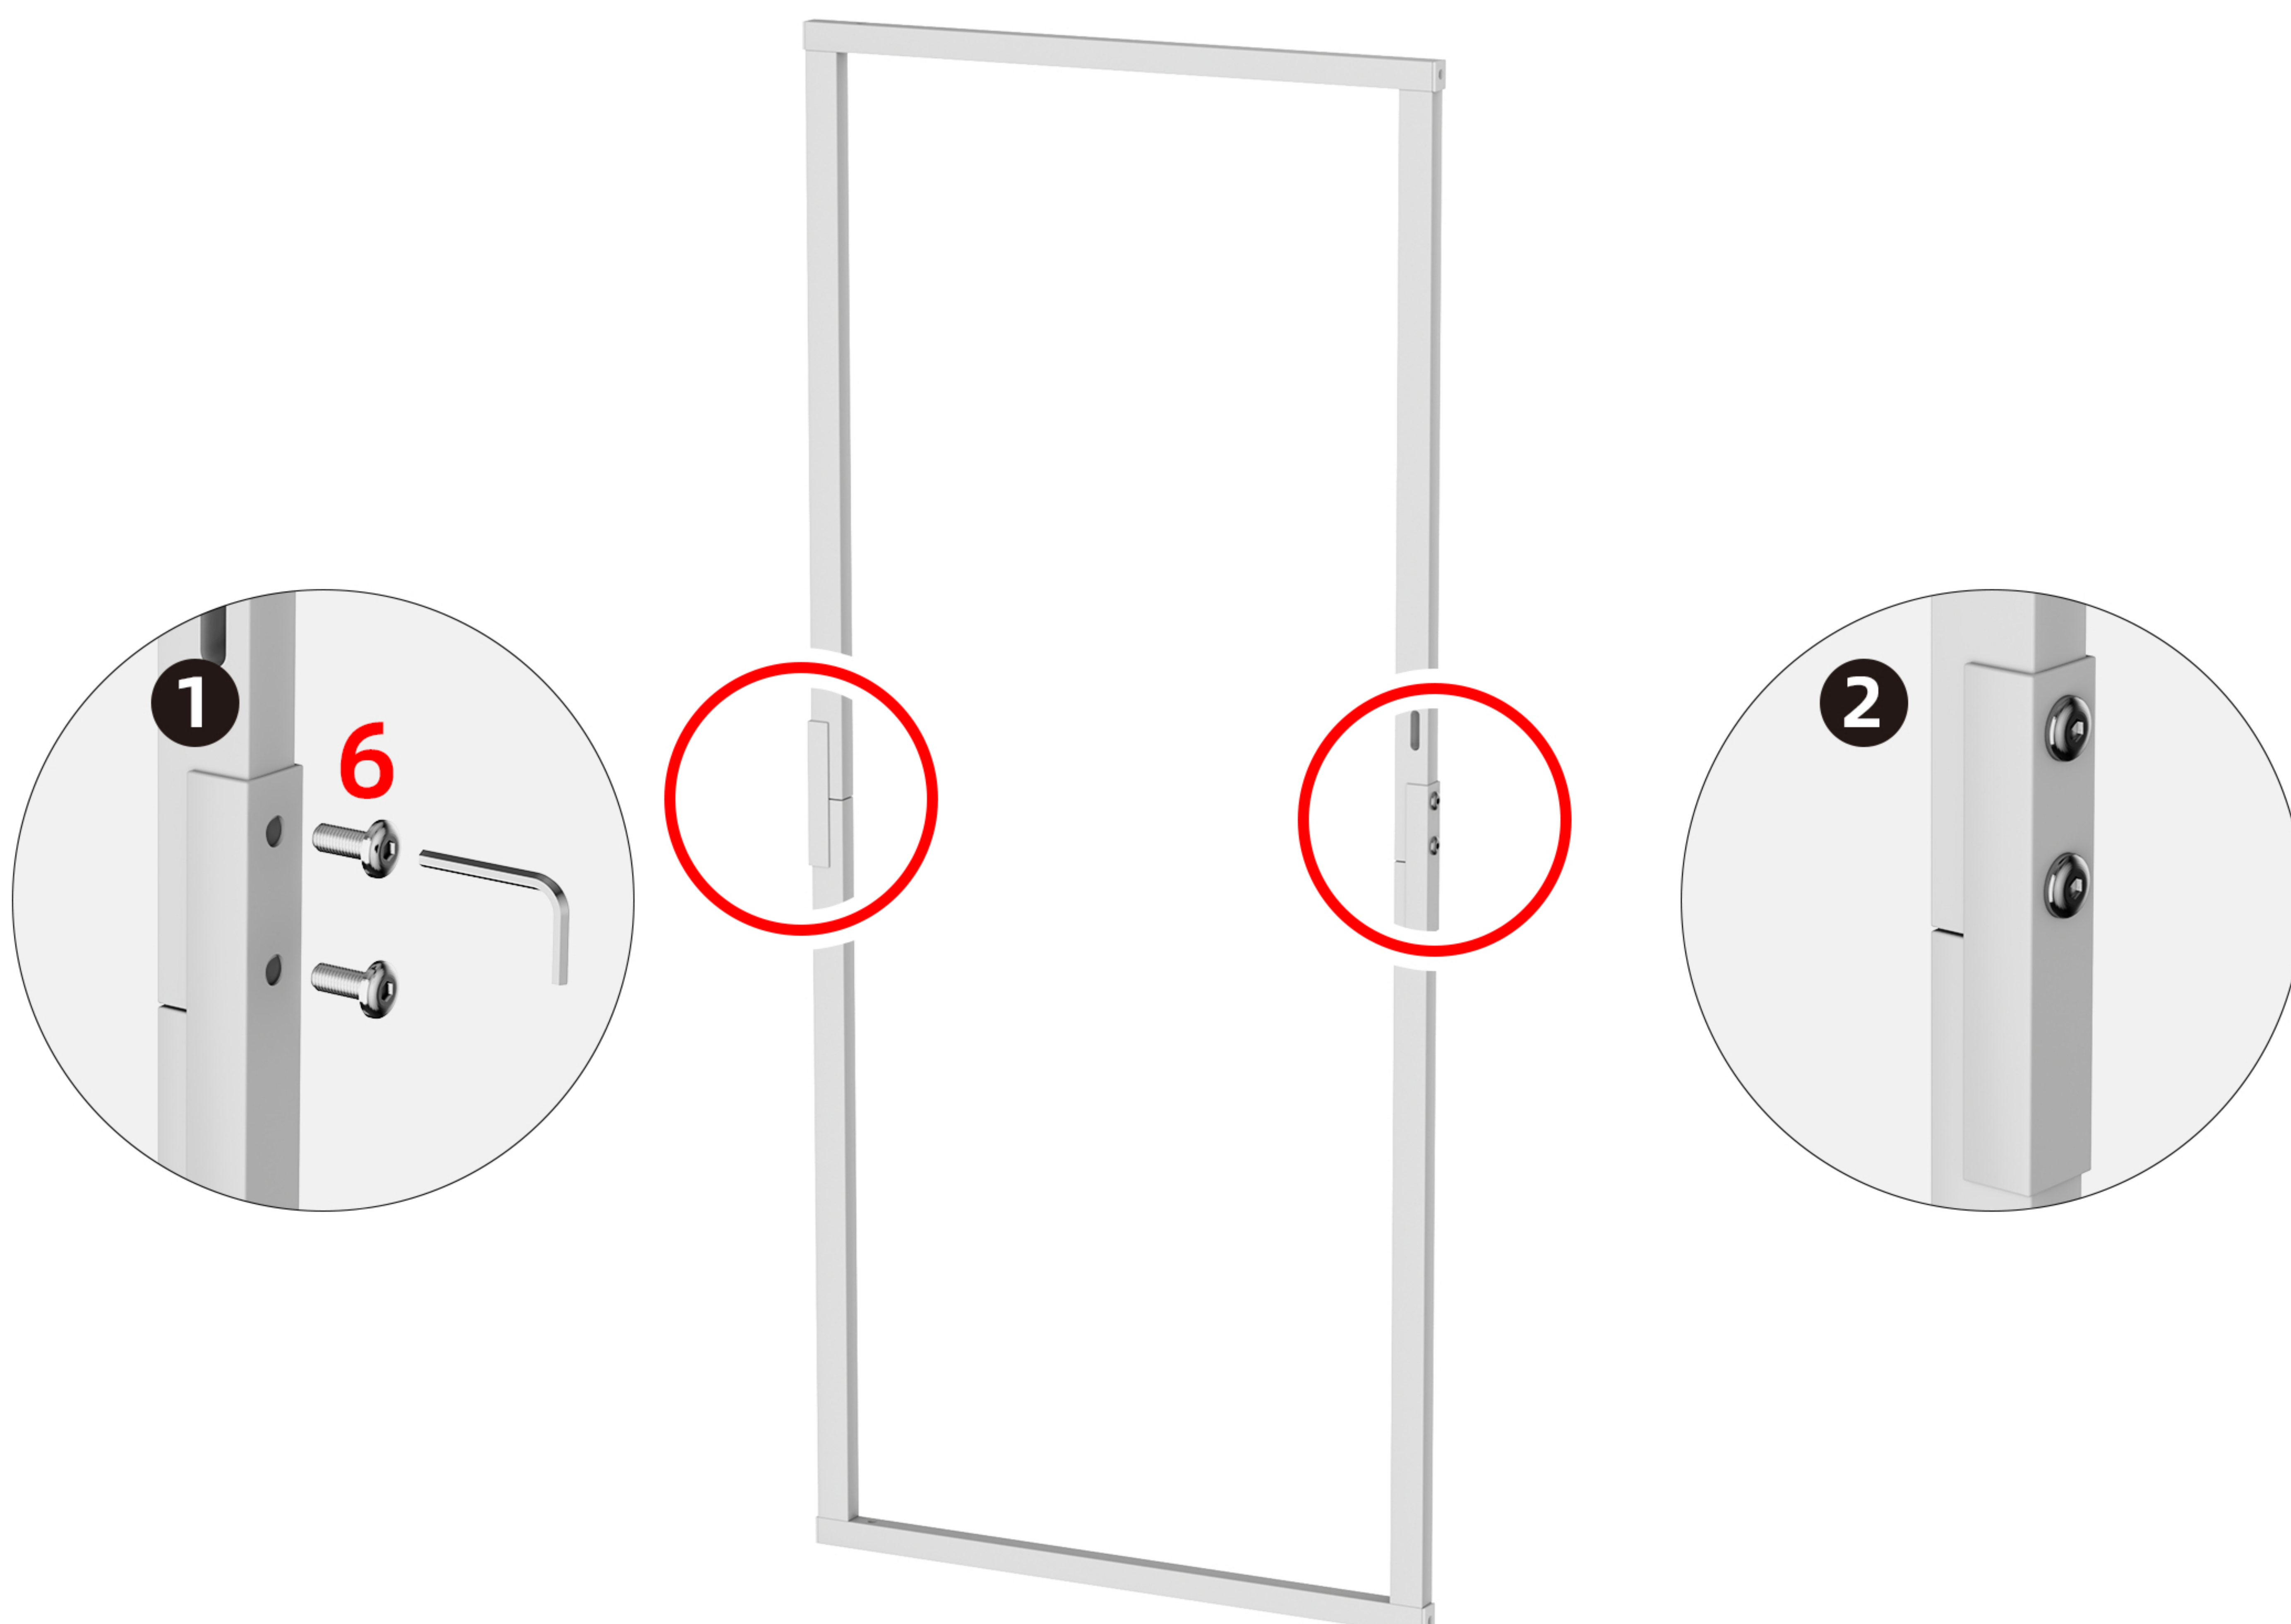

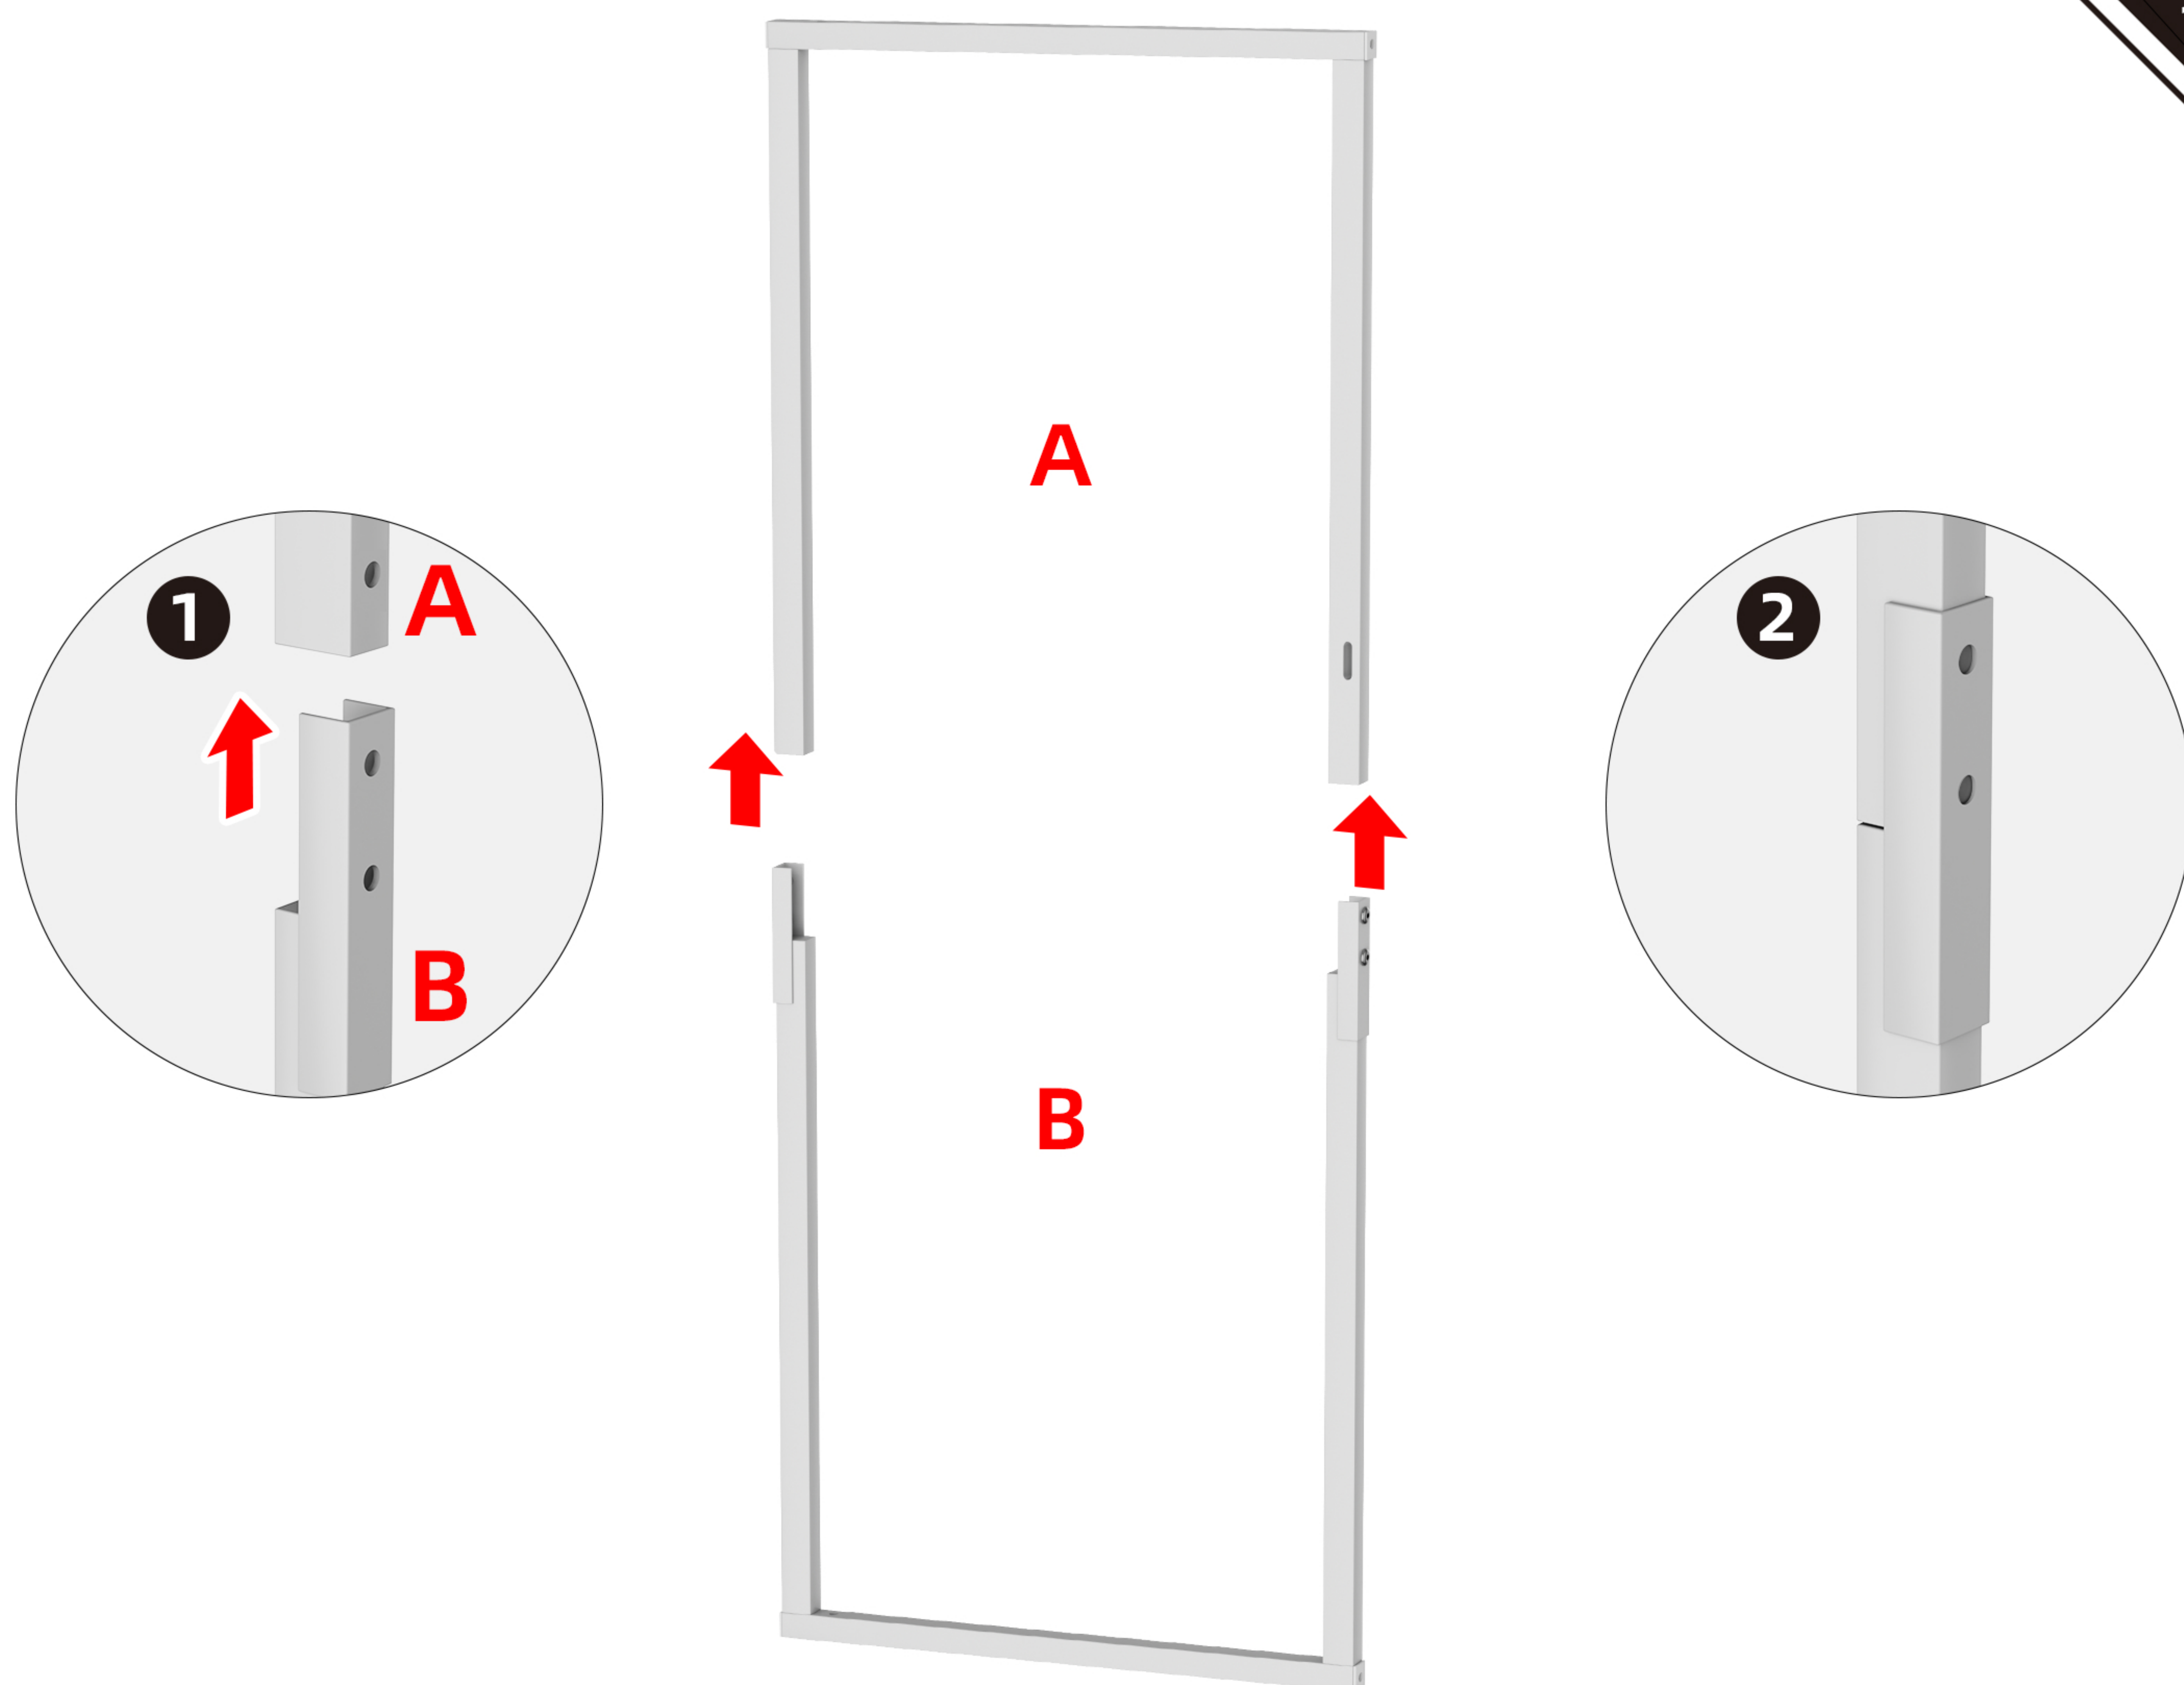

PT_ Meça a largura da abertura onde pretende instalar o portão. Consulte os diagramas seguintes para determinar a configuração de instalação correta.

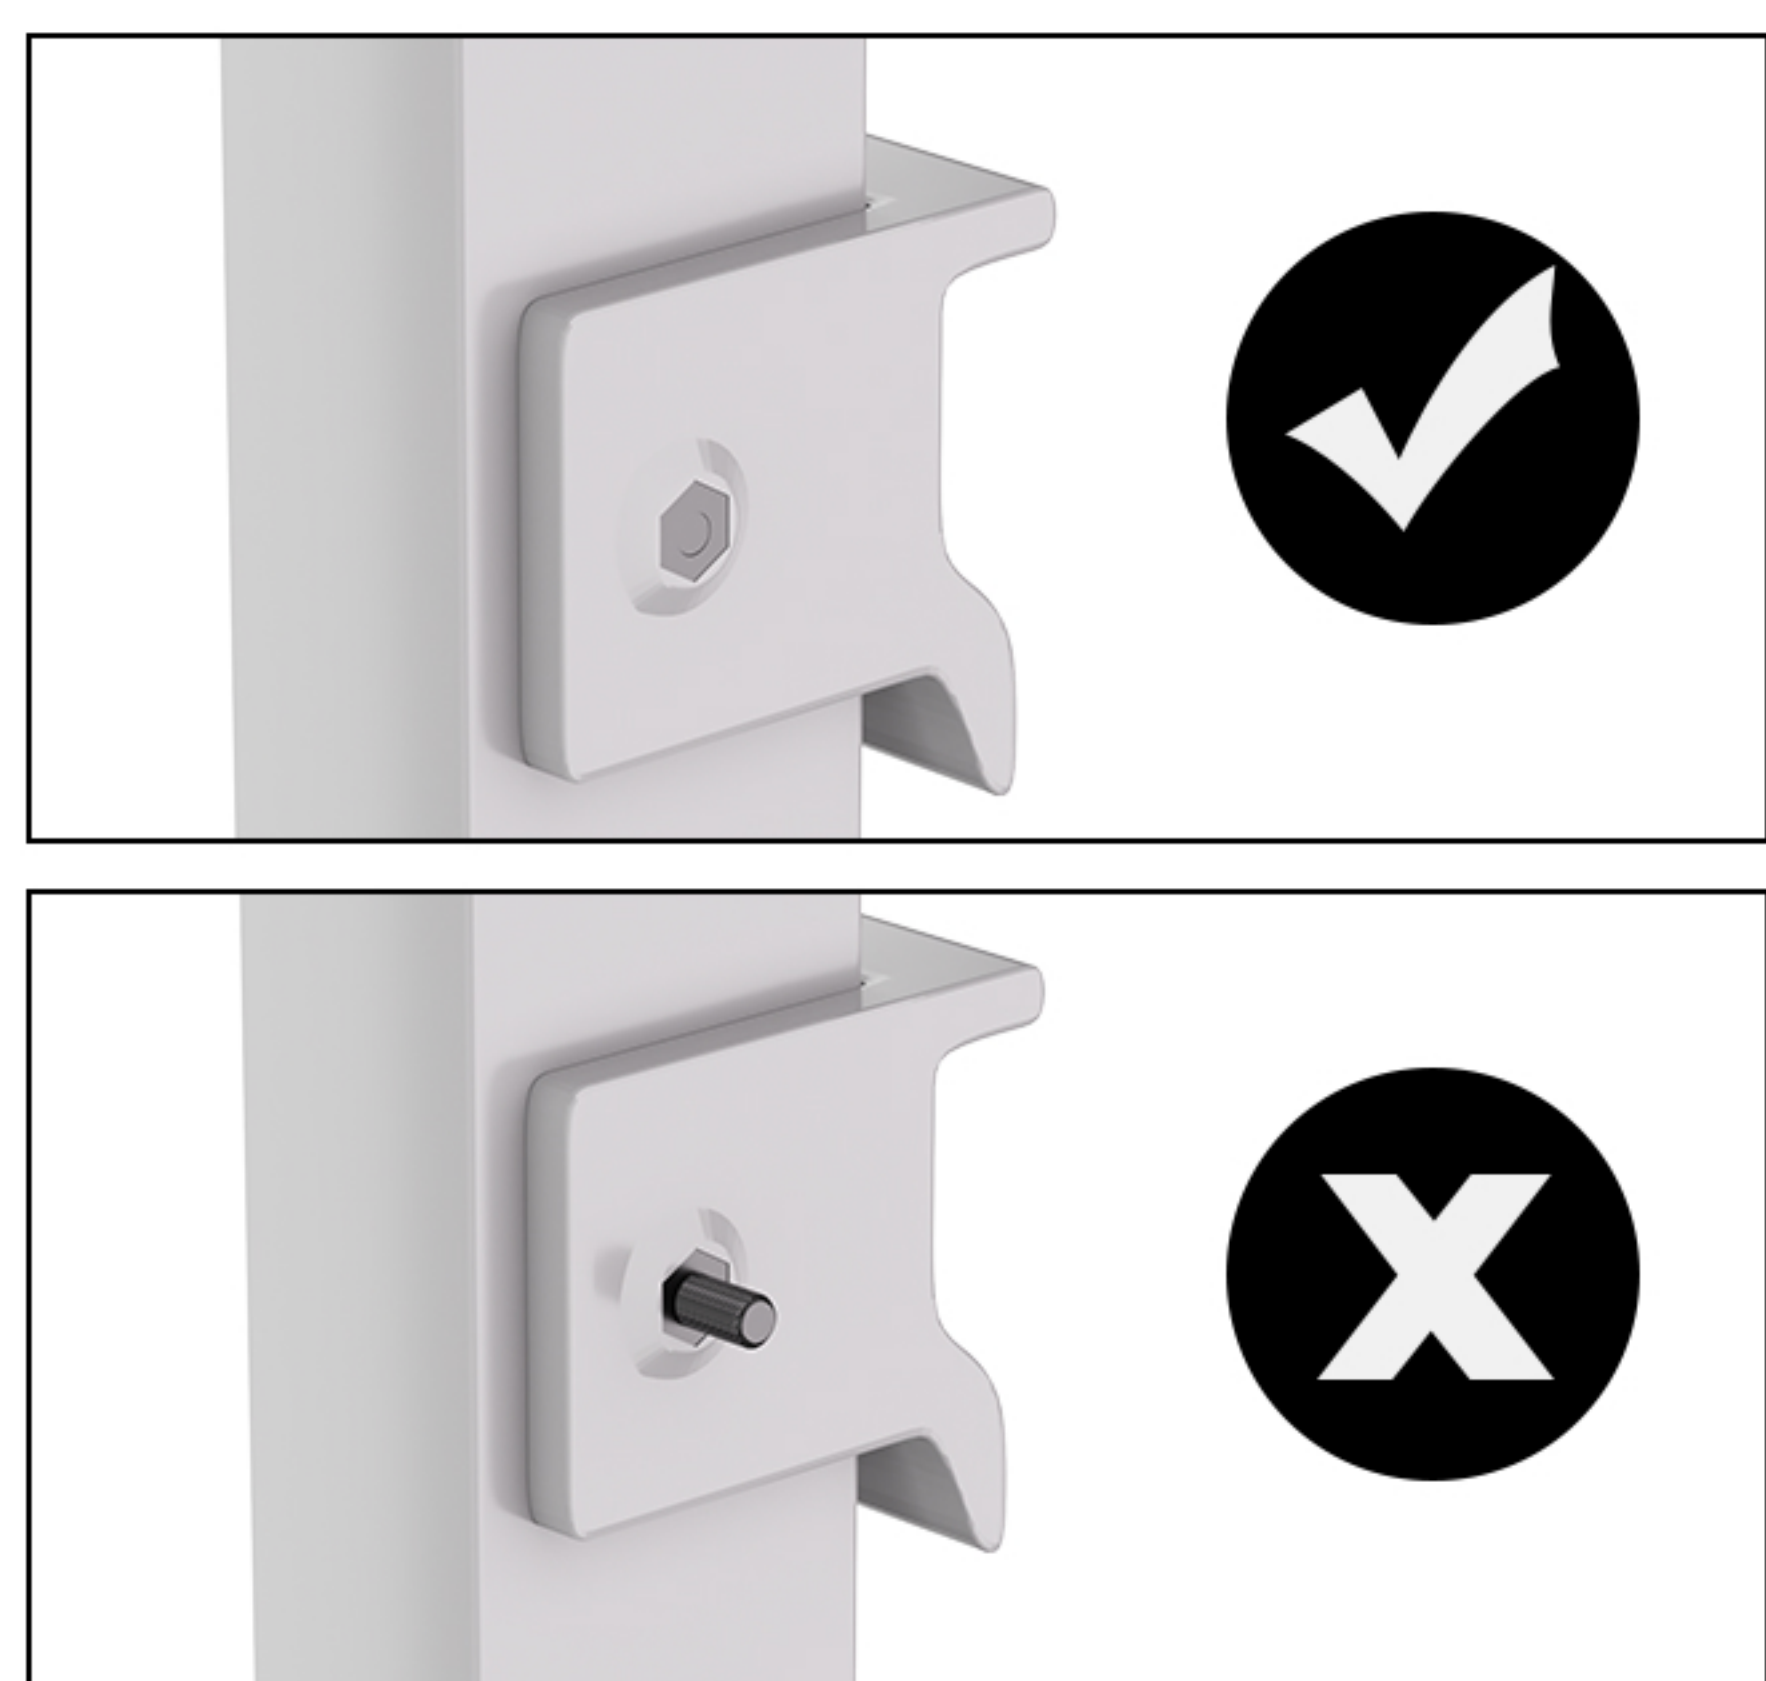

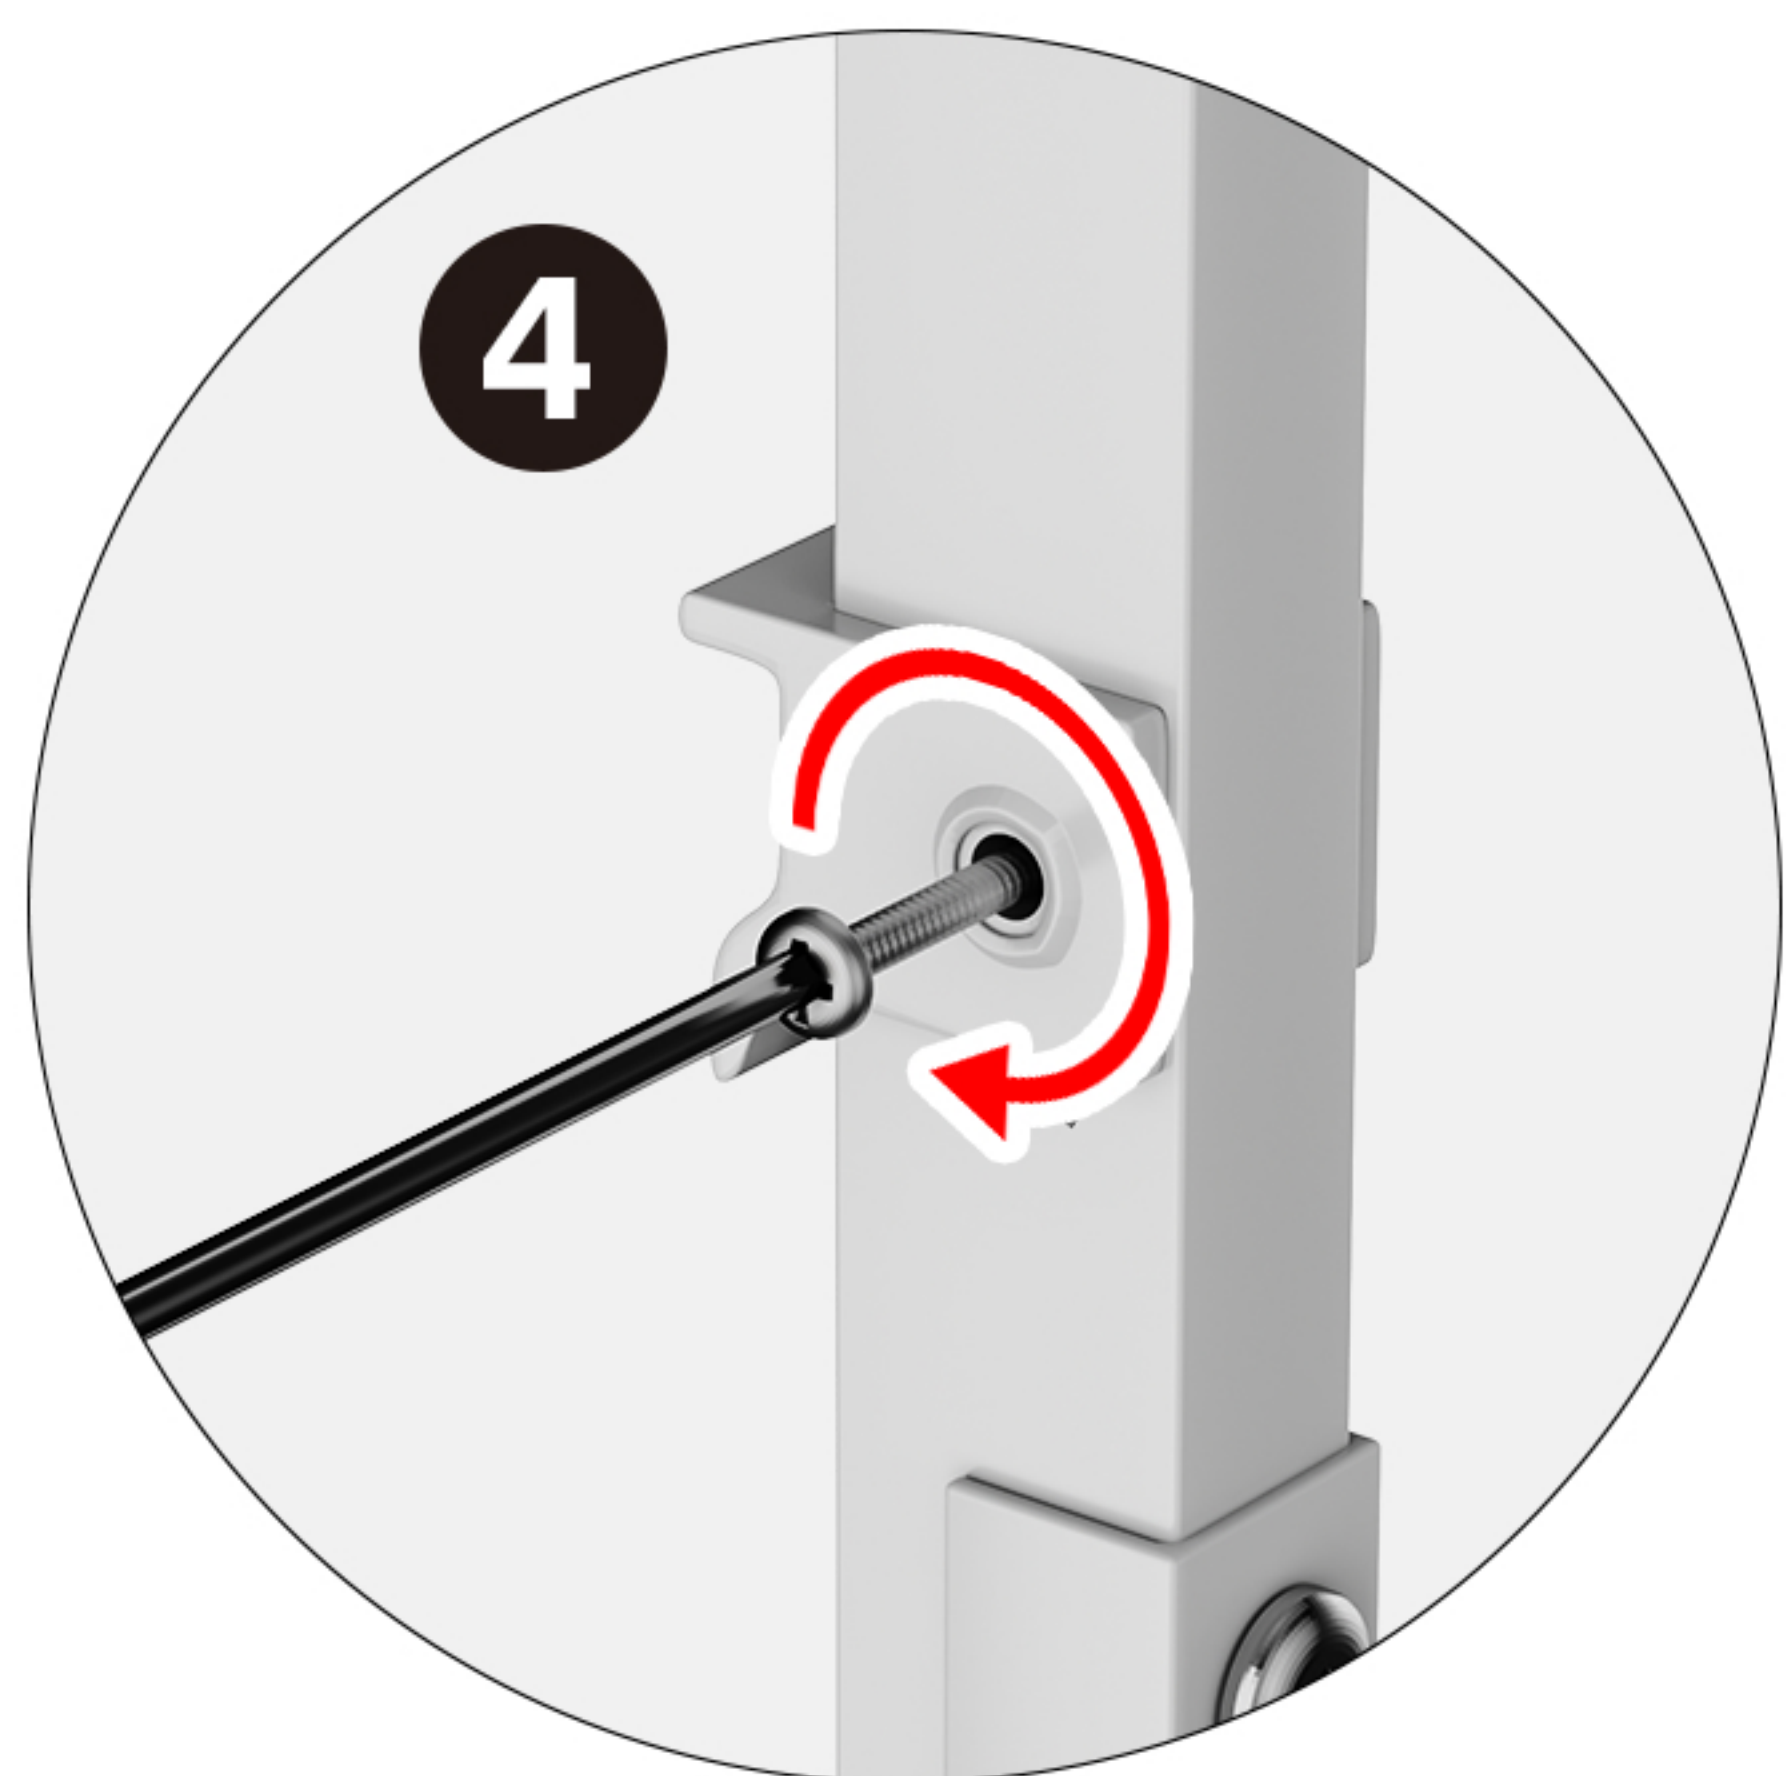

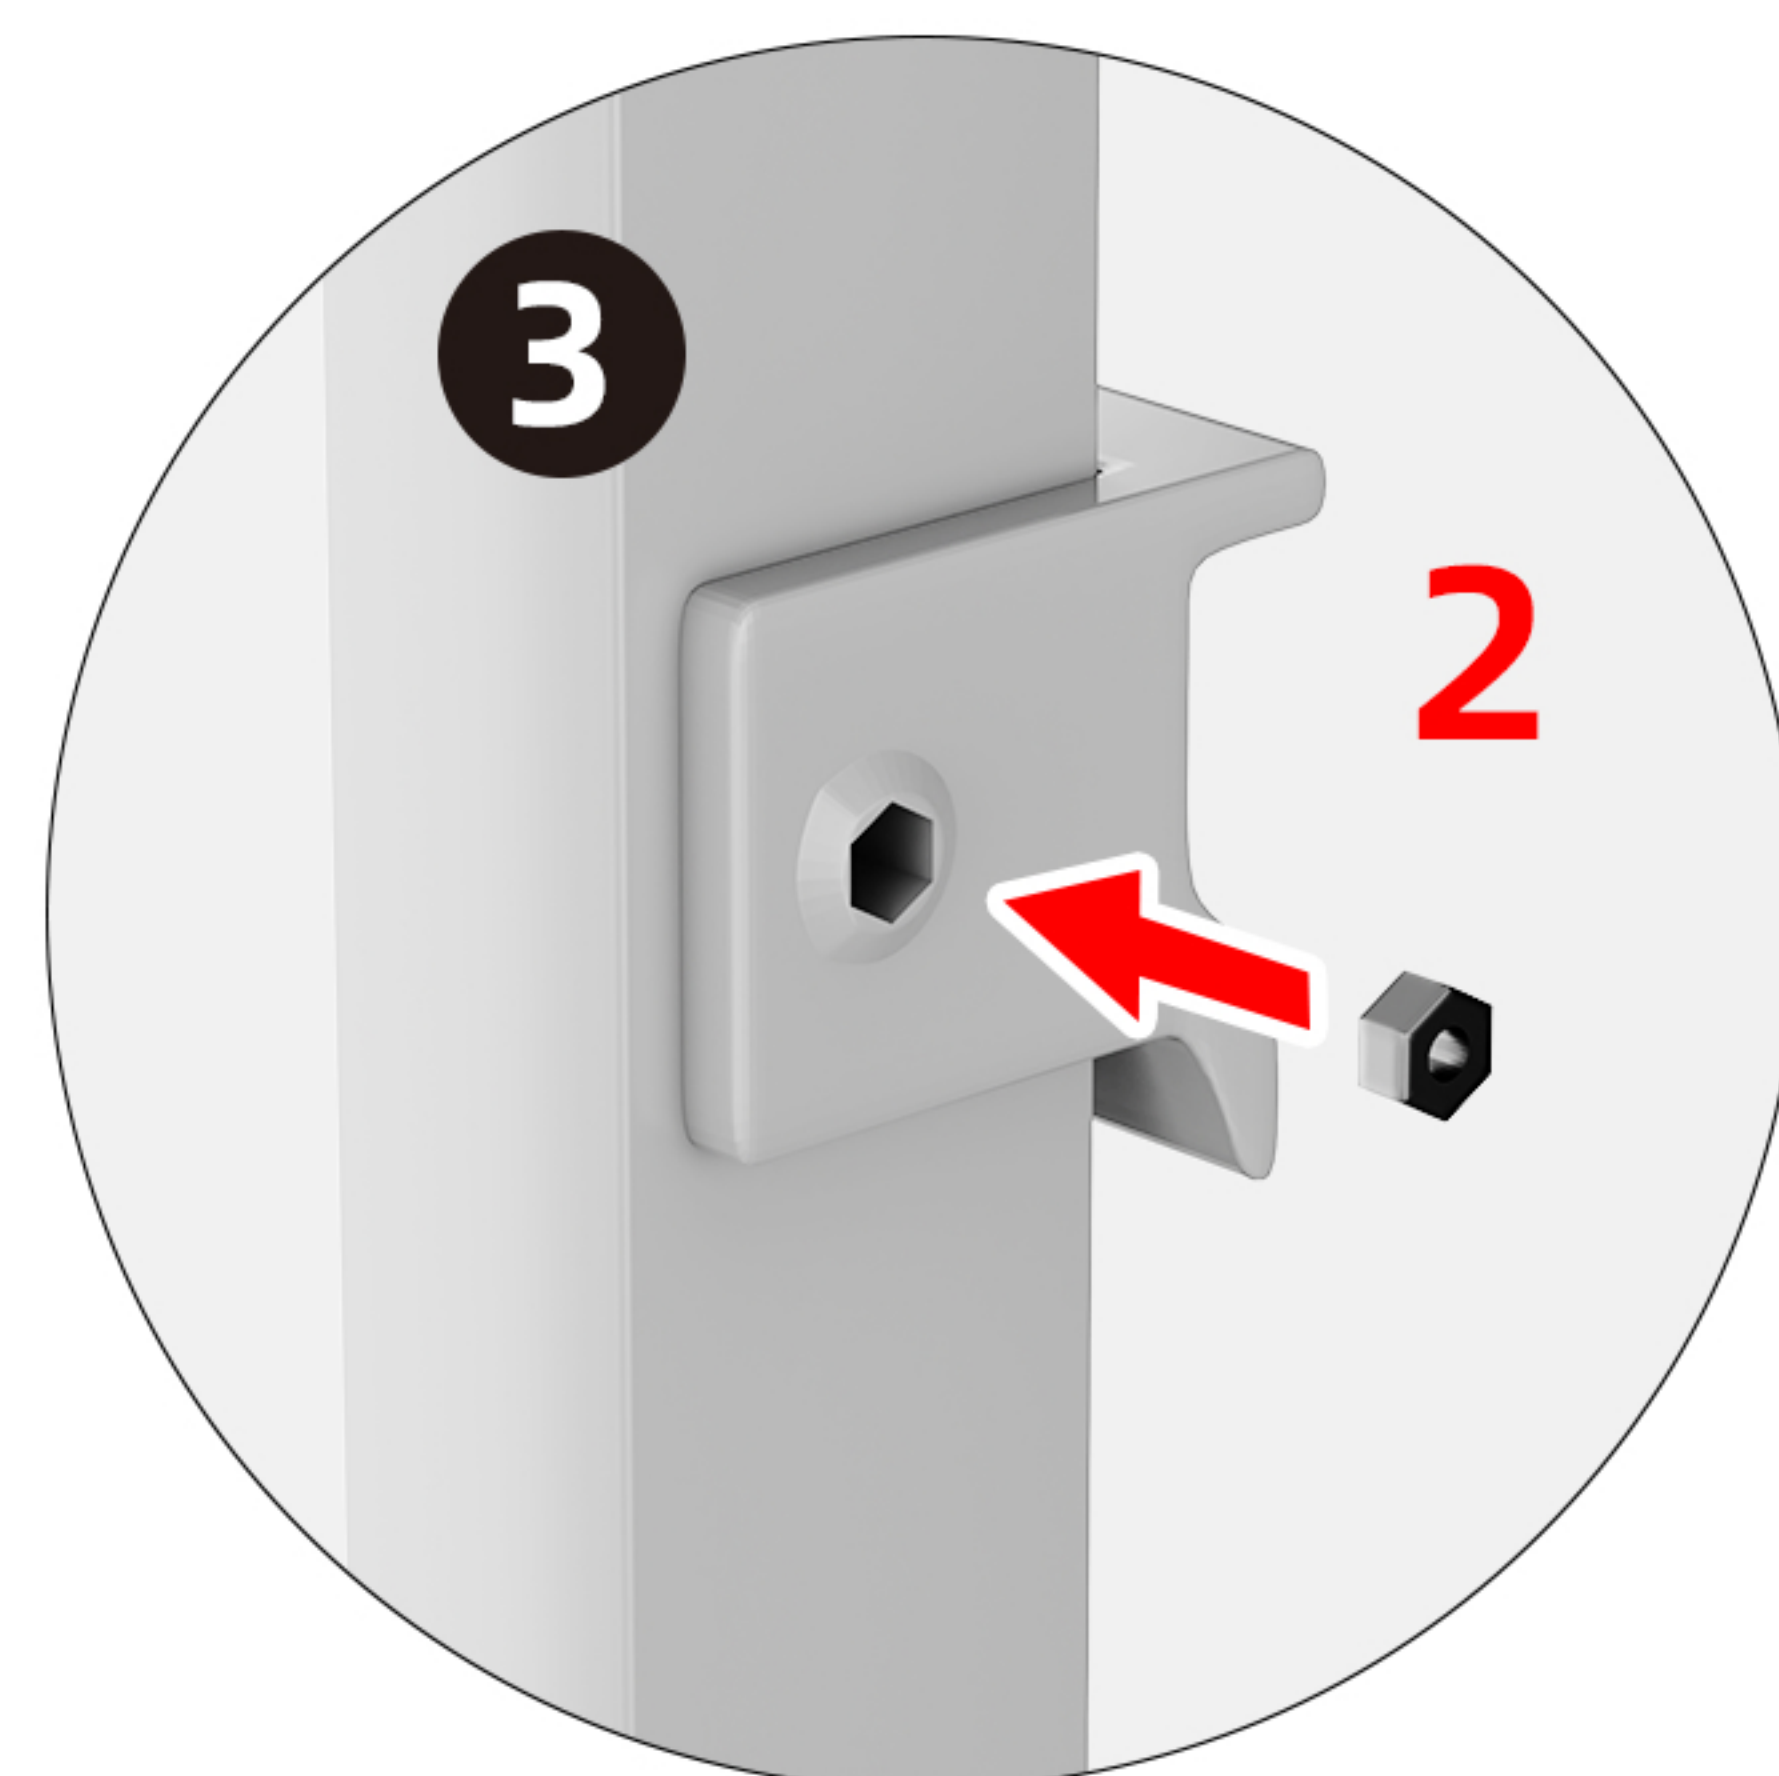

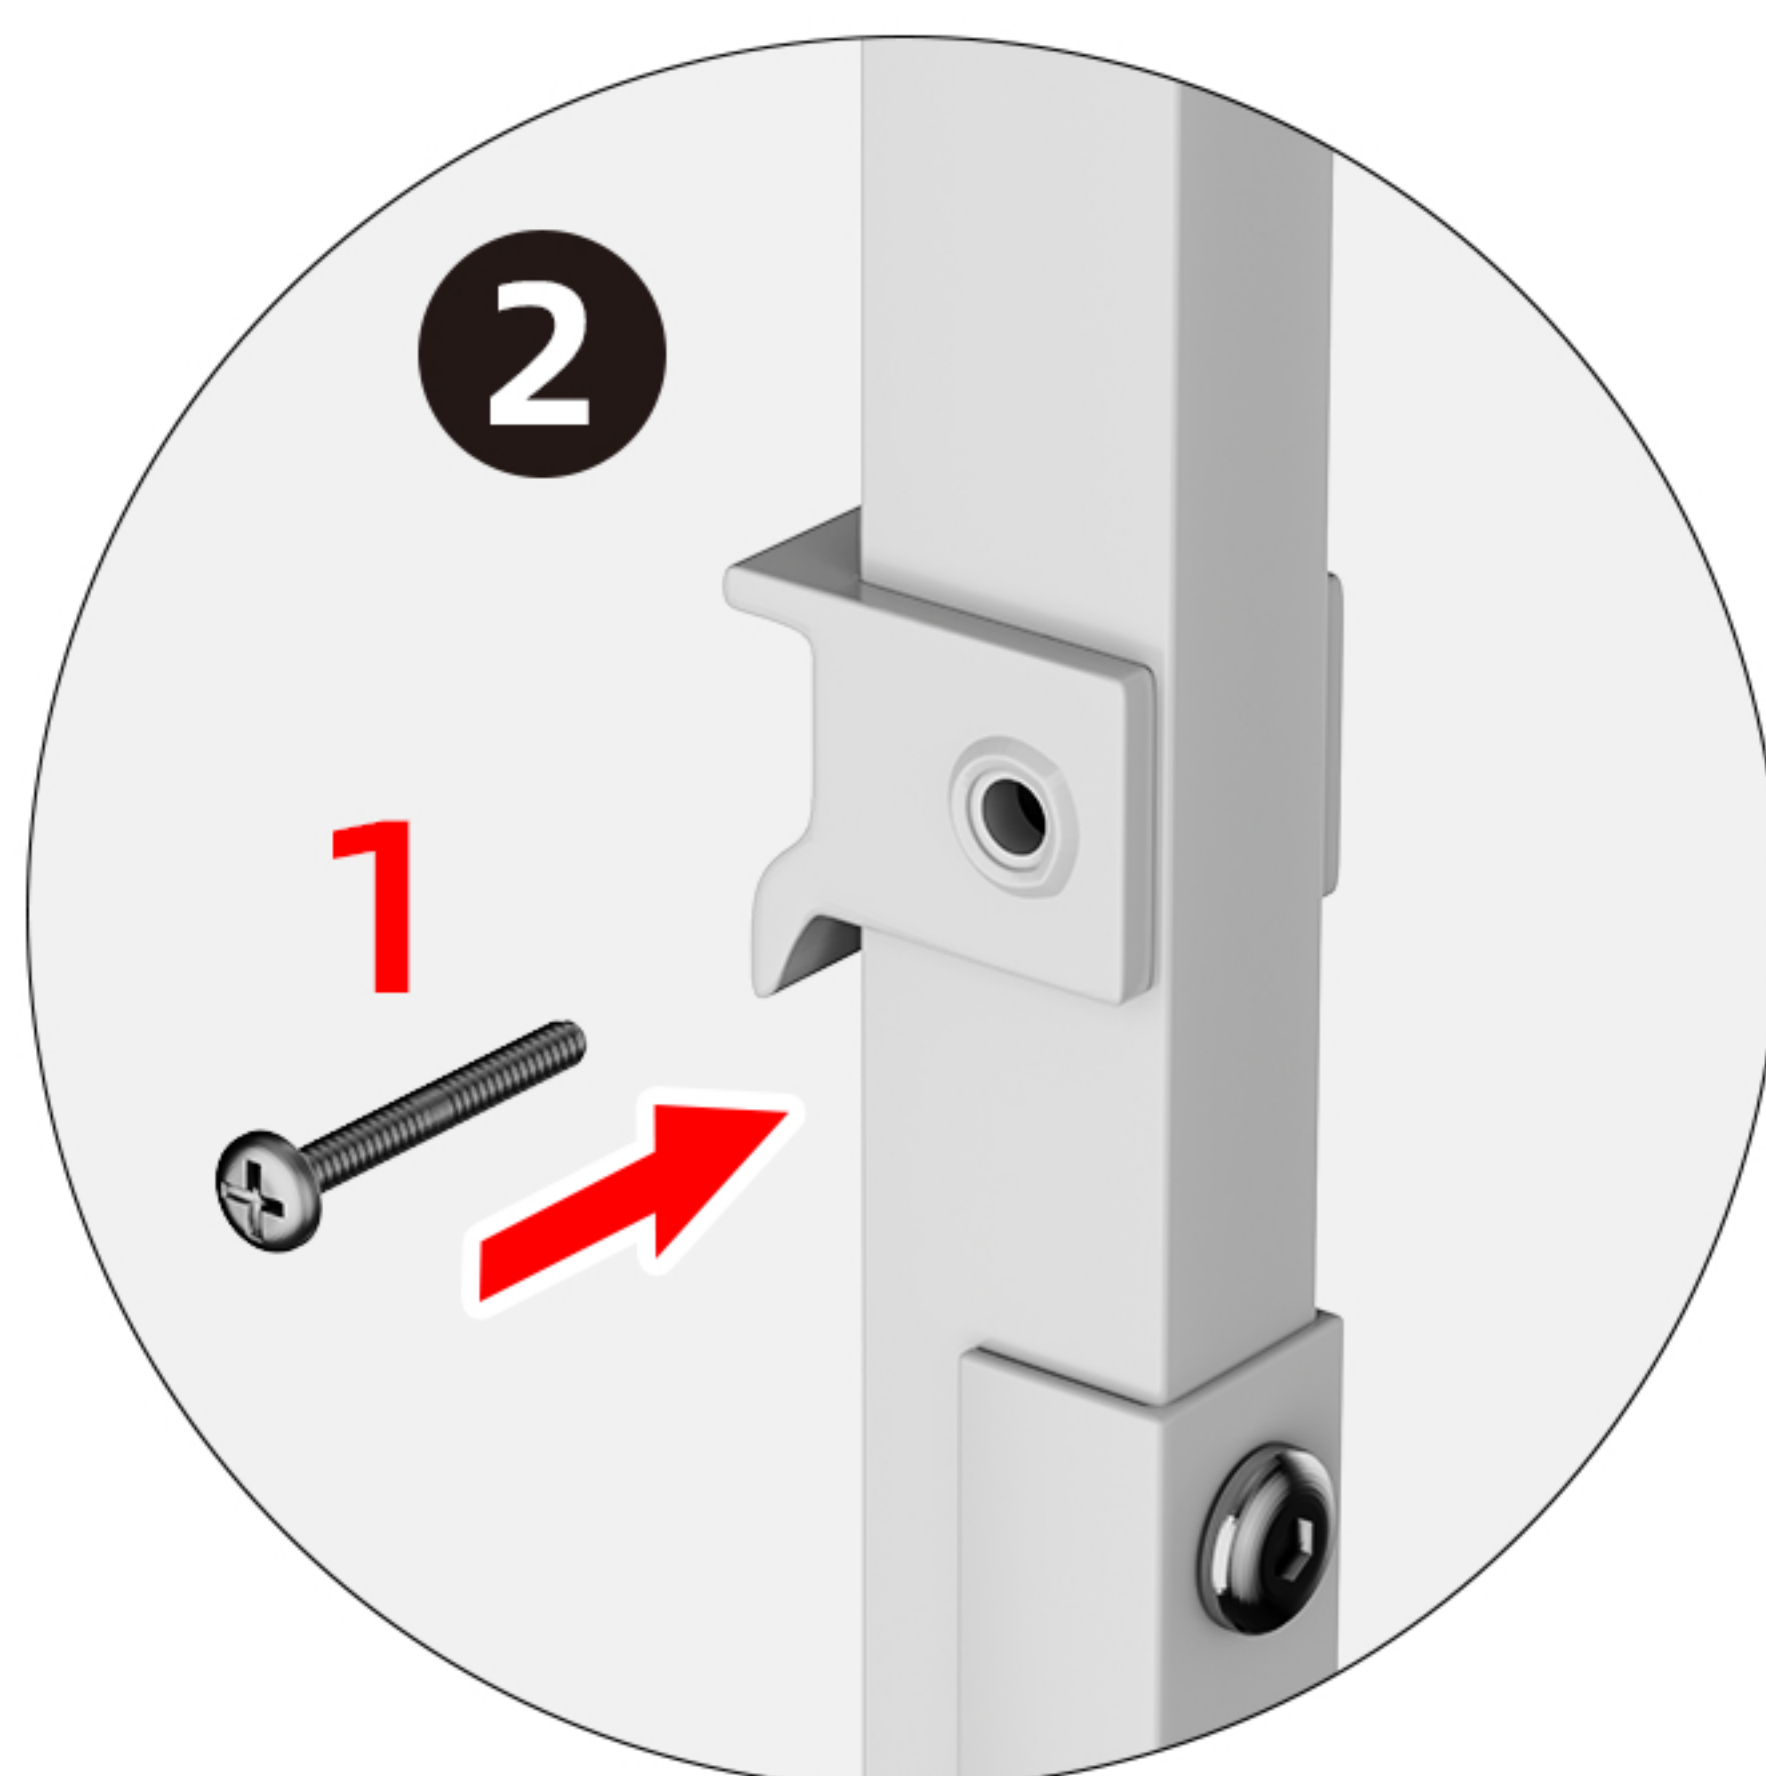

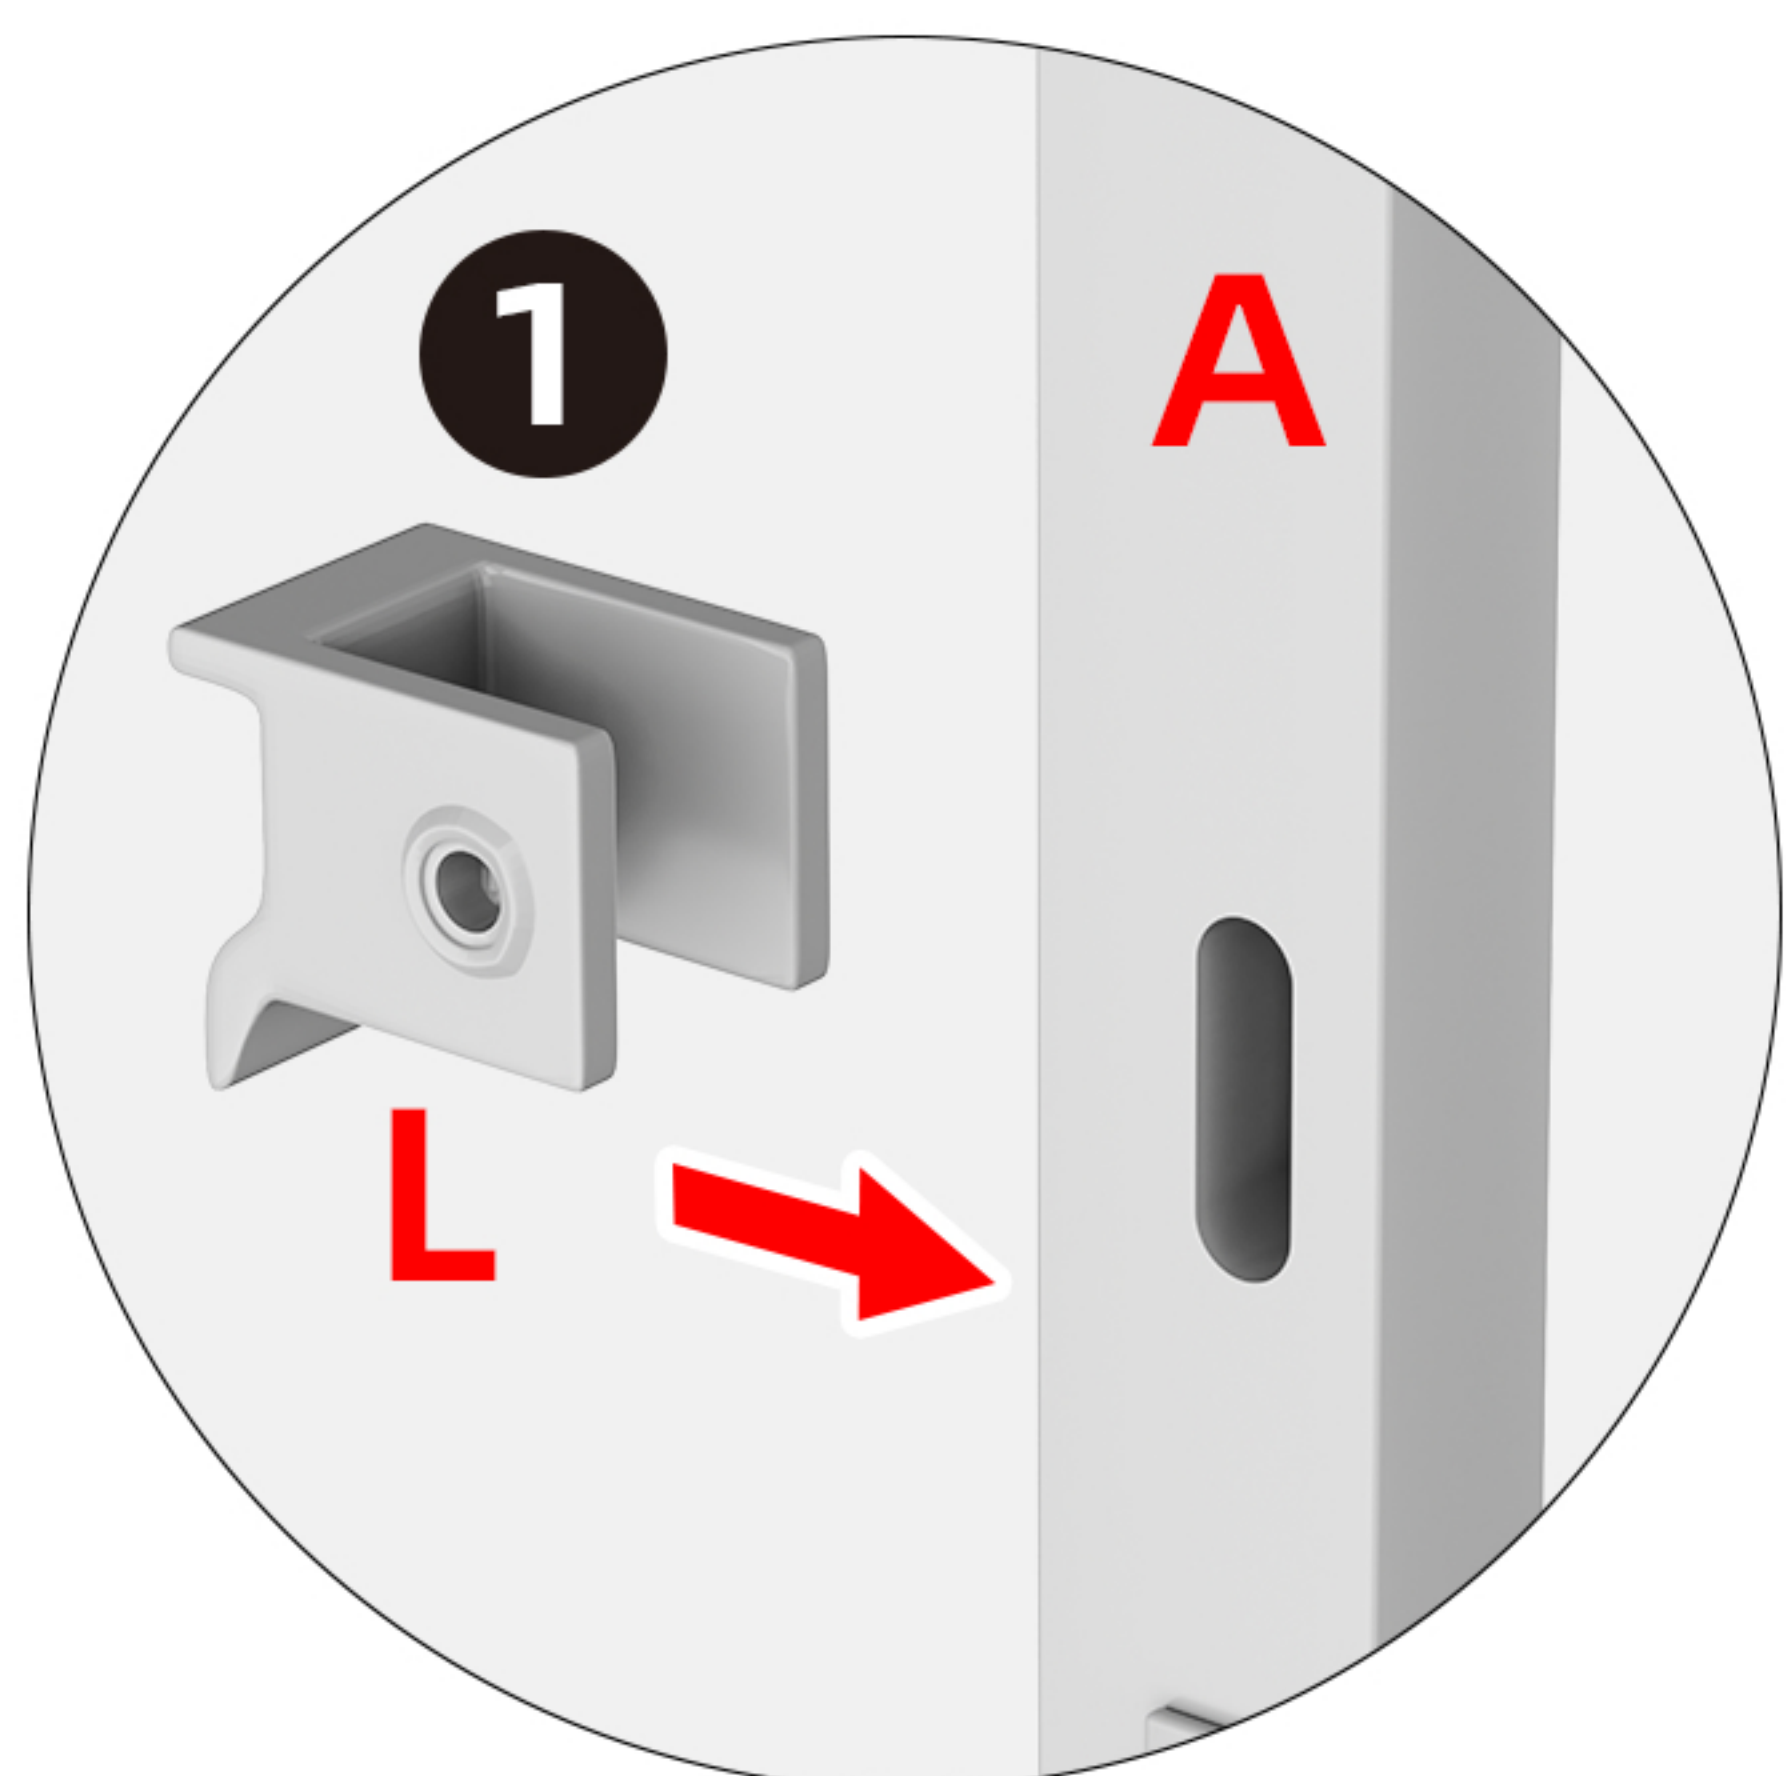

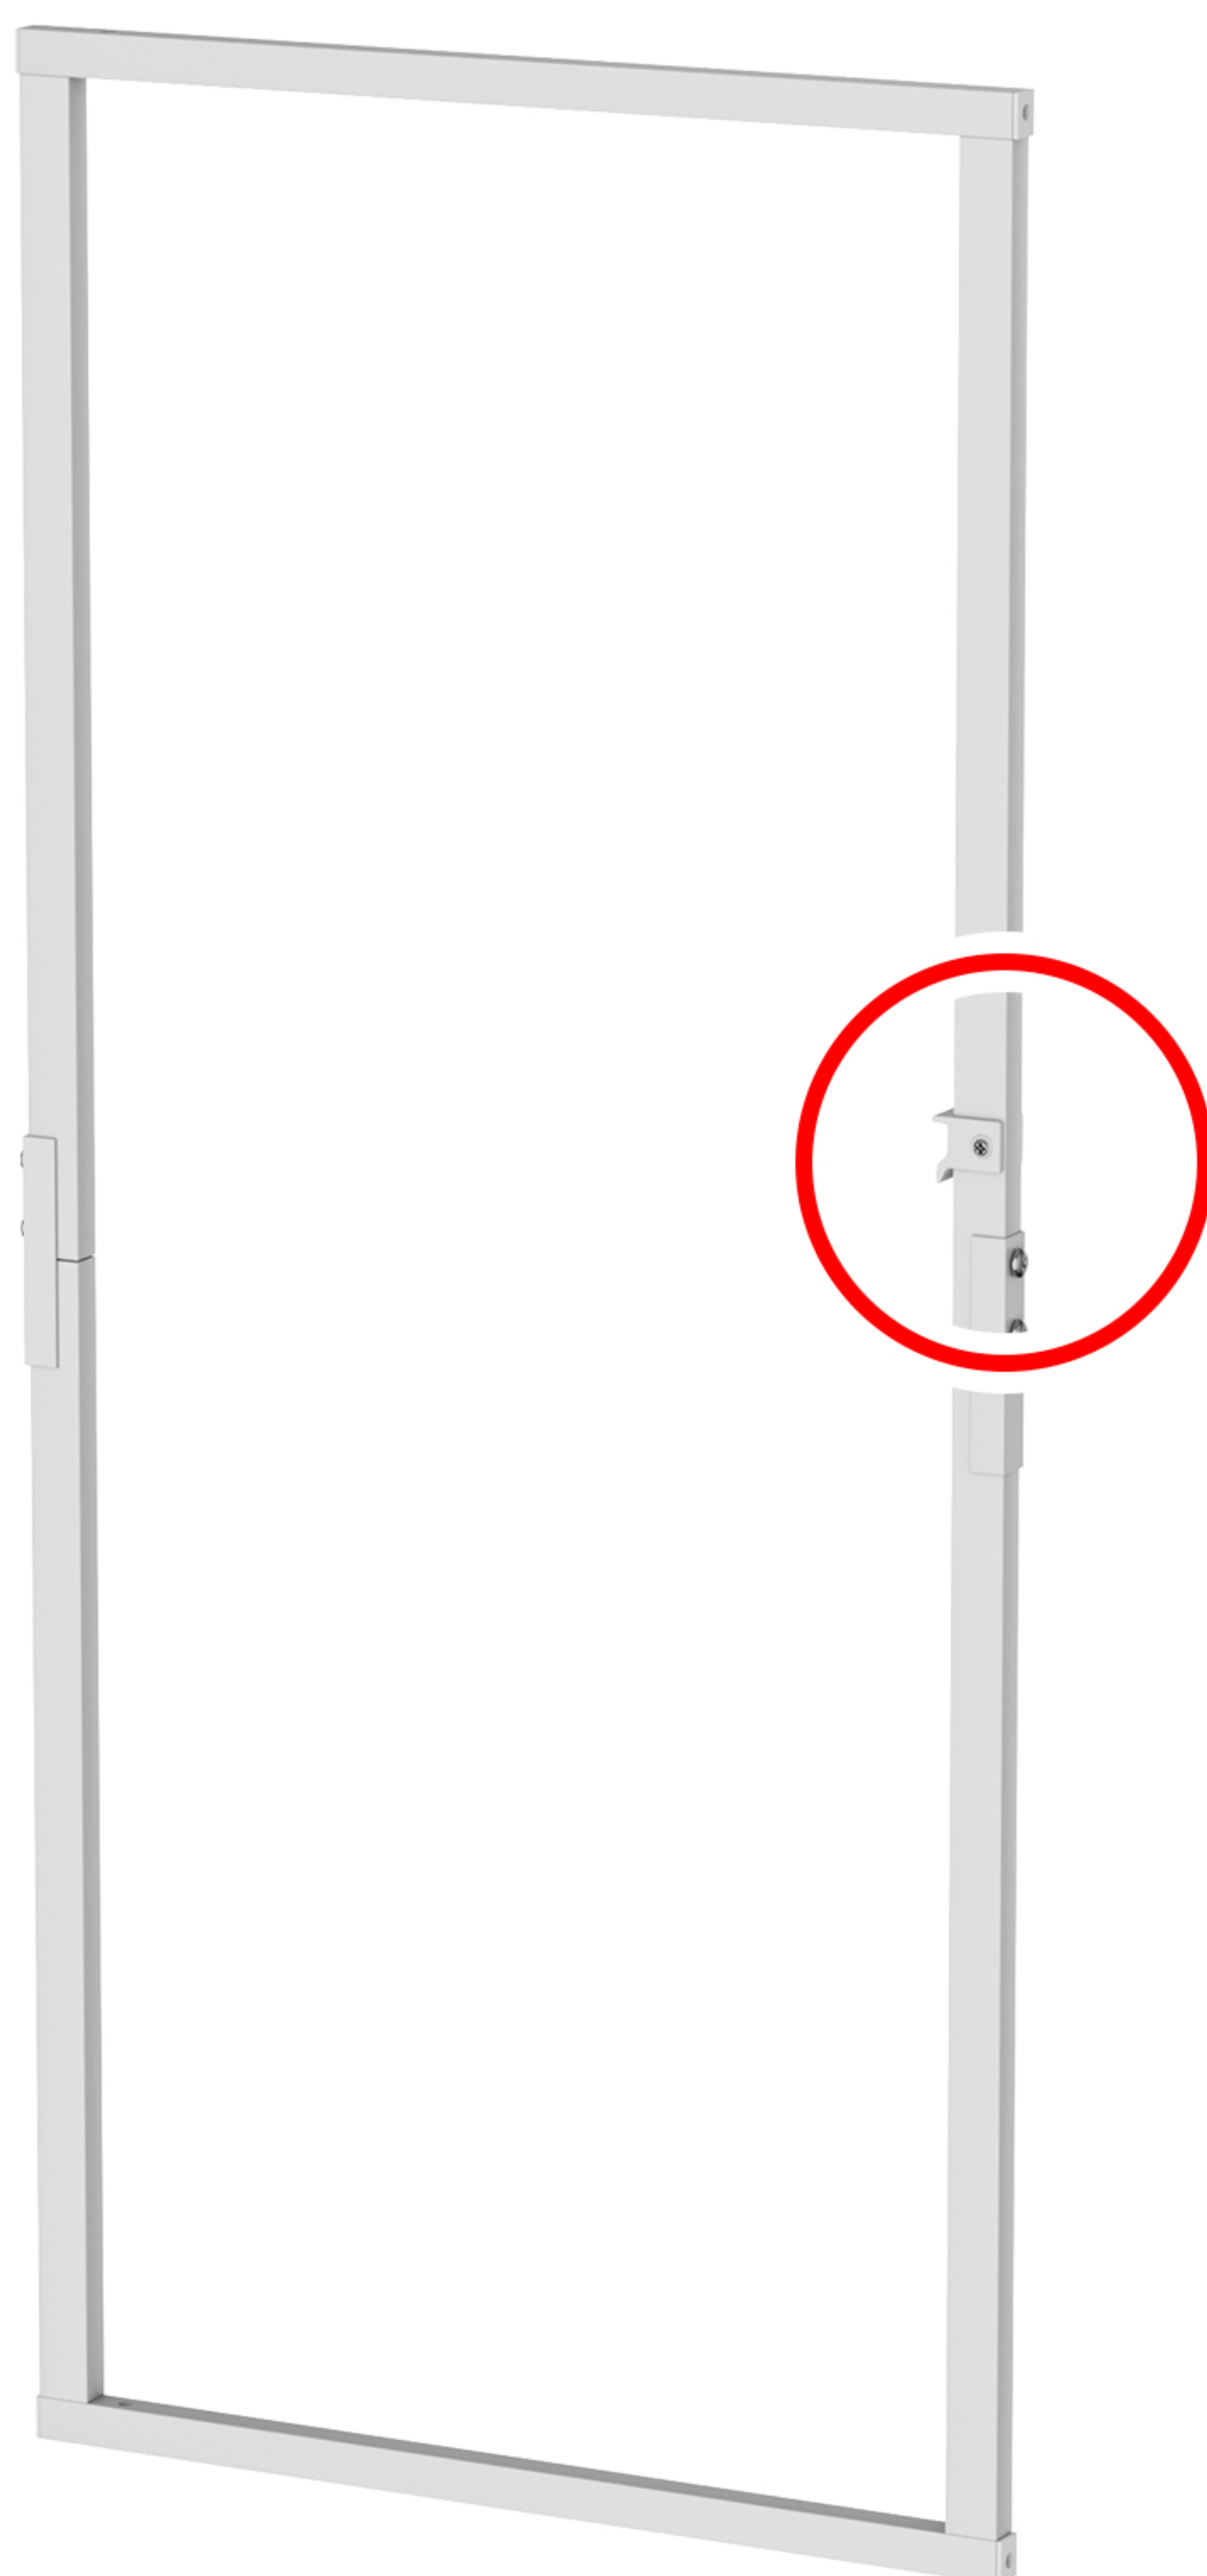

DE_ Messen Sie die Breite der Öffnung, in die Sie das Tor einbauen möchten. Bitte orientieren Sie sich an den folgenden Abbildungen, um die richtige Einbaukonfiguration zu ermitteln.

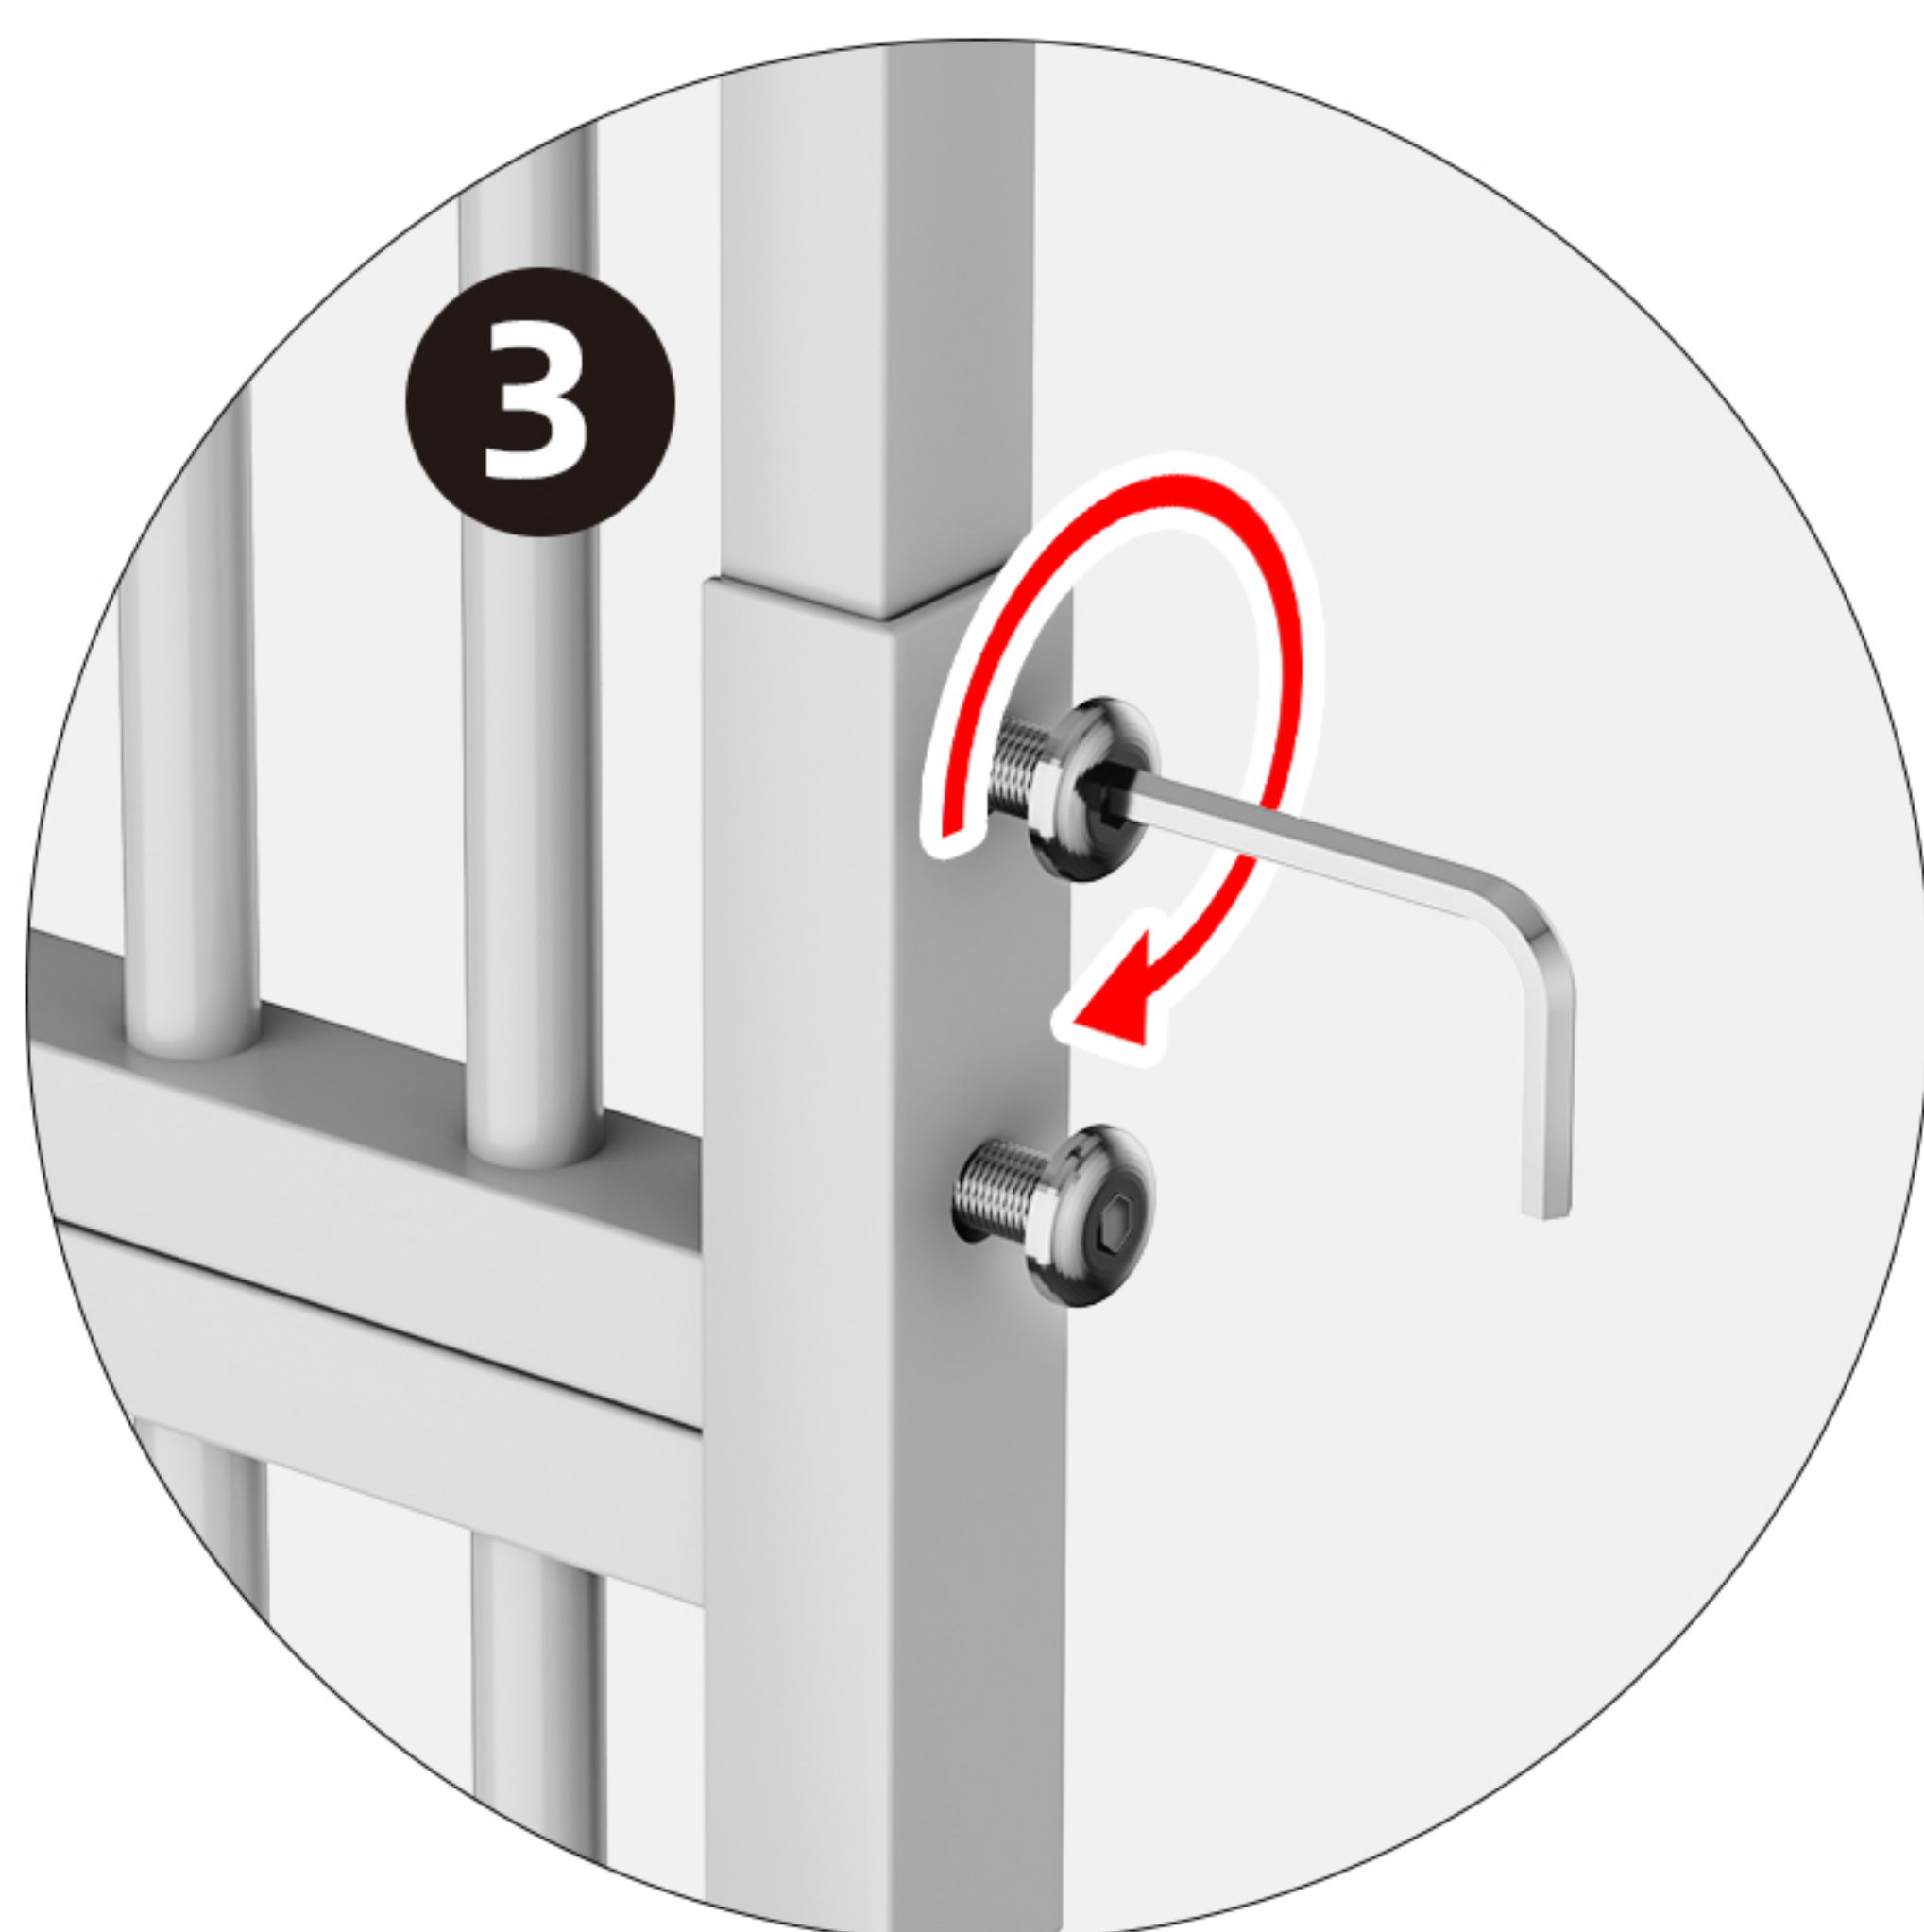

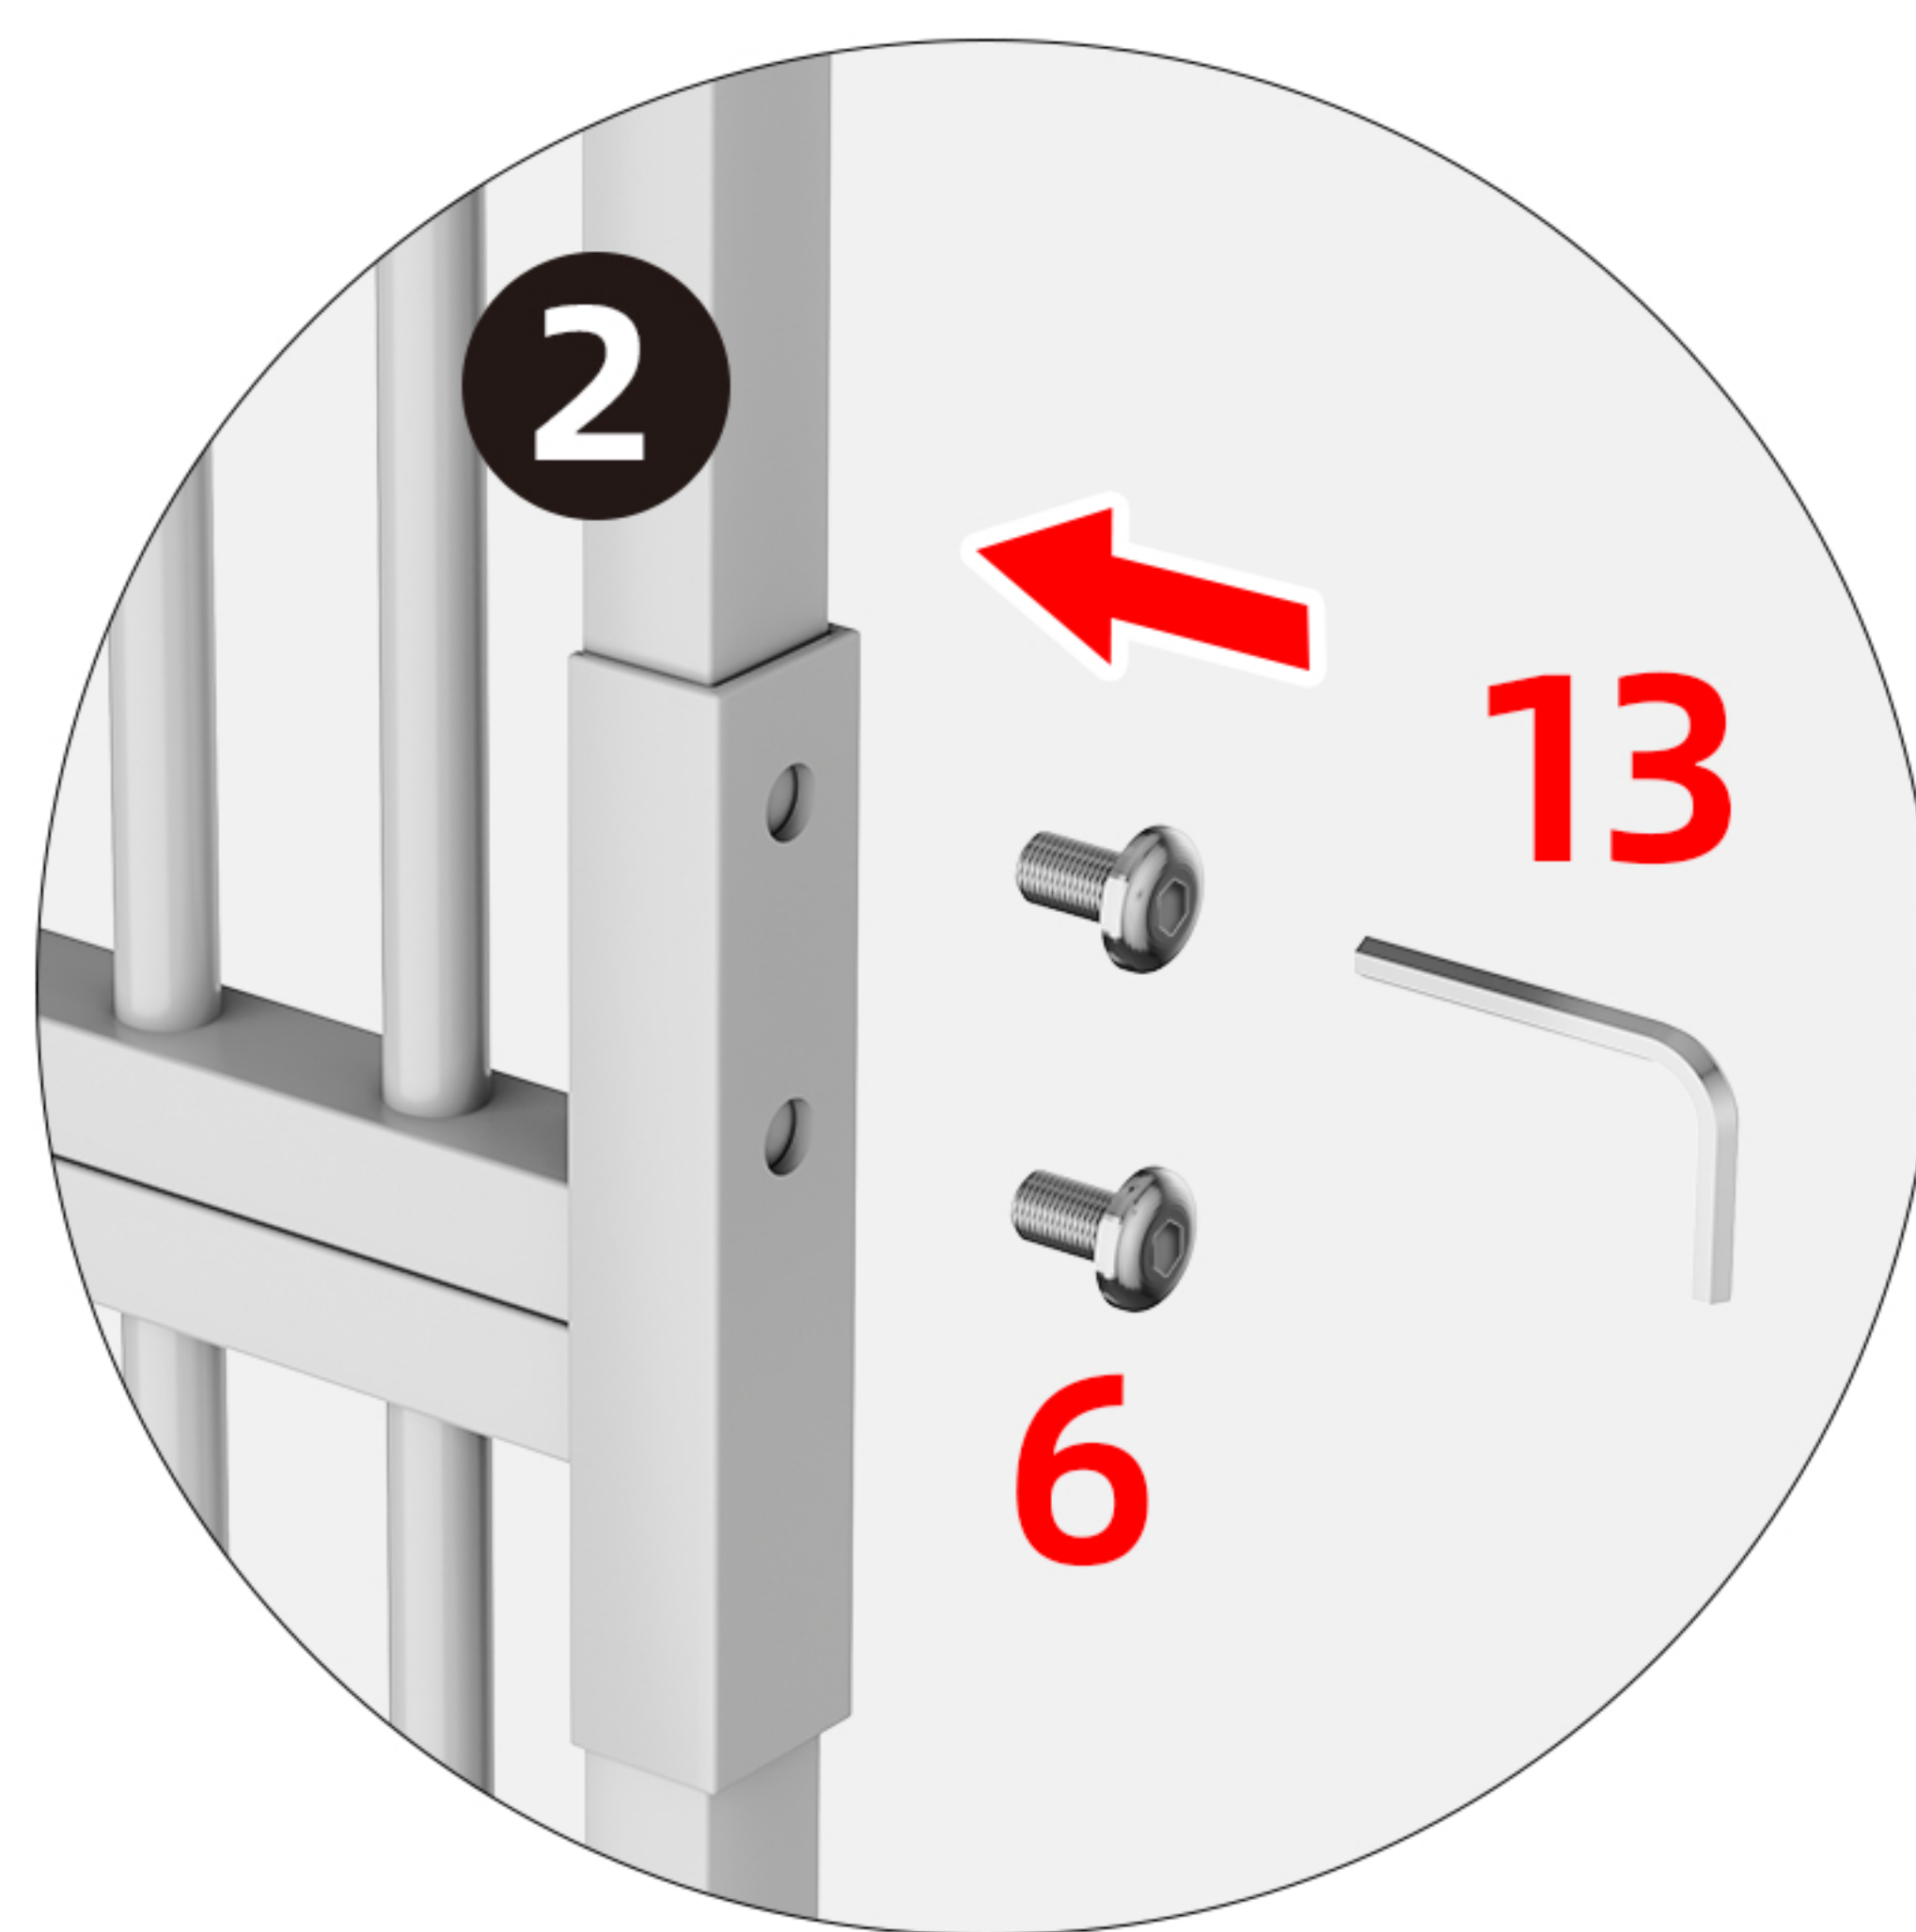

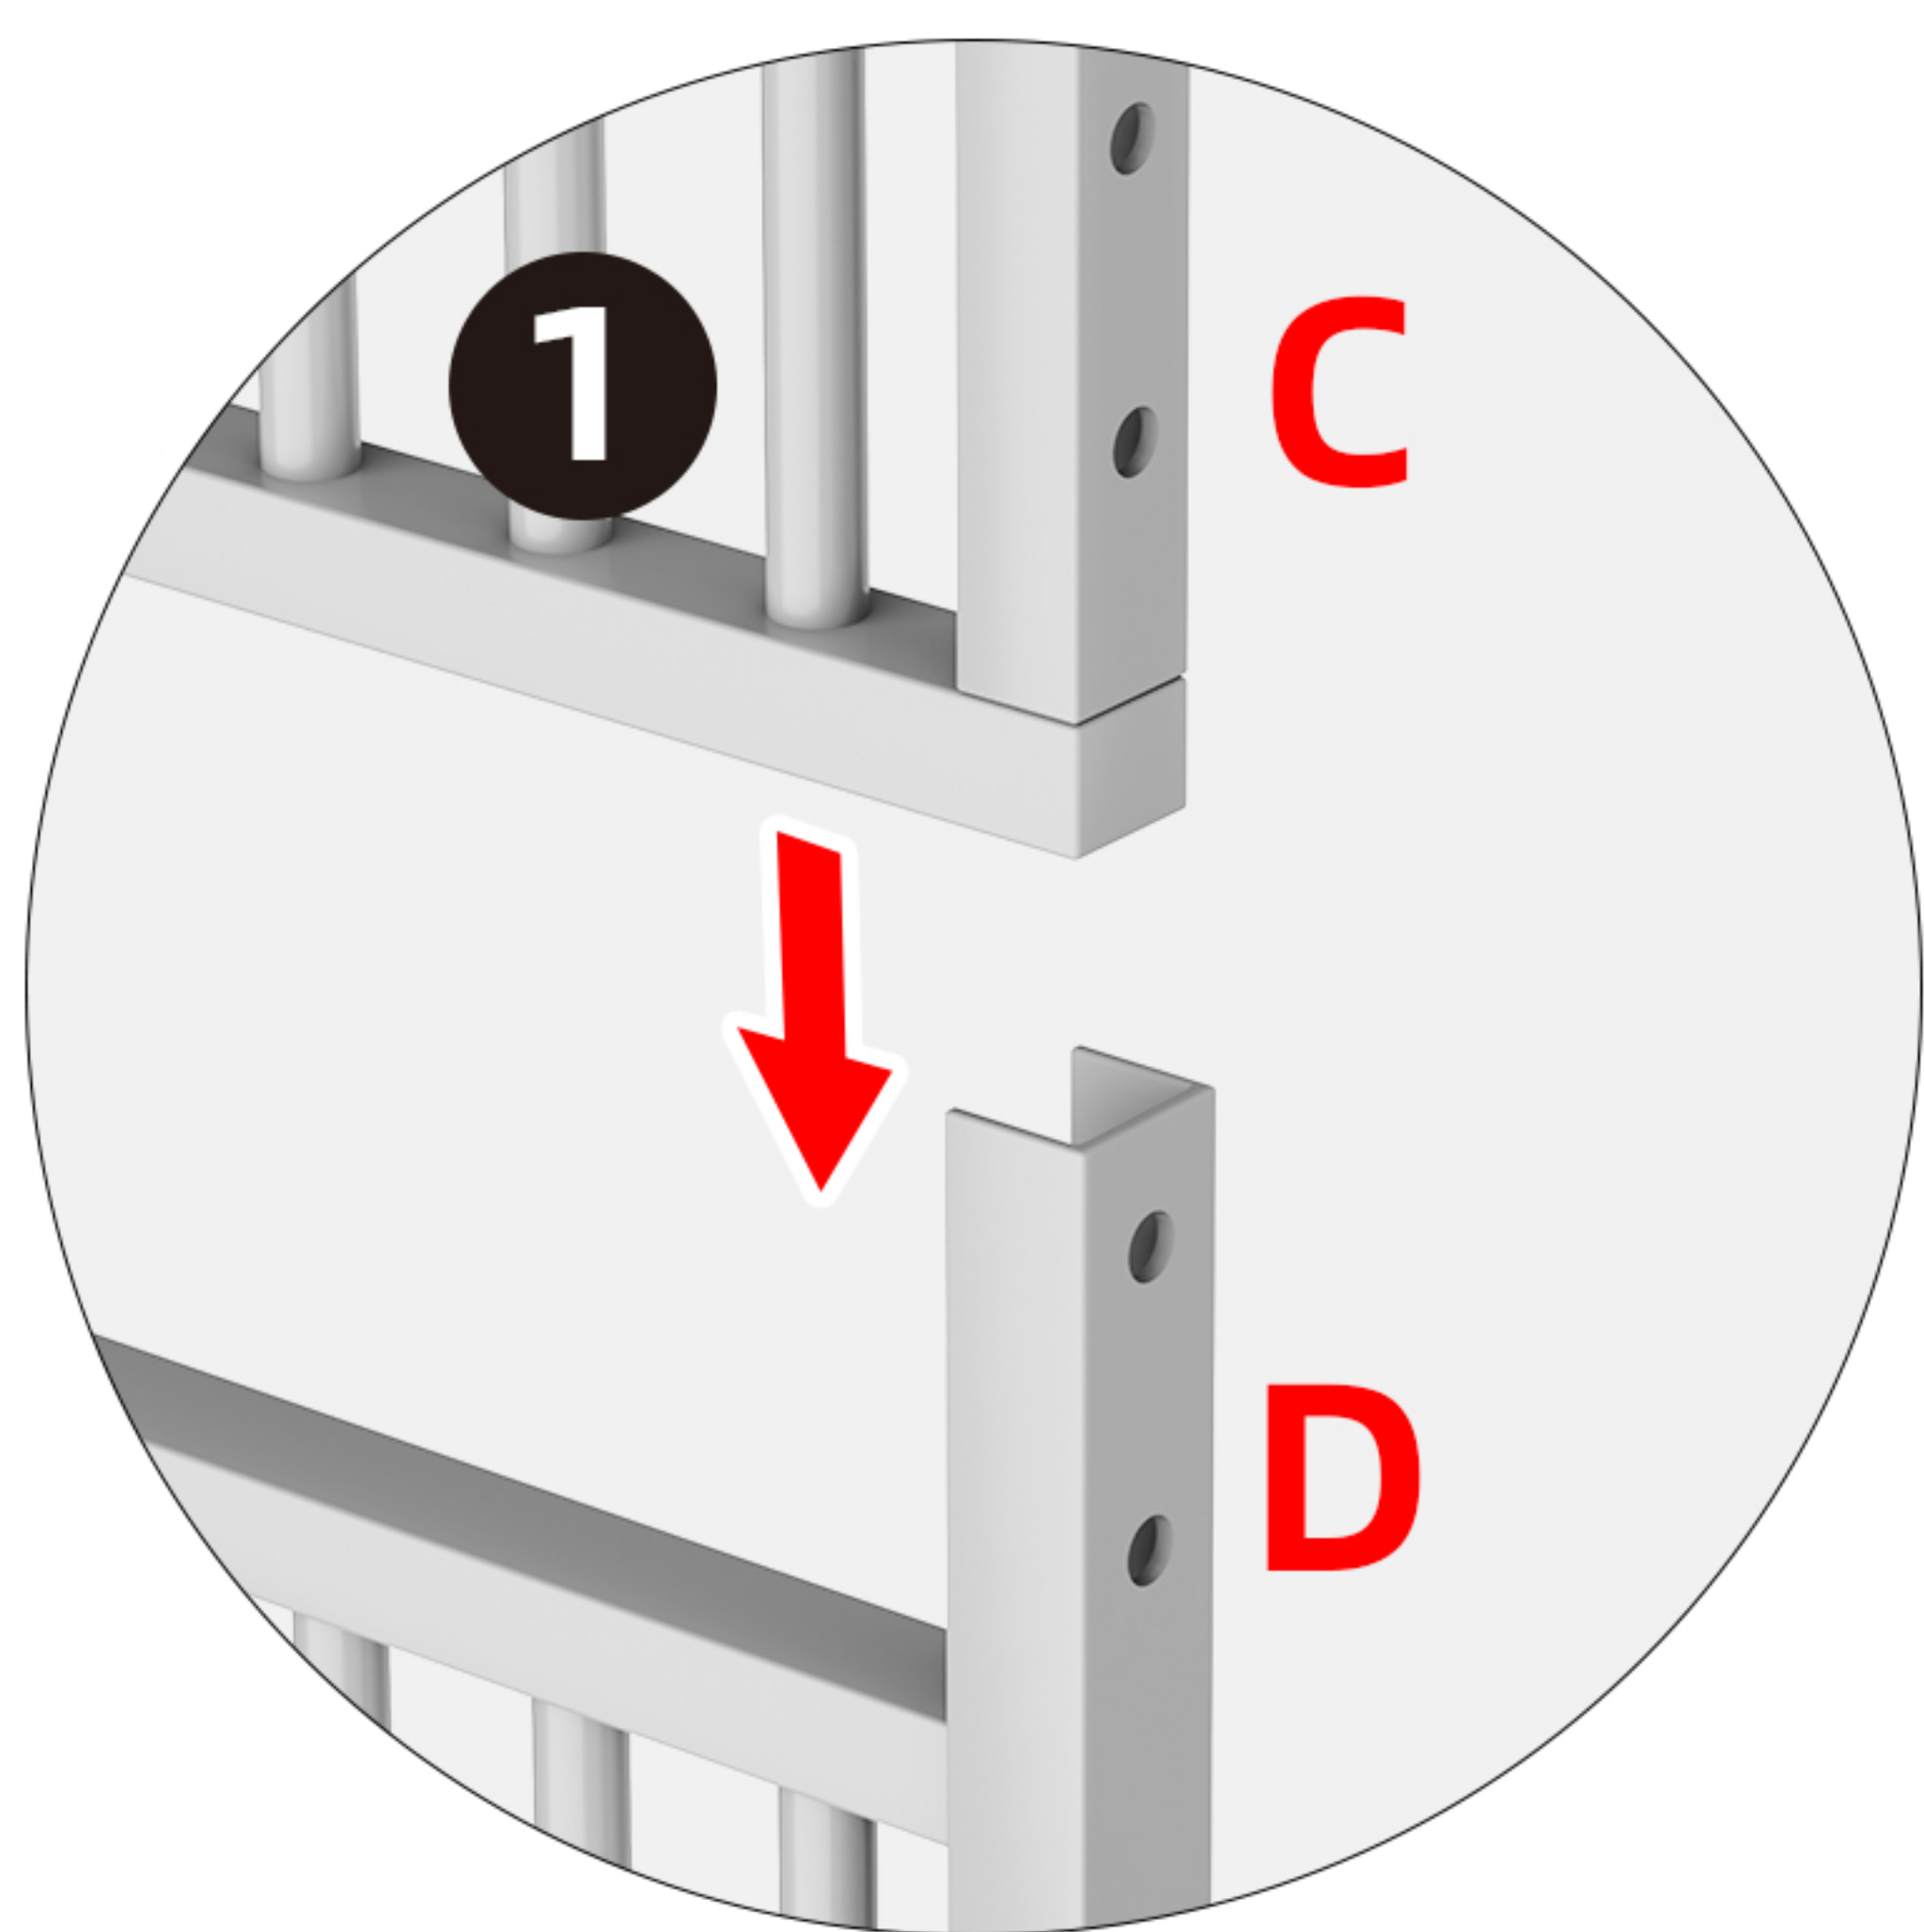

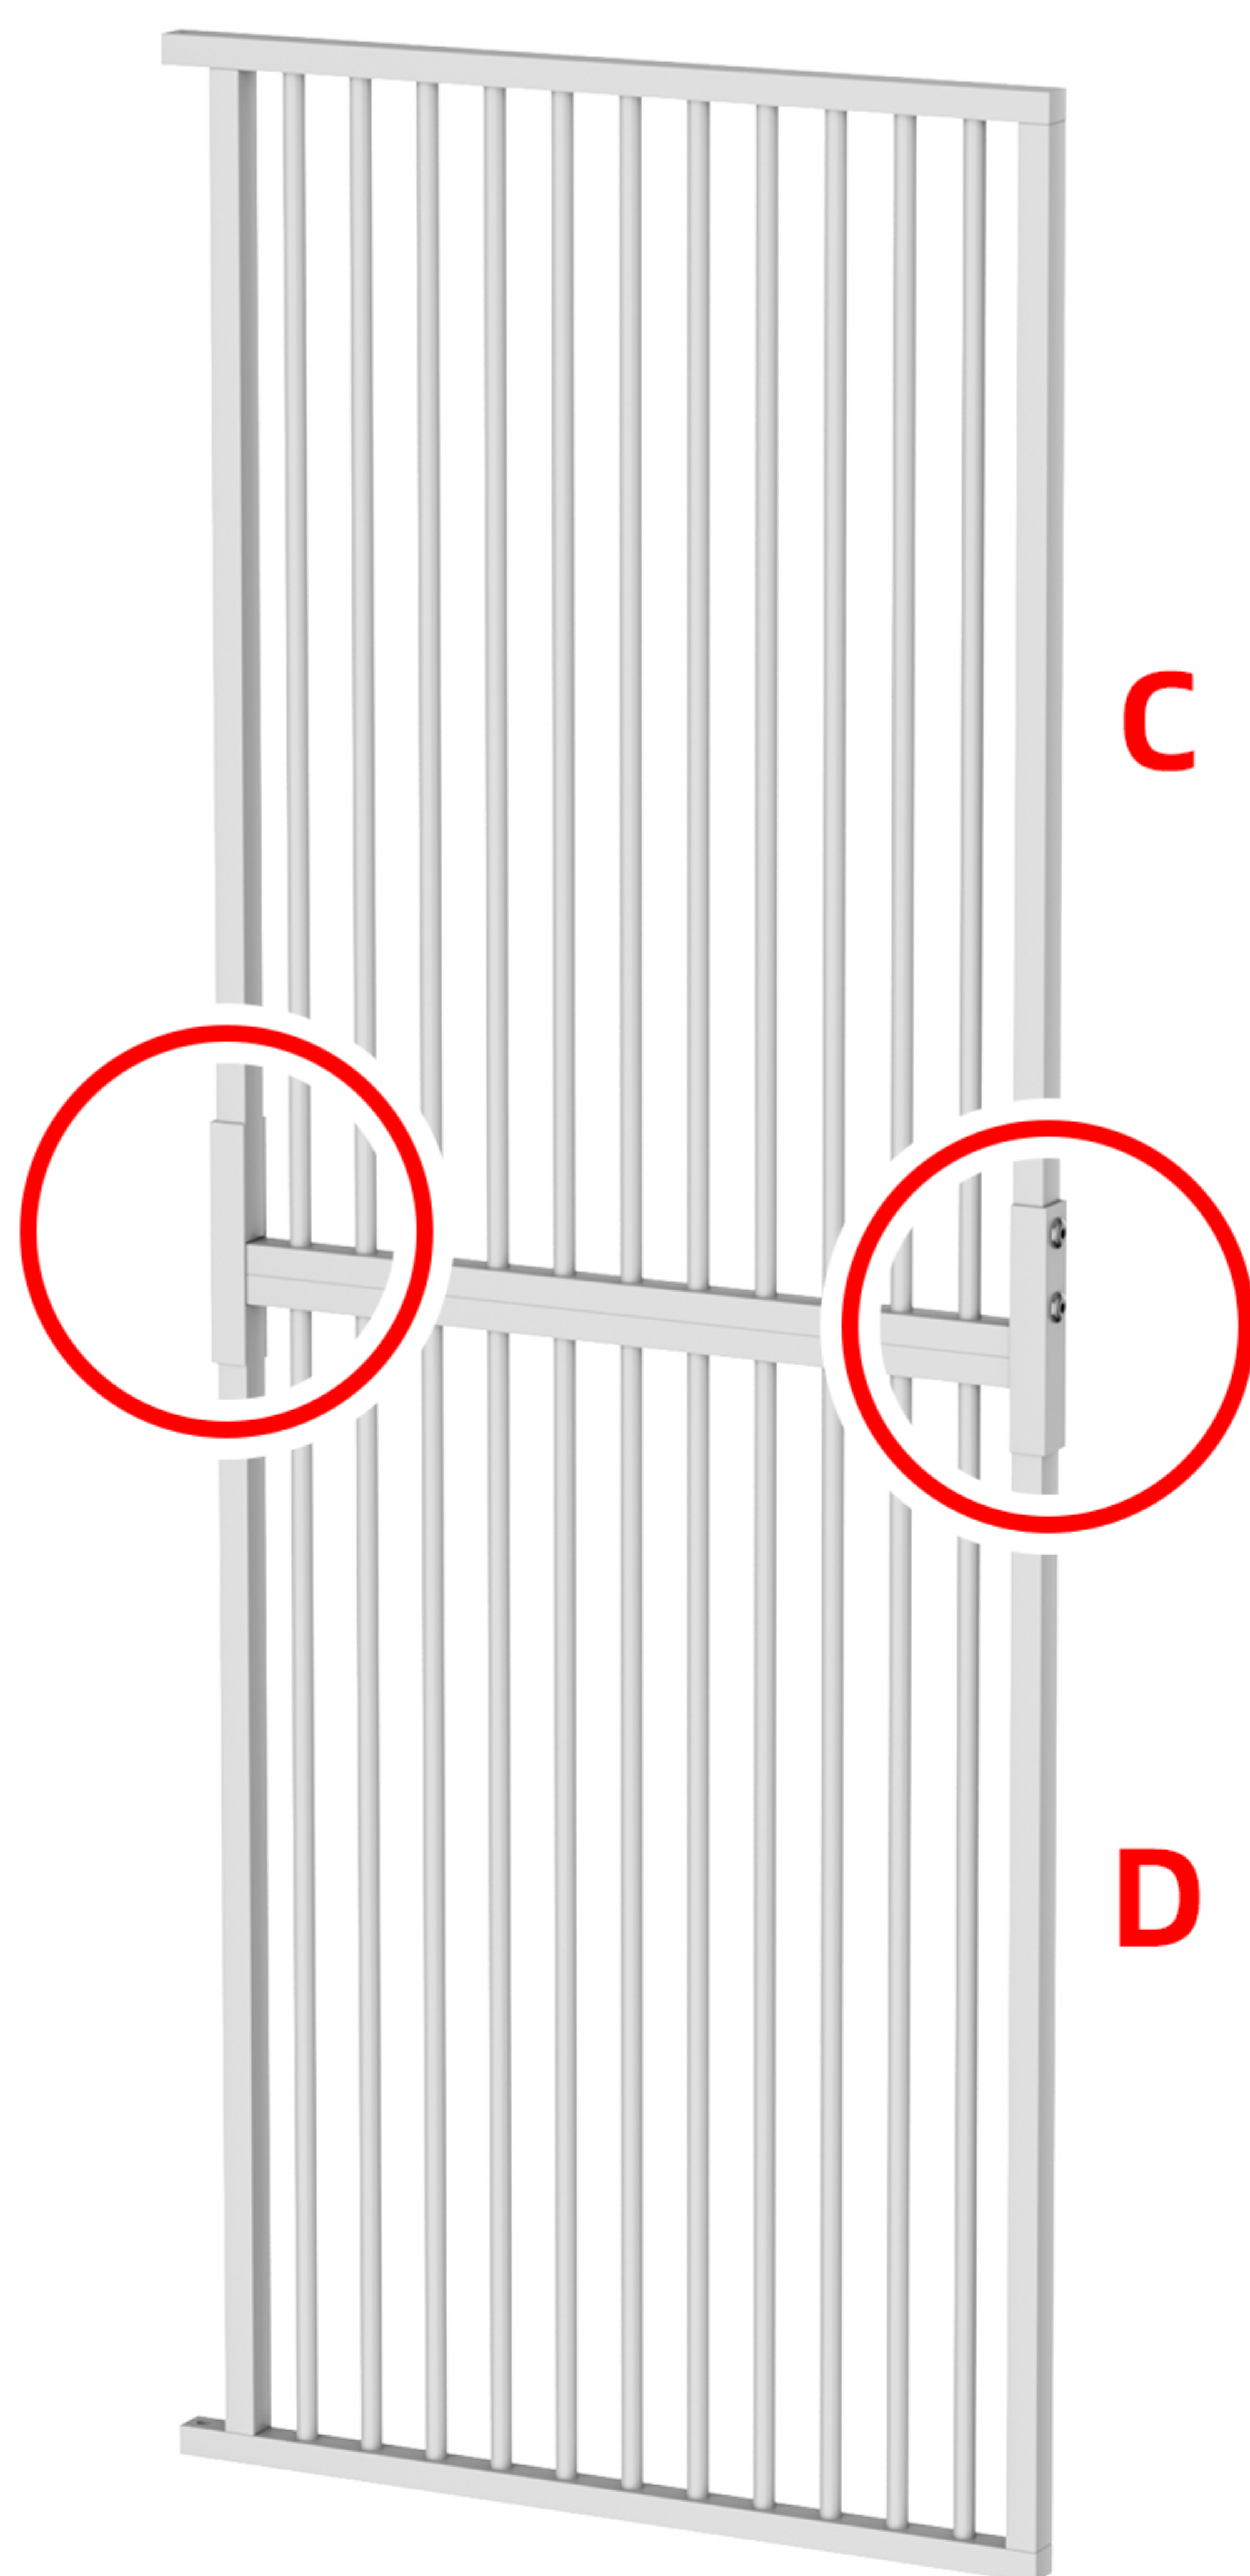

IT_ Misurate la larghezza dell'apertura in cui intendete installare il cancello. Fate riferimento ai seguenti schemi per determinare la corretta configurazione di installazione.

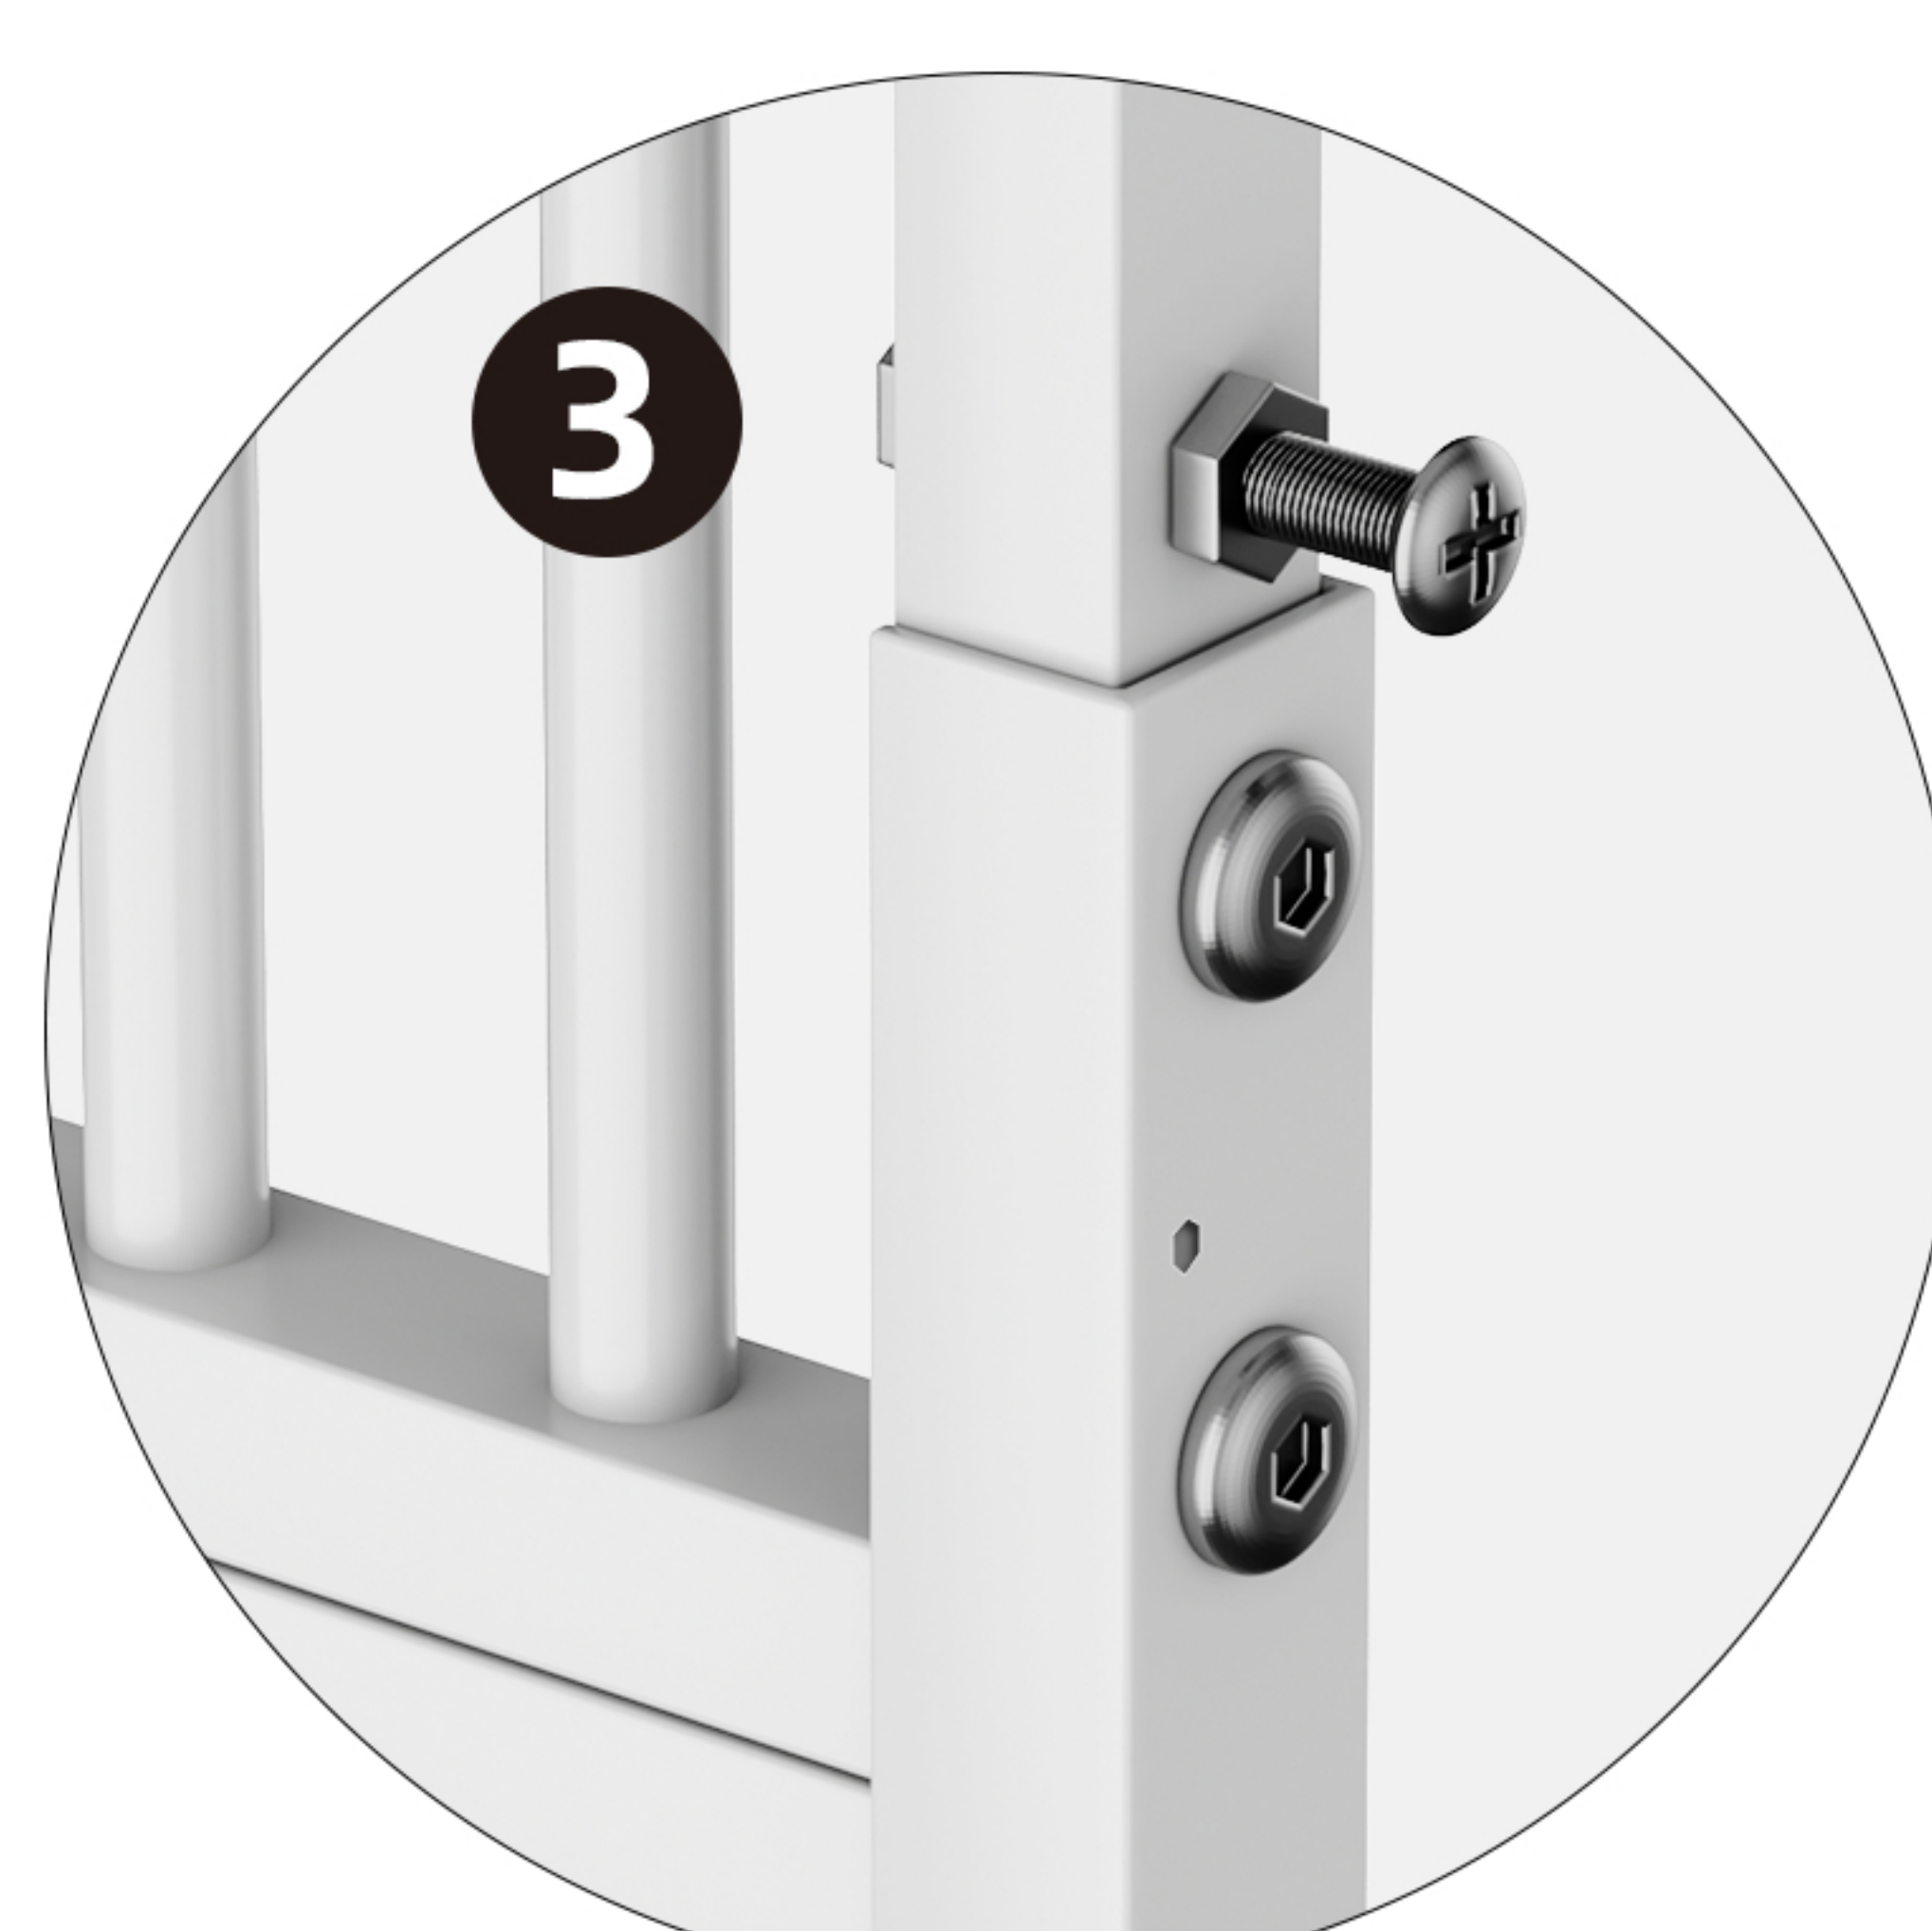

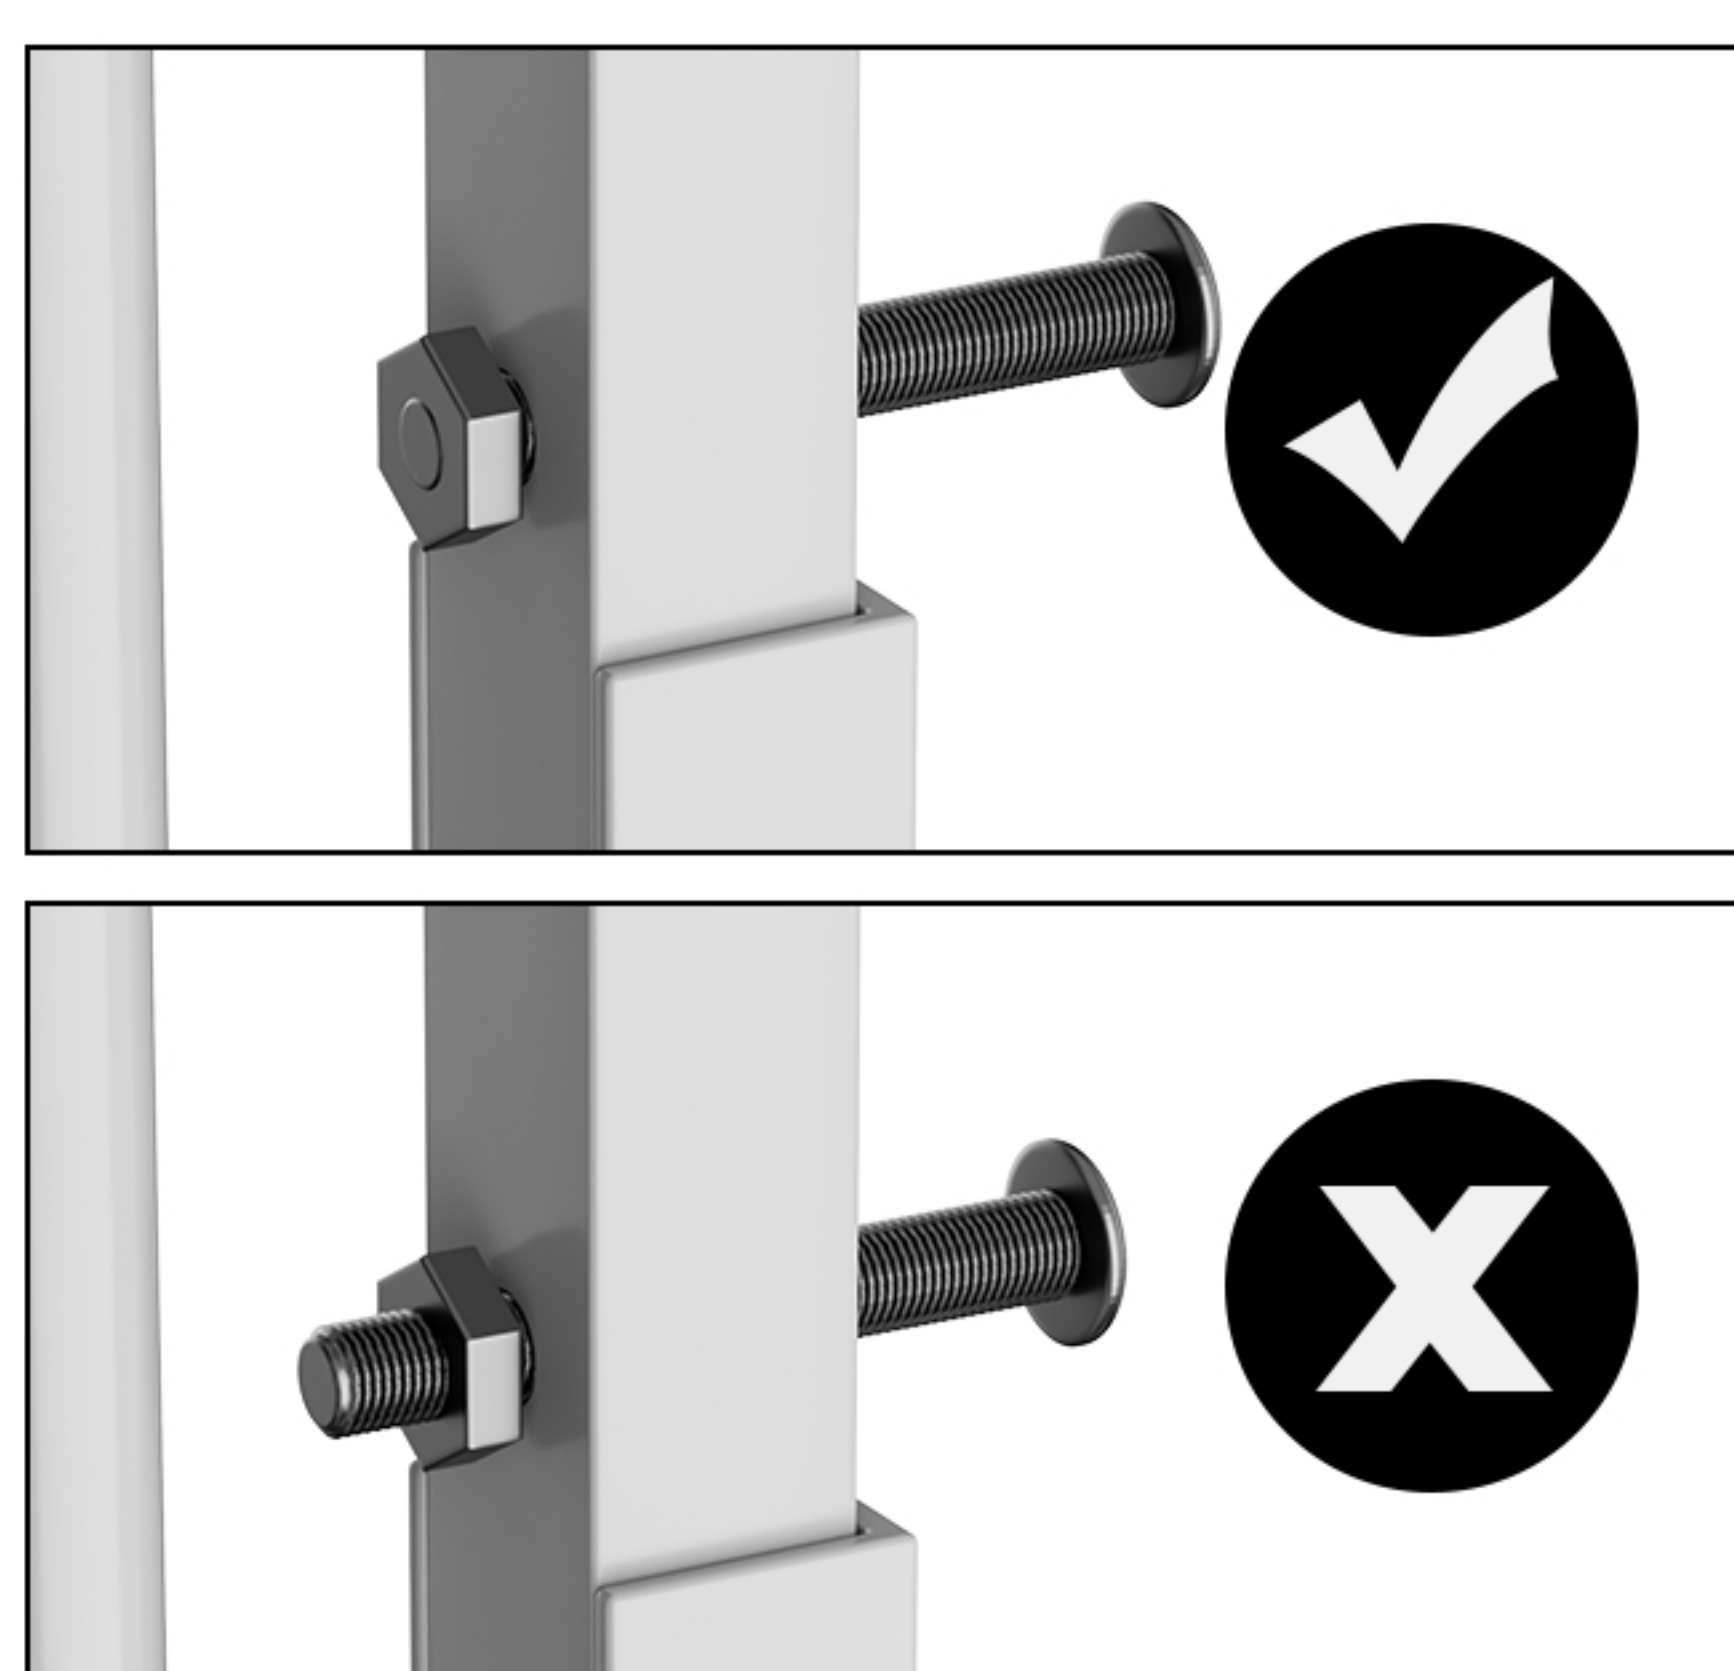

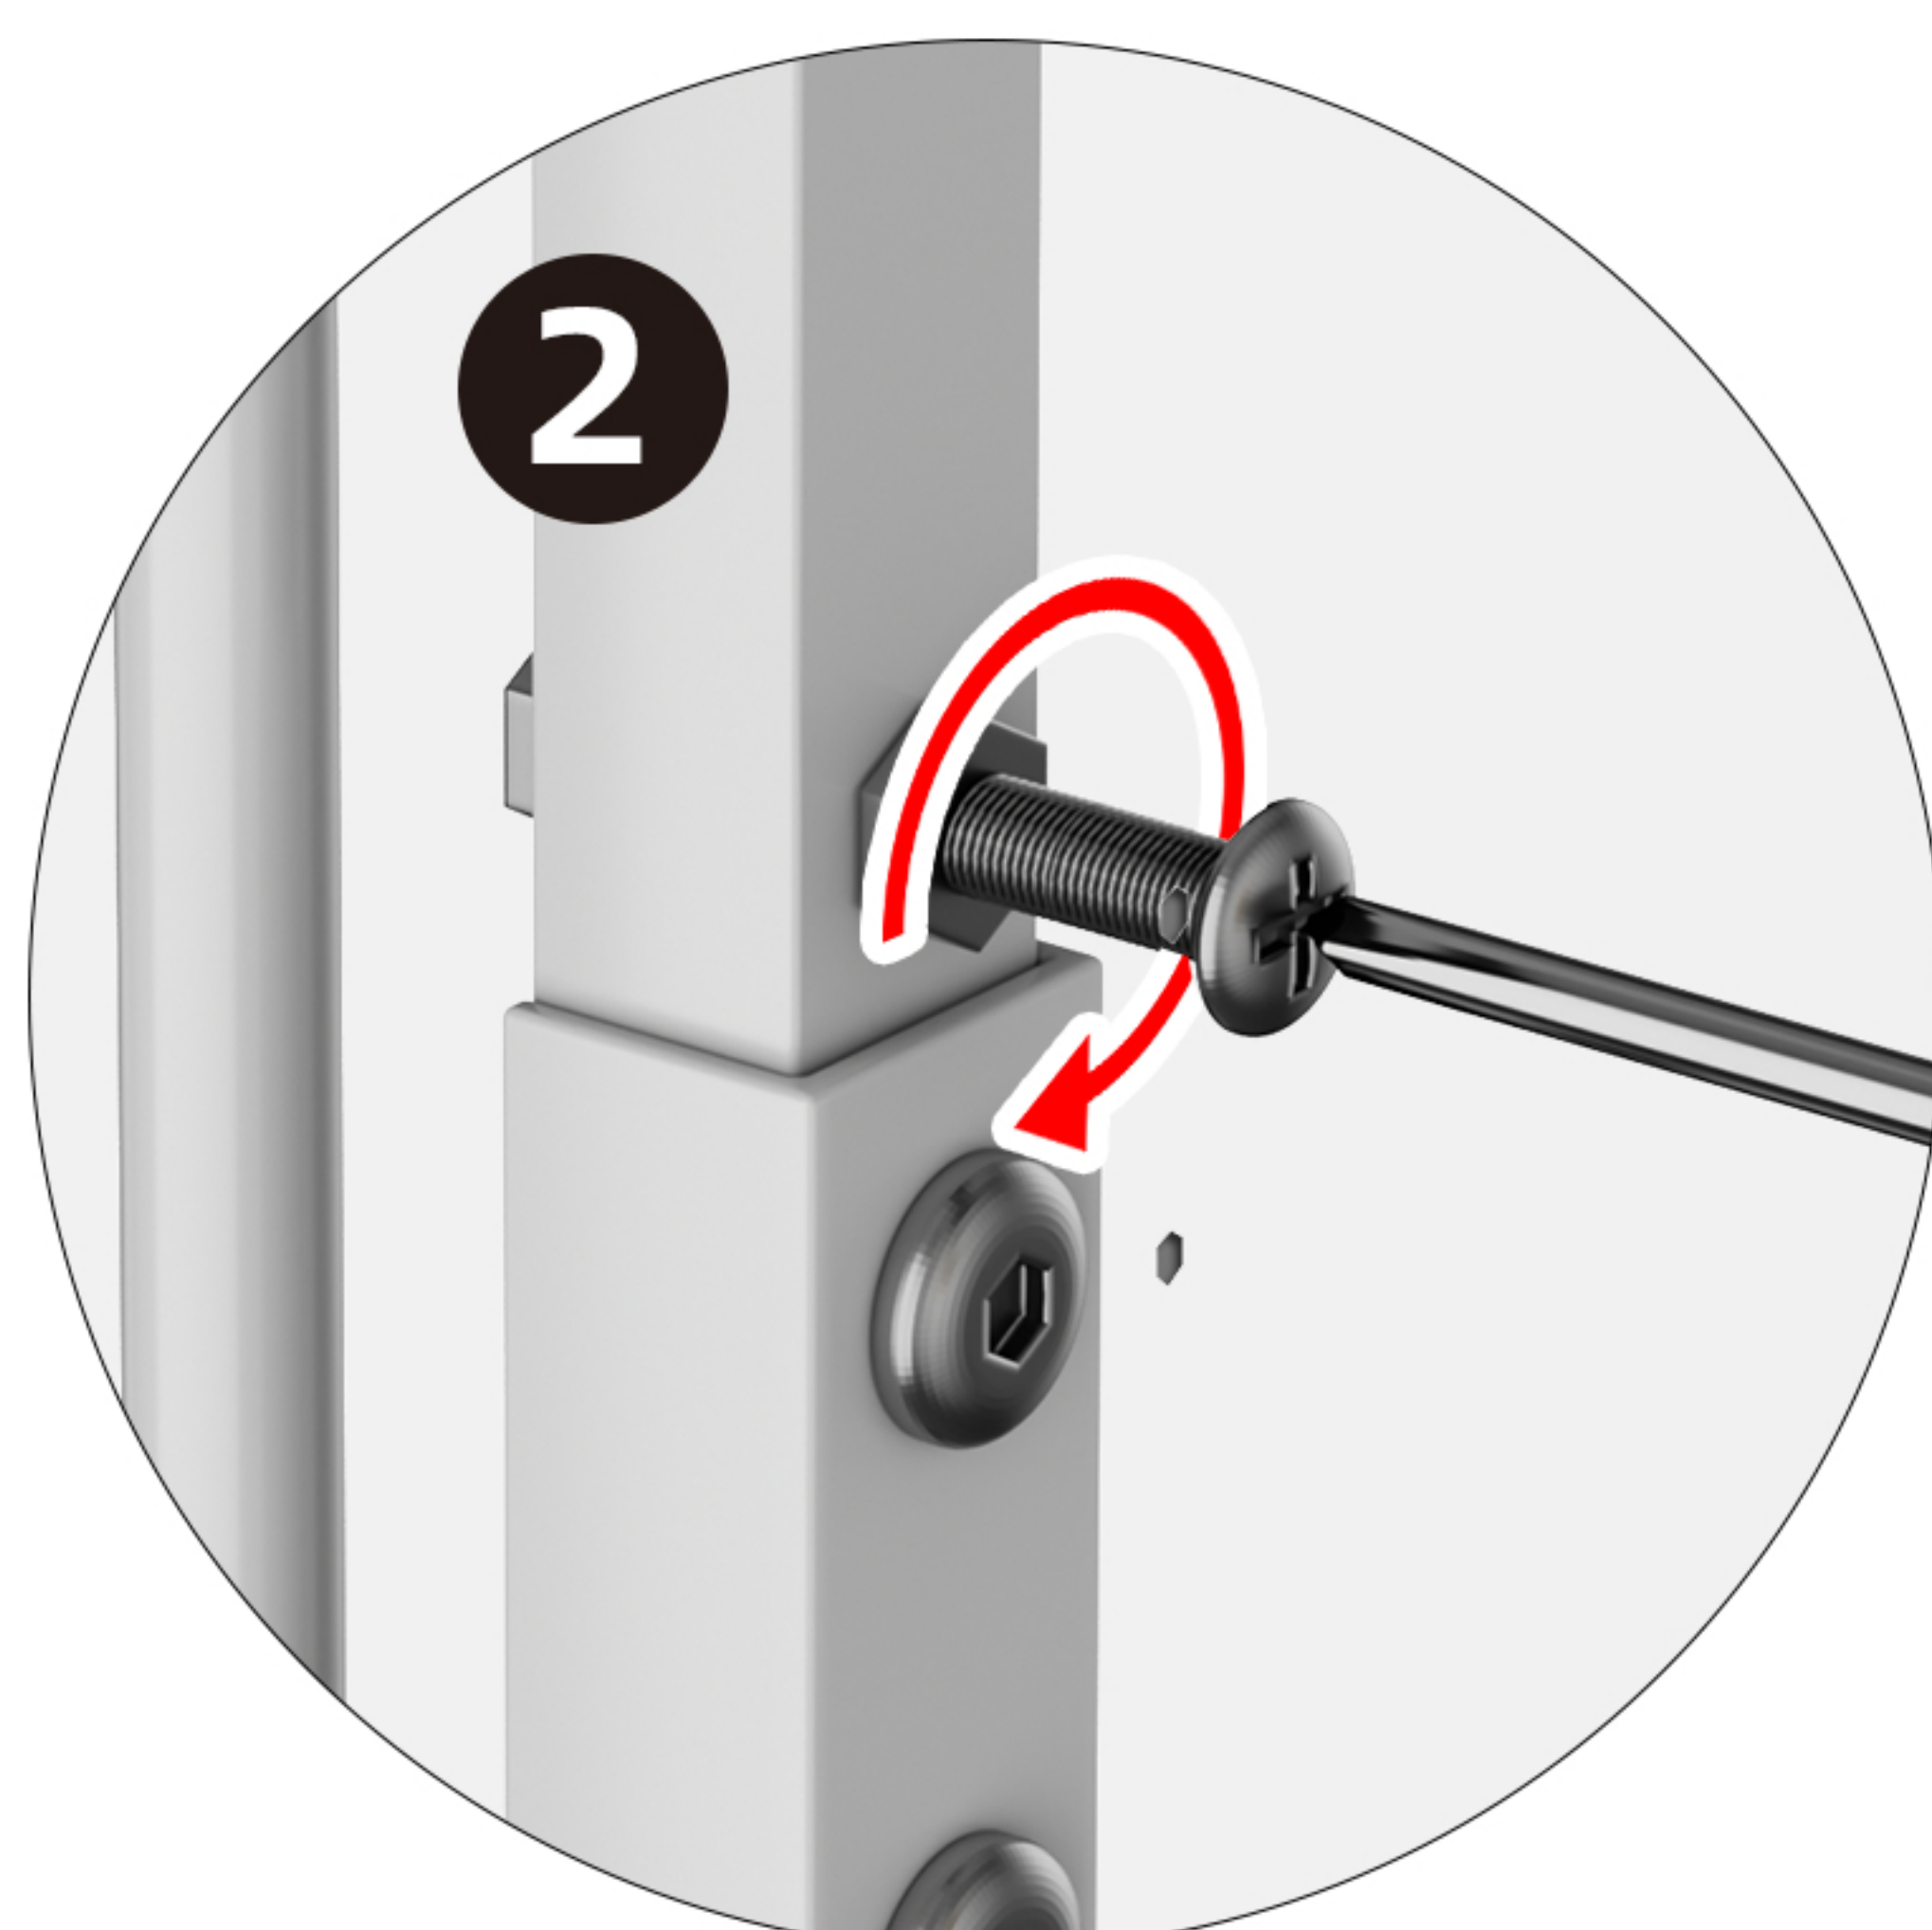

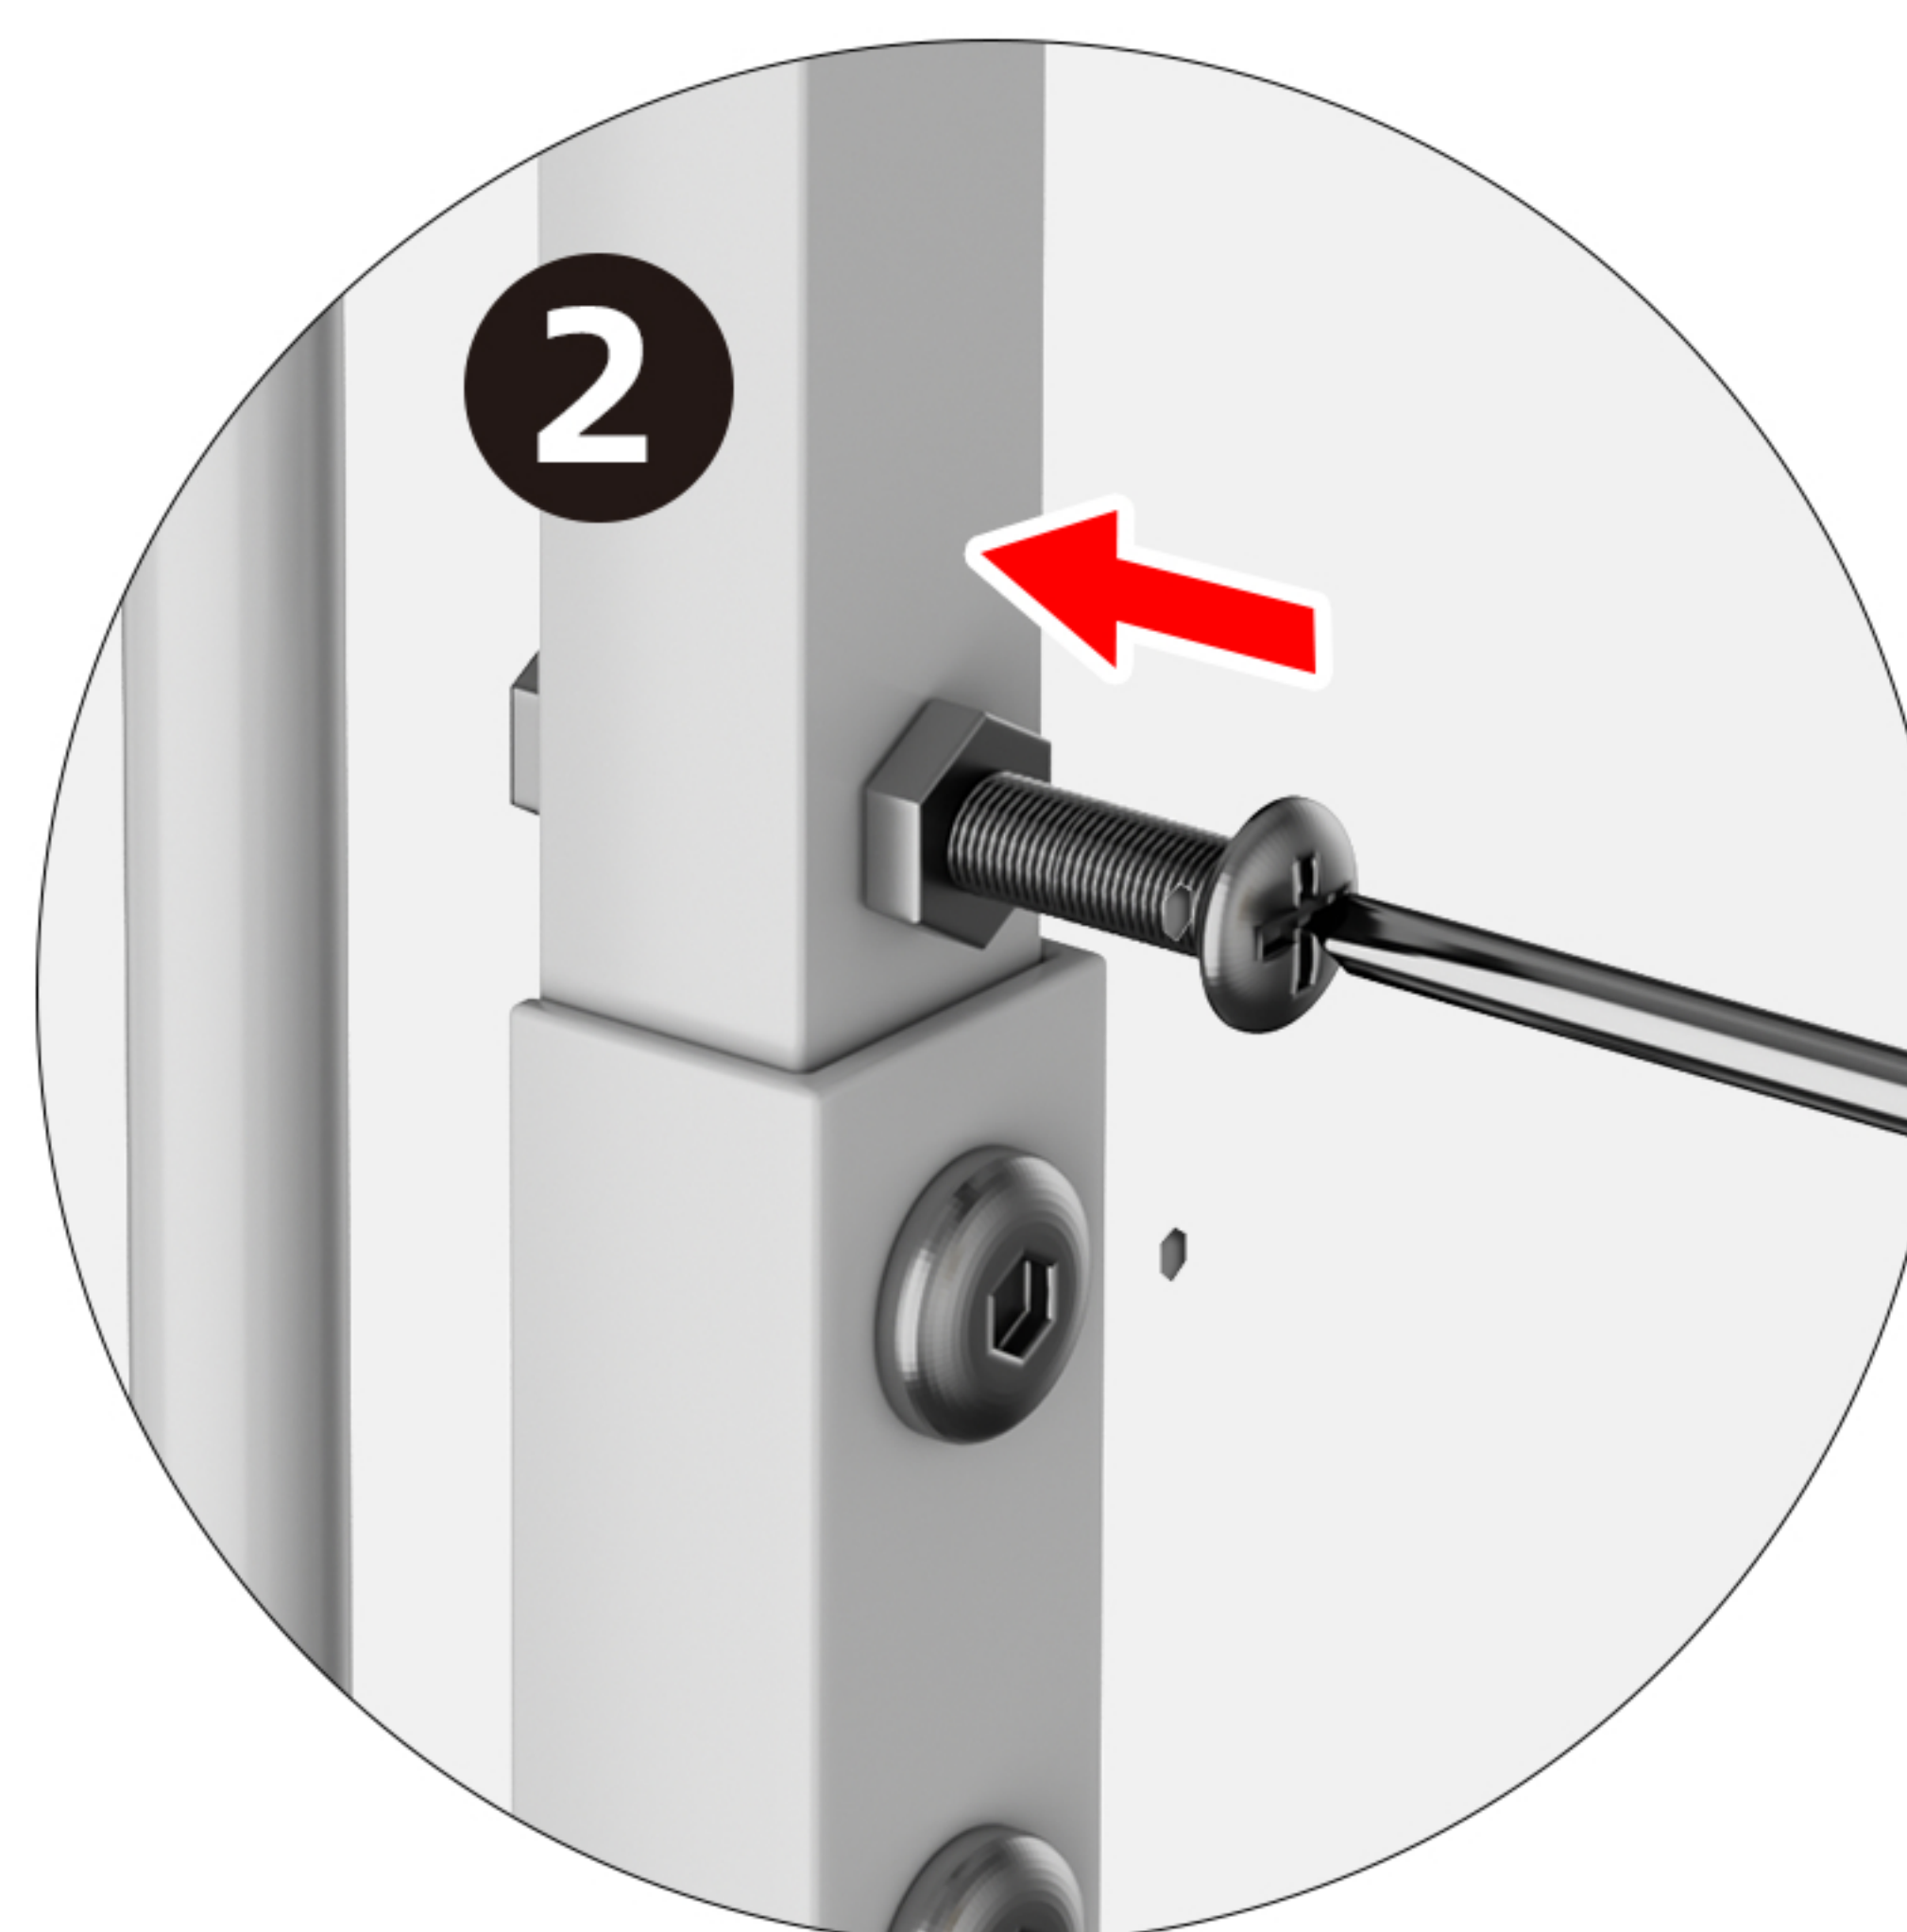

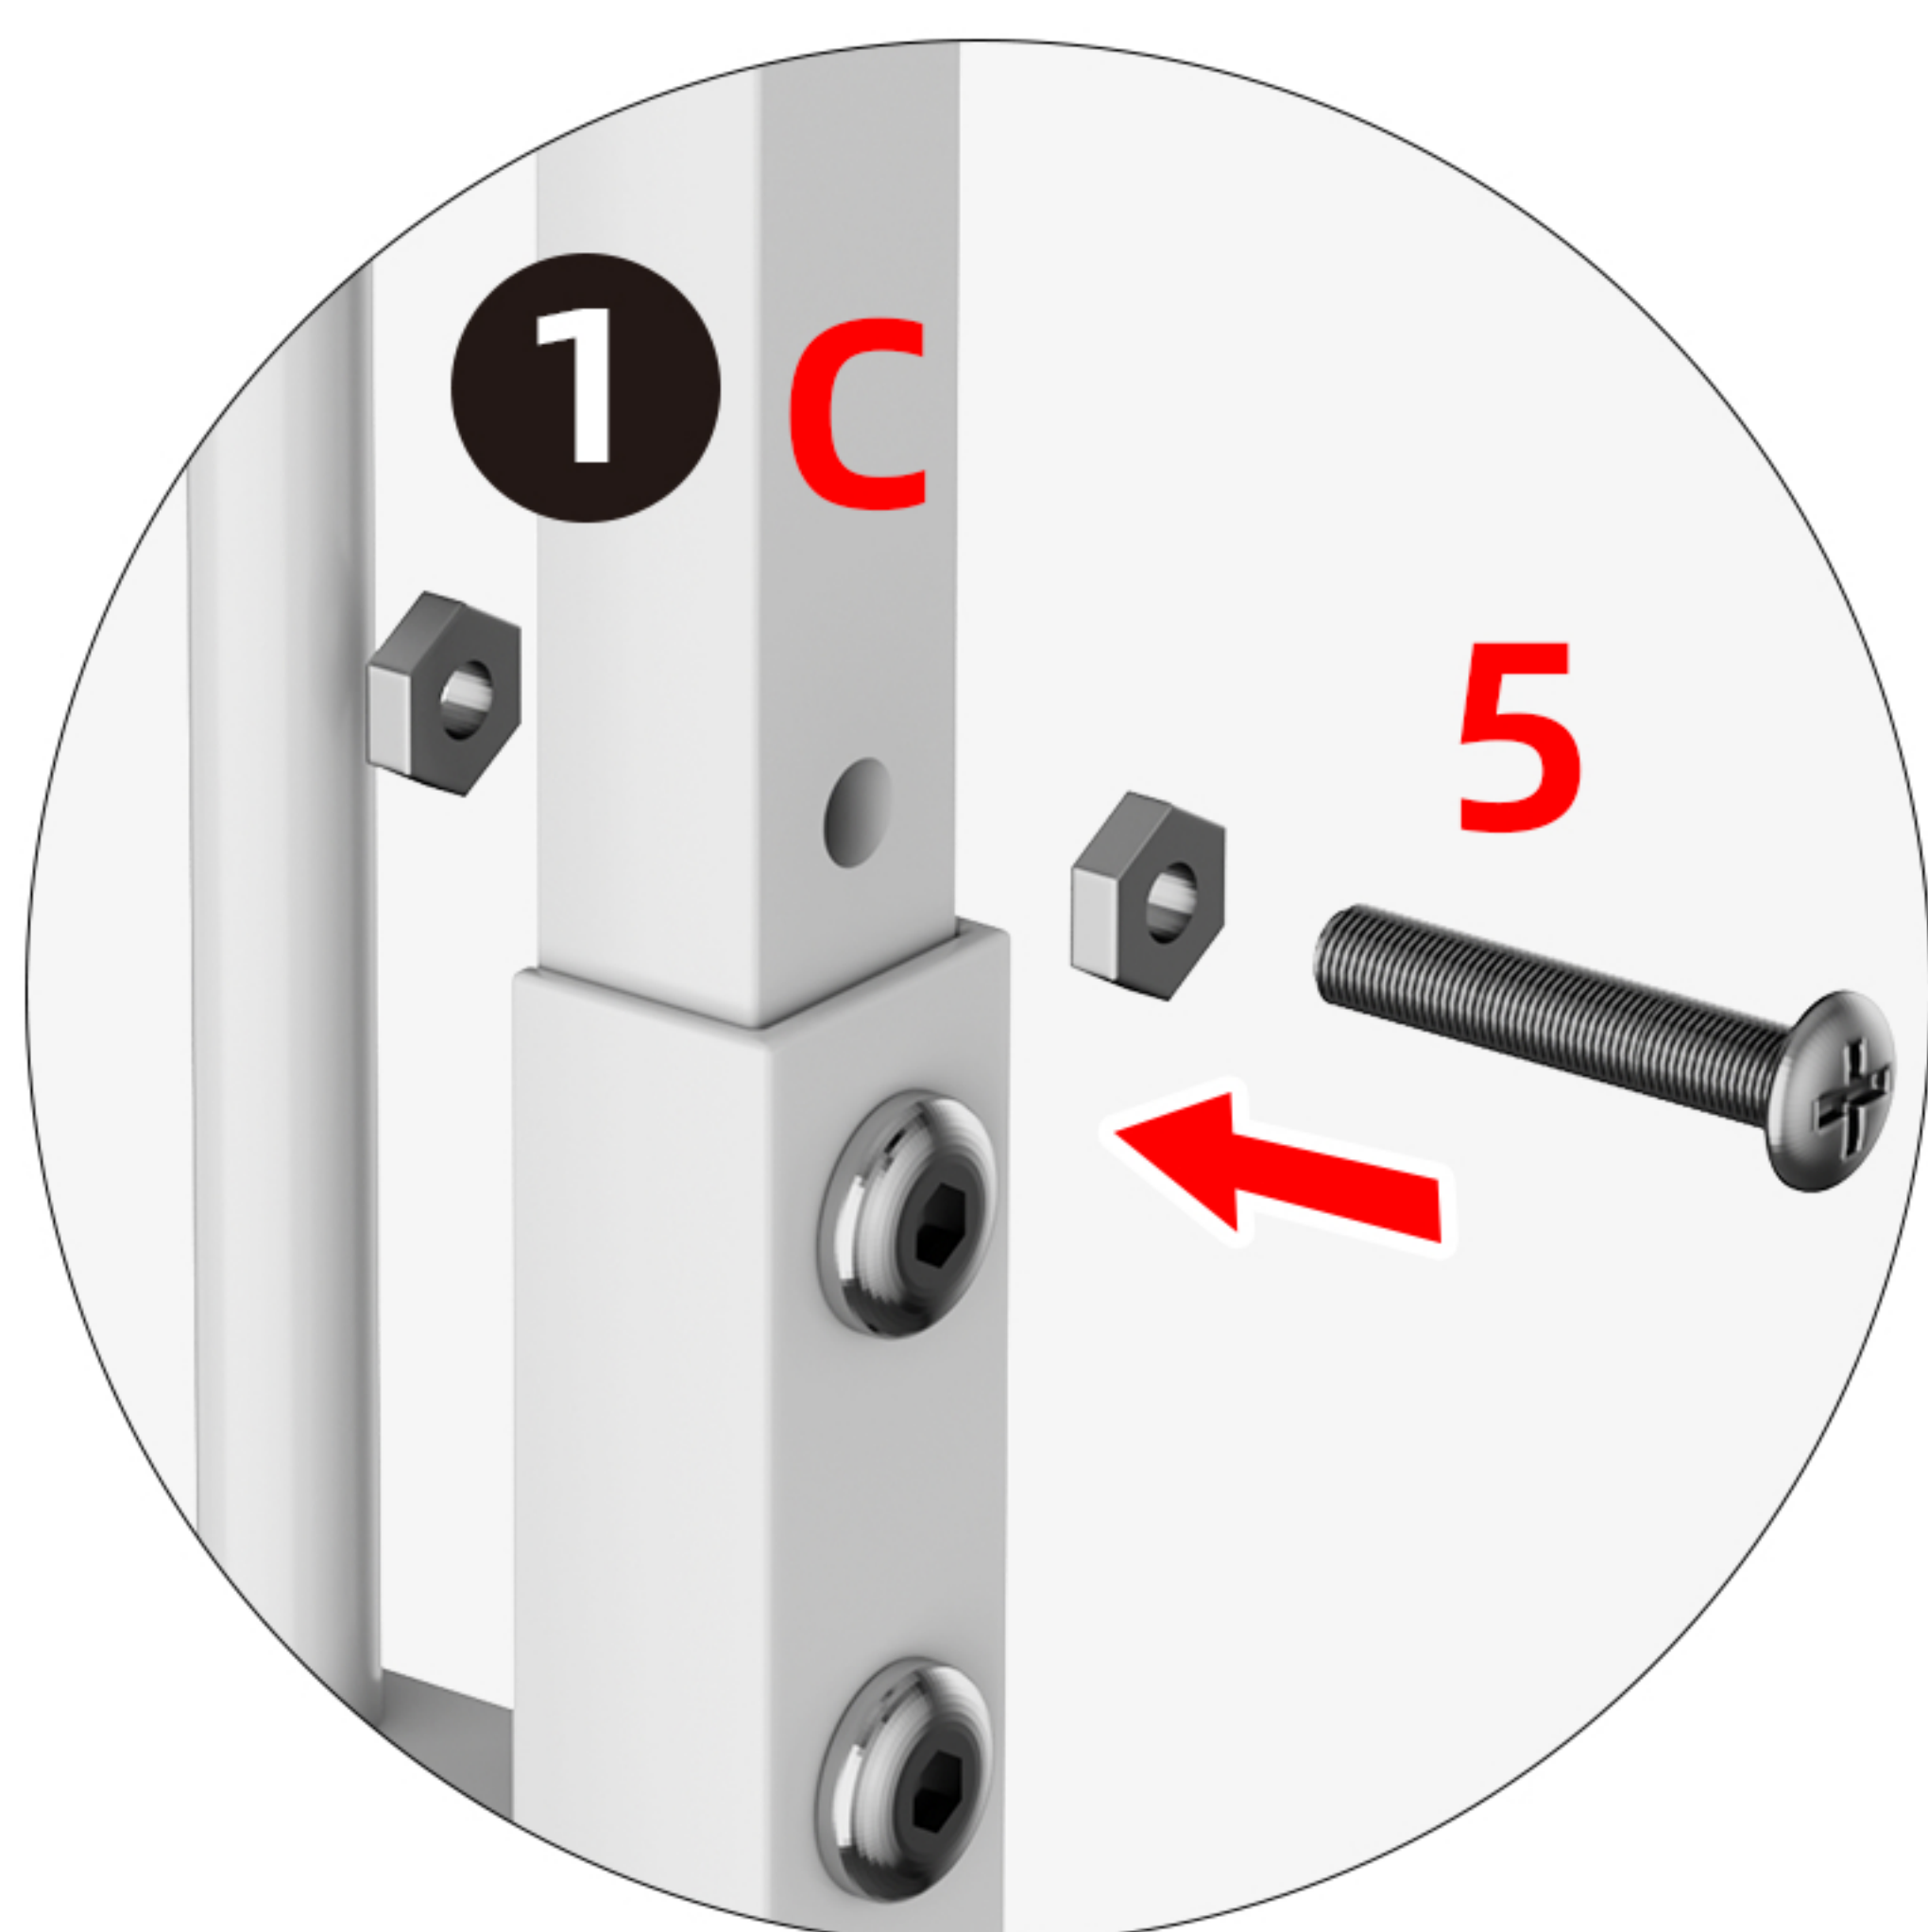

RO_ Măsurați lățimea deschiderii în locul în care intenționați să montați poarta. Vă rugăm să consultați diagramele de mai jos pentru a stabili configurația corectă de montare.

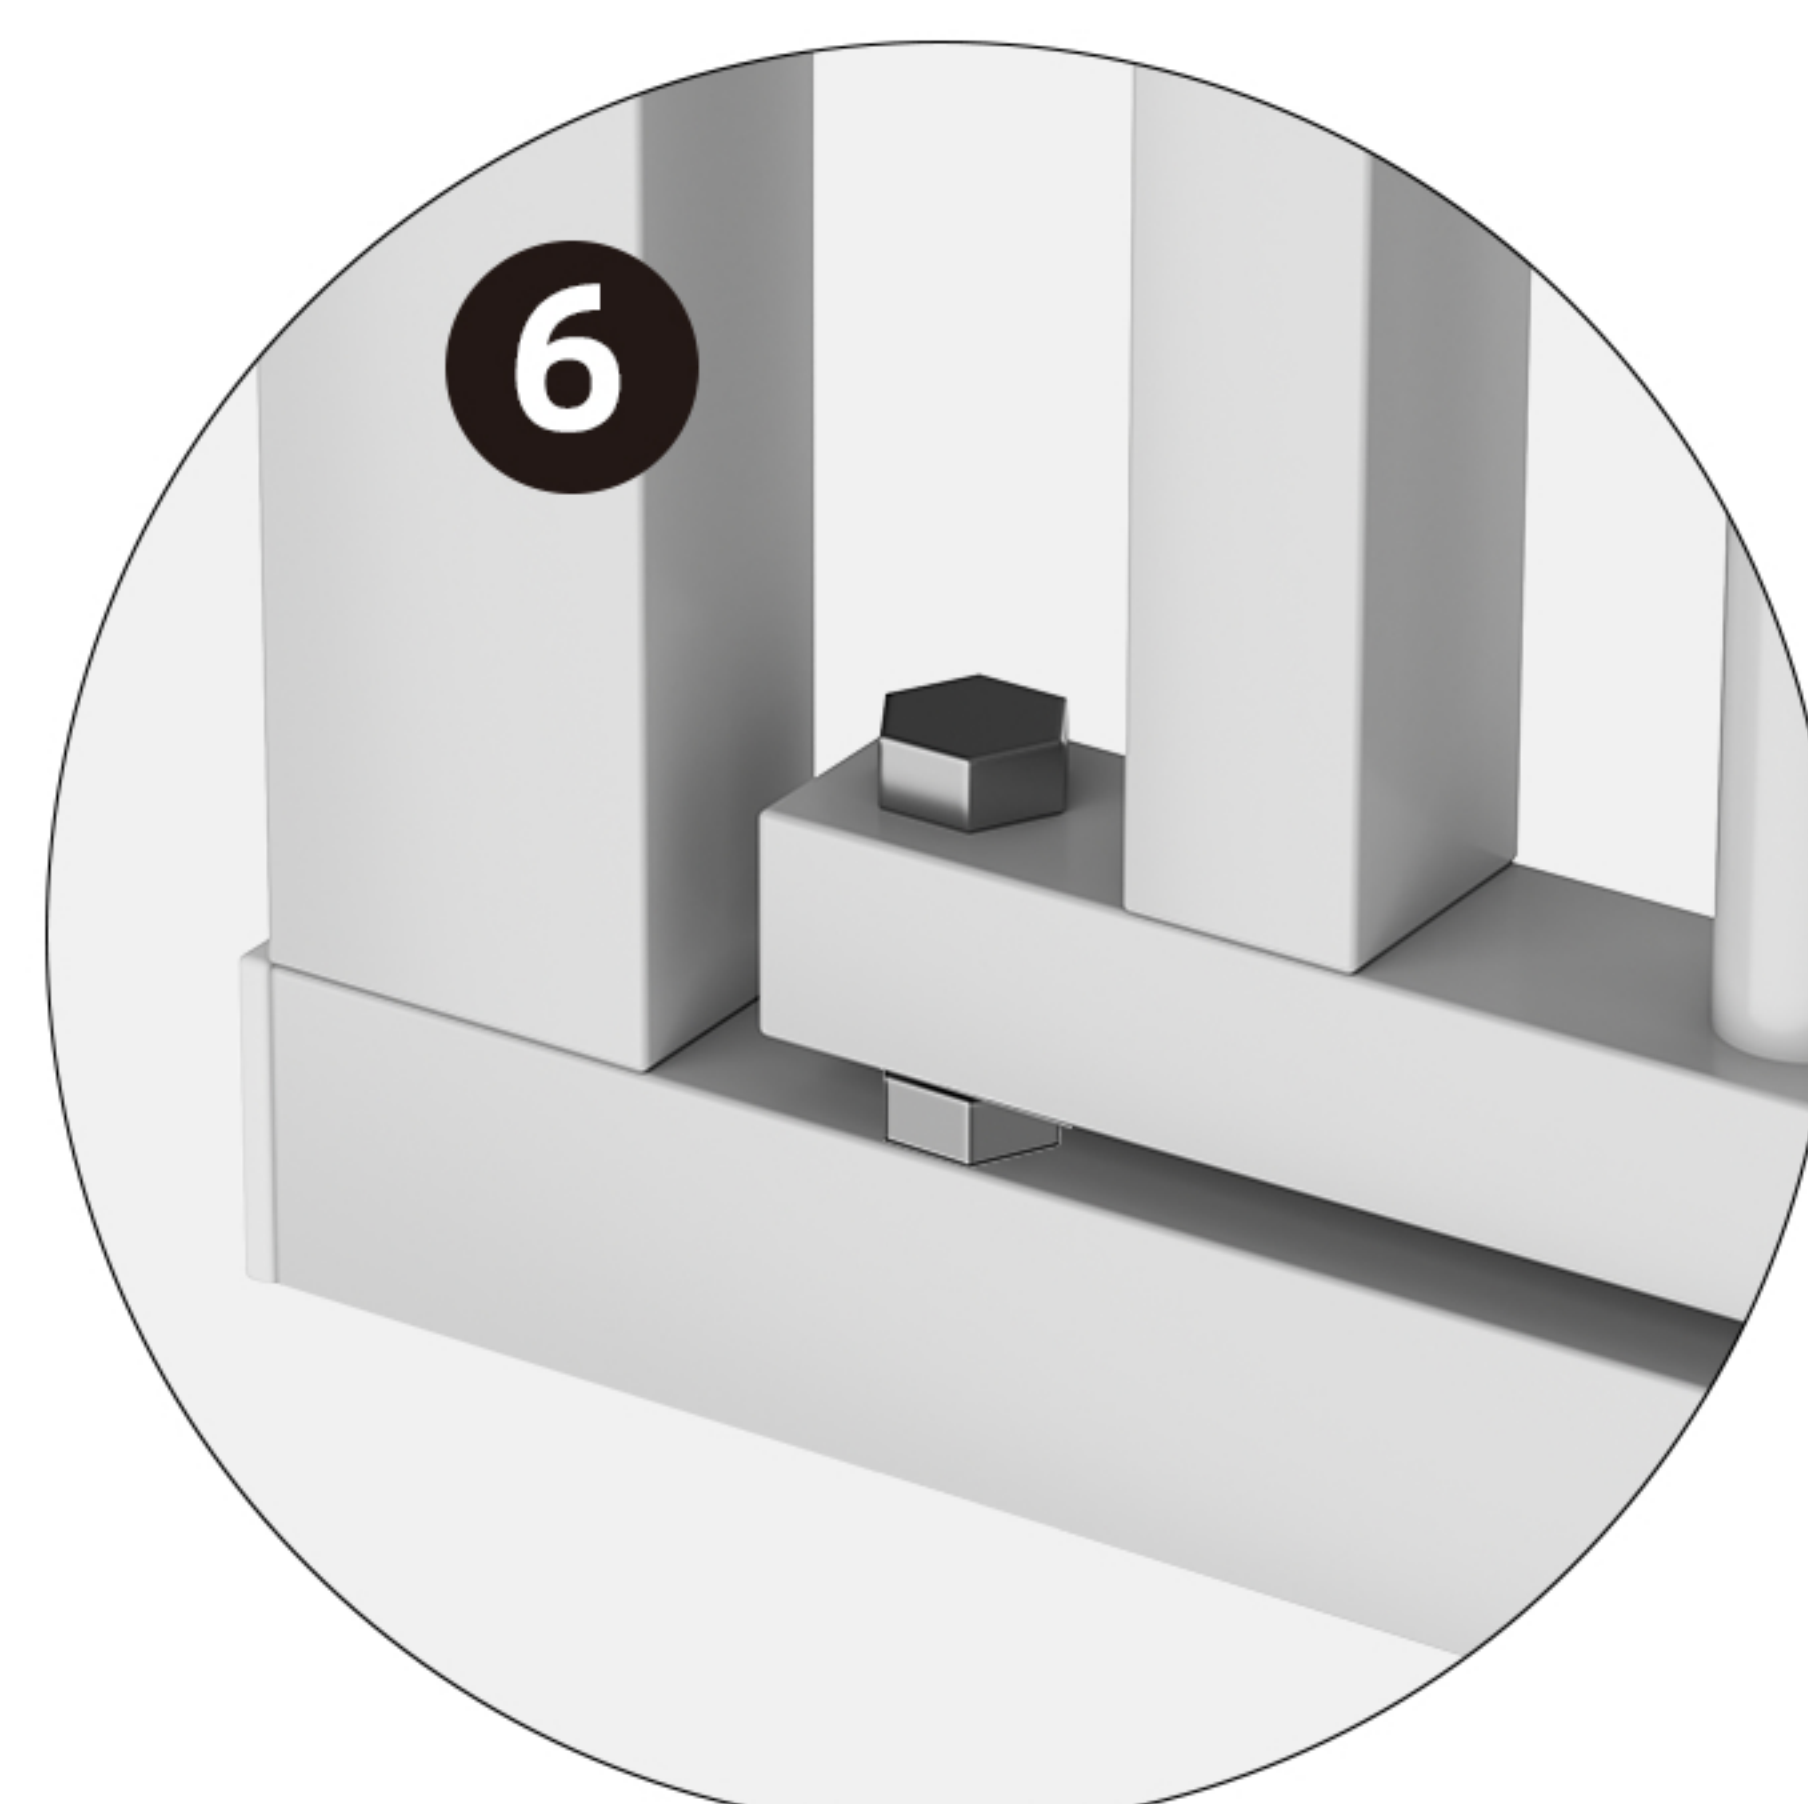

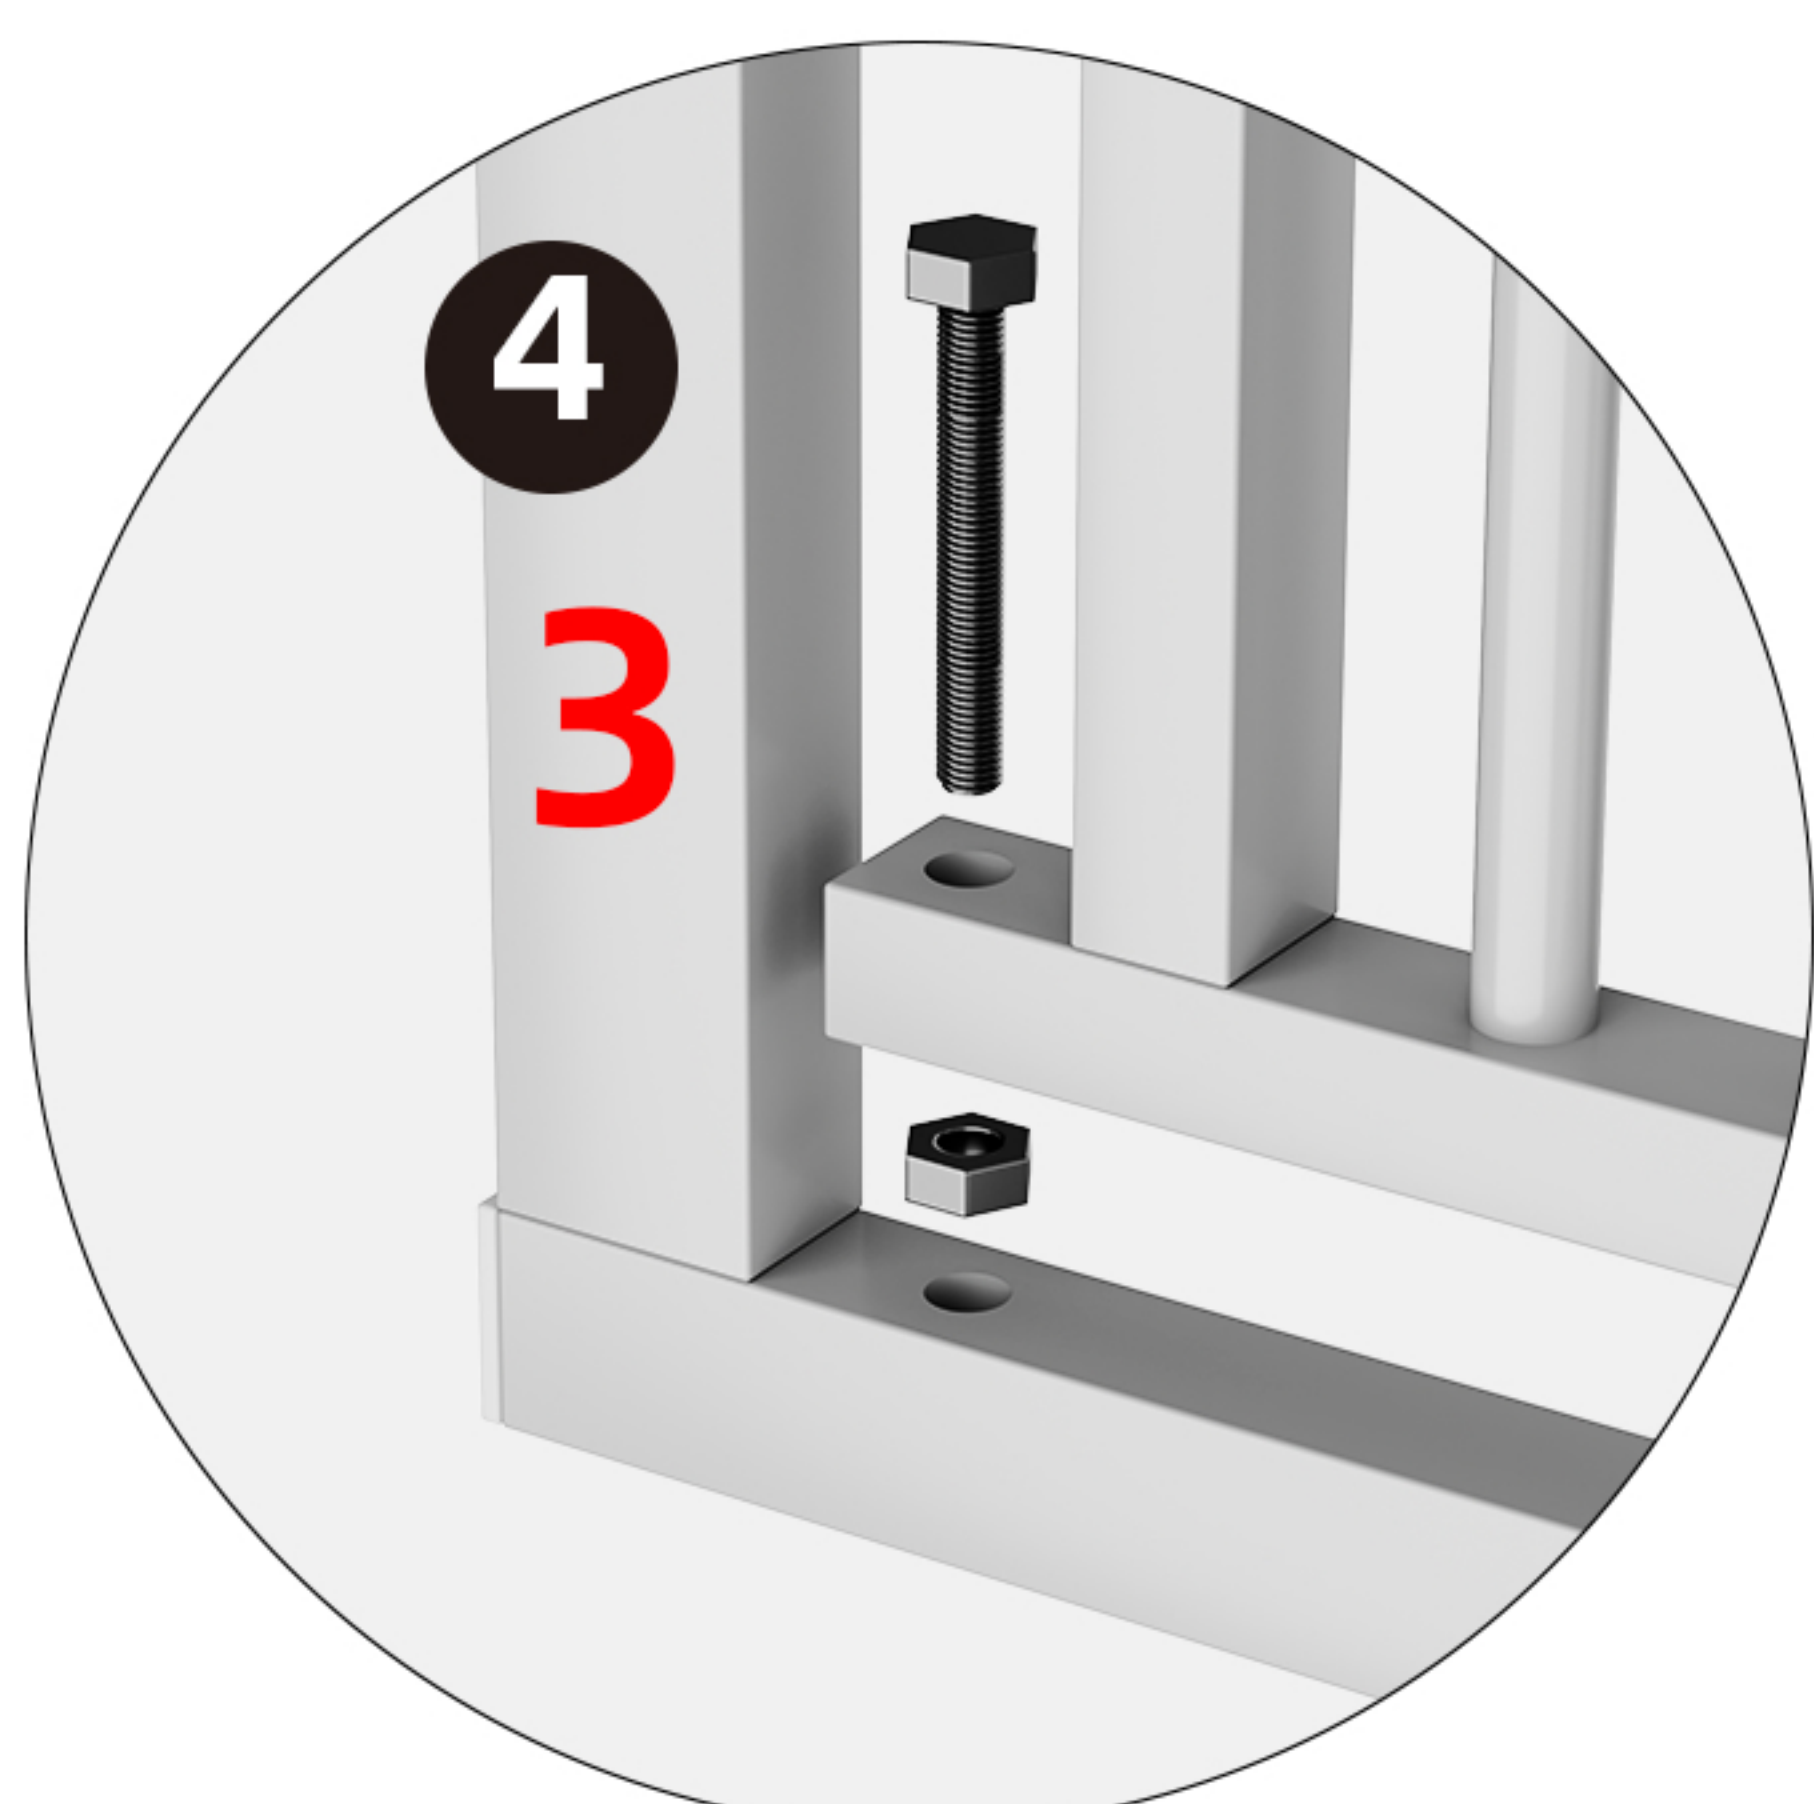

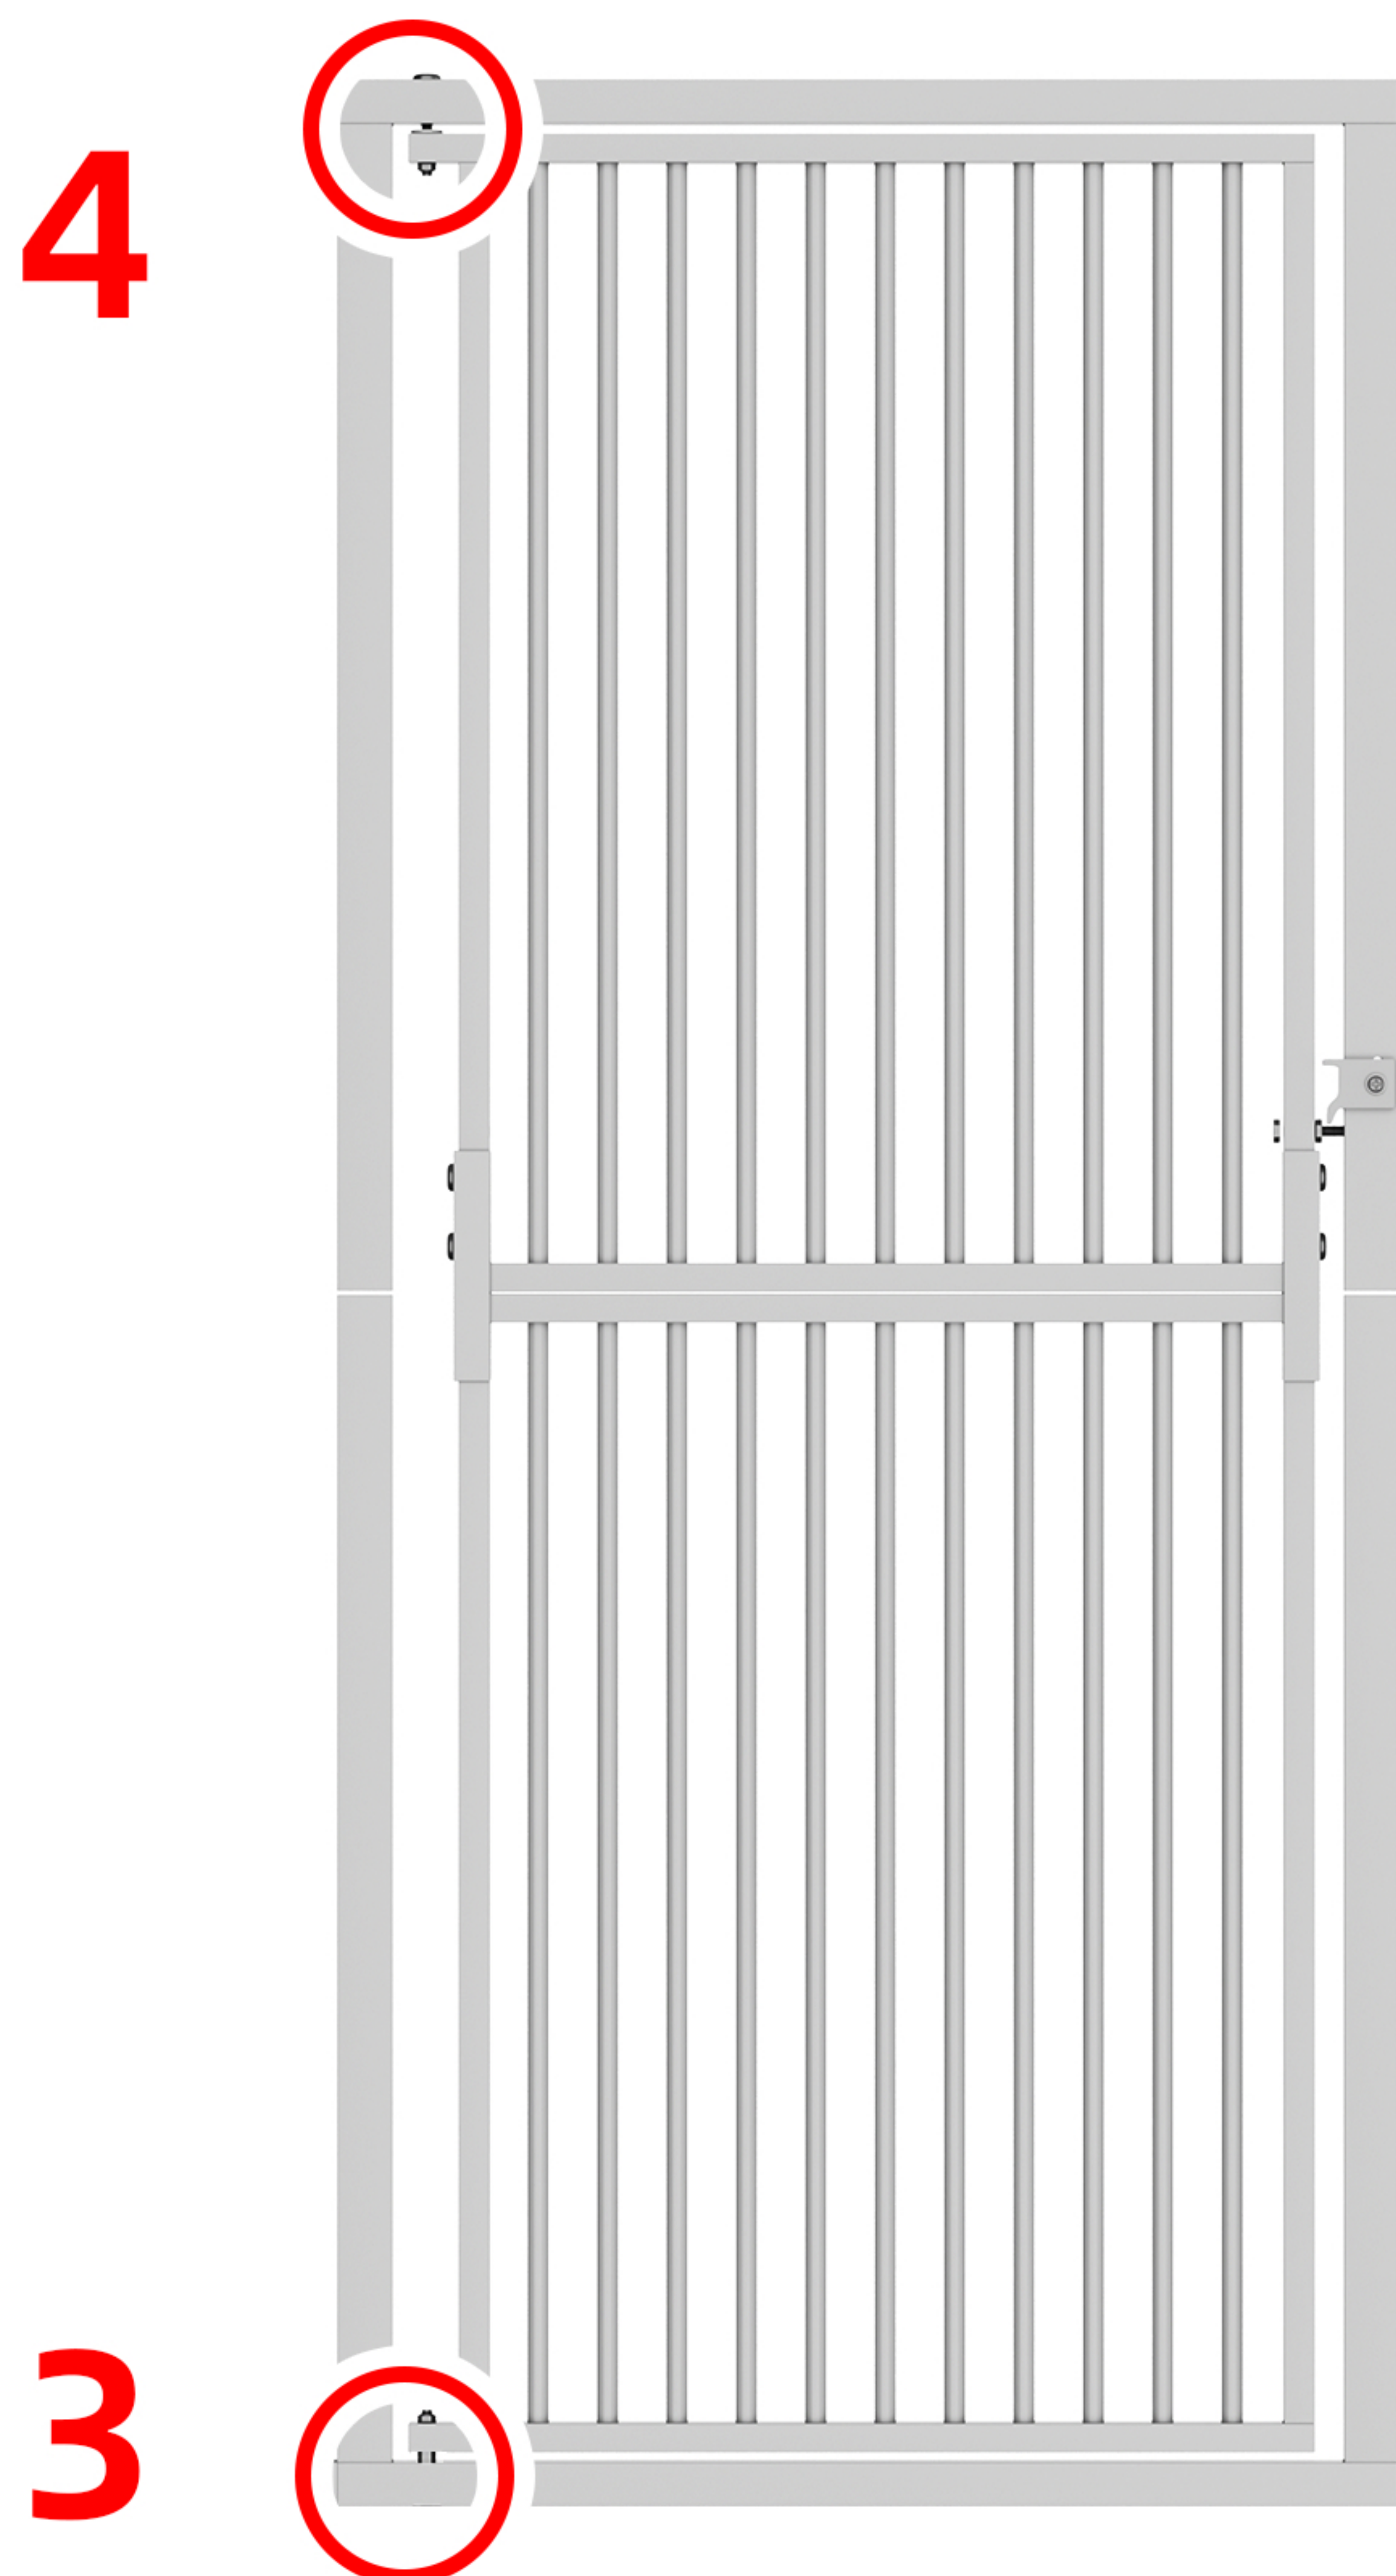

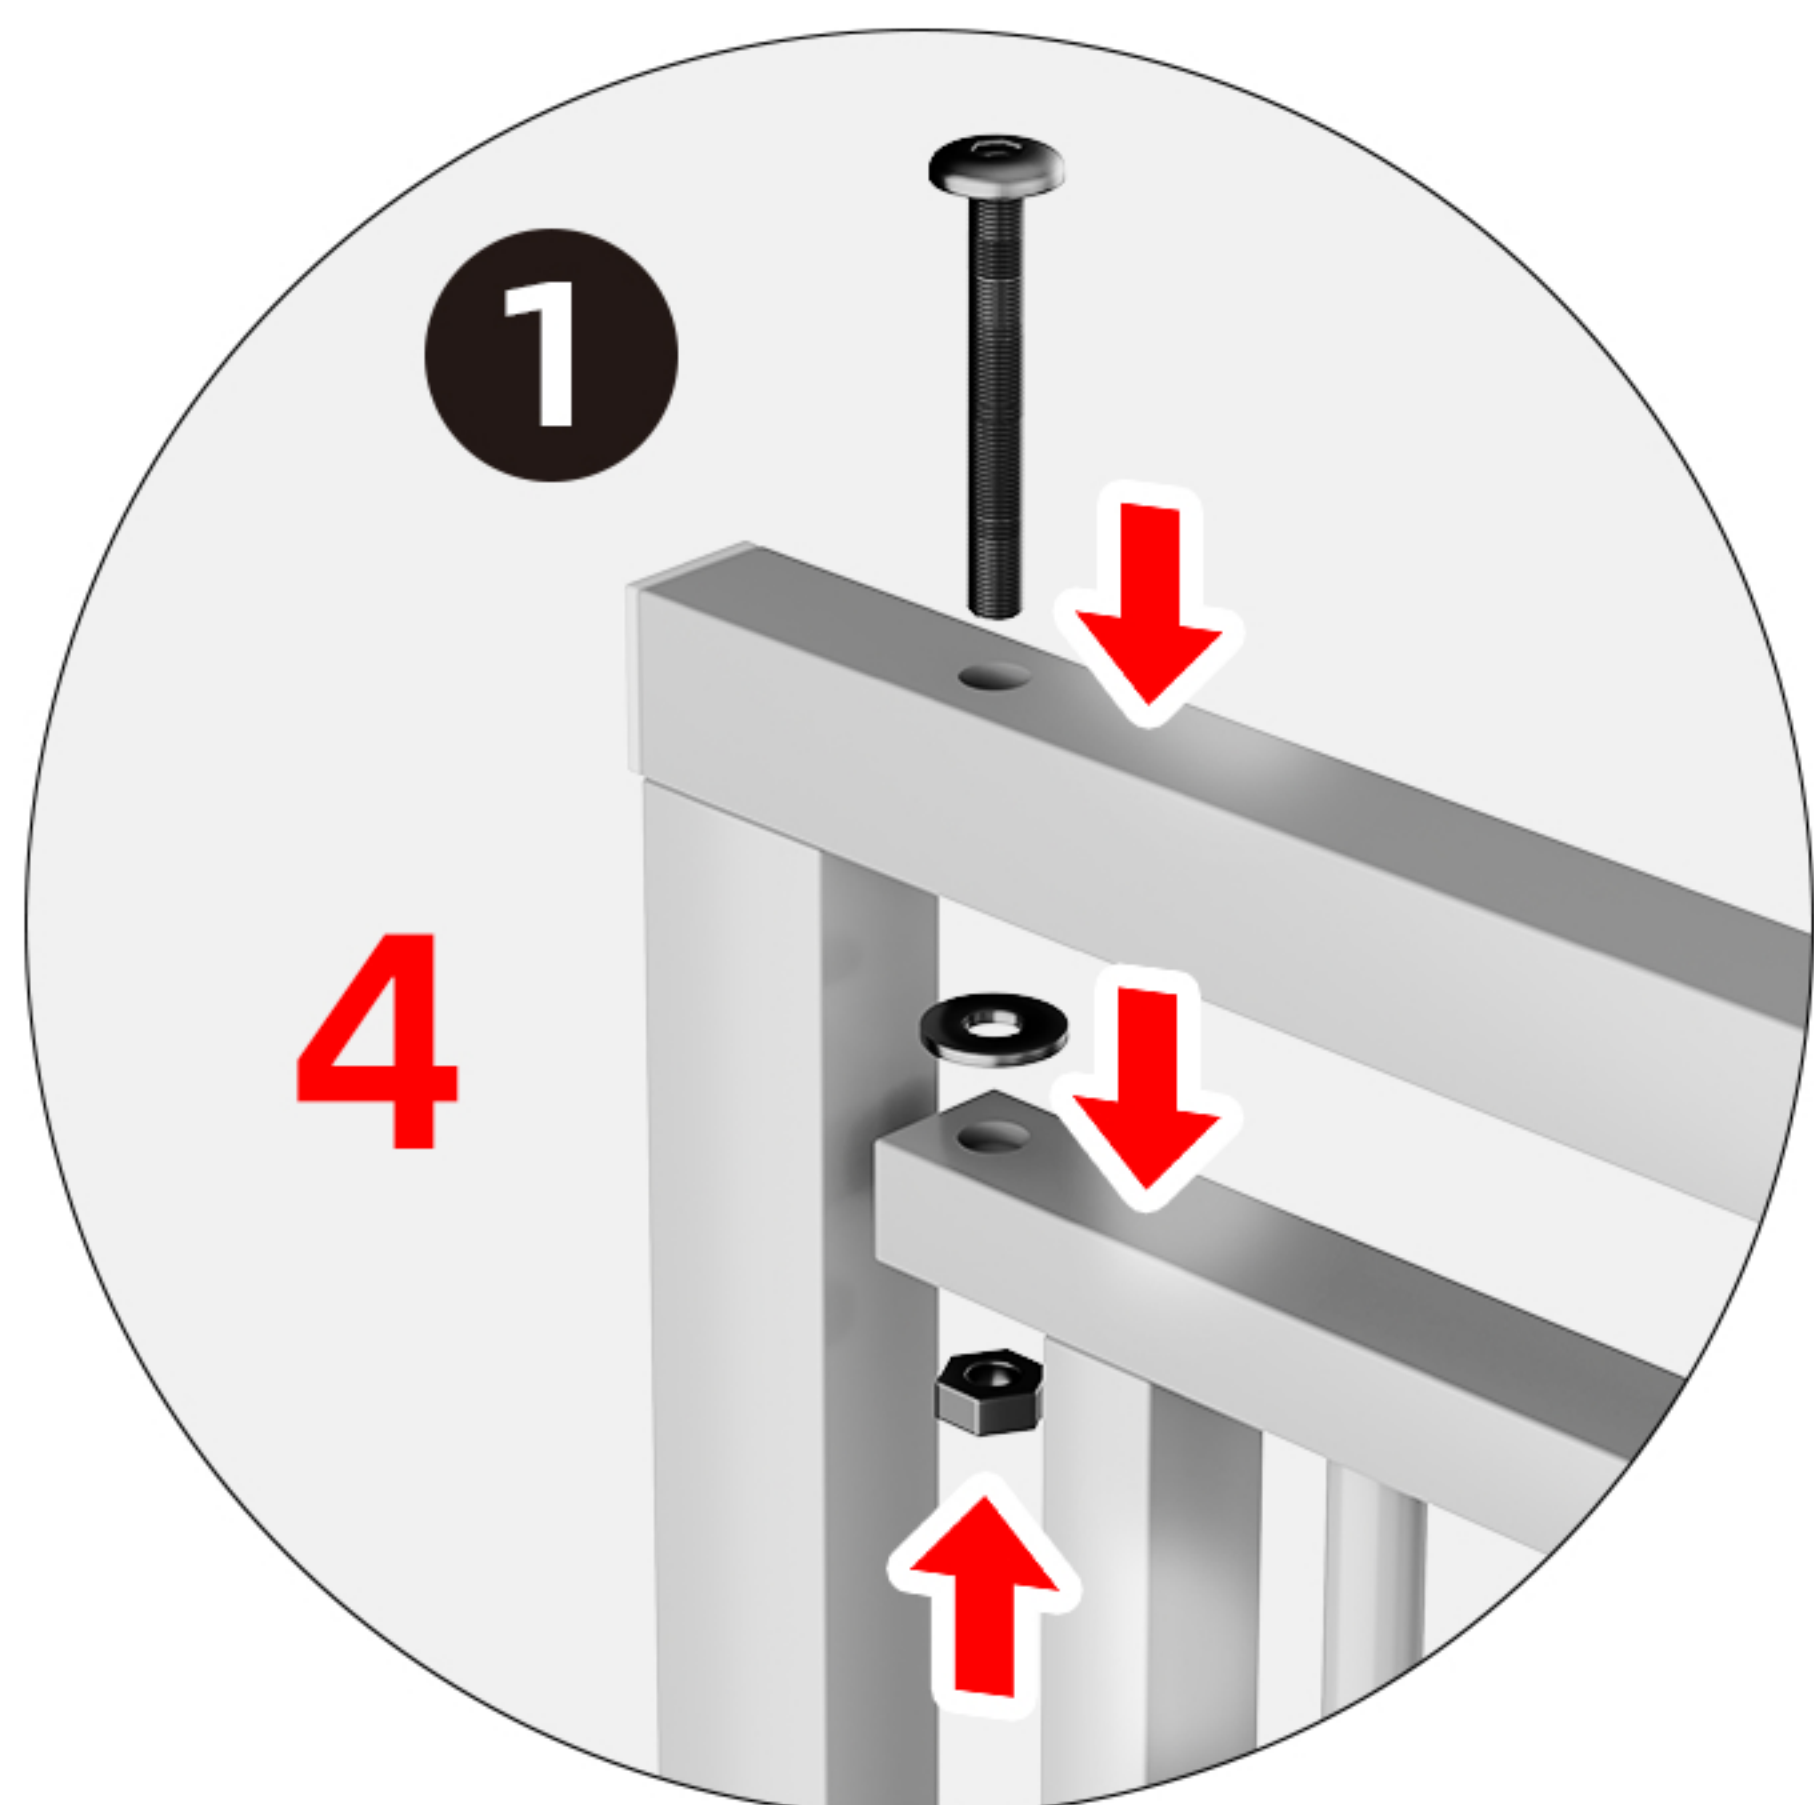

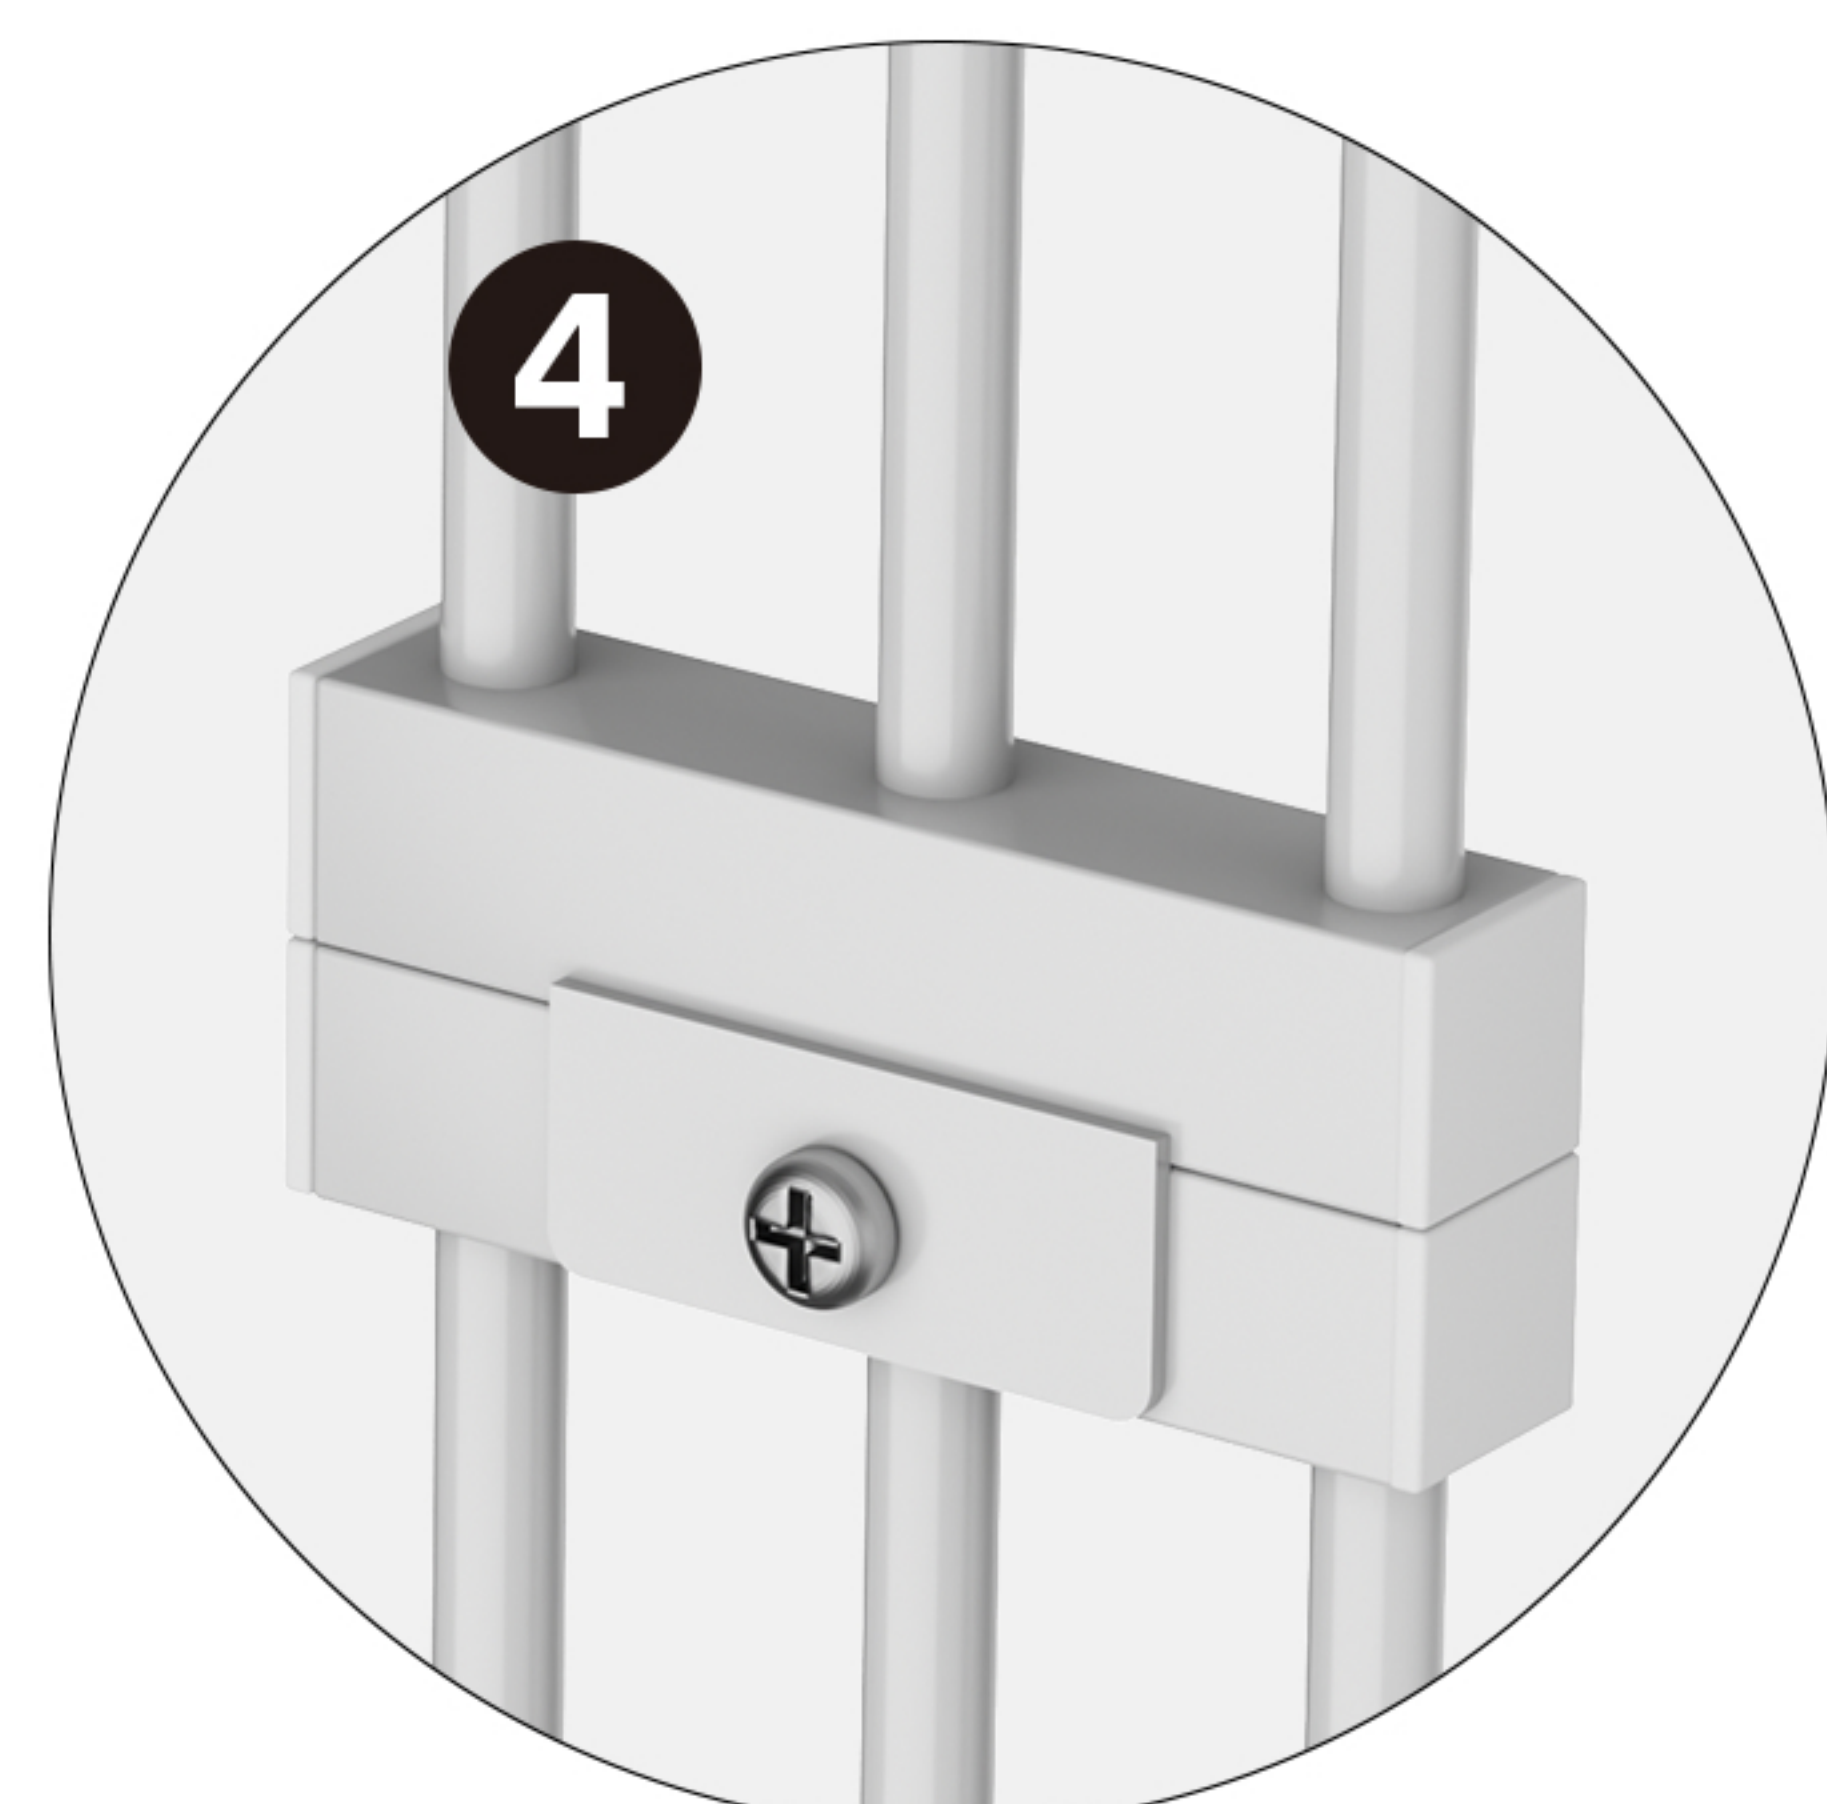

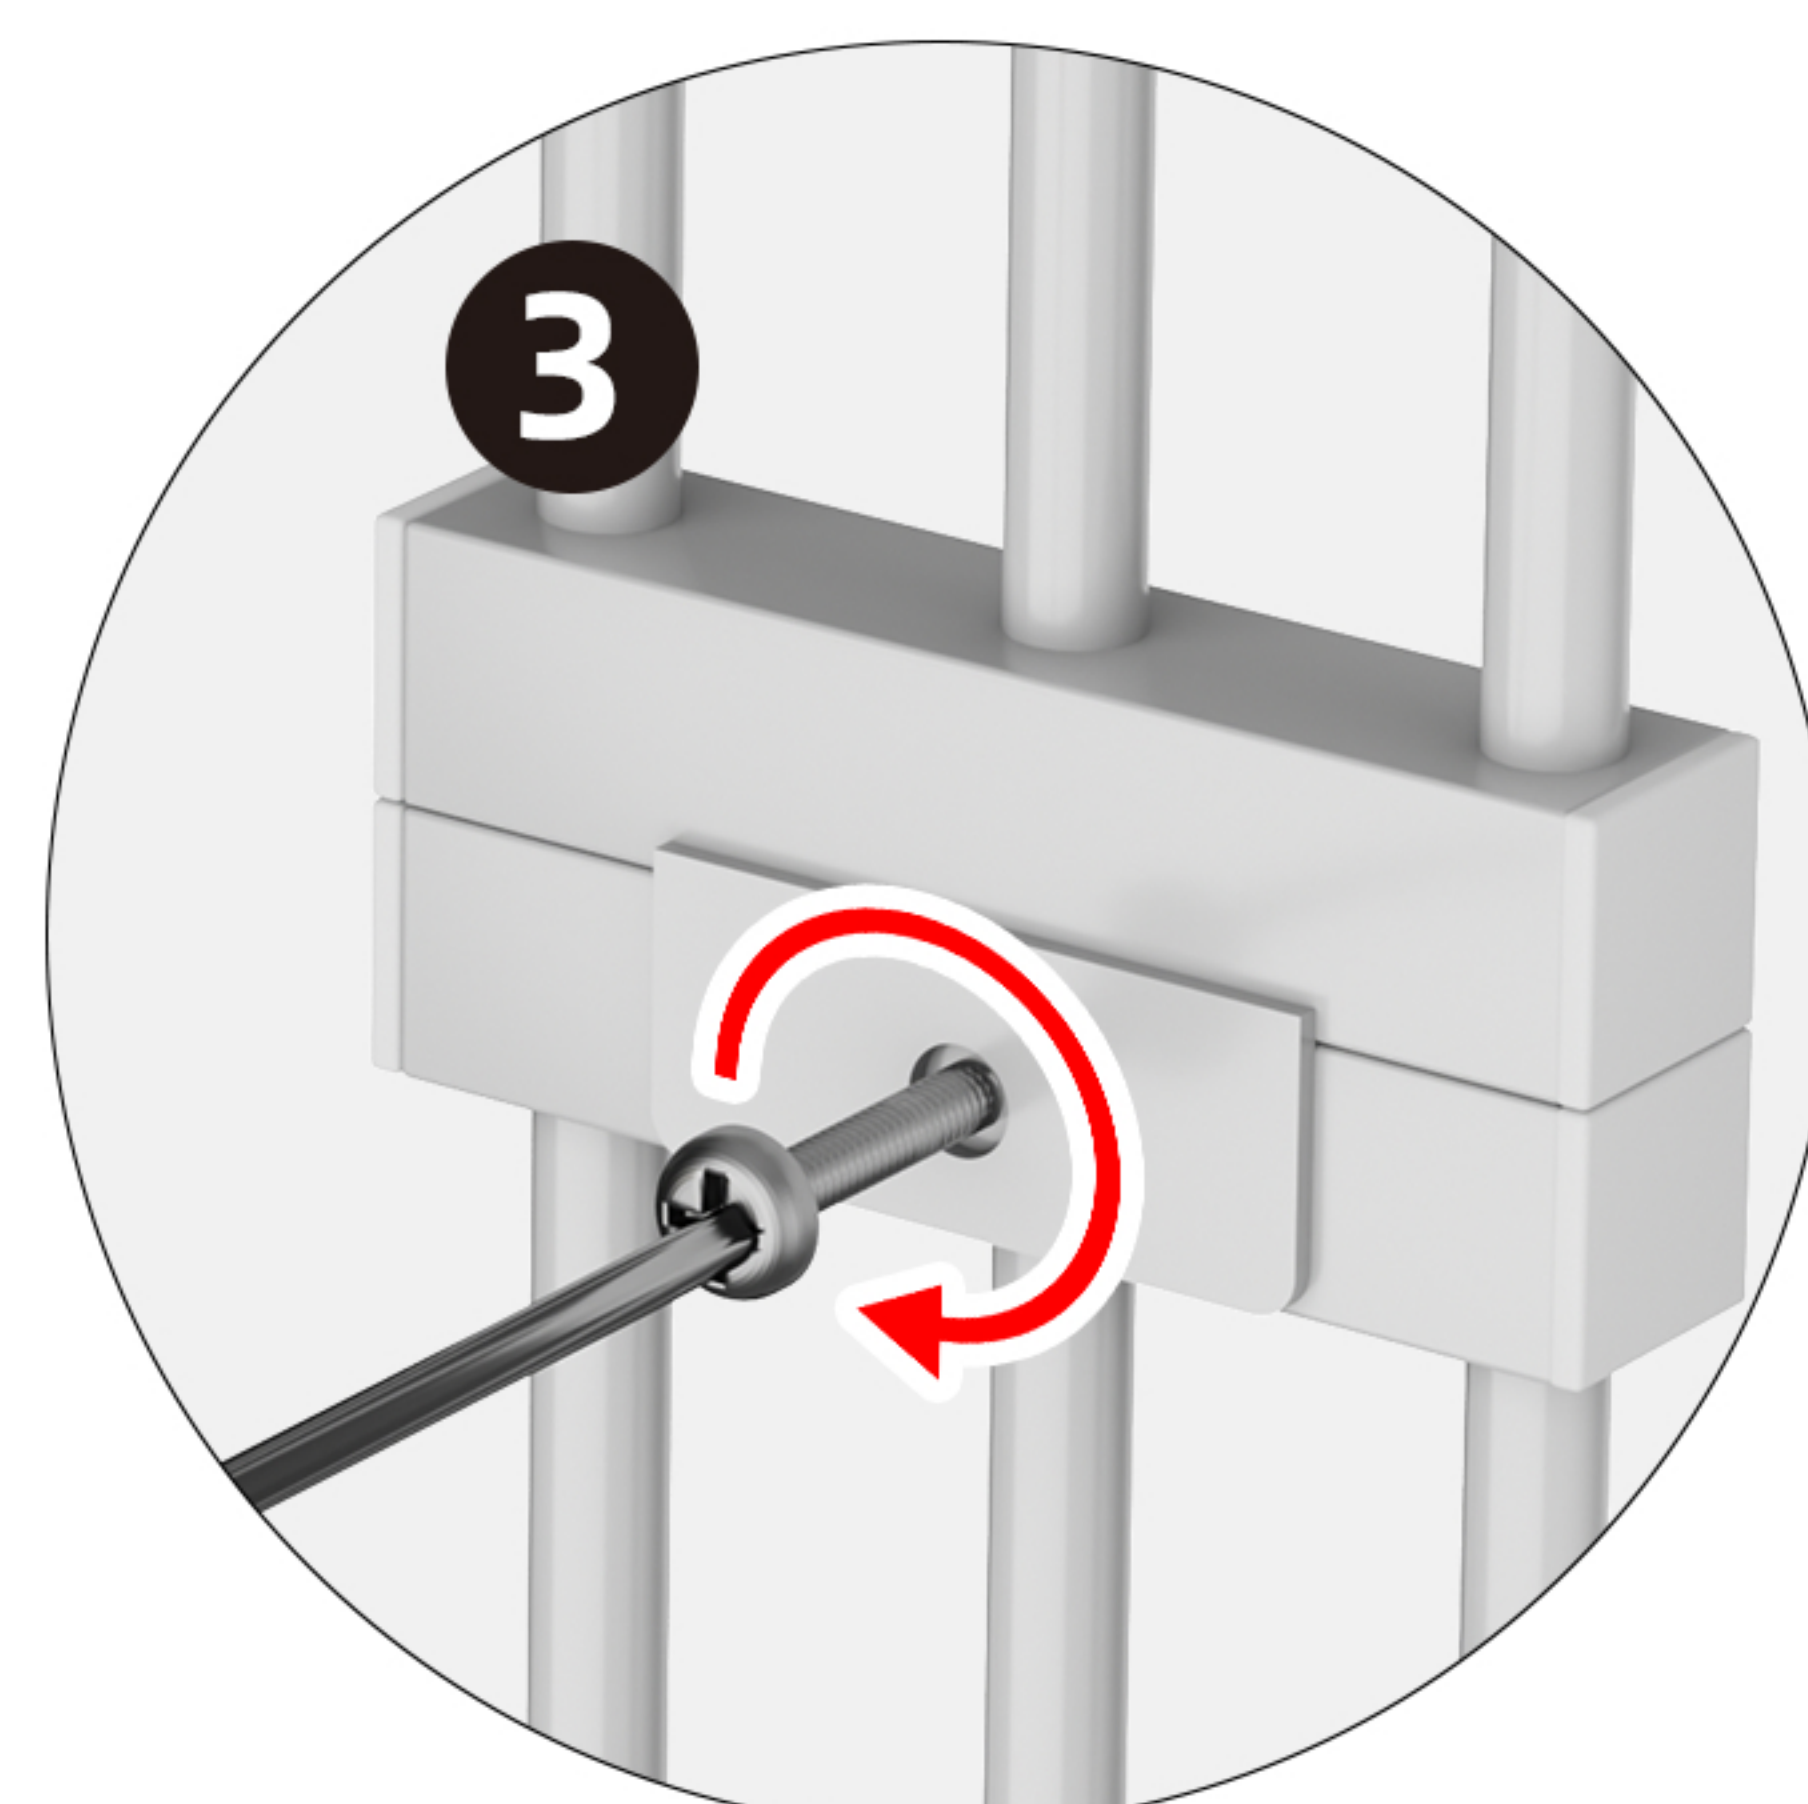

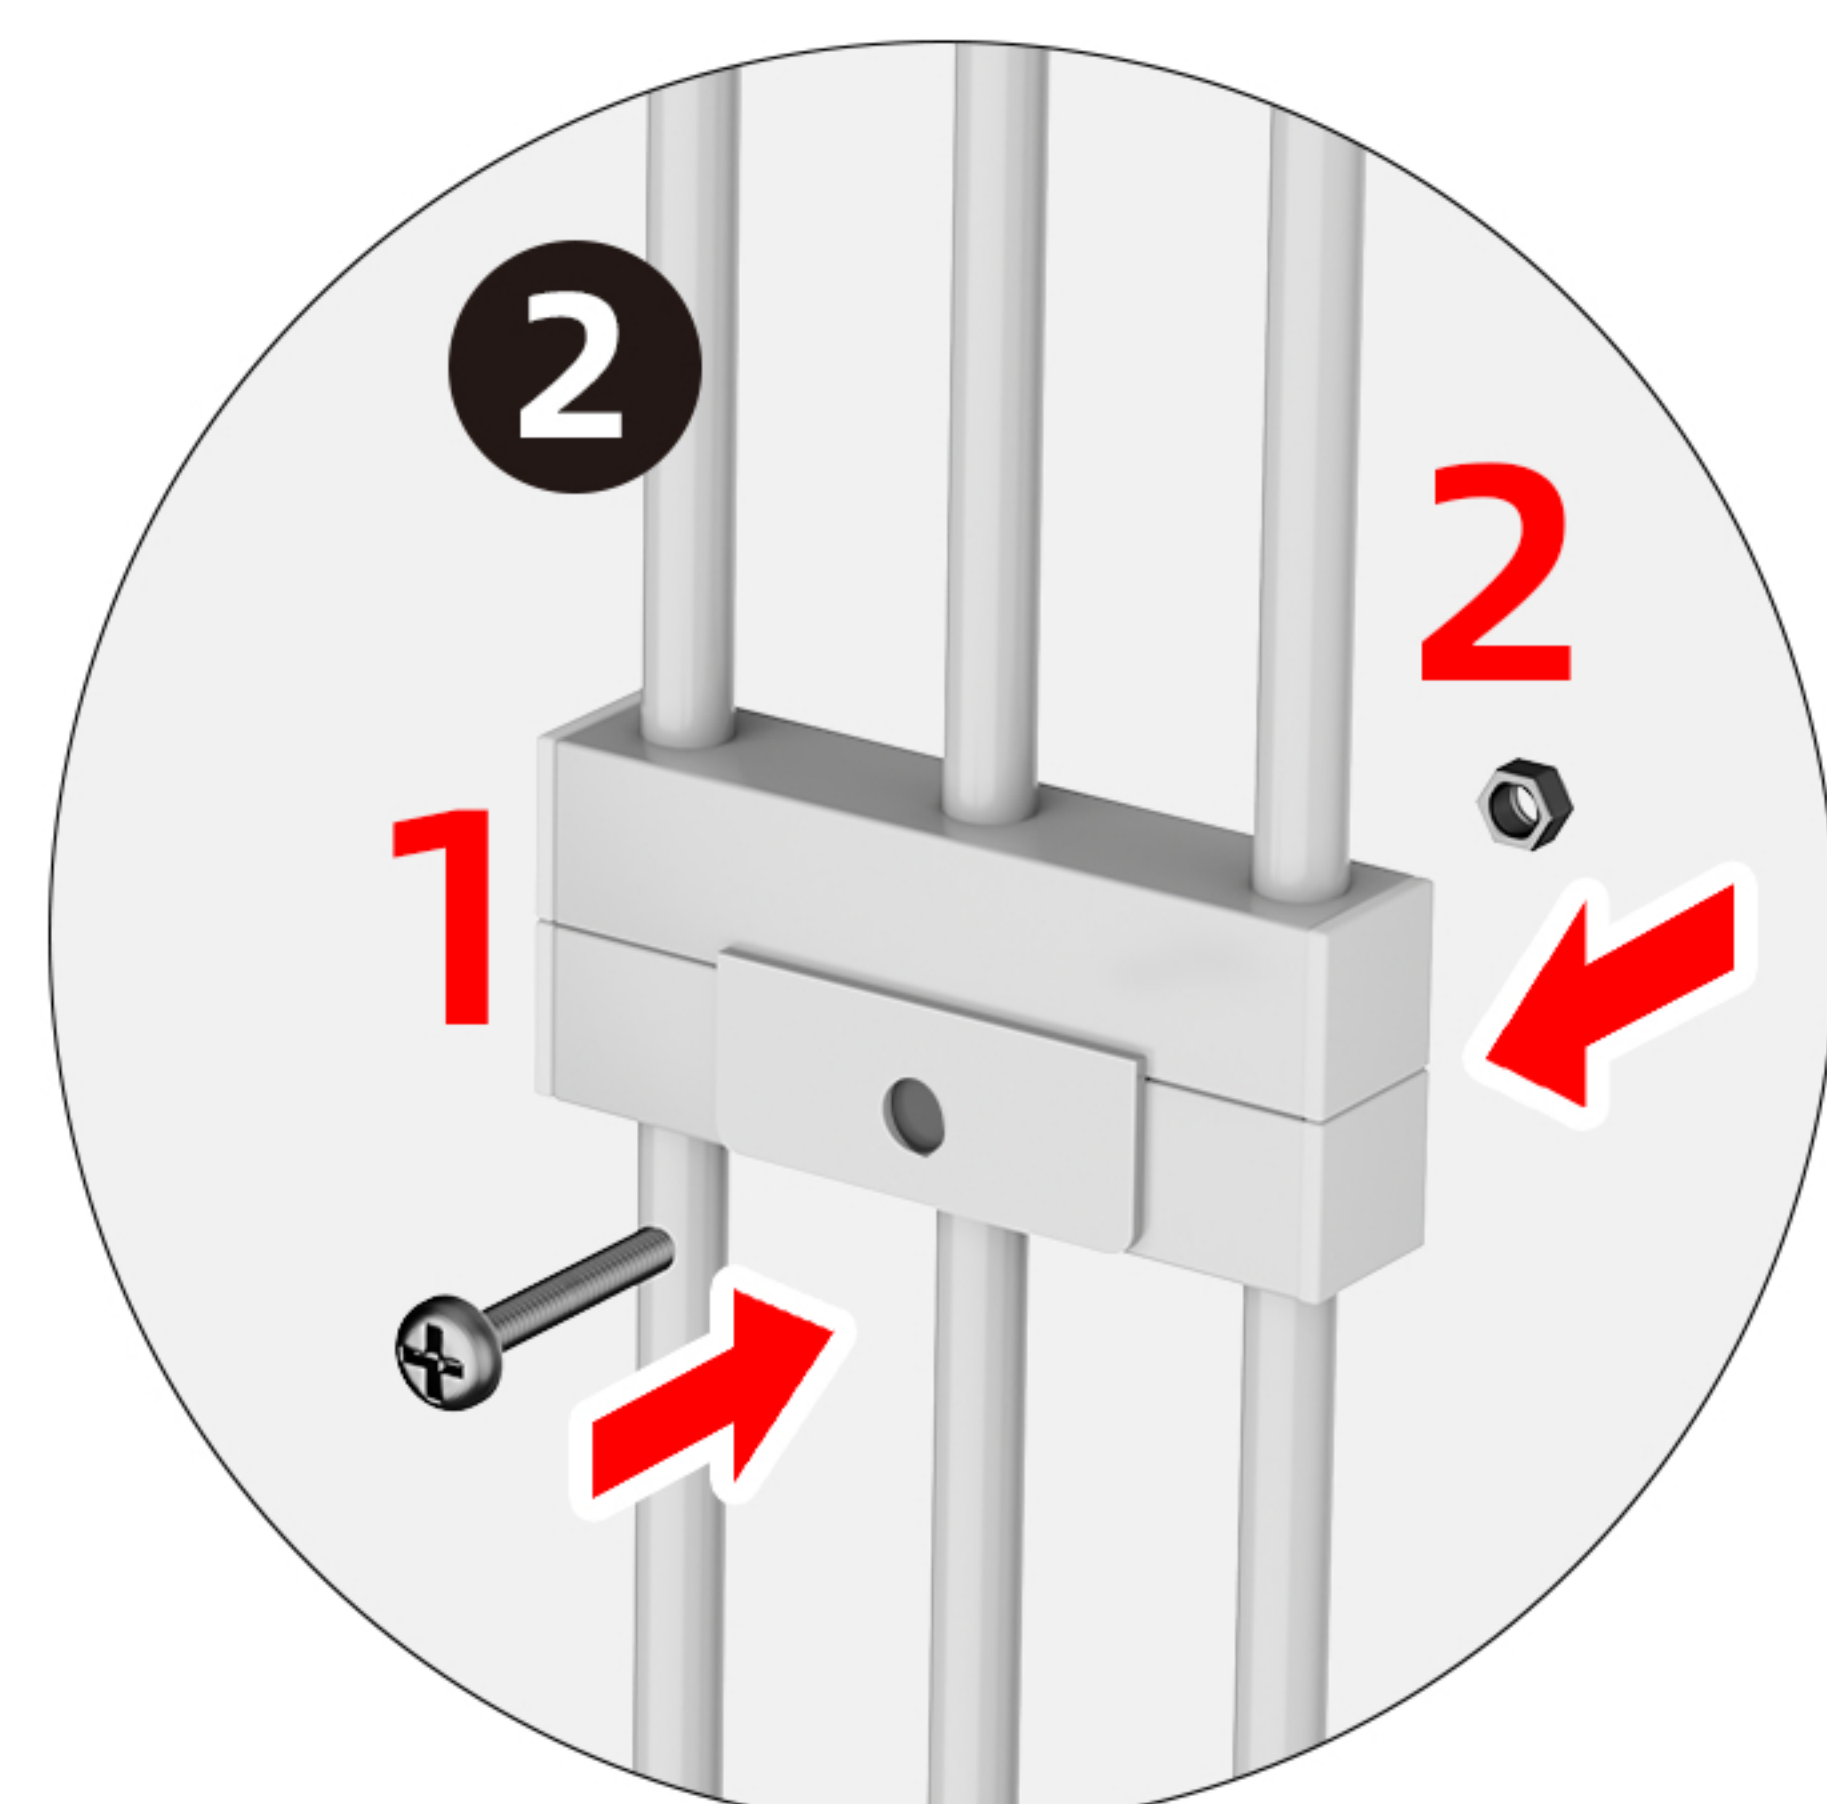

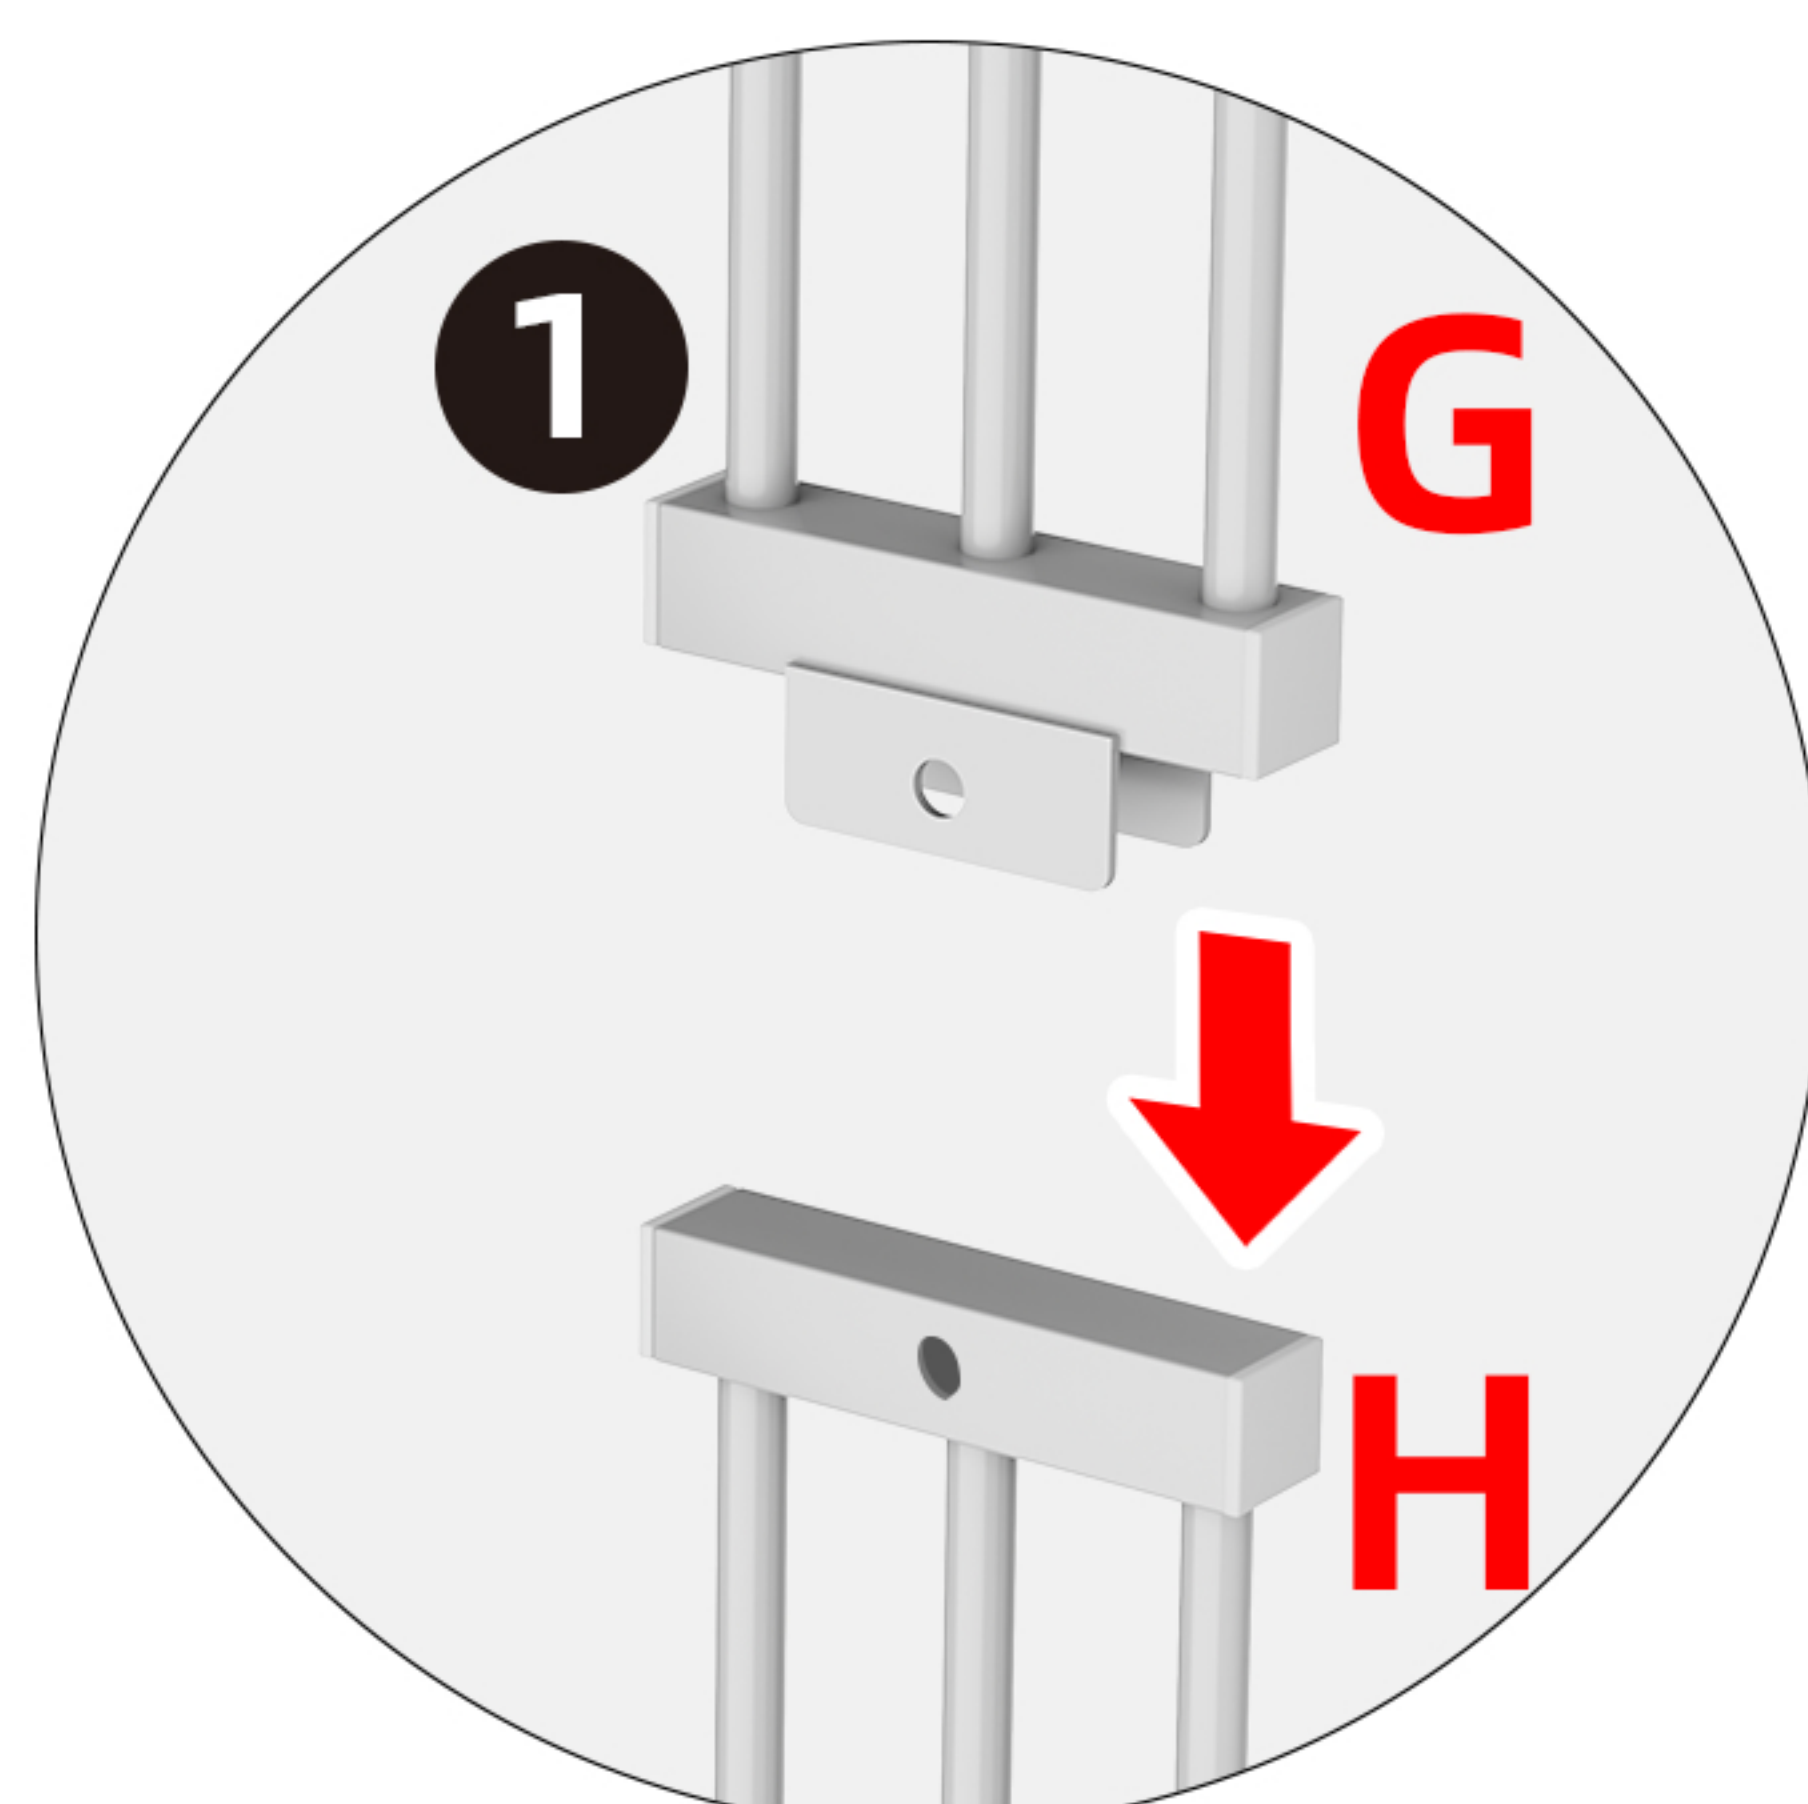

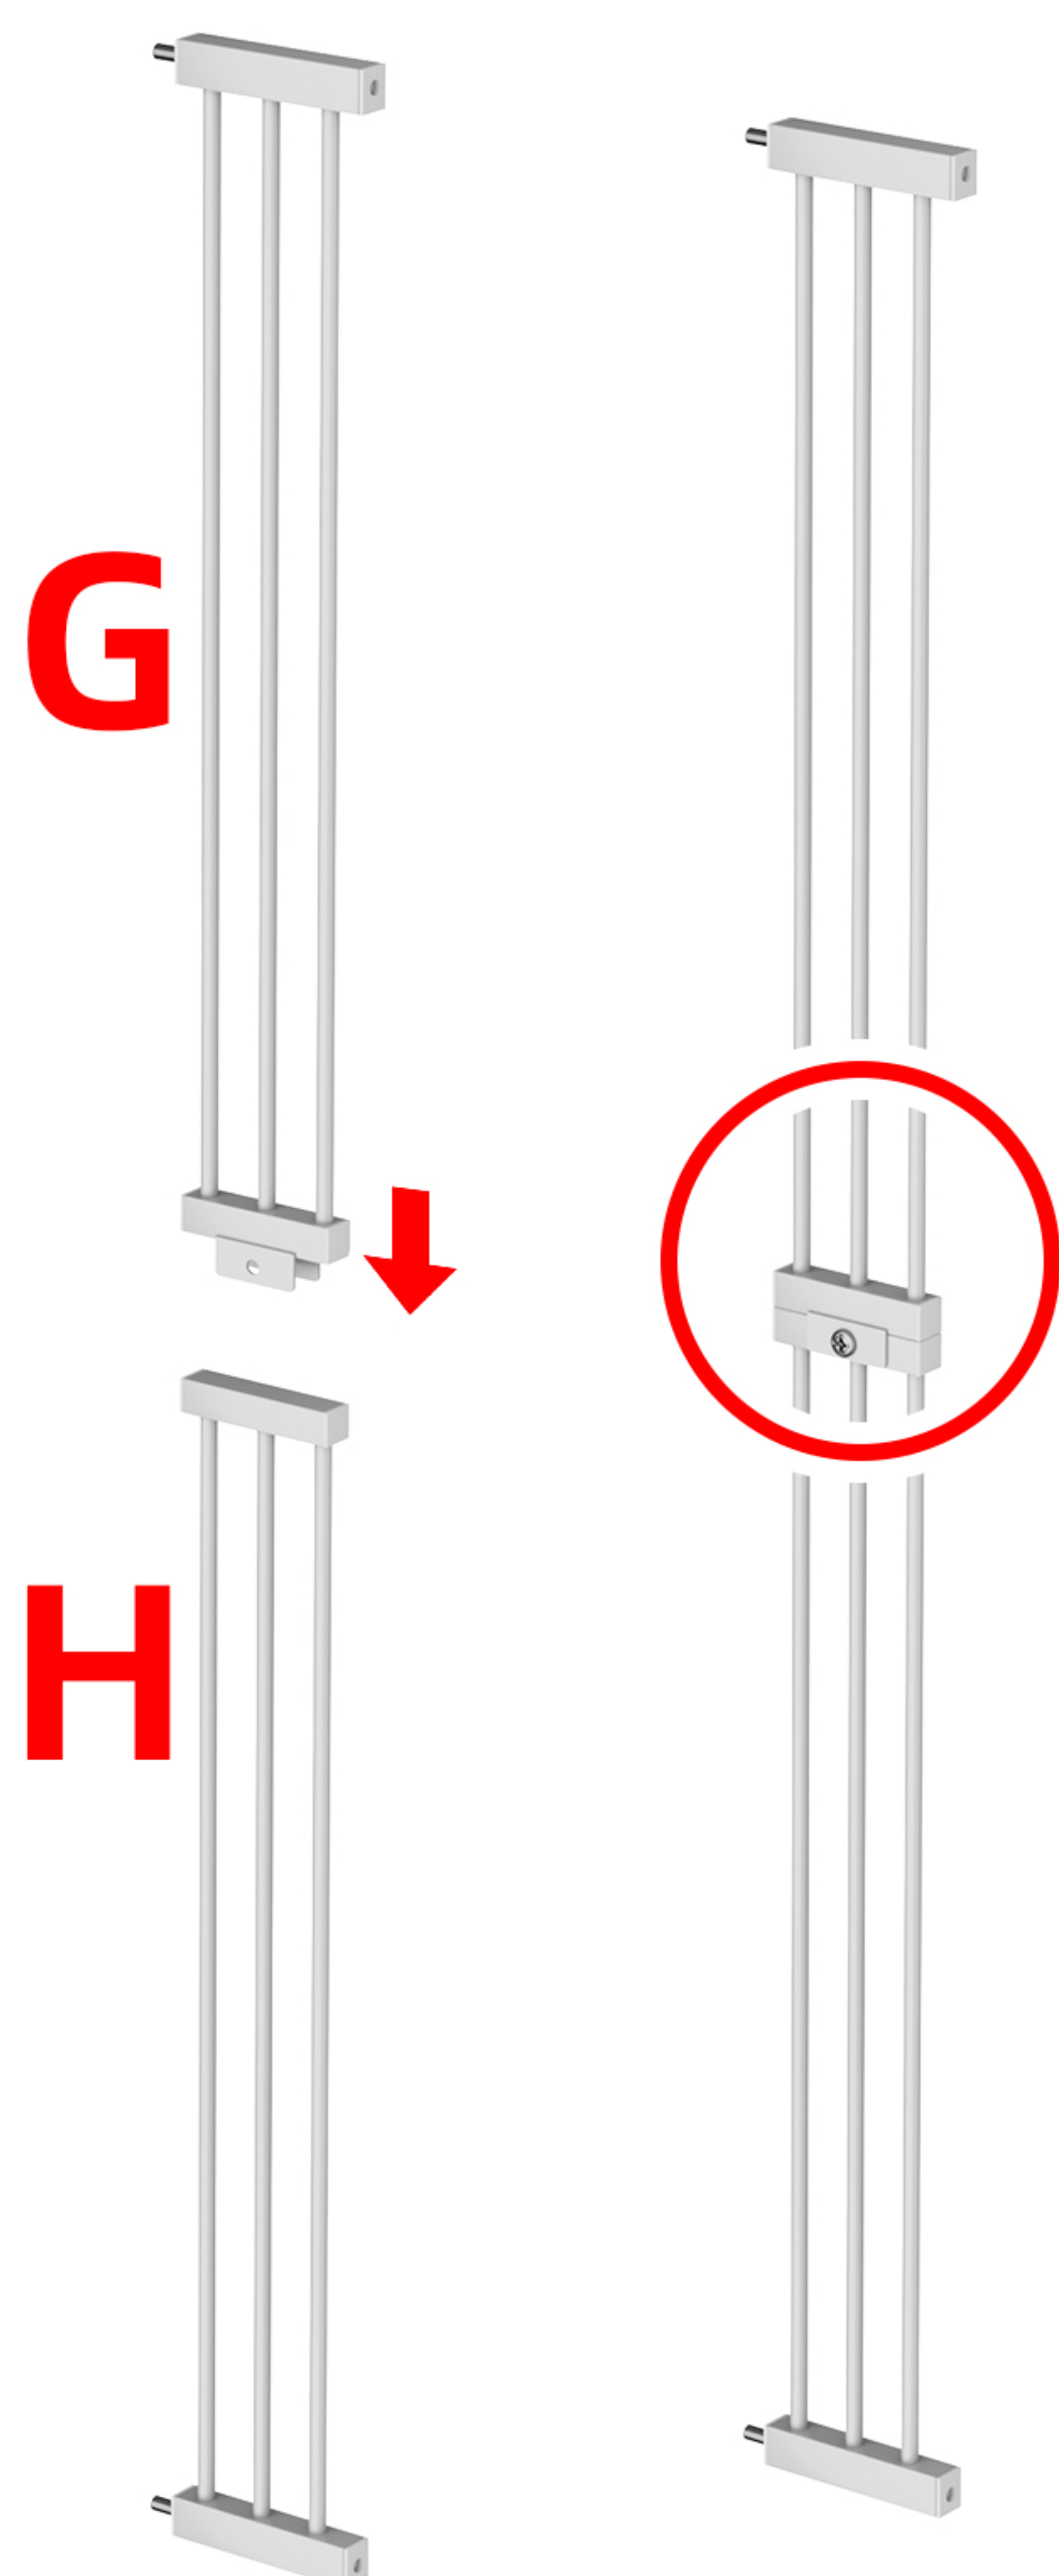

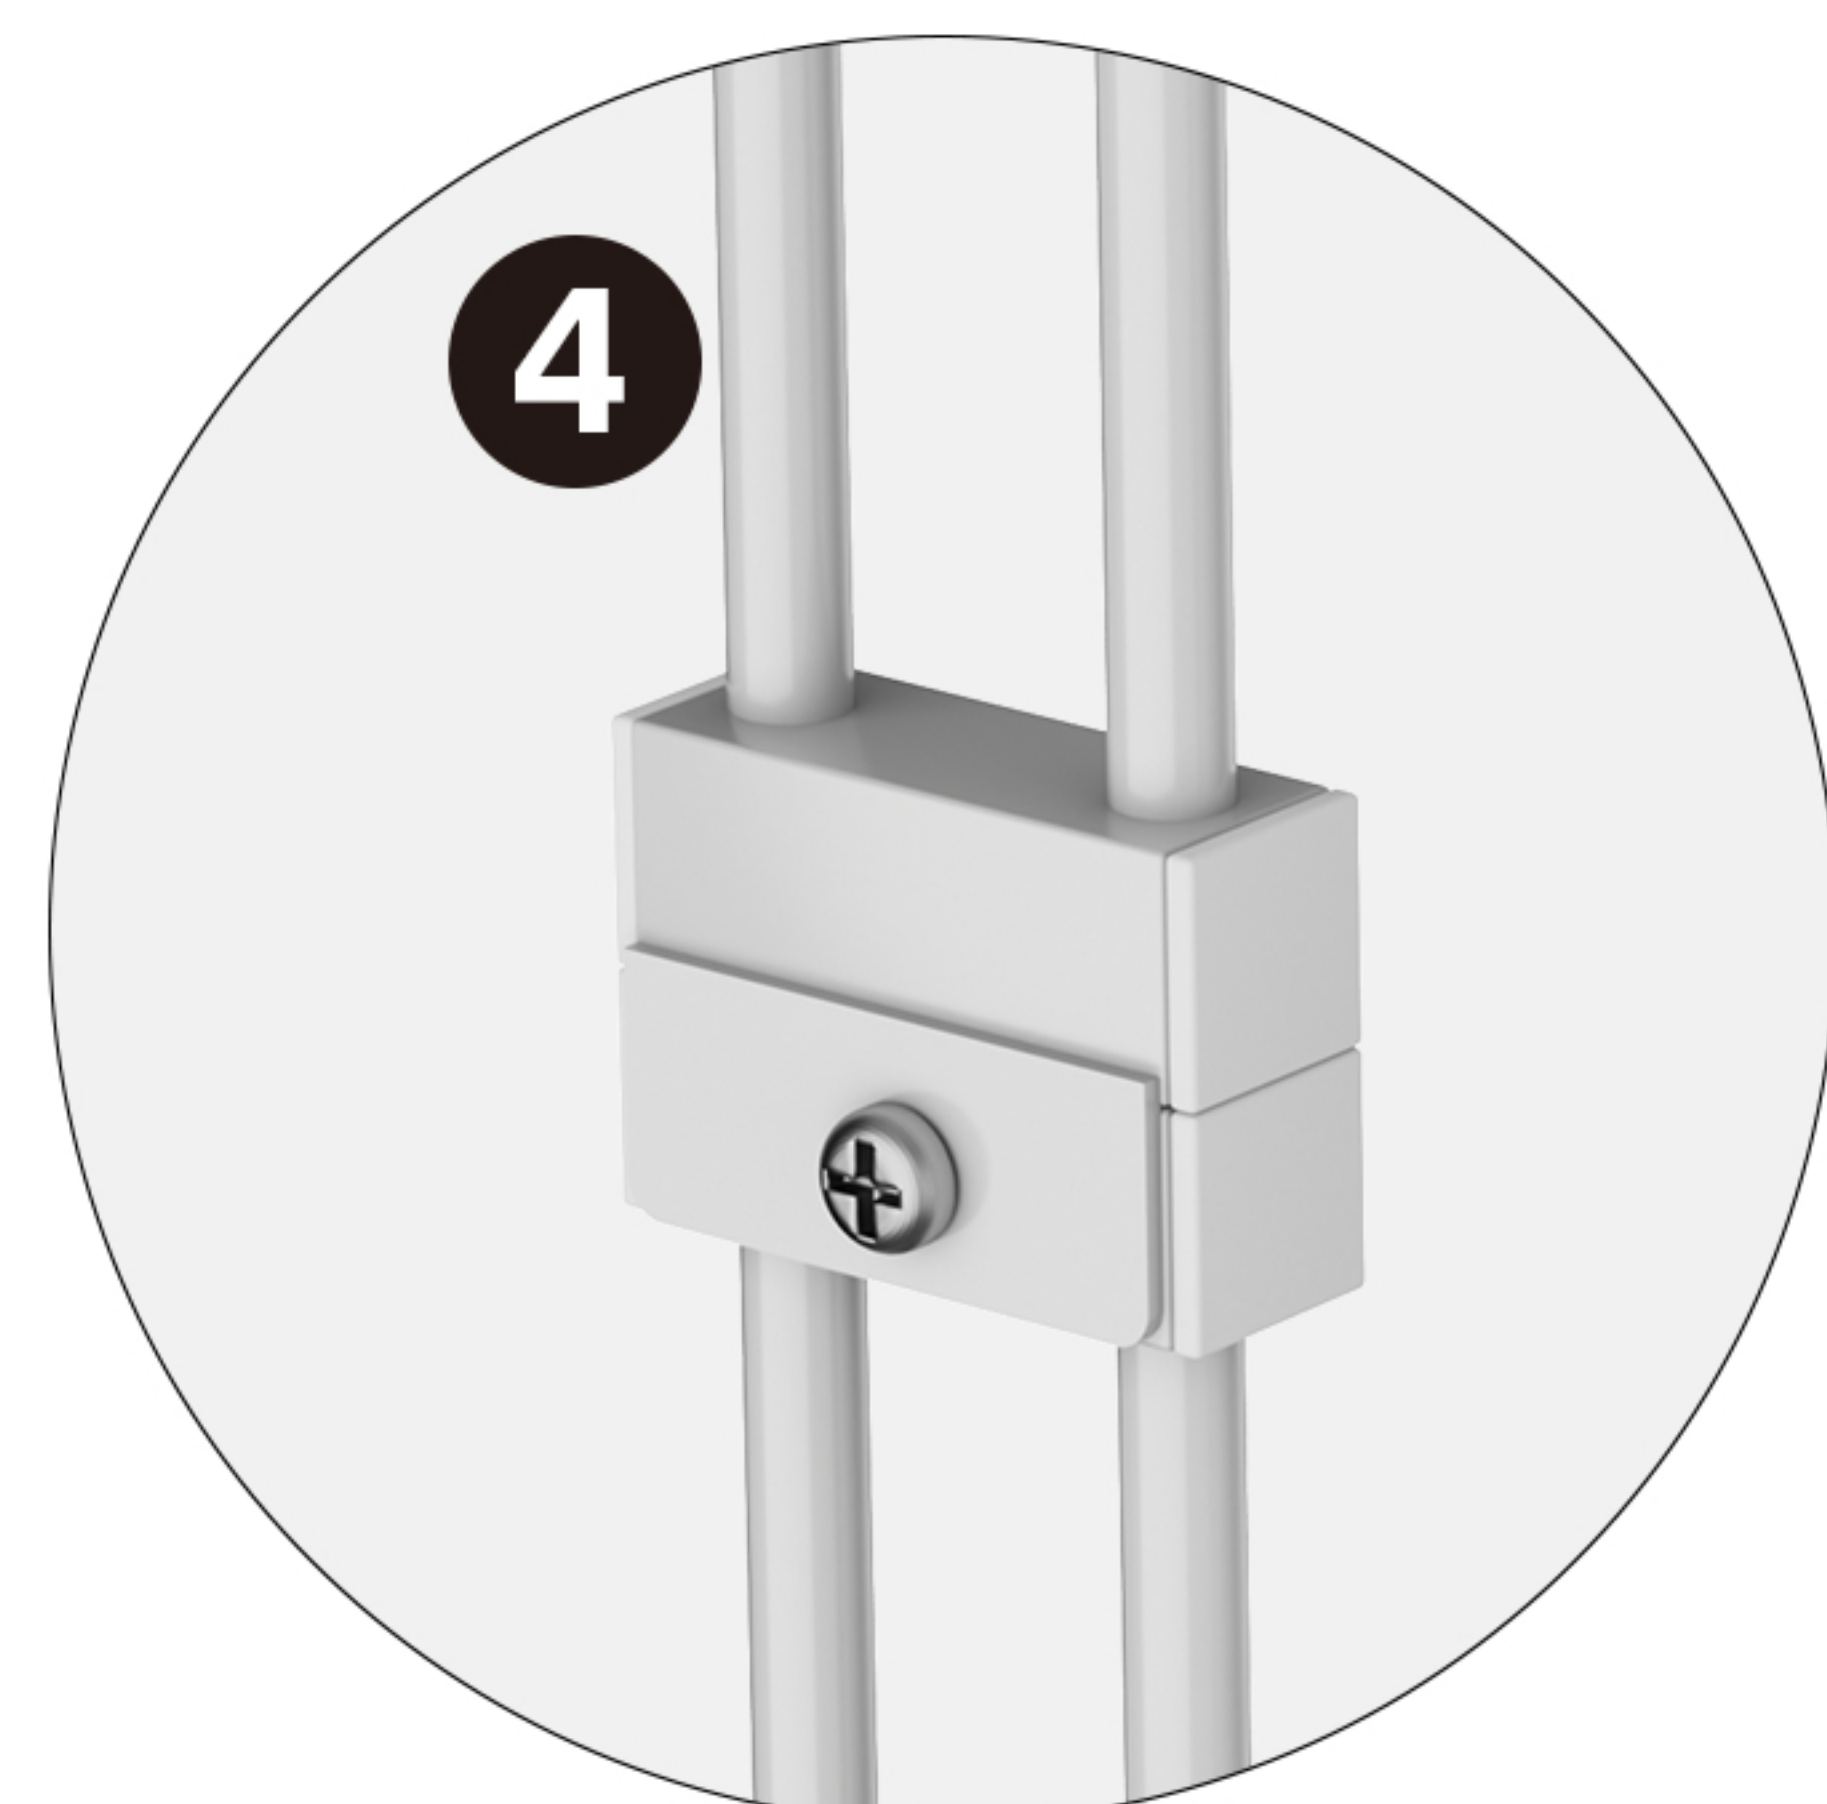

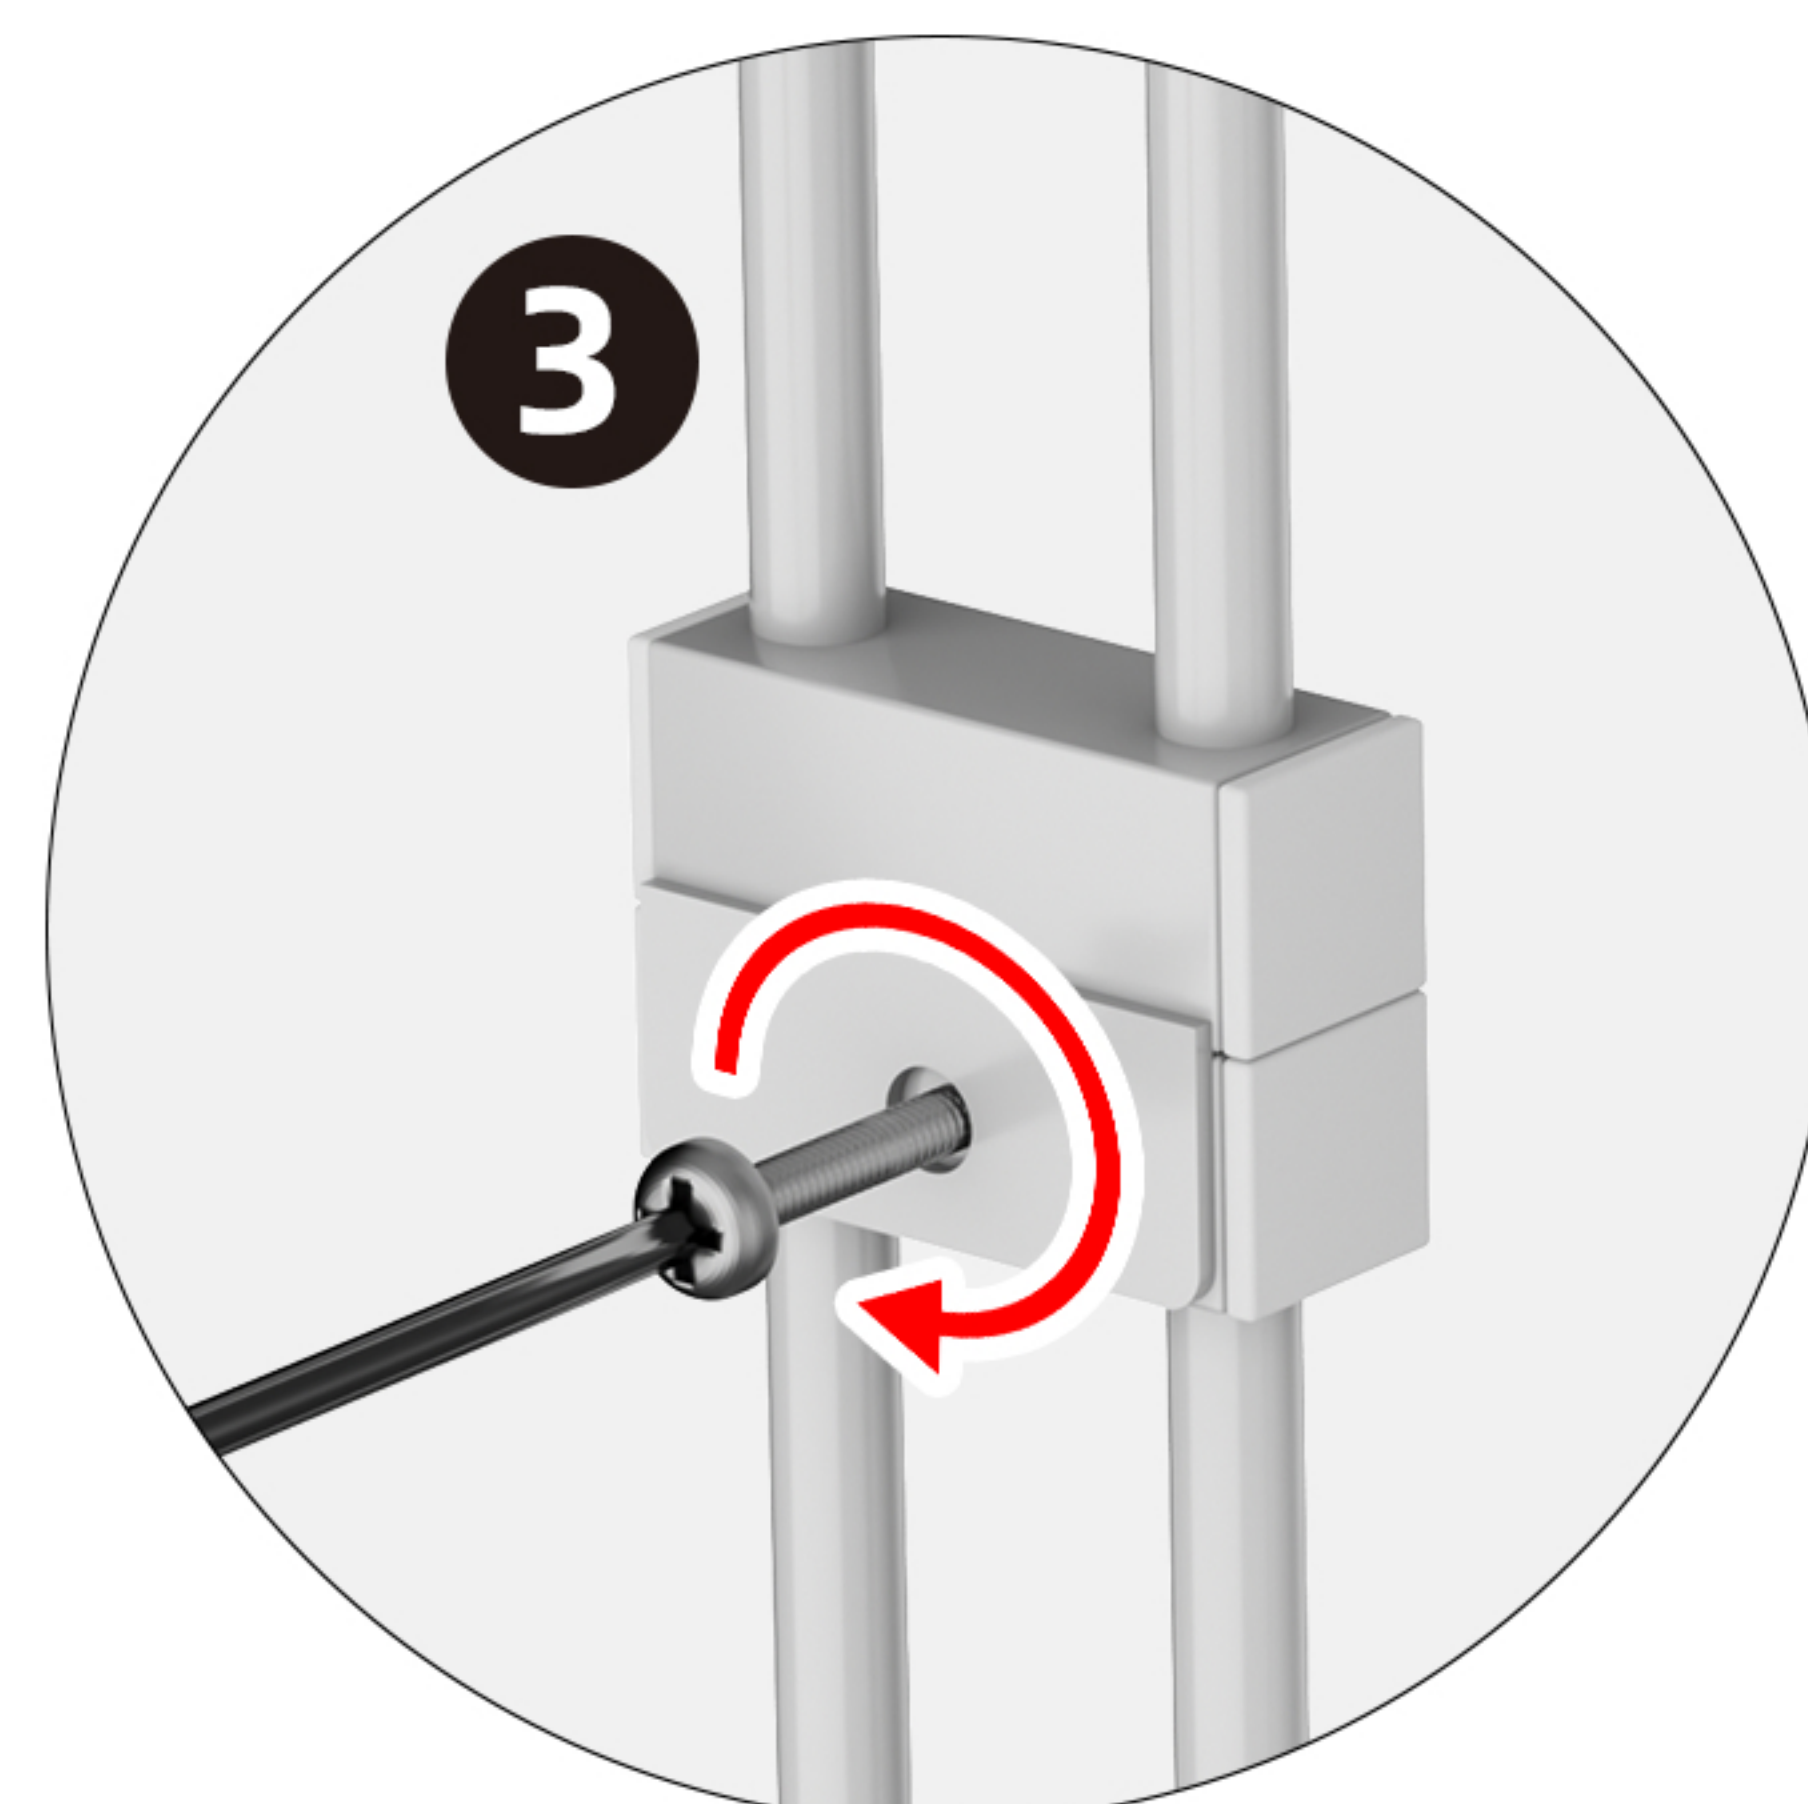

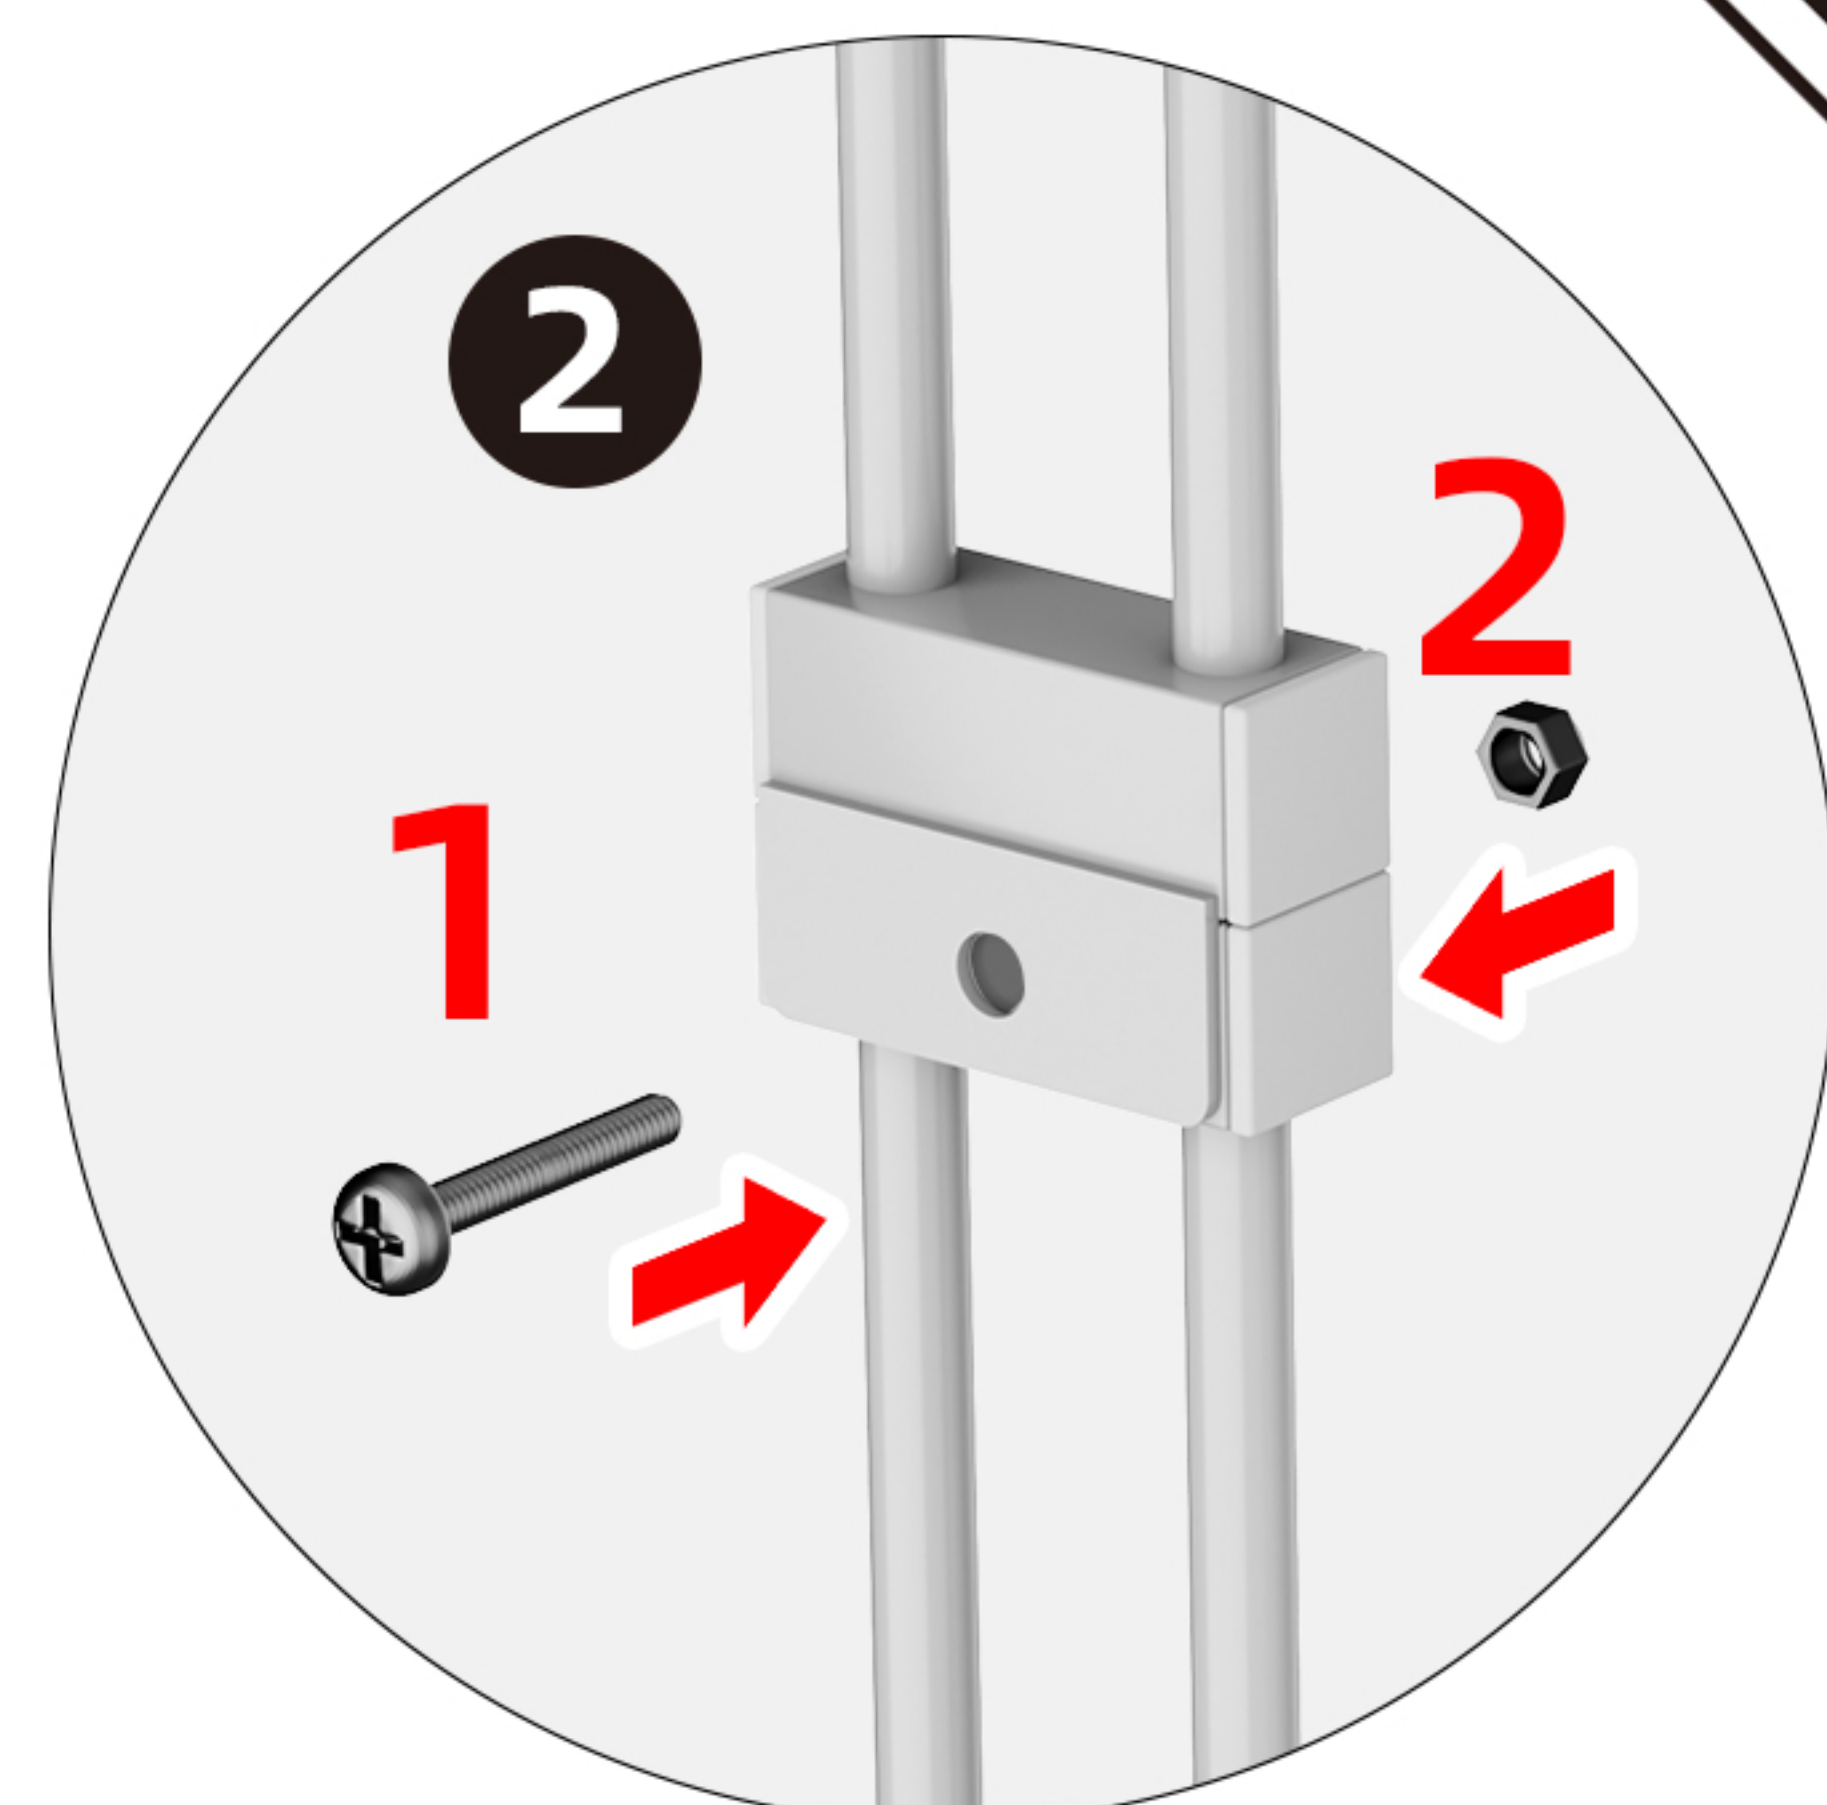

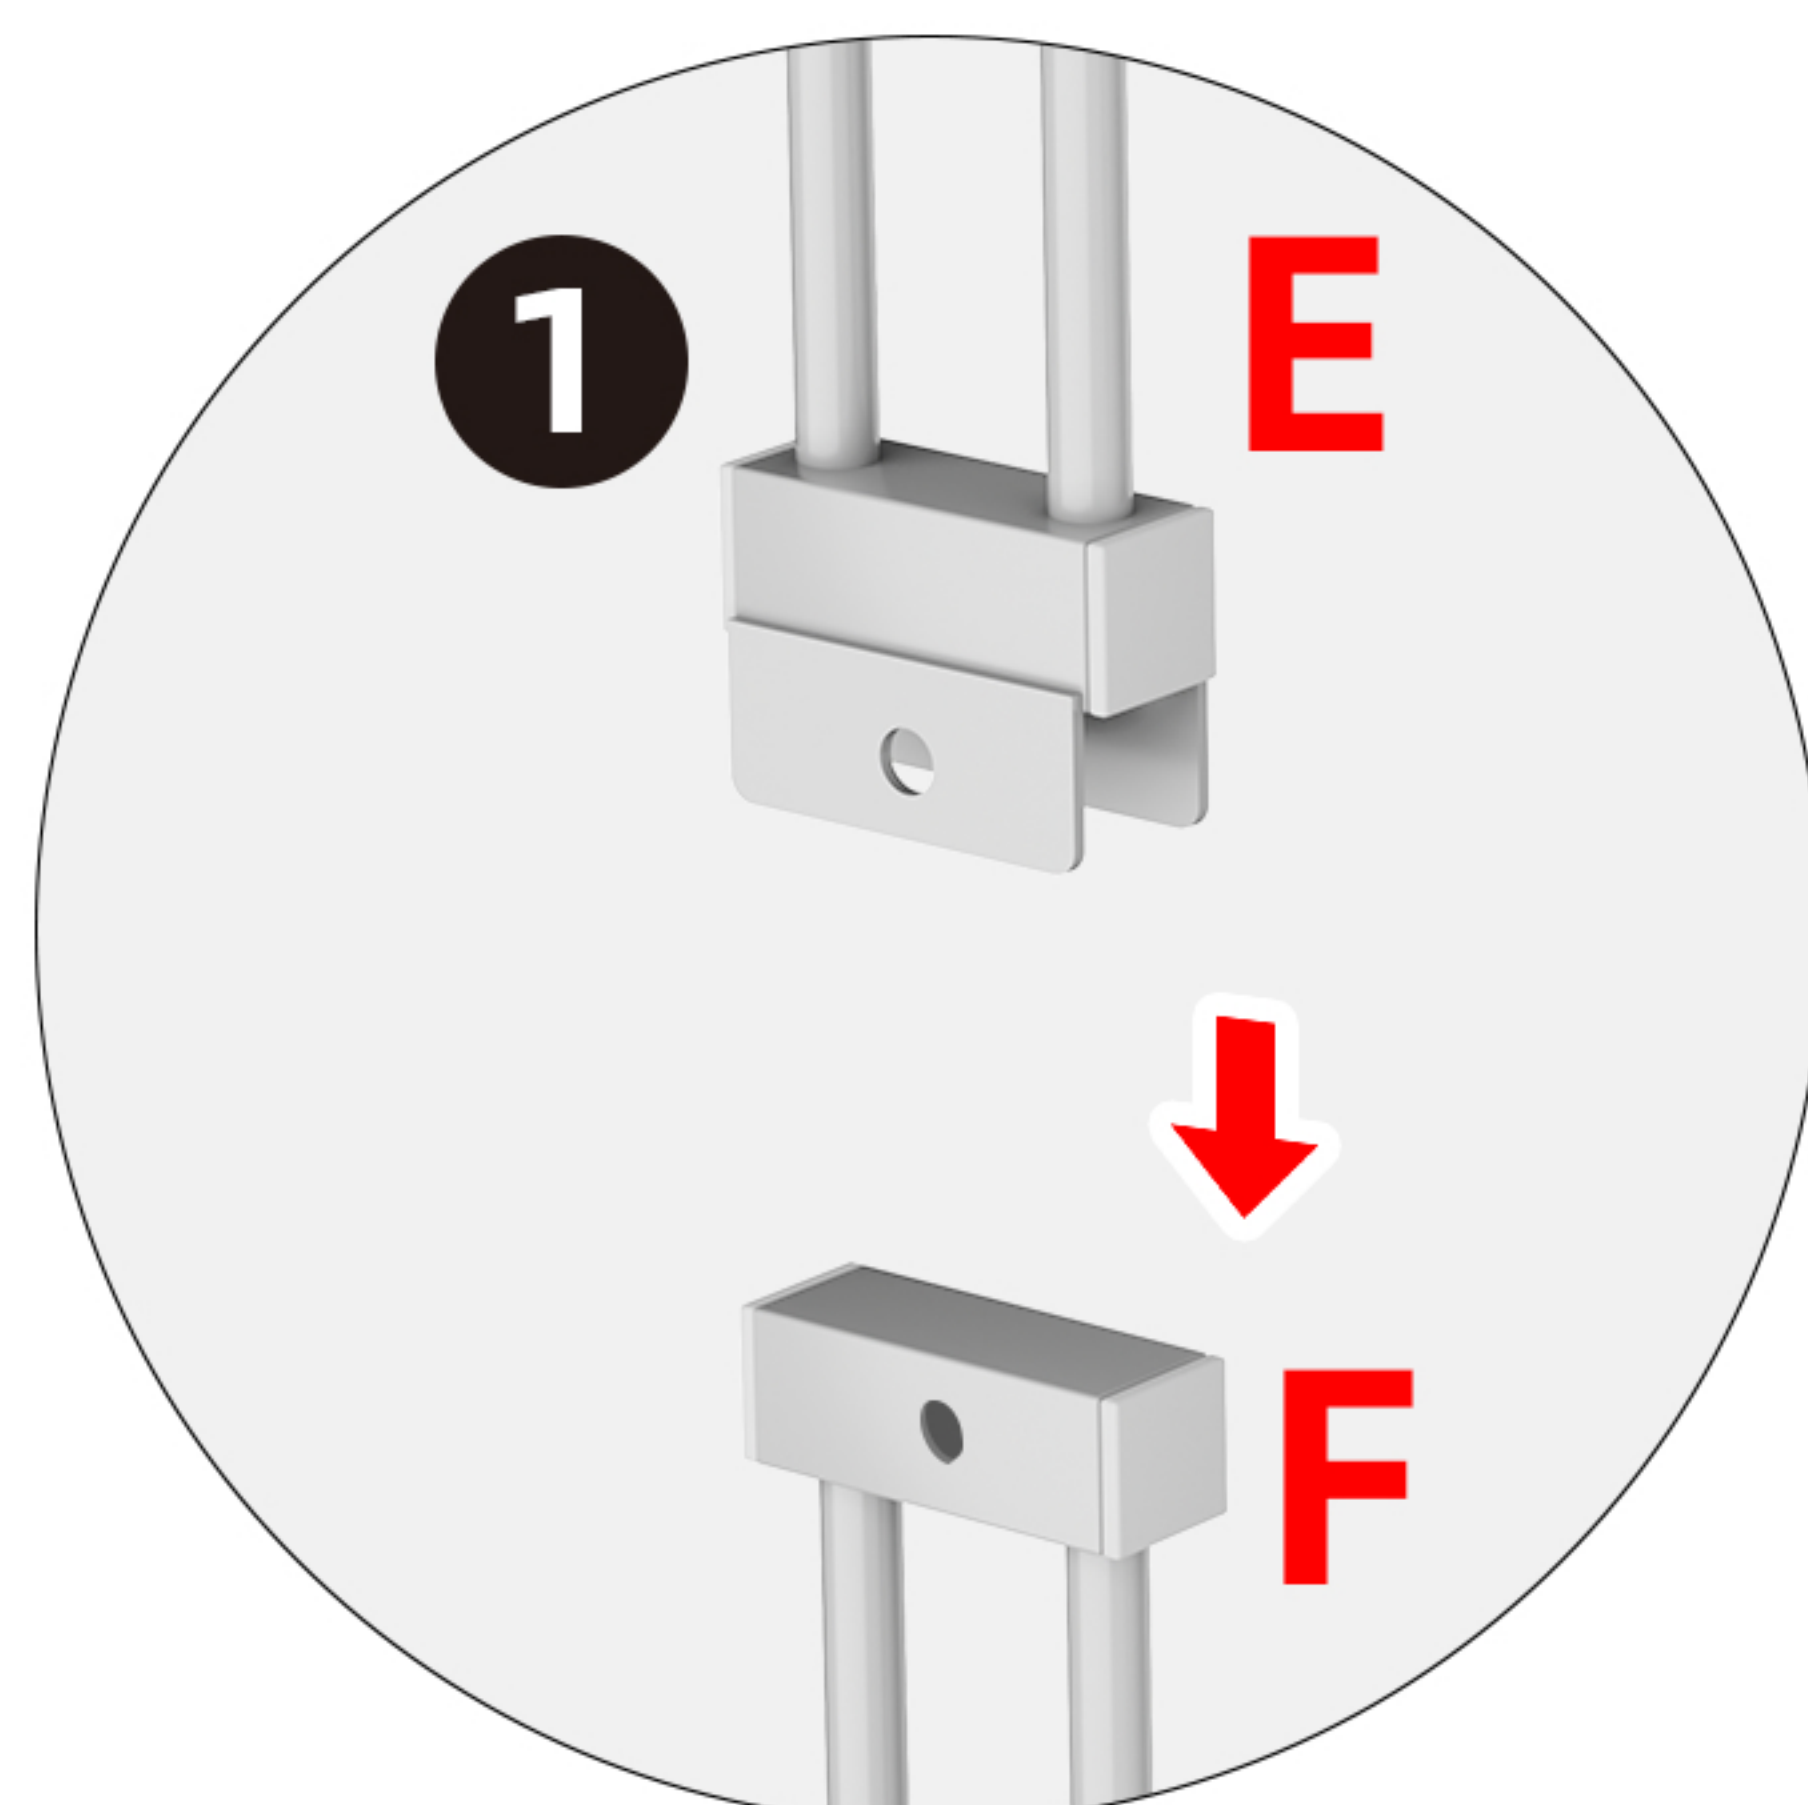

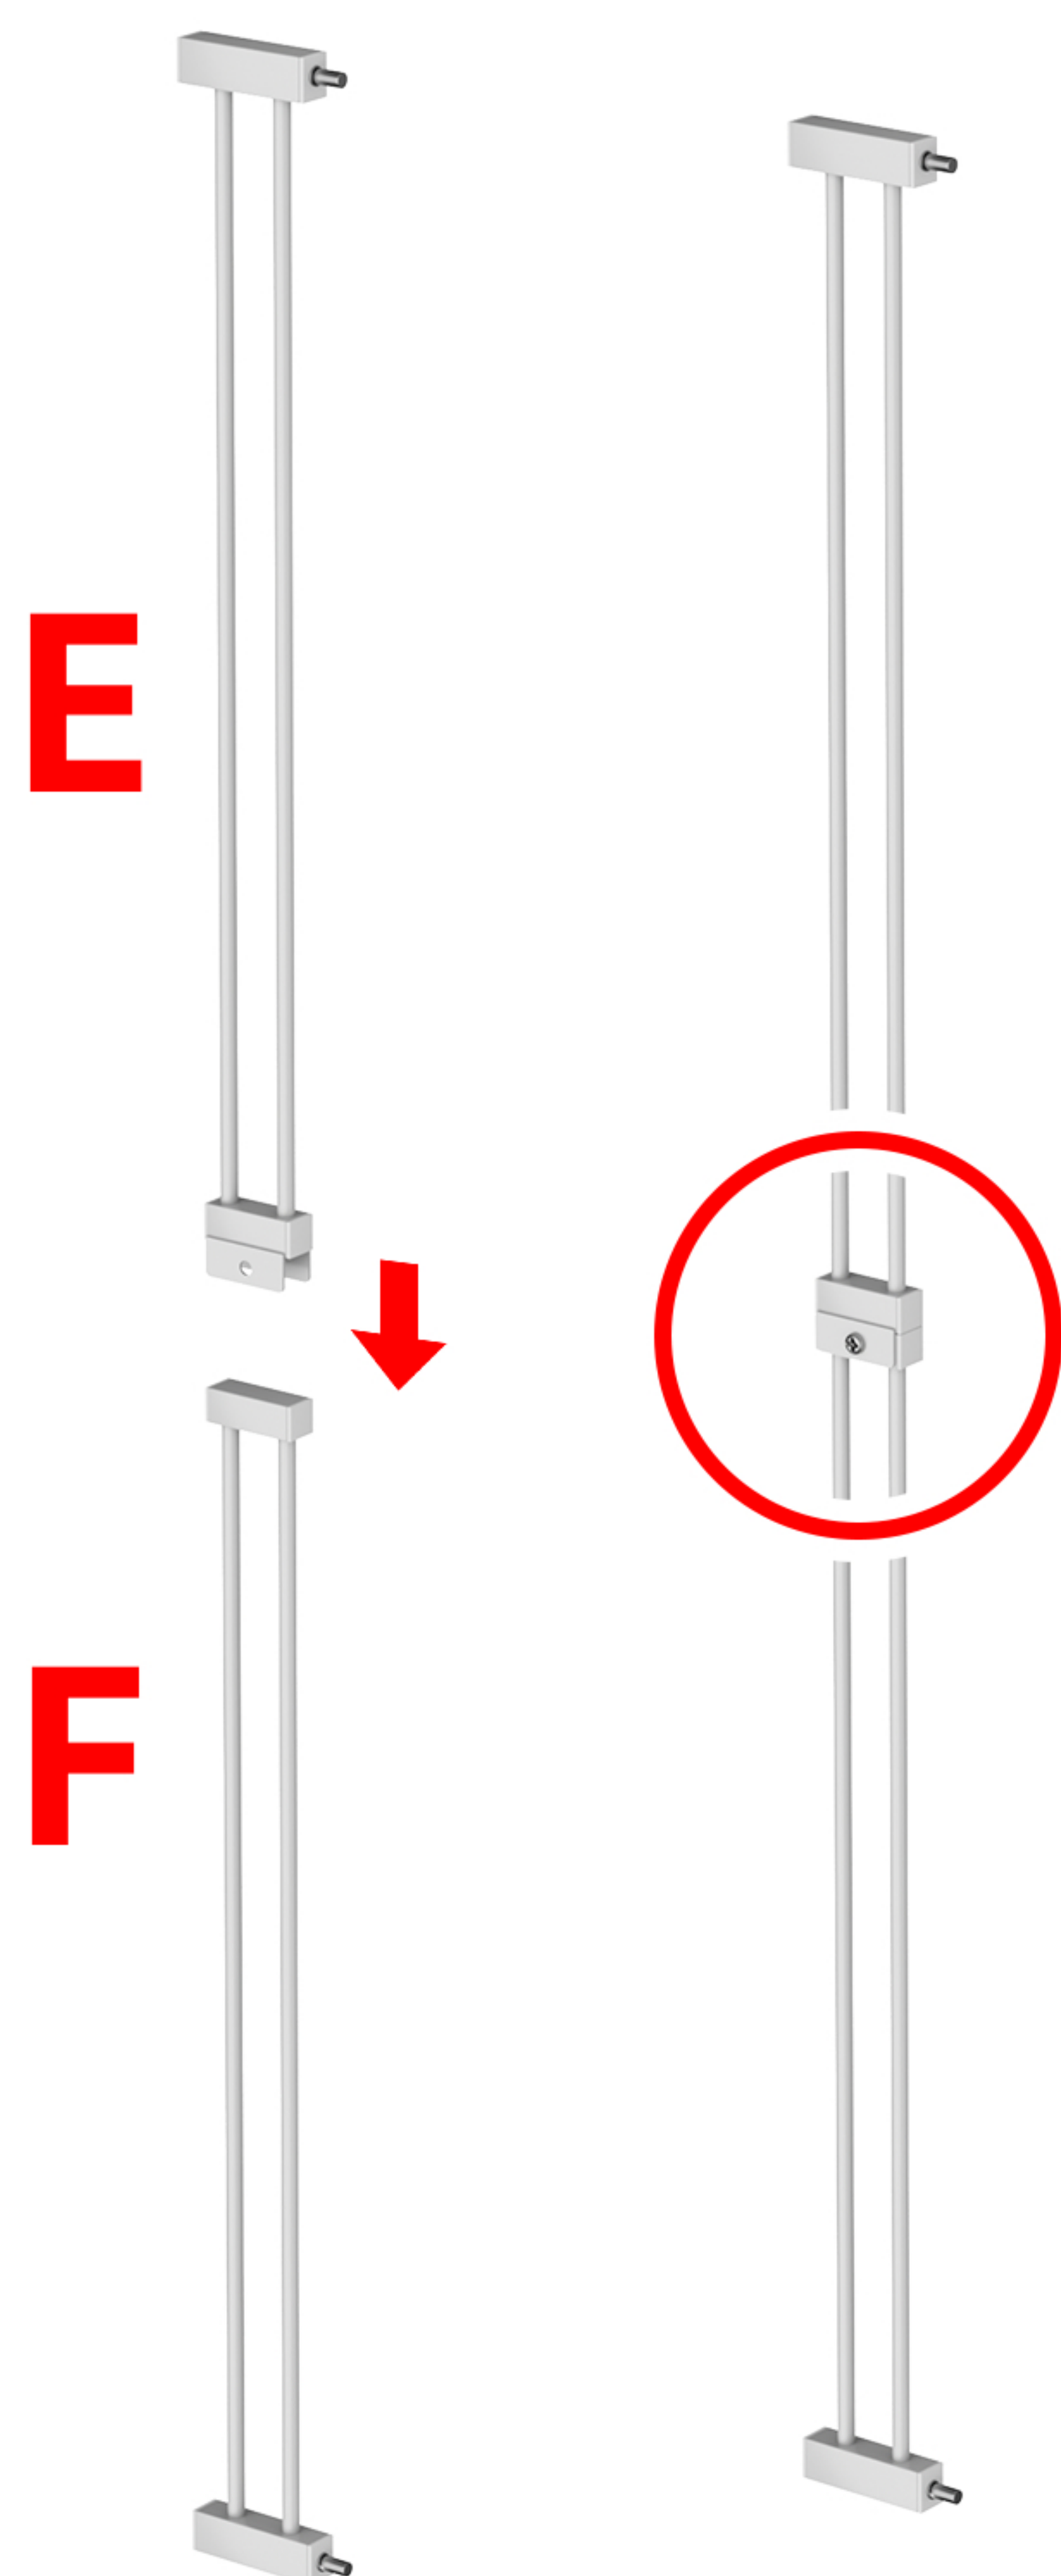

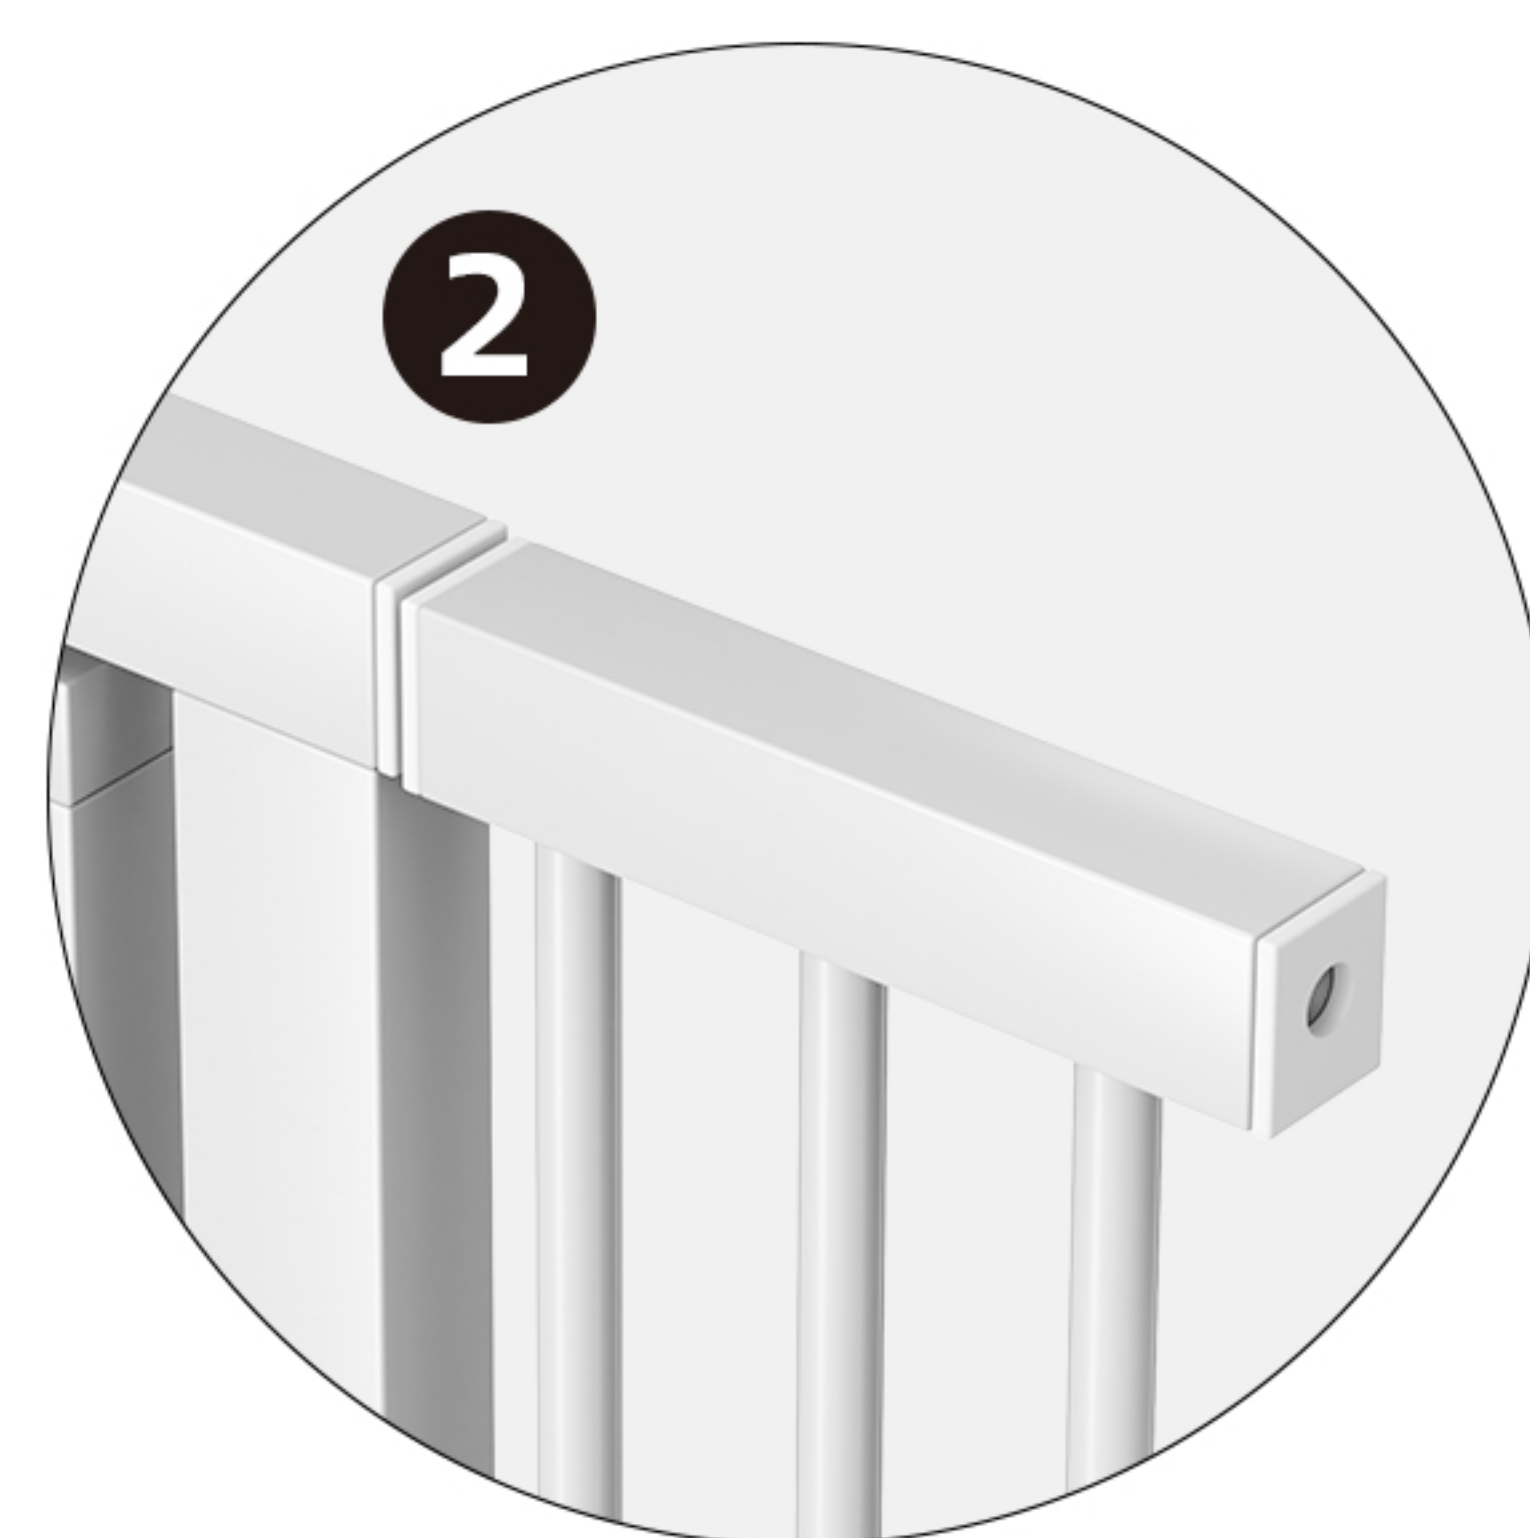

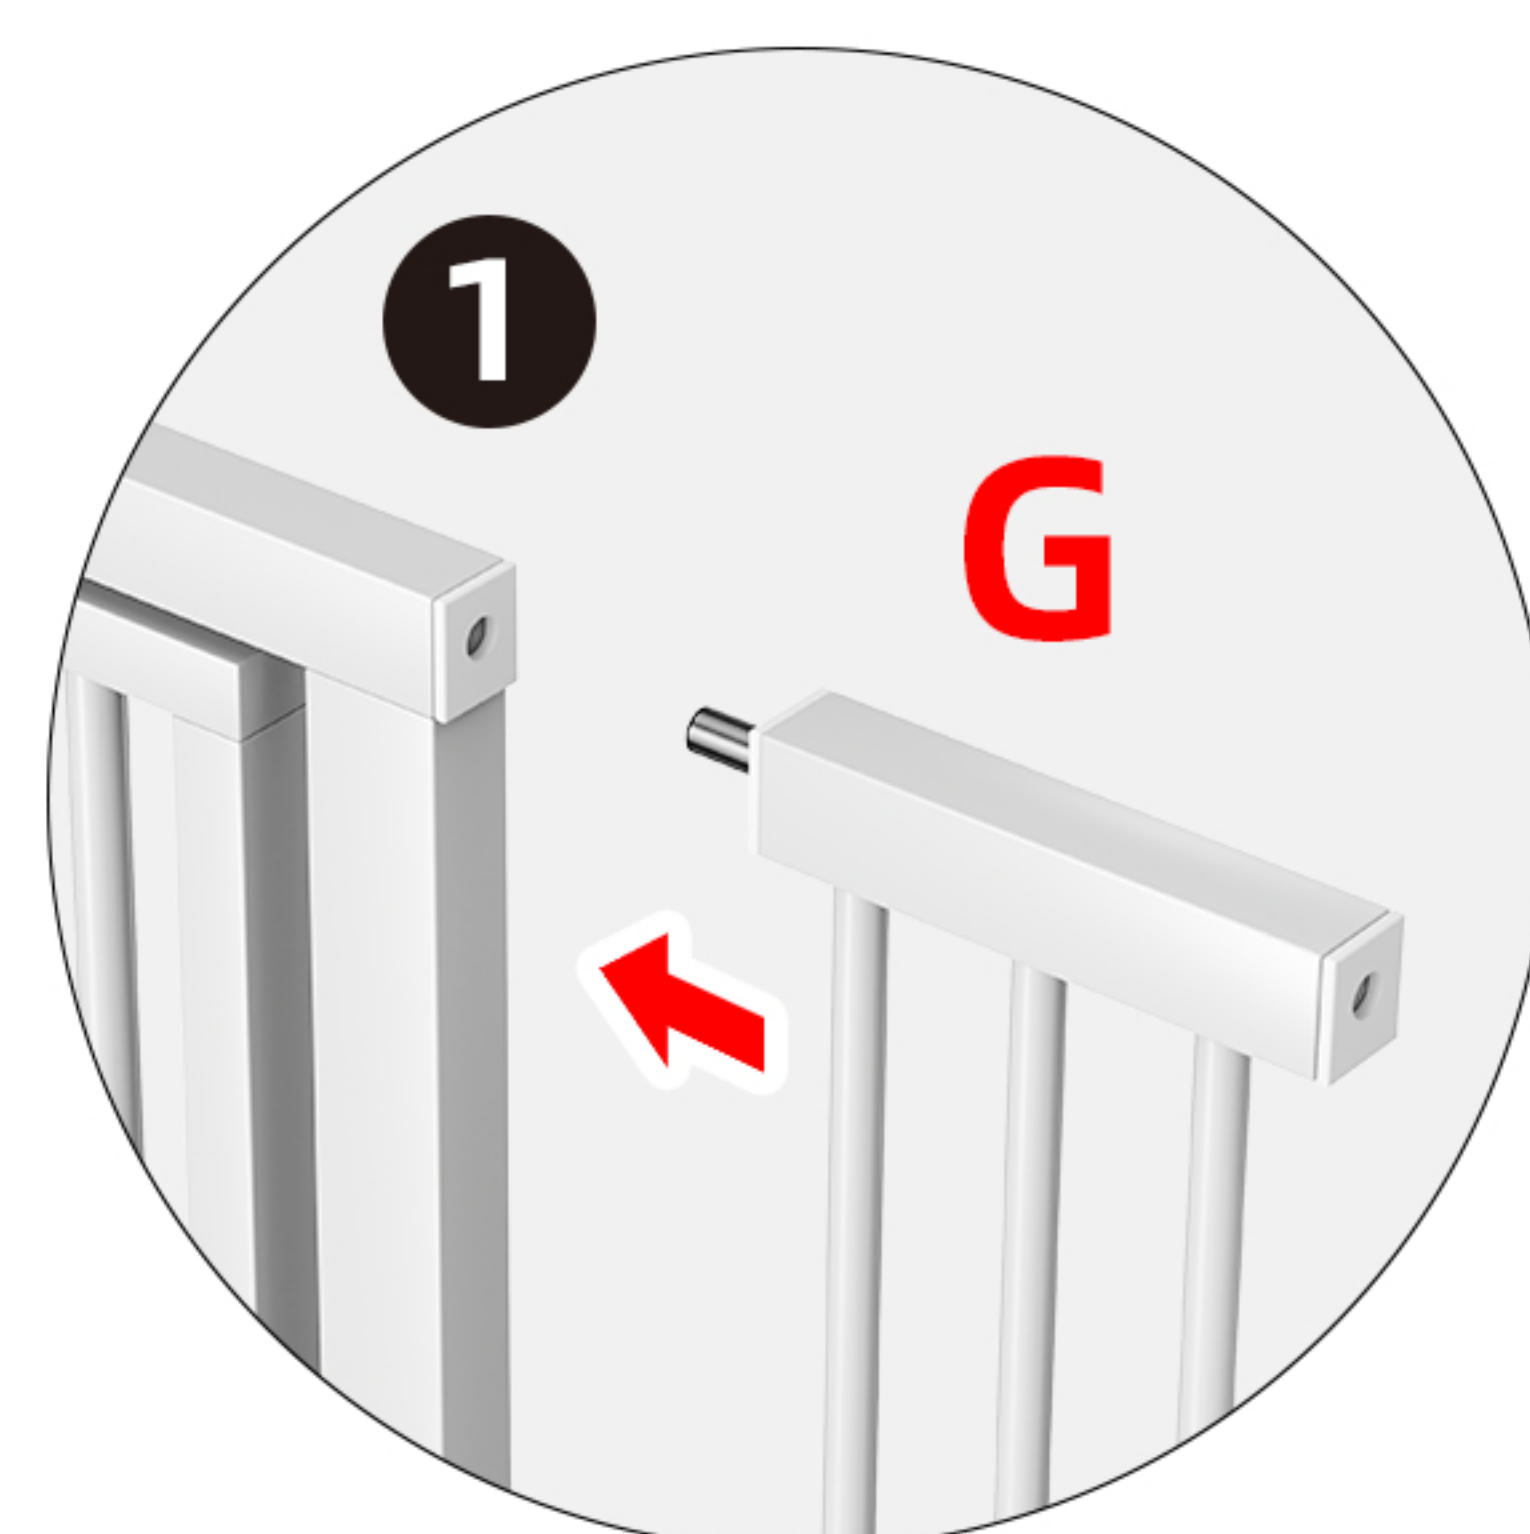

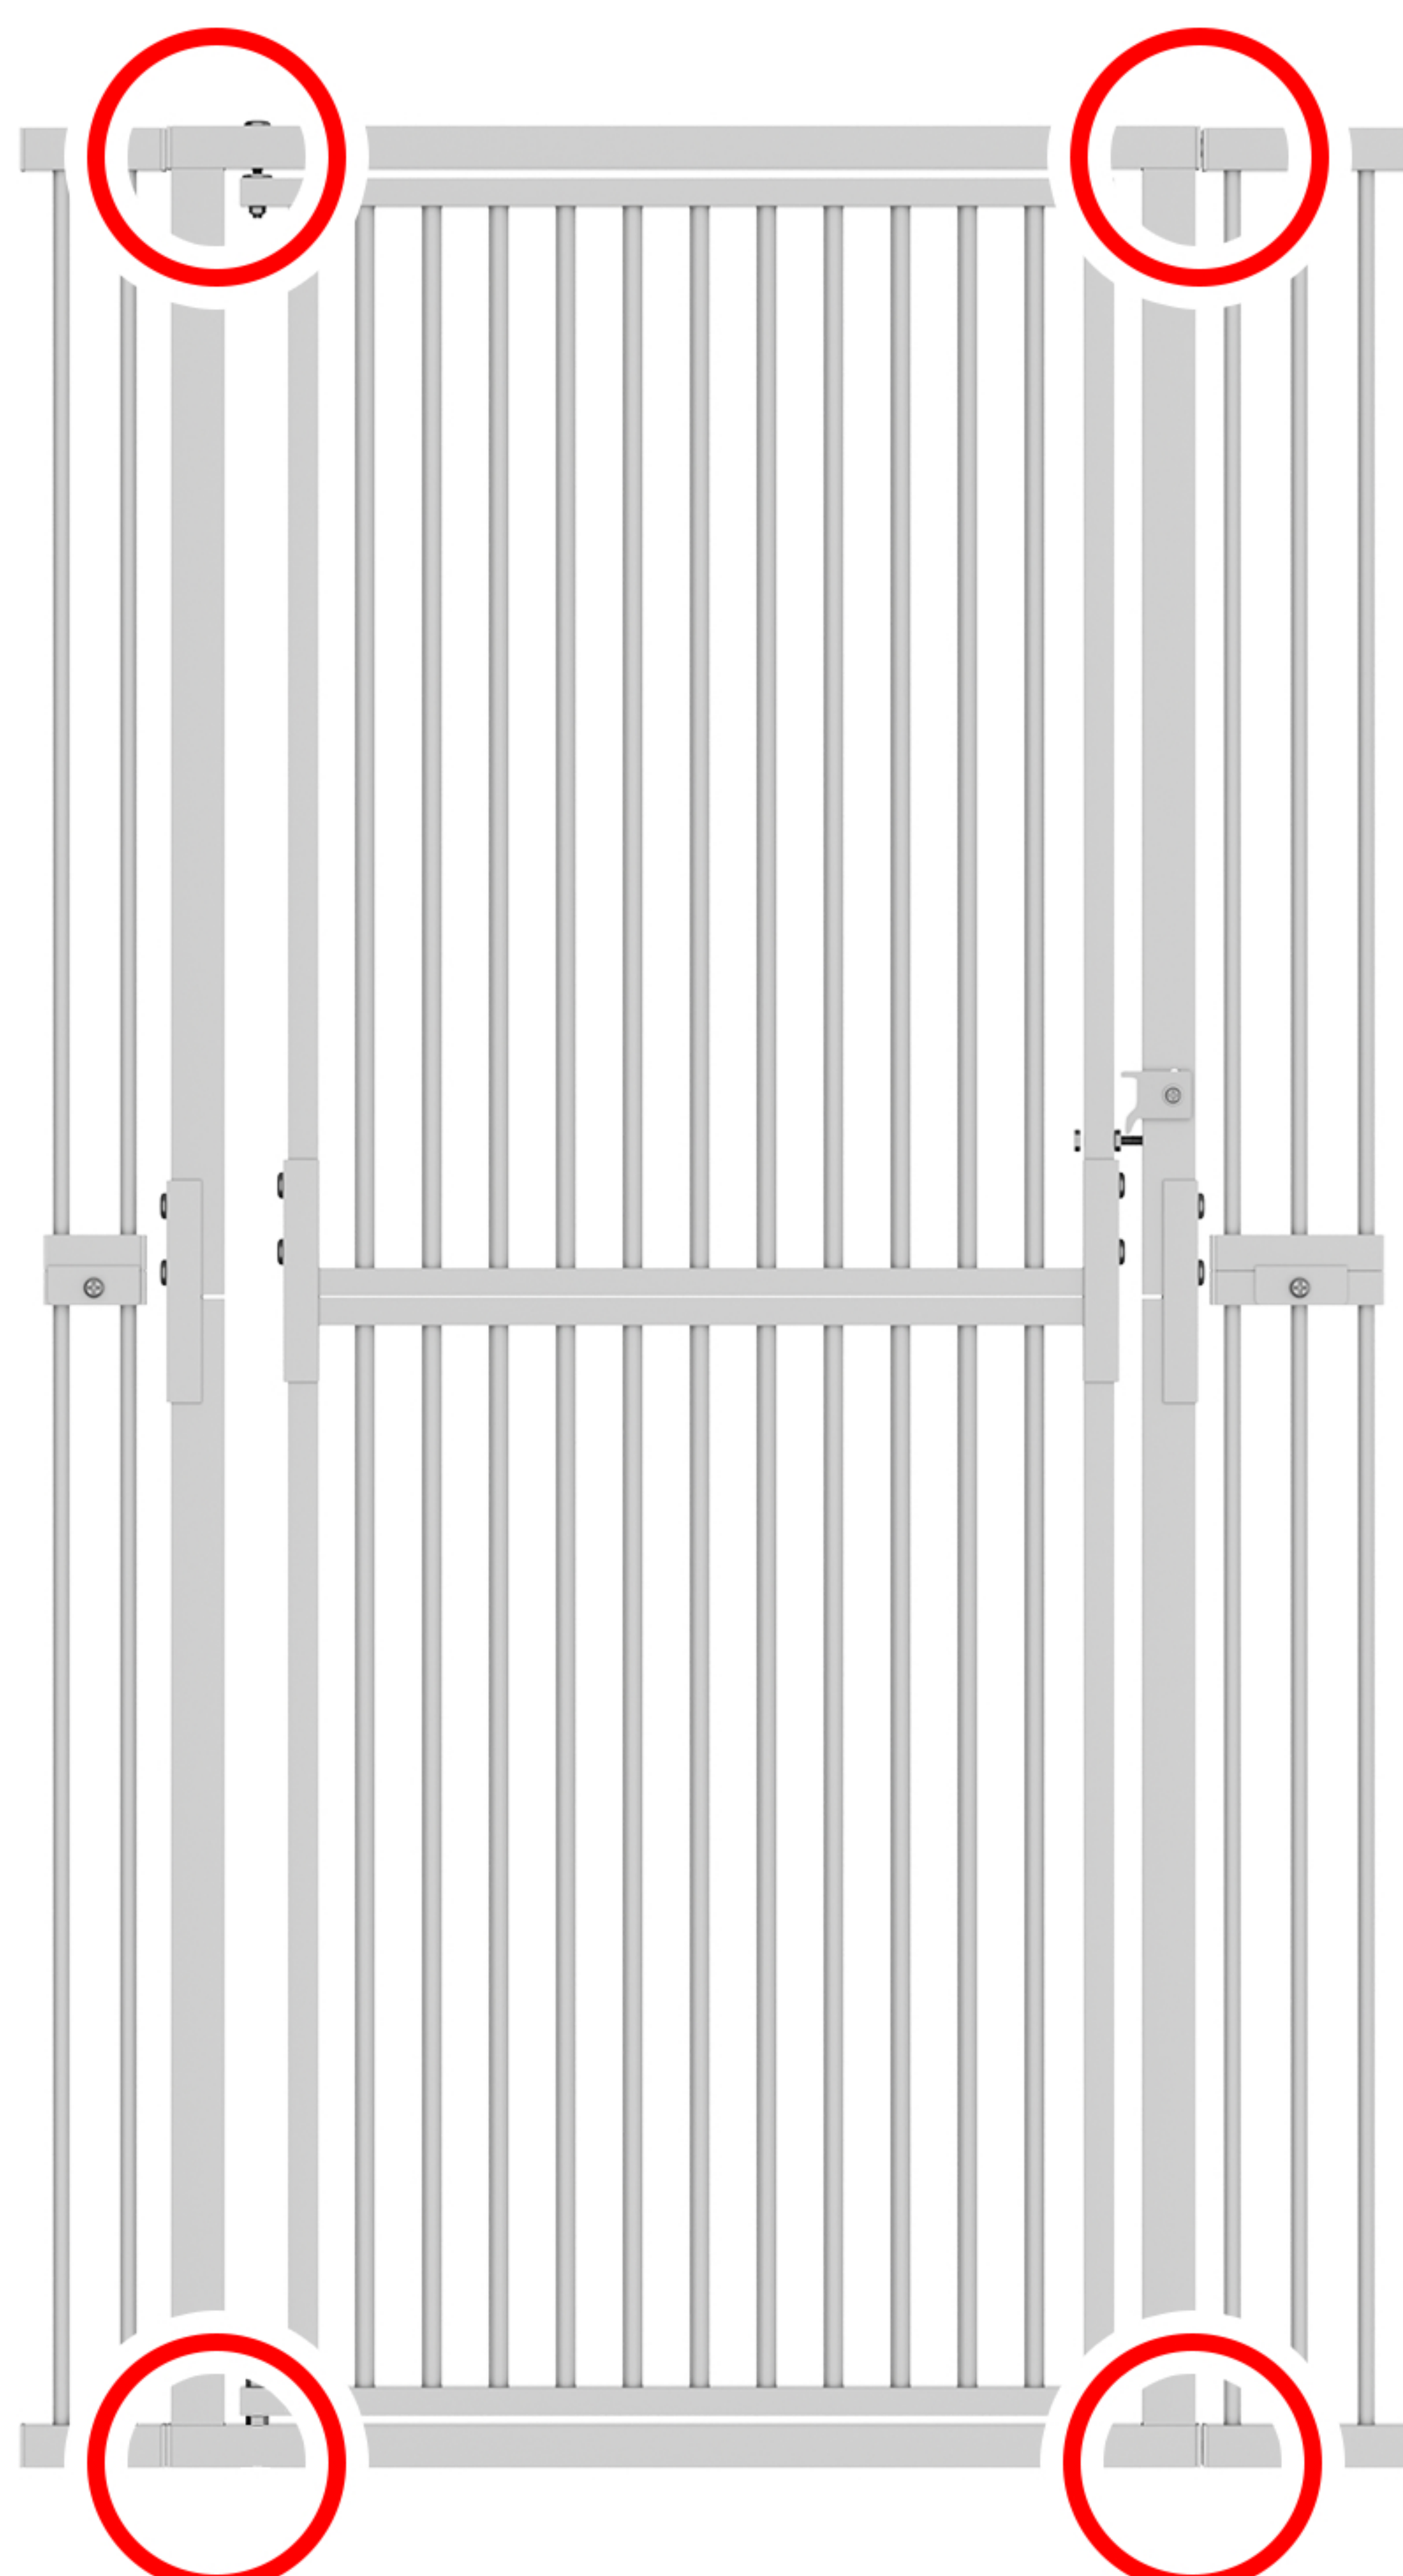

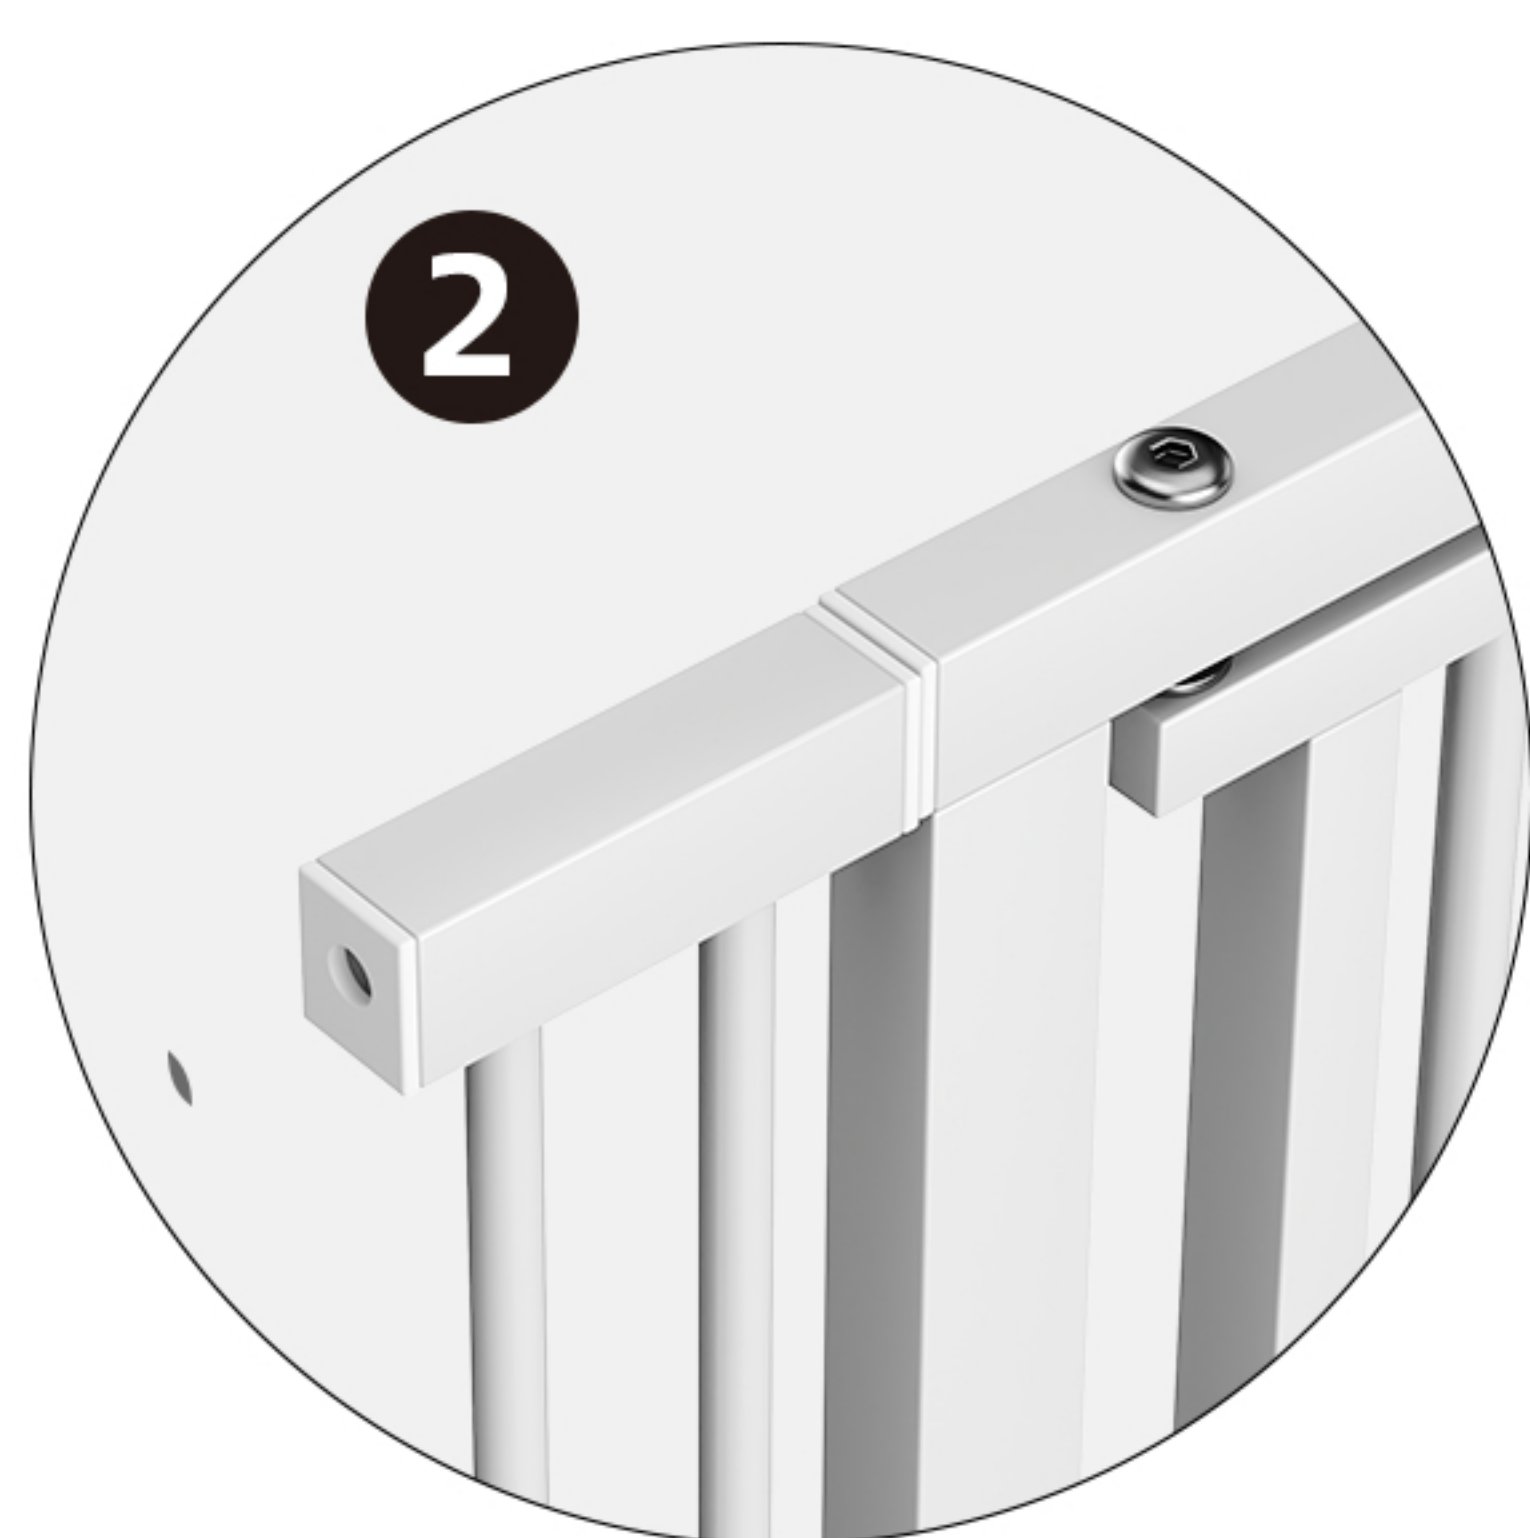

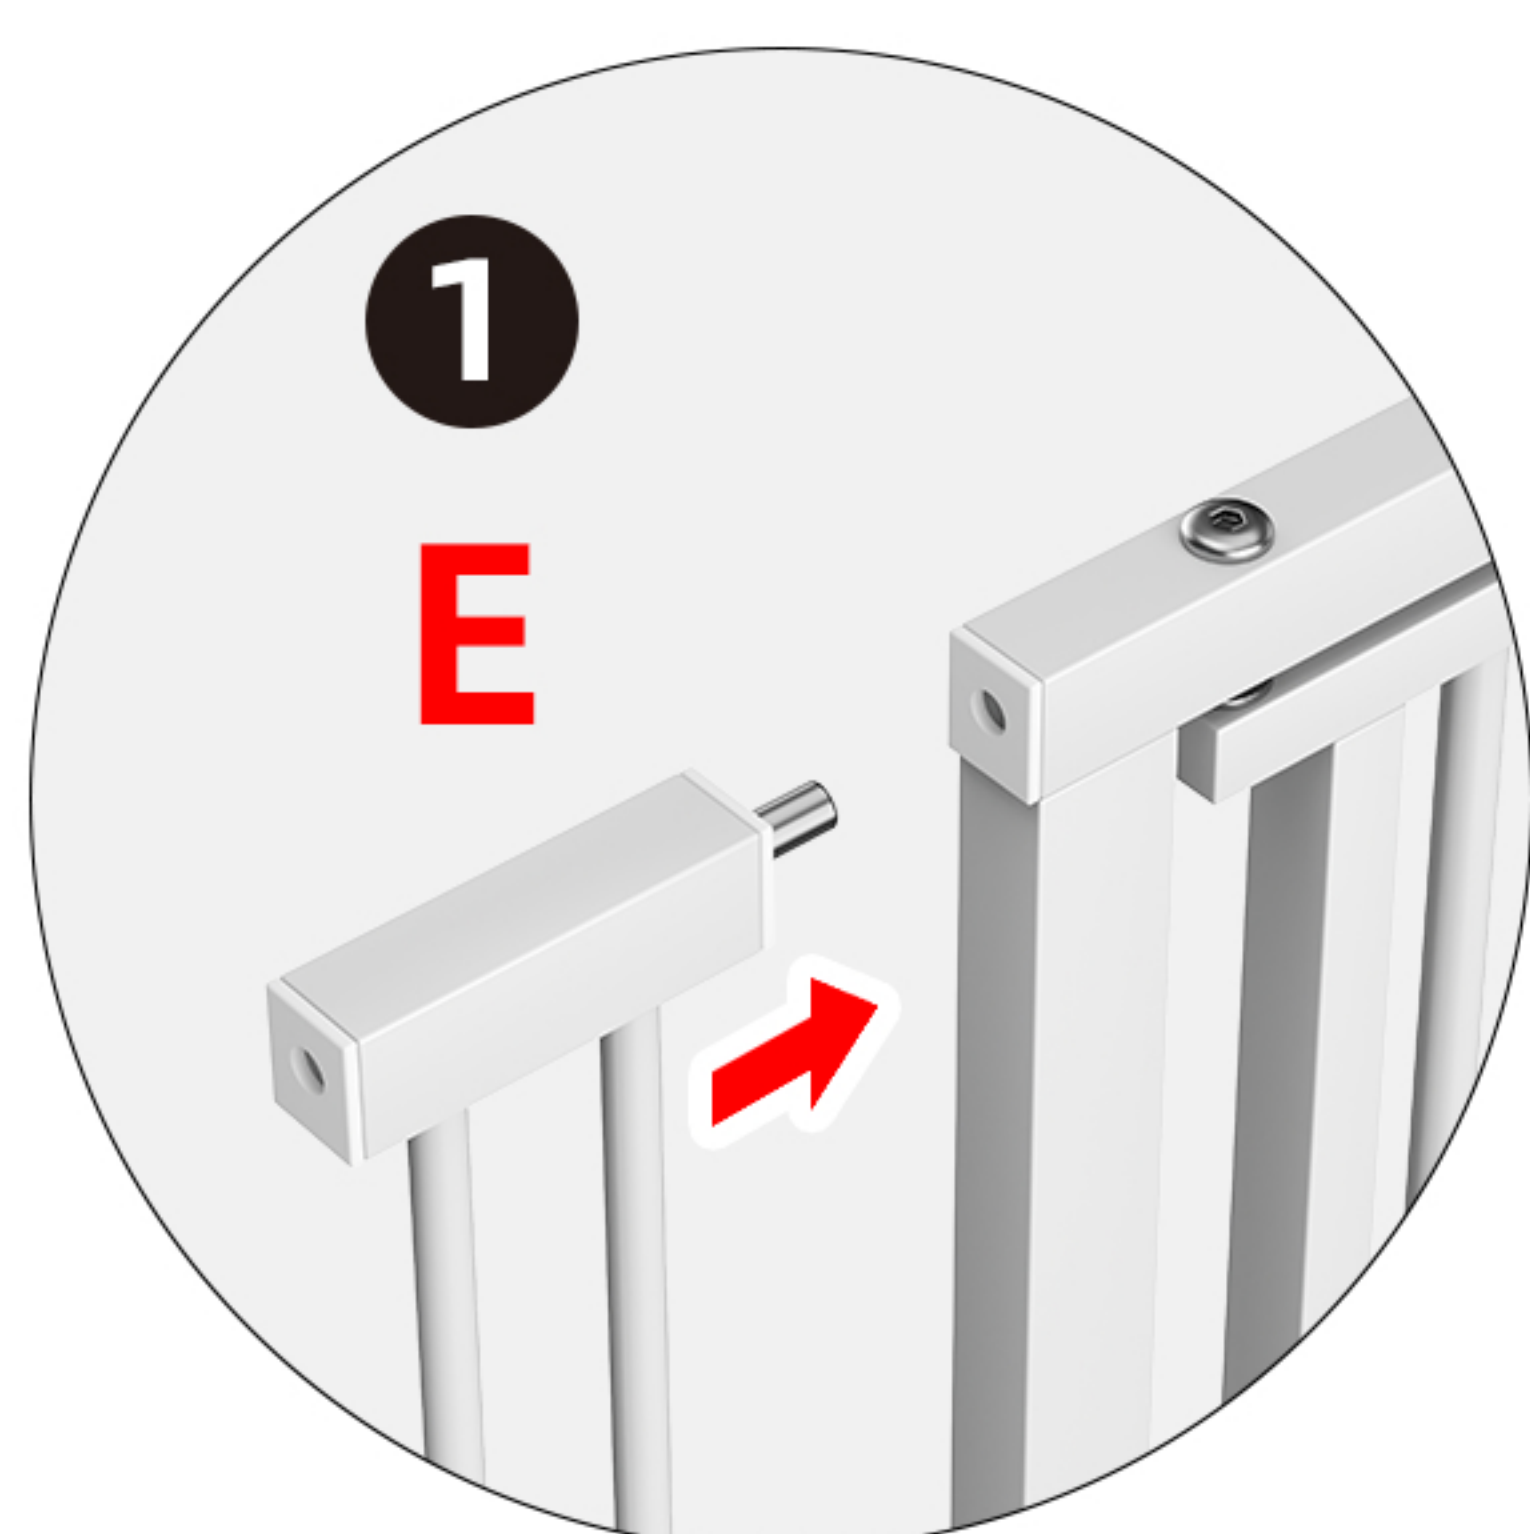

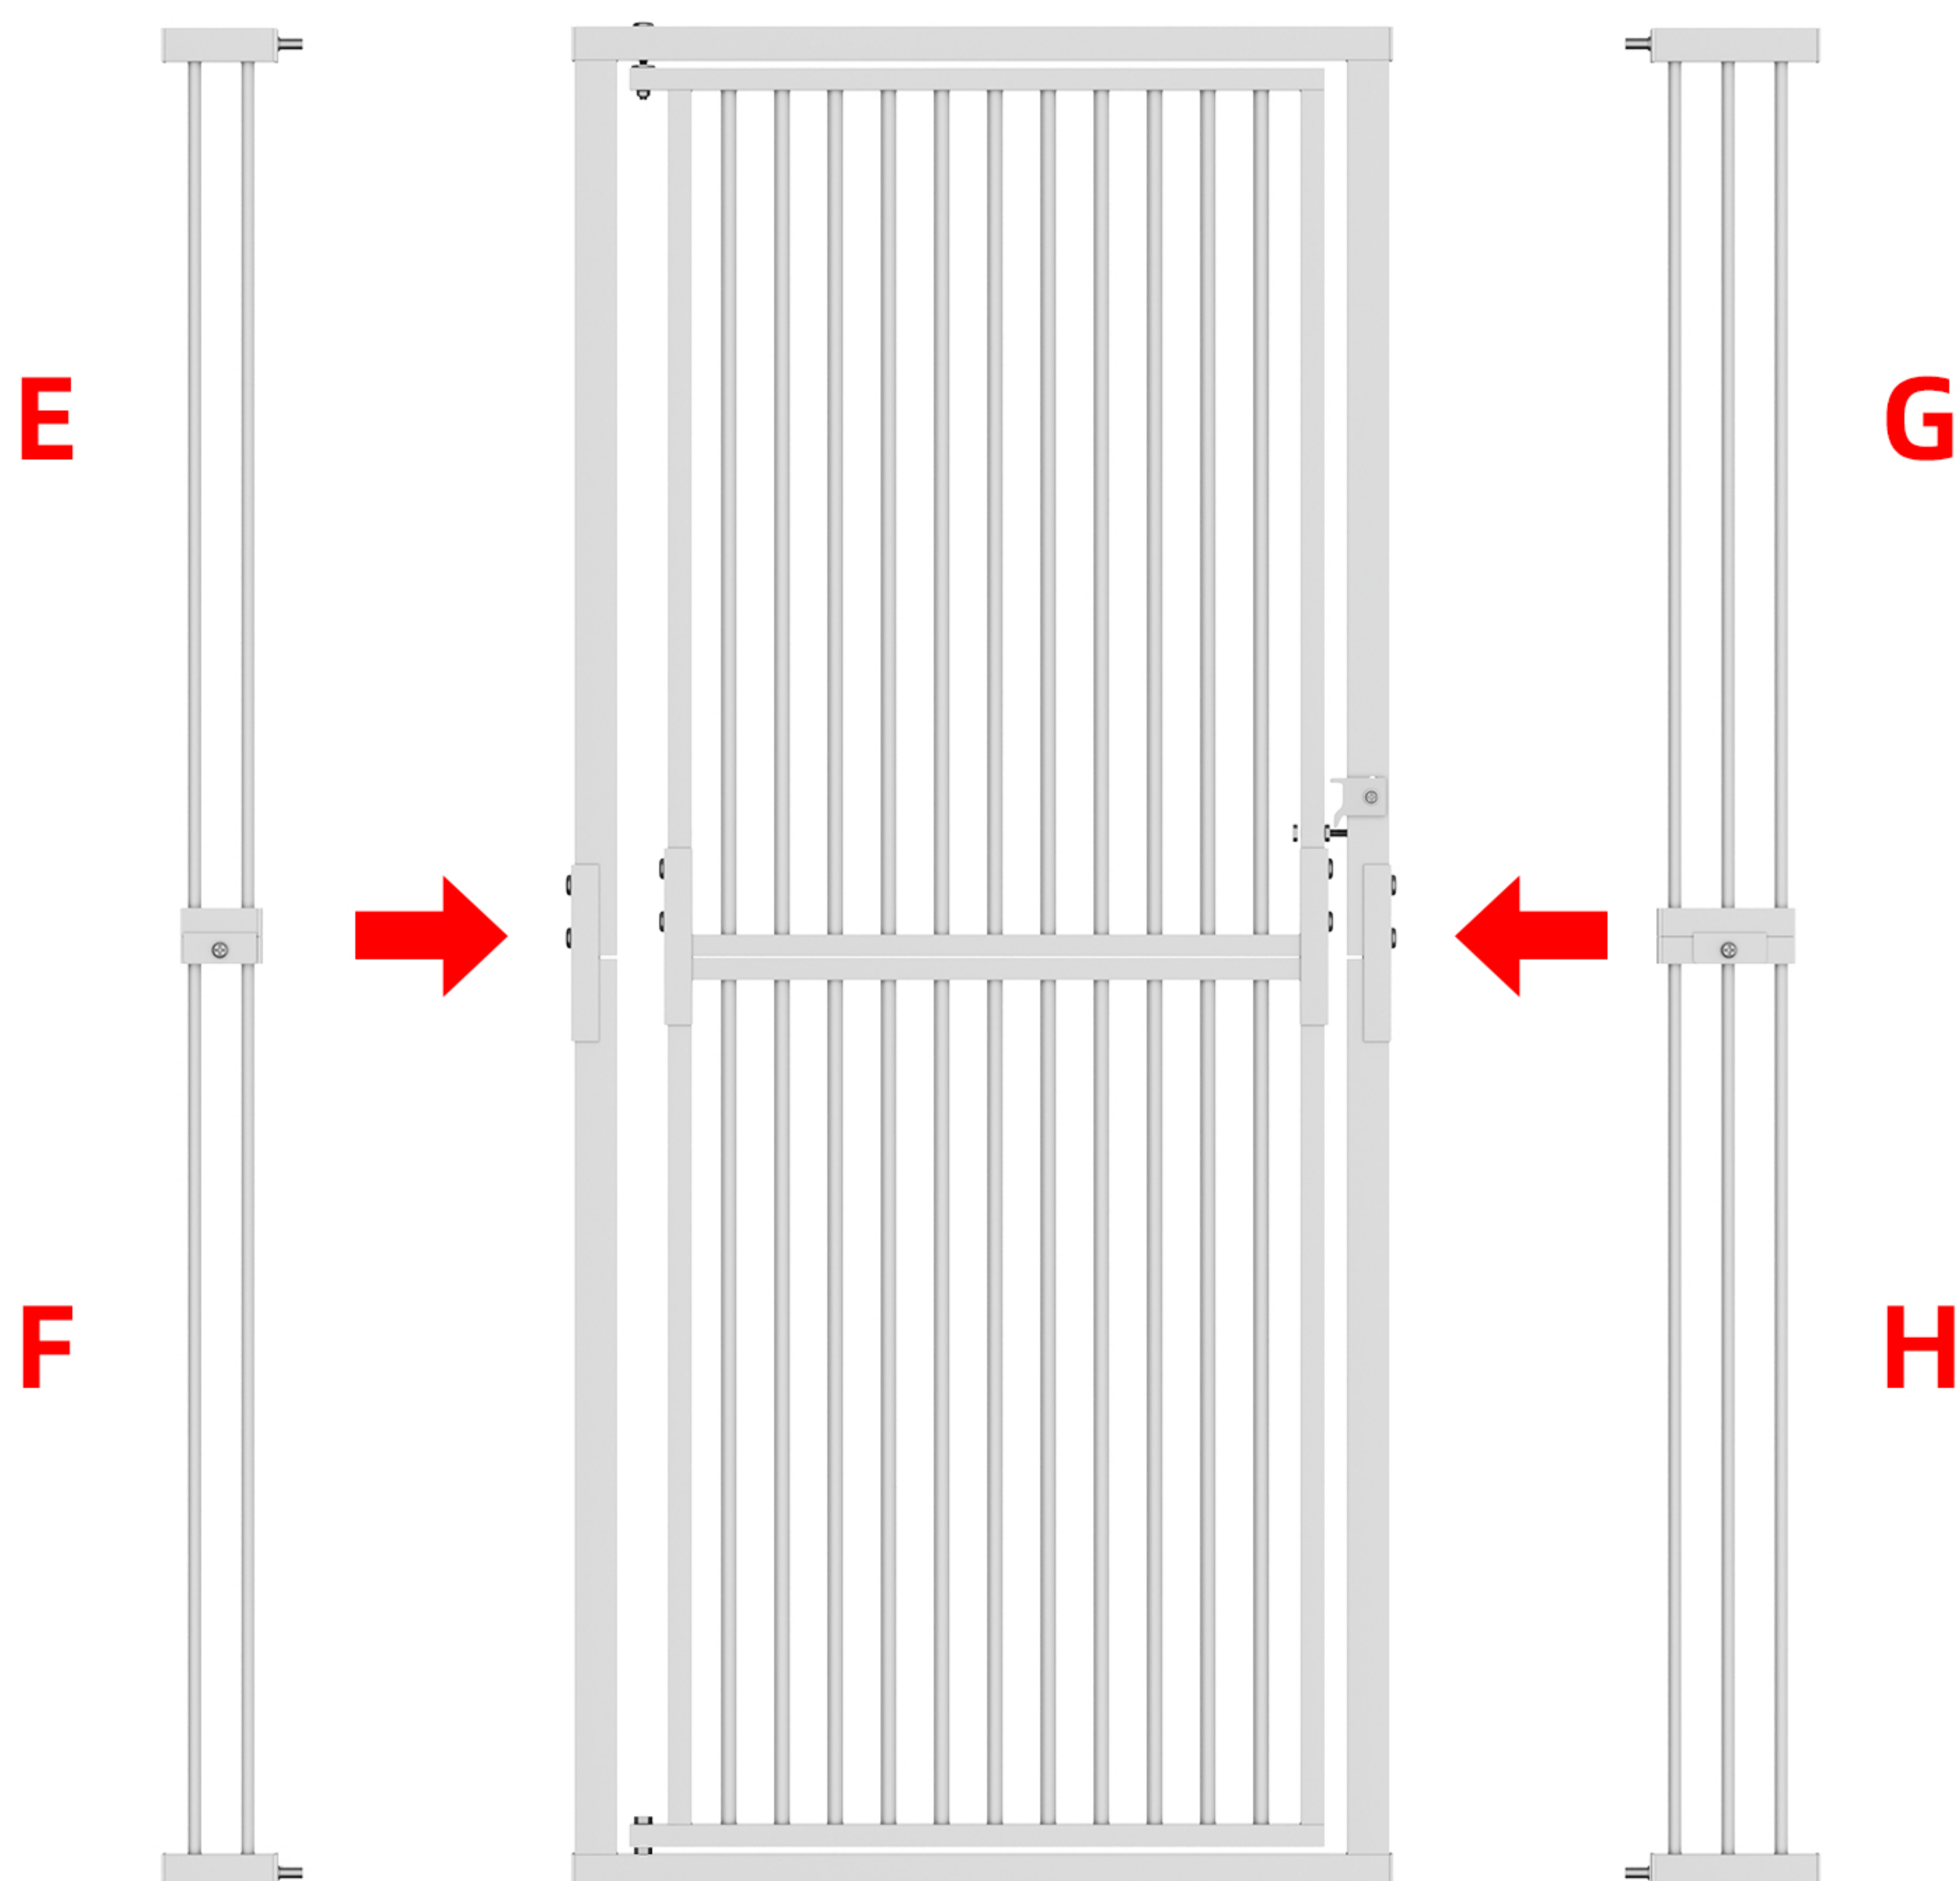

EN_ If the distance between the wall and the side tube is no wider than 3.5CM there is no need to narrow the width with a pole (I+J), as shown in the figure.

FR_ Si la distance entre le mur et le tube latéral ne dépasse pas 3,5 cm, il n'est pas nécessaire de réduire la largeur à l'aide d'une tige (I+J), comme le montre l'illustration.

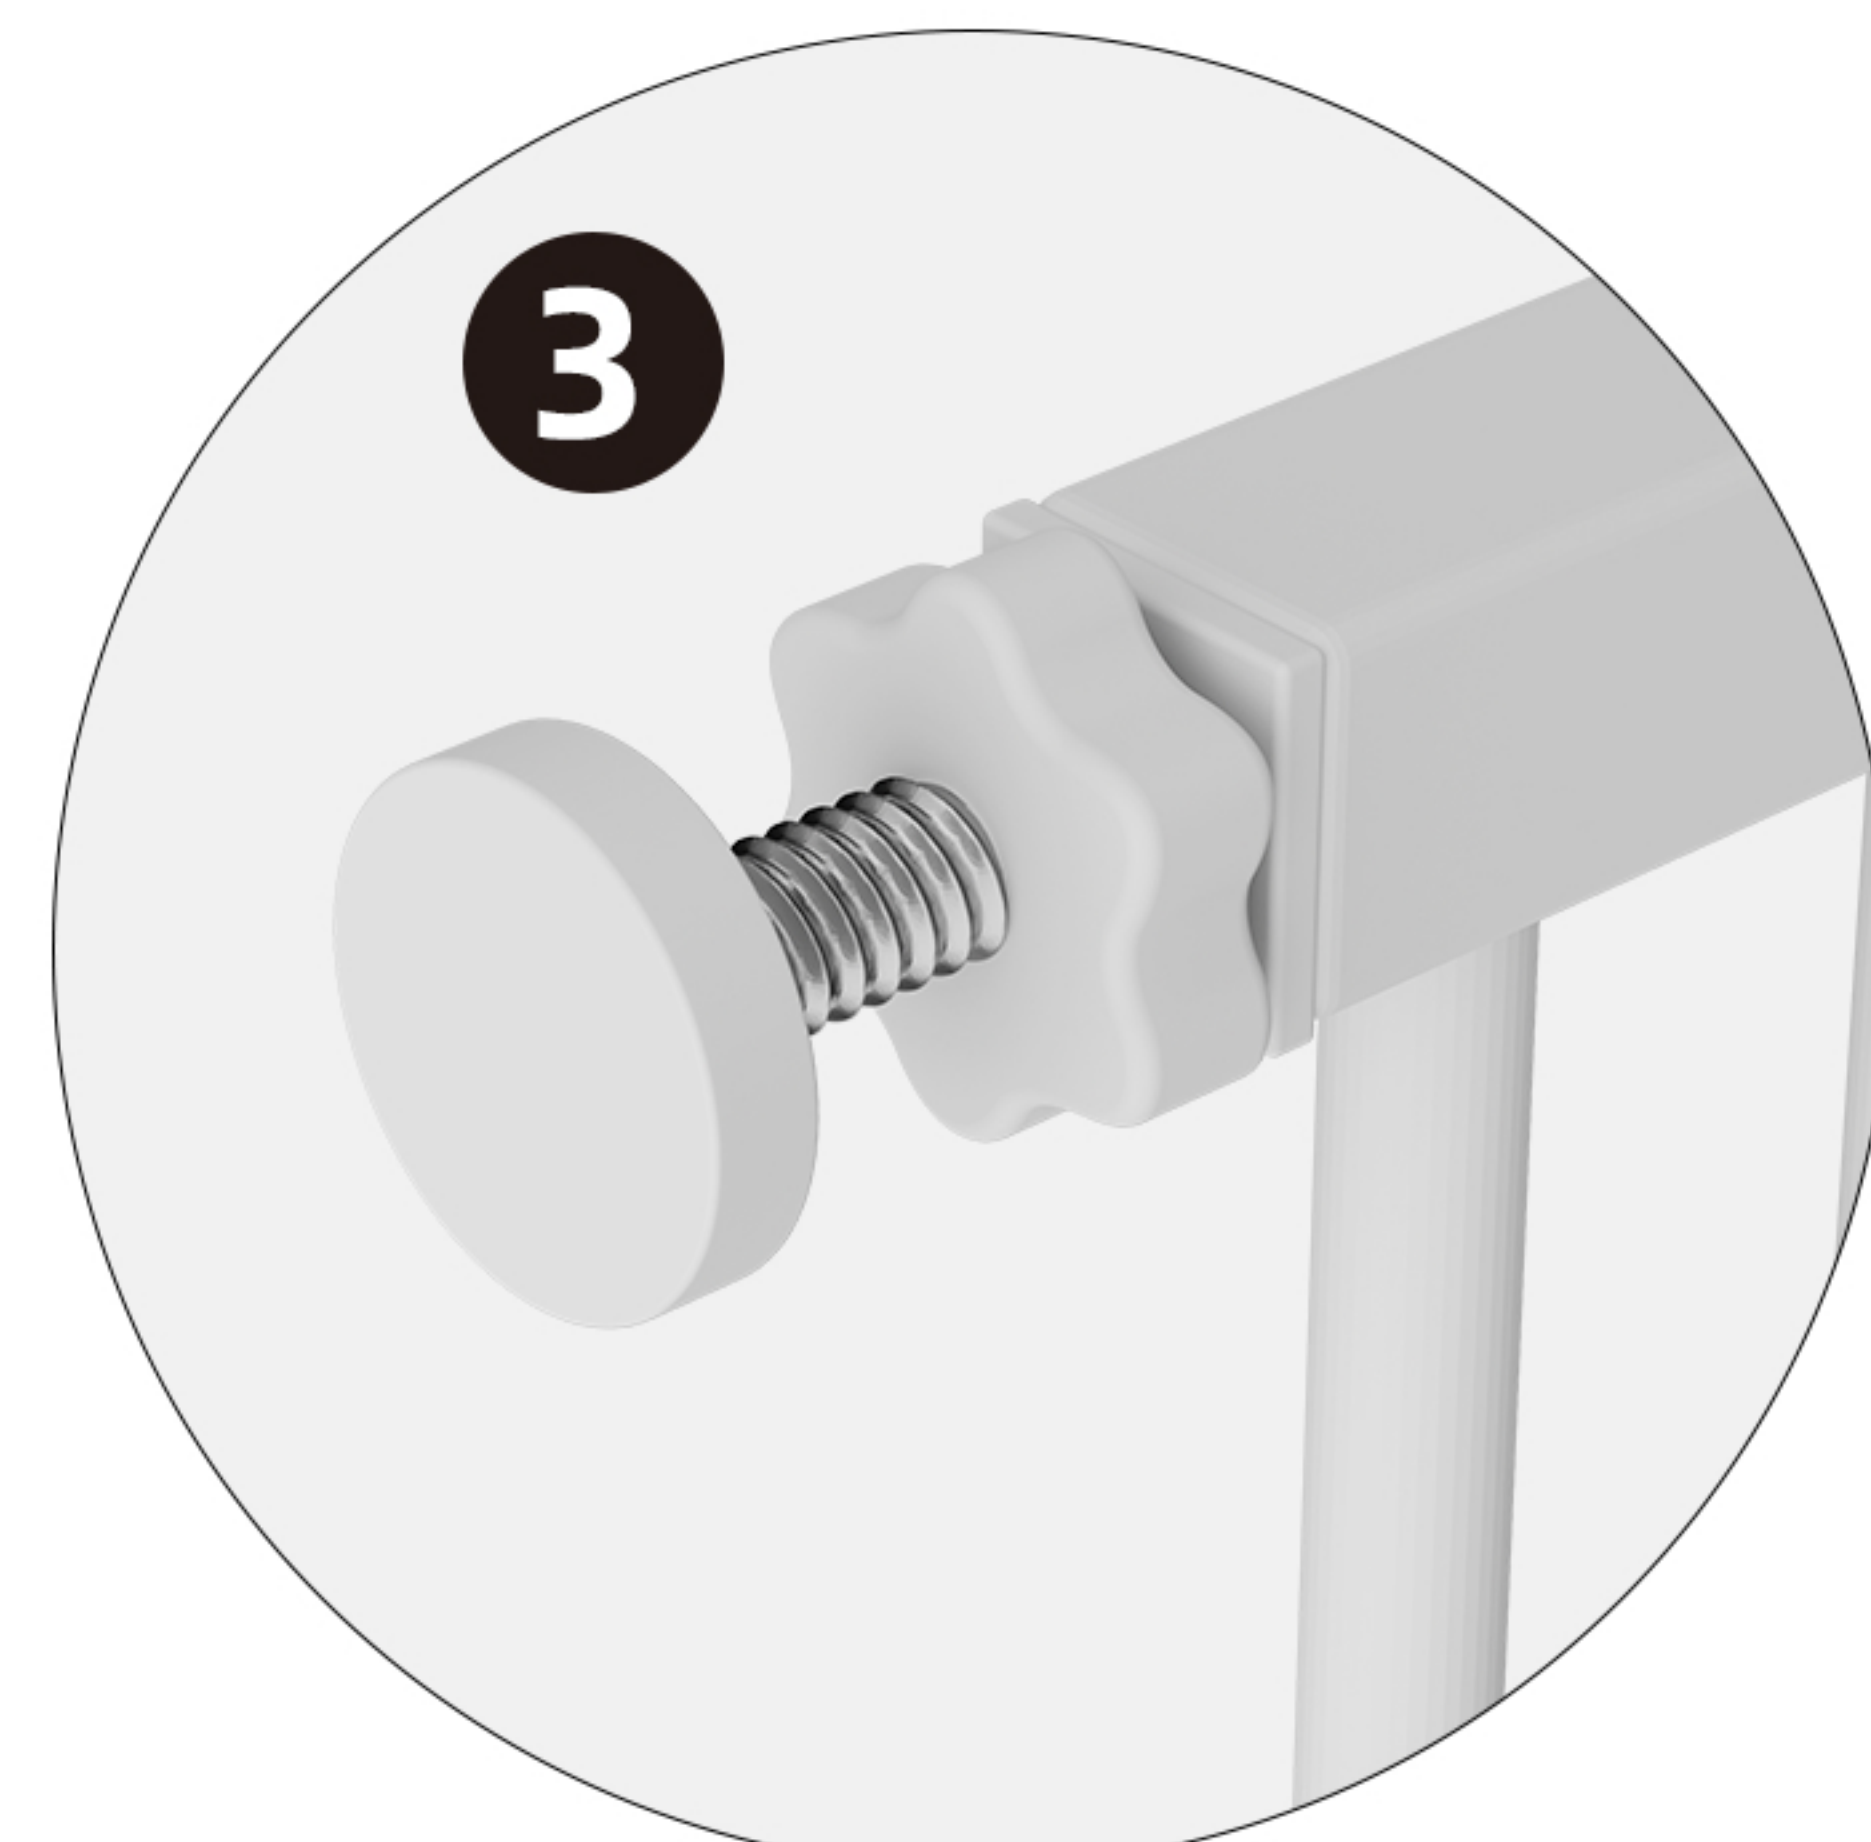

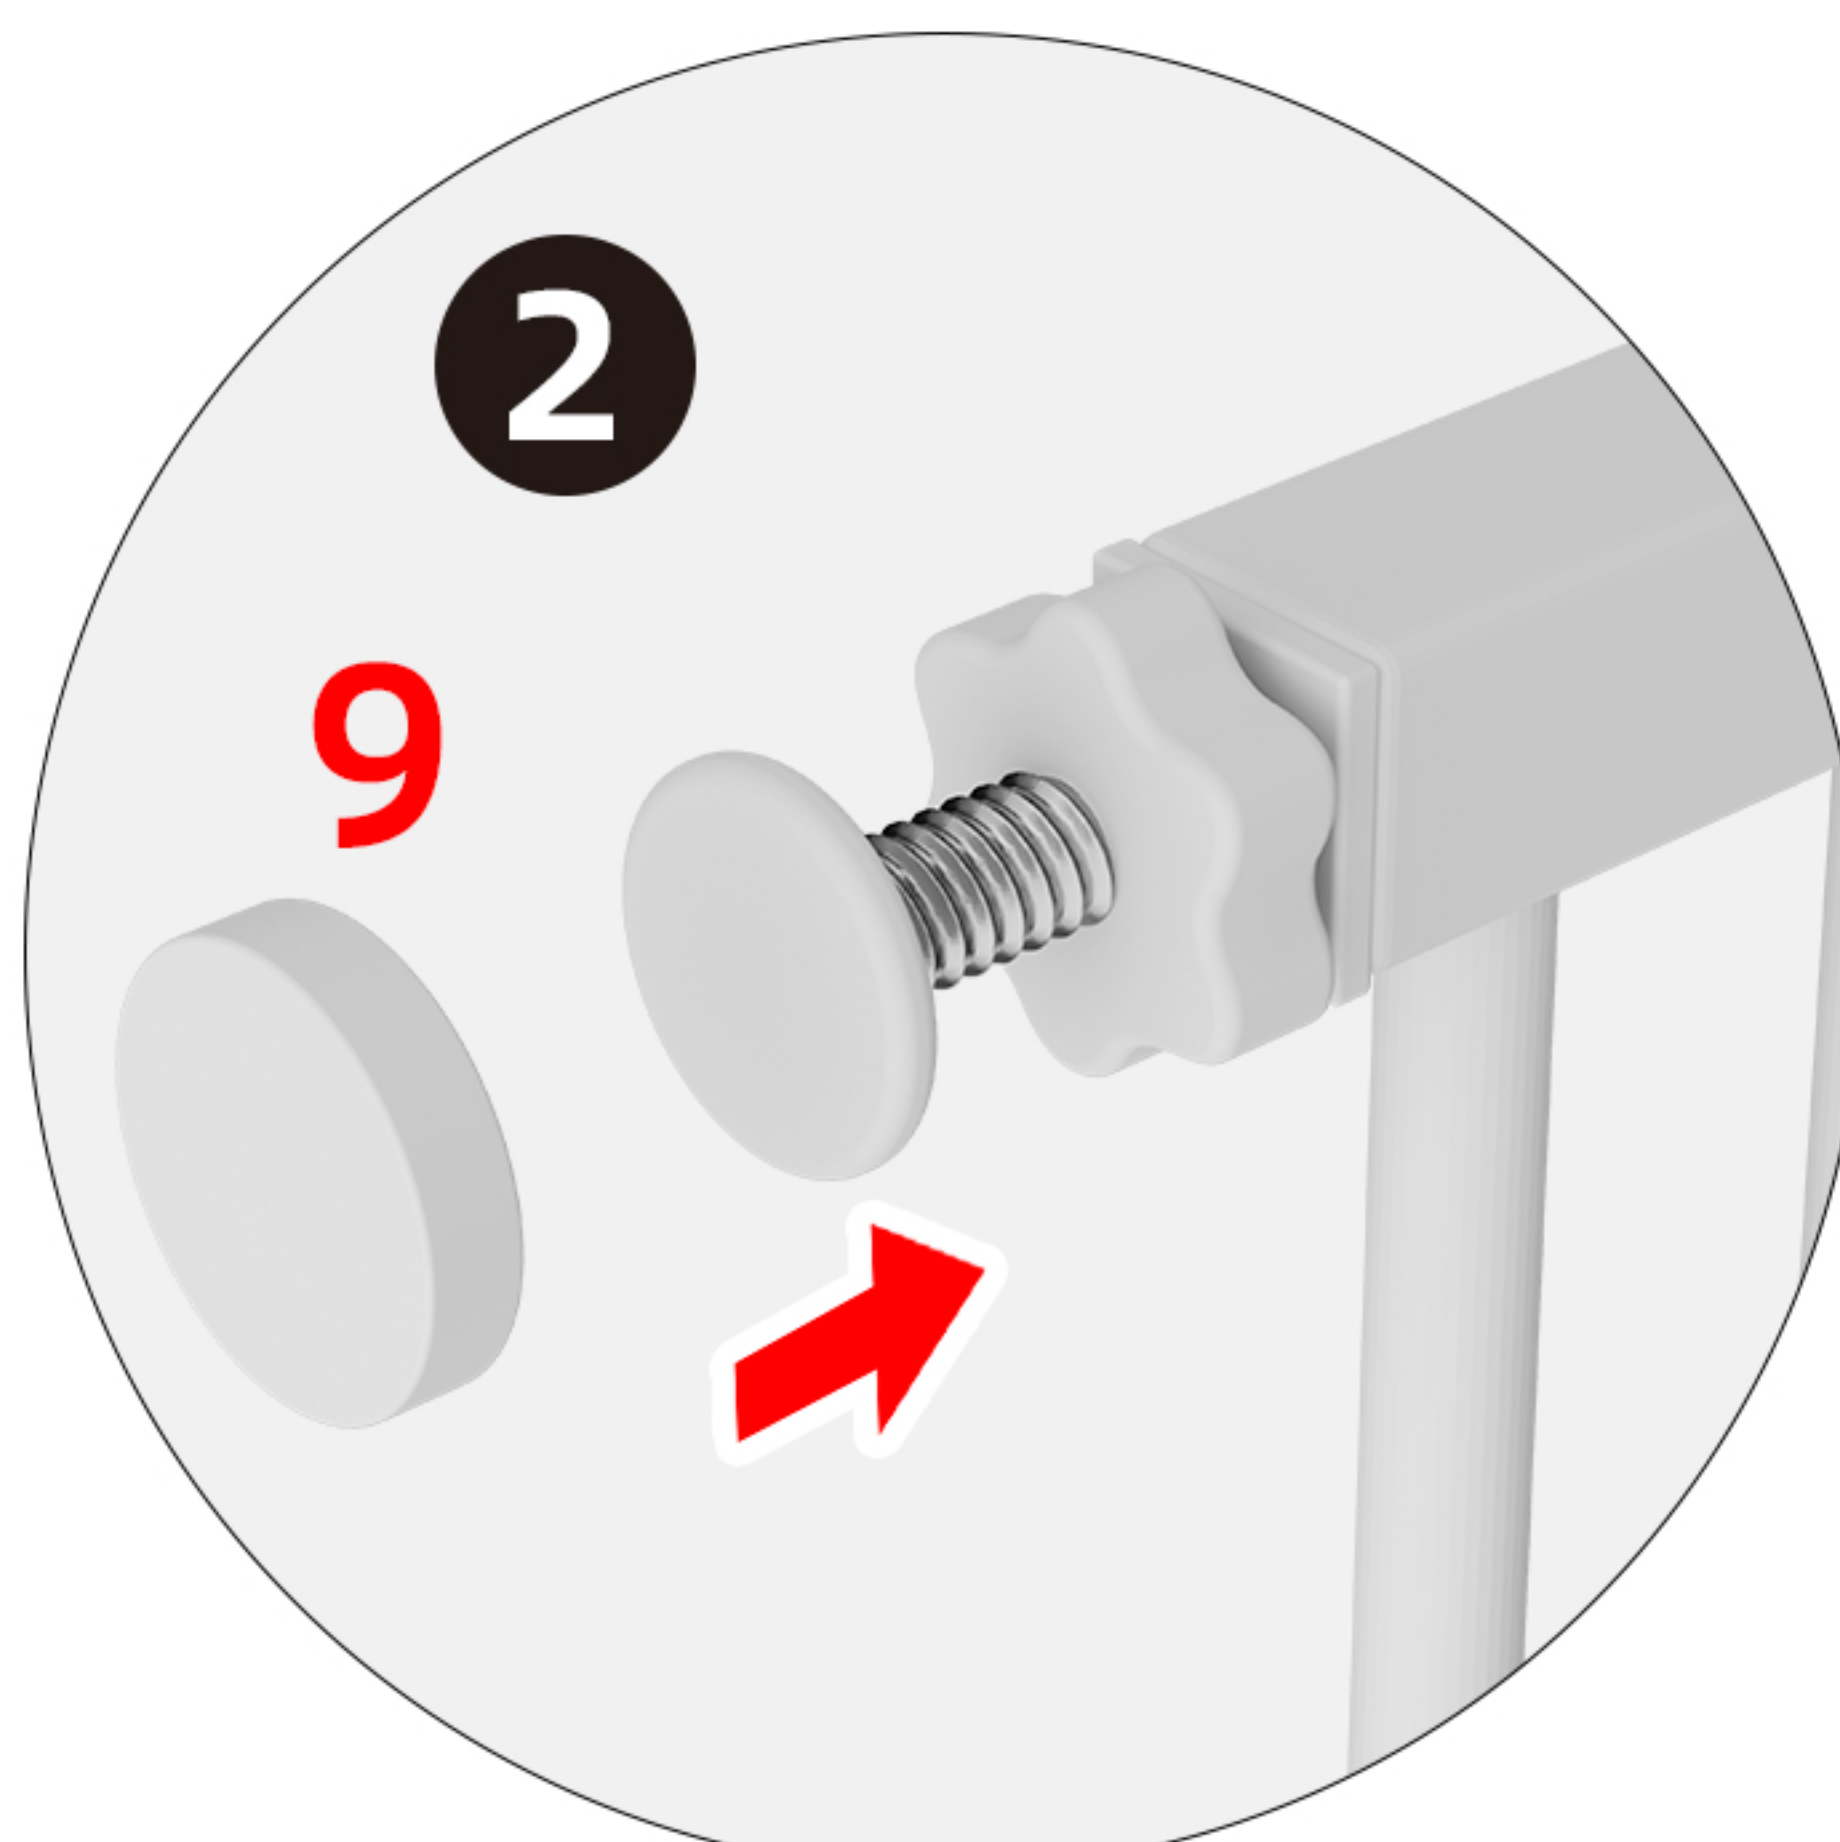

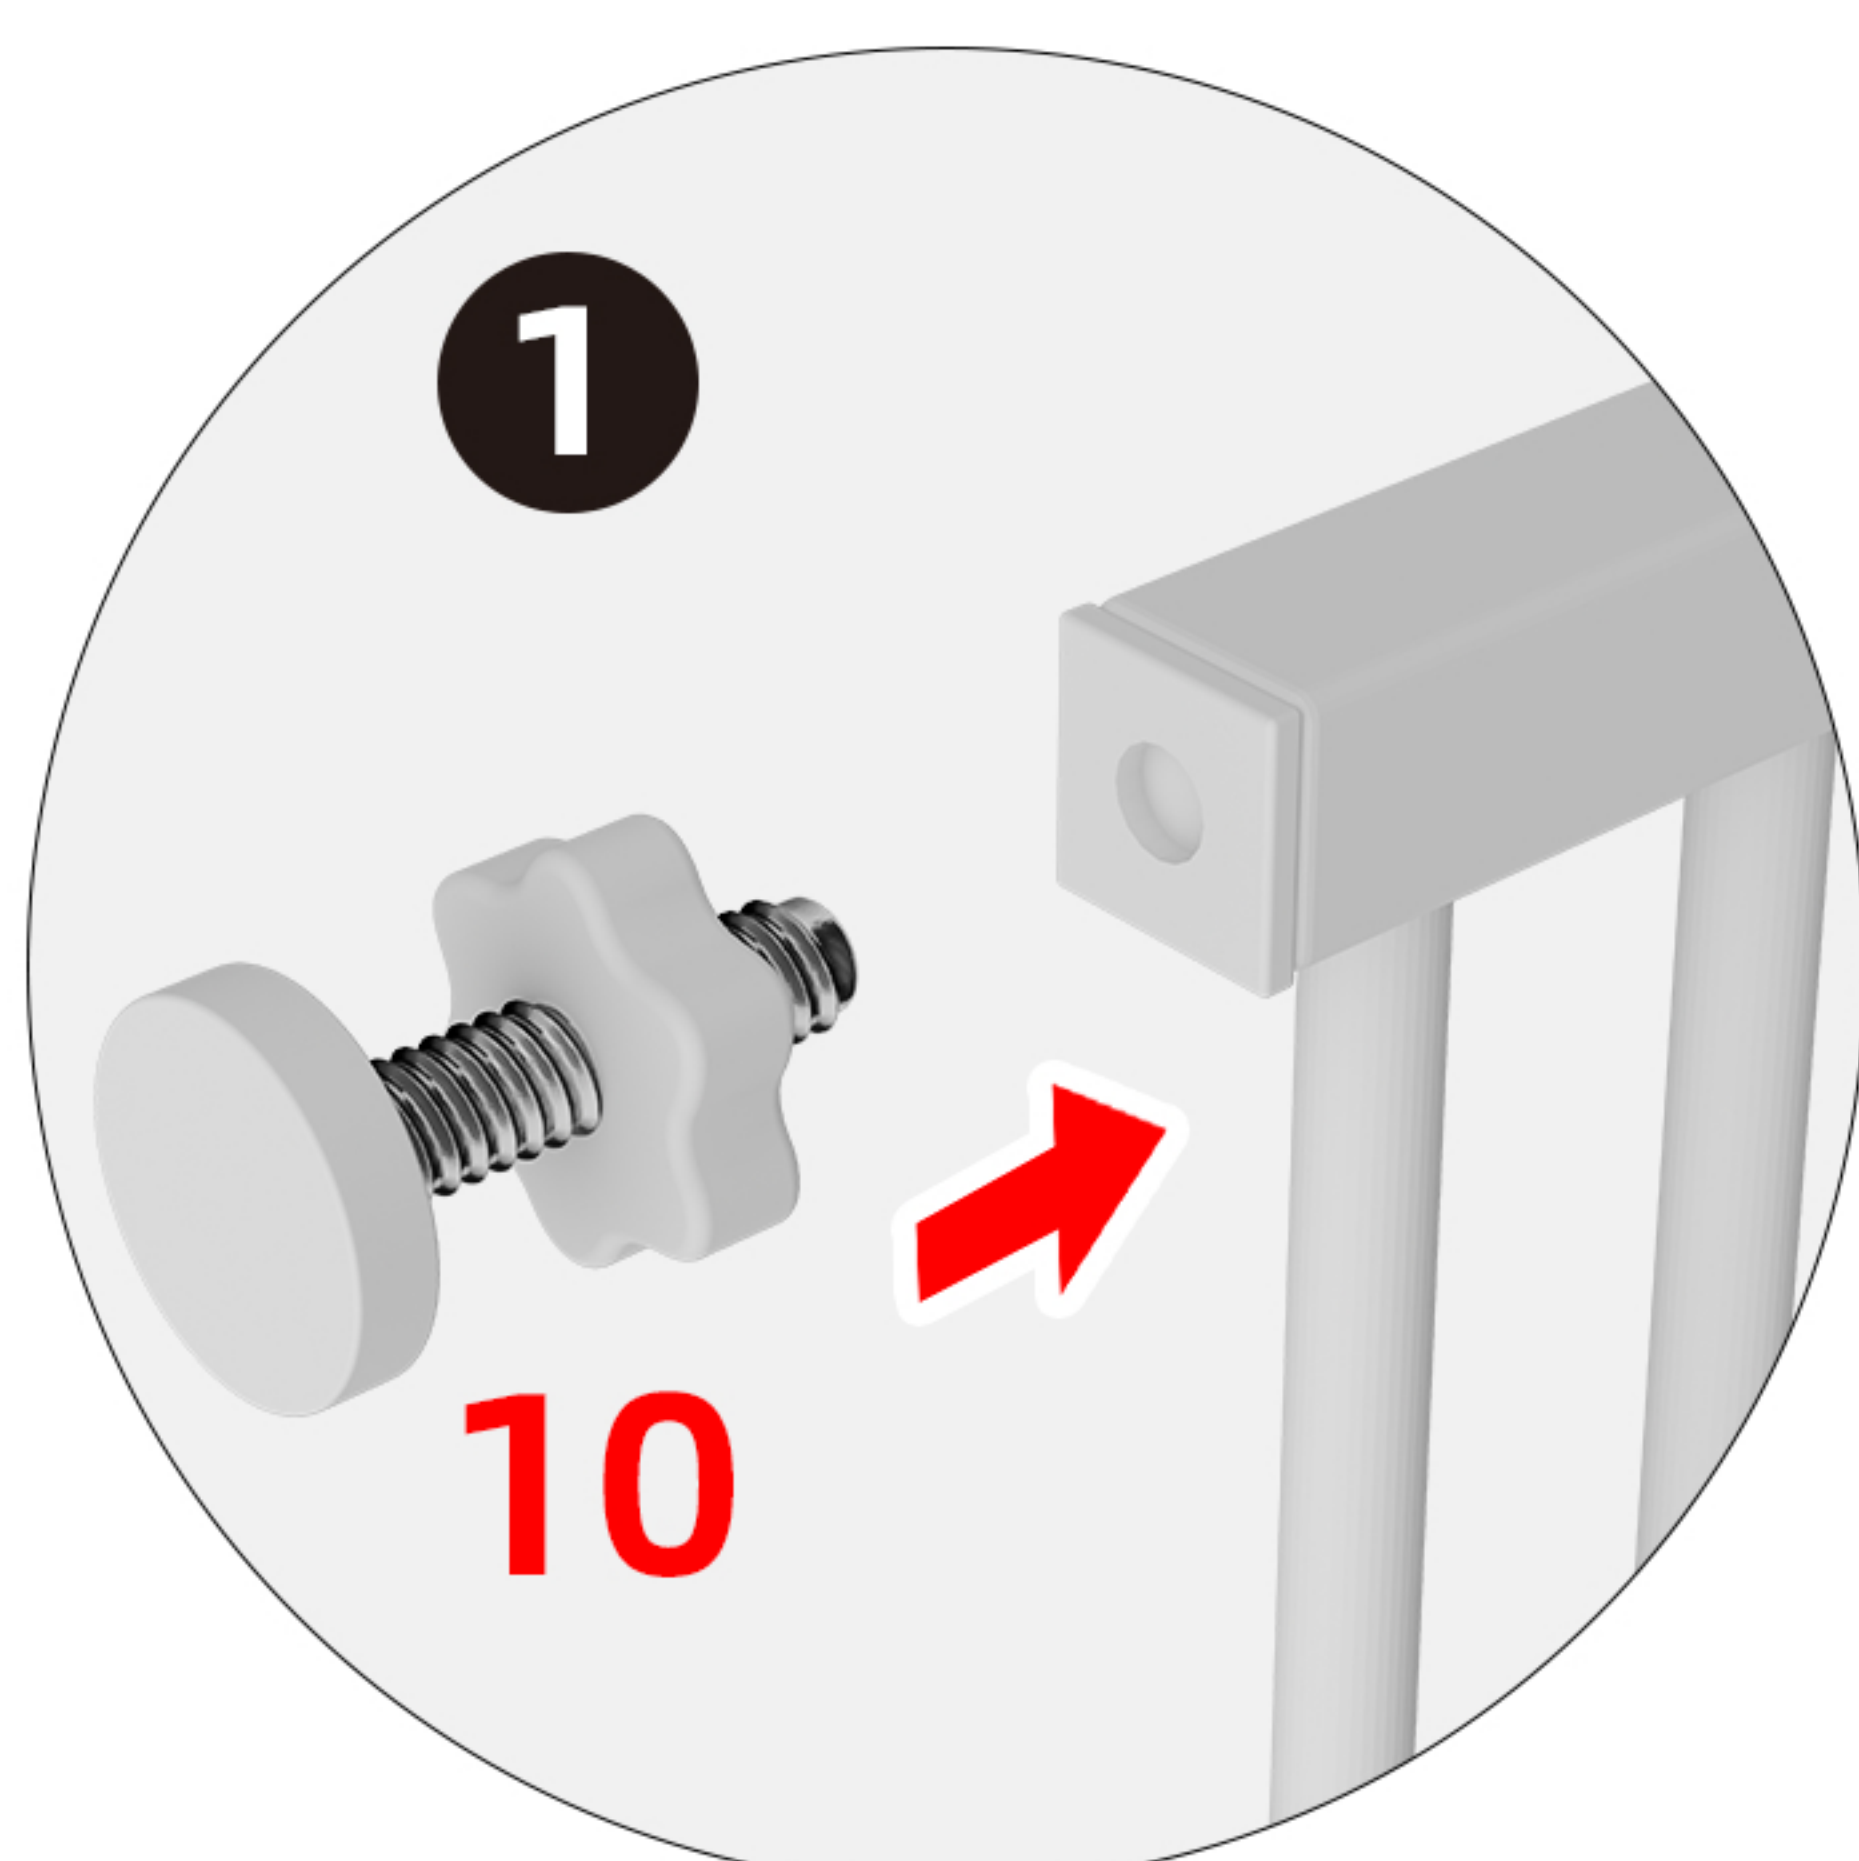

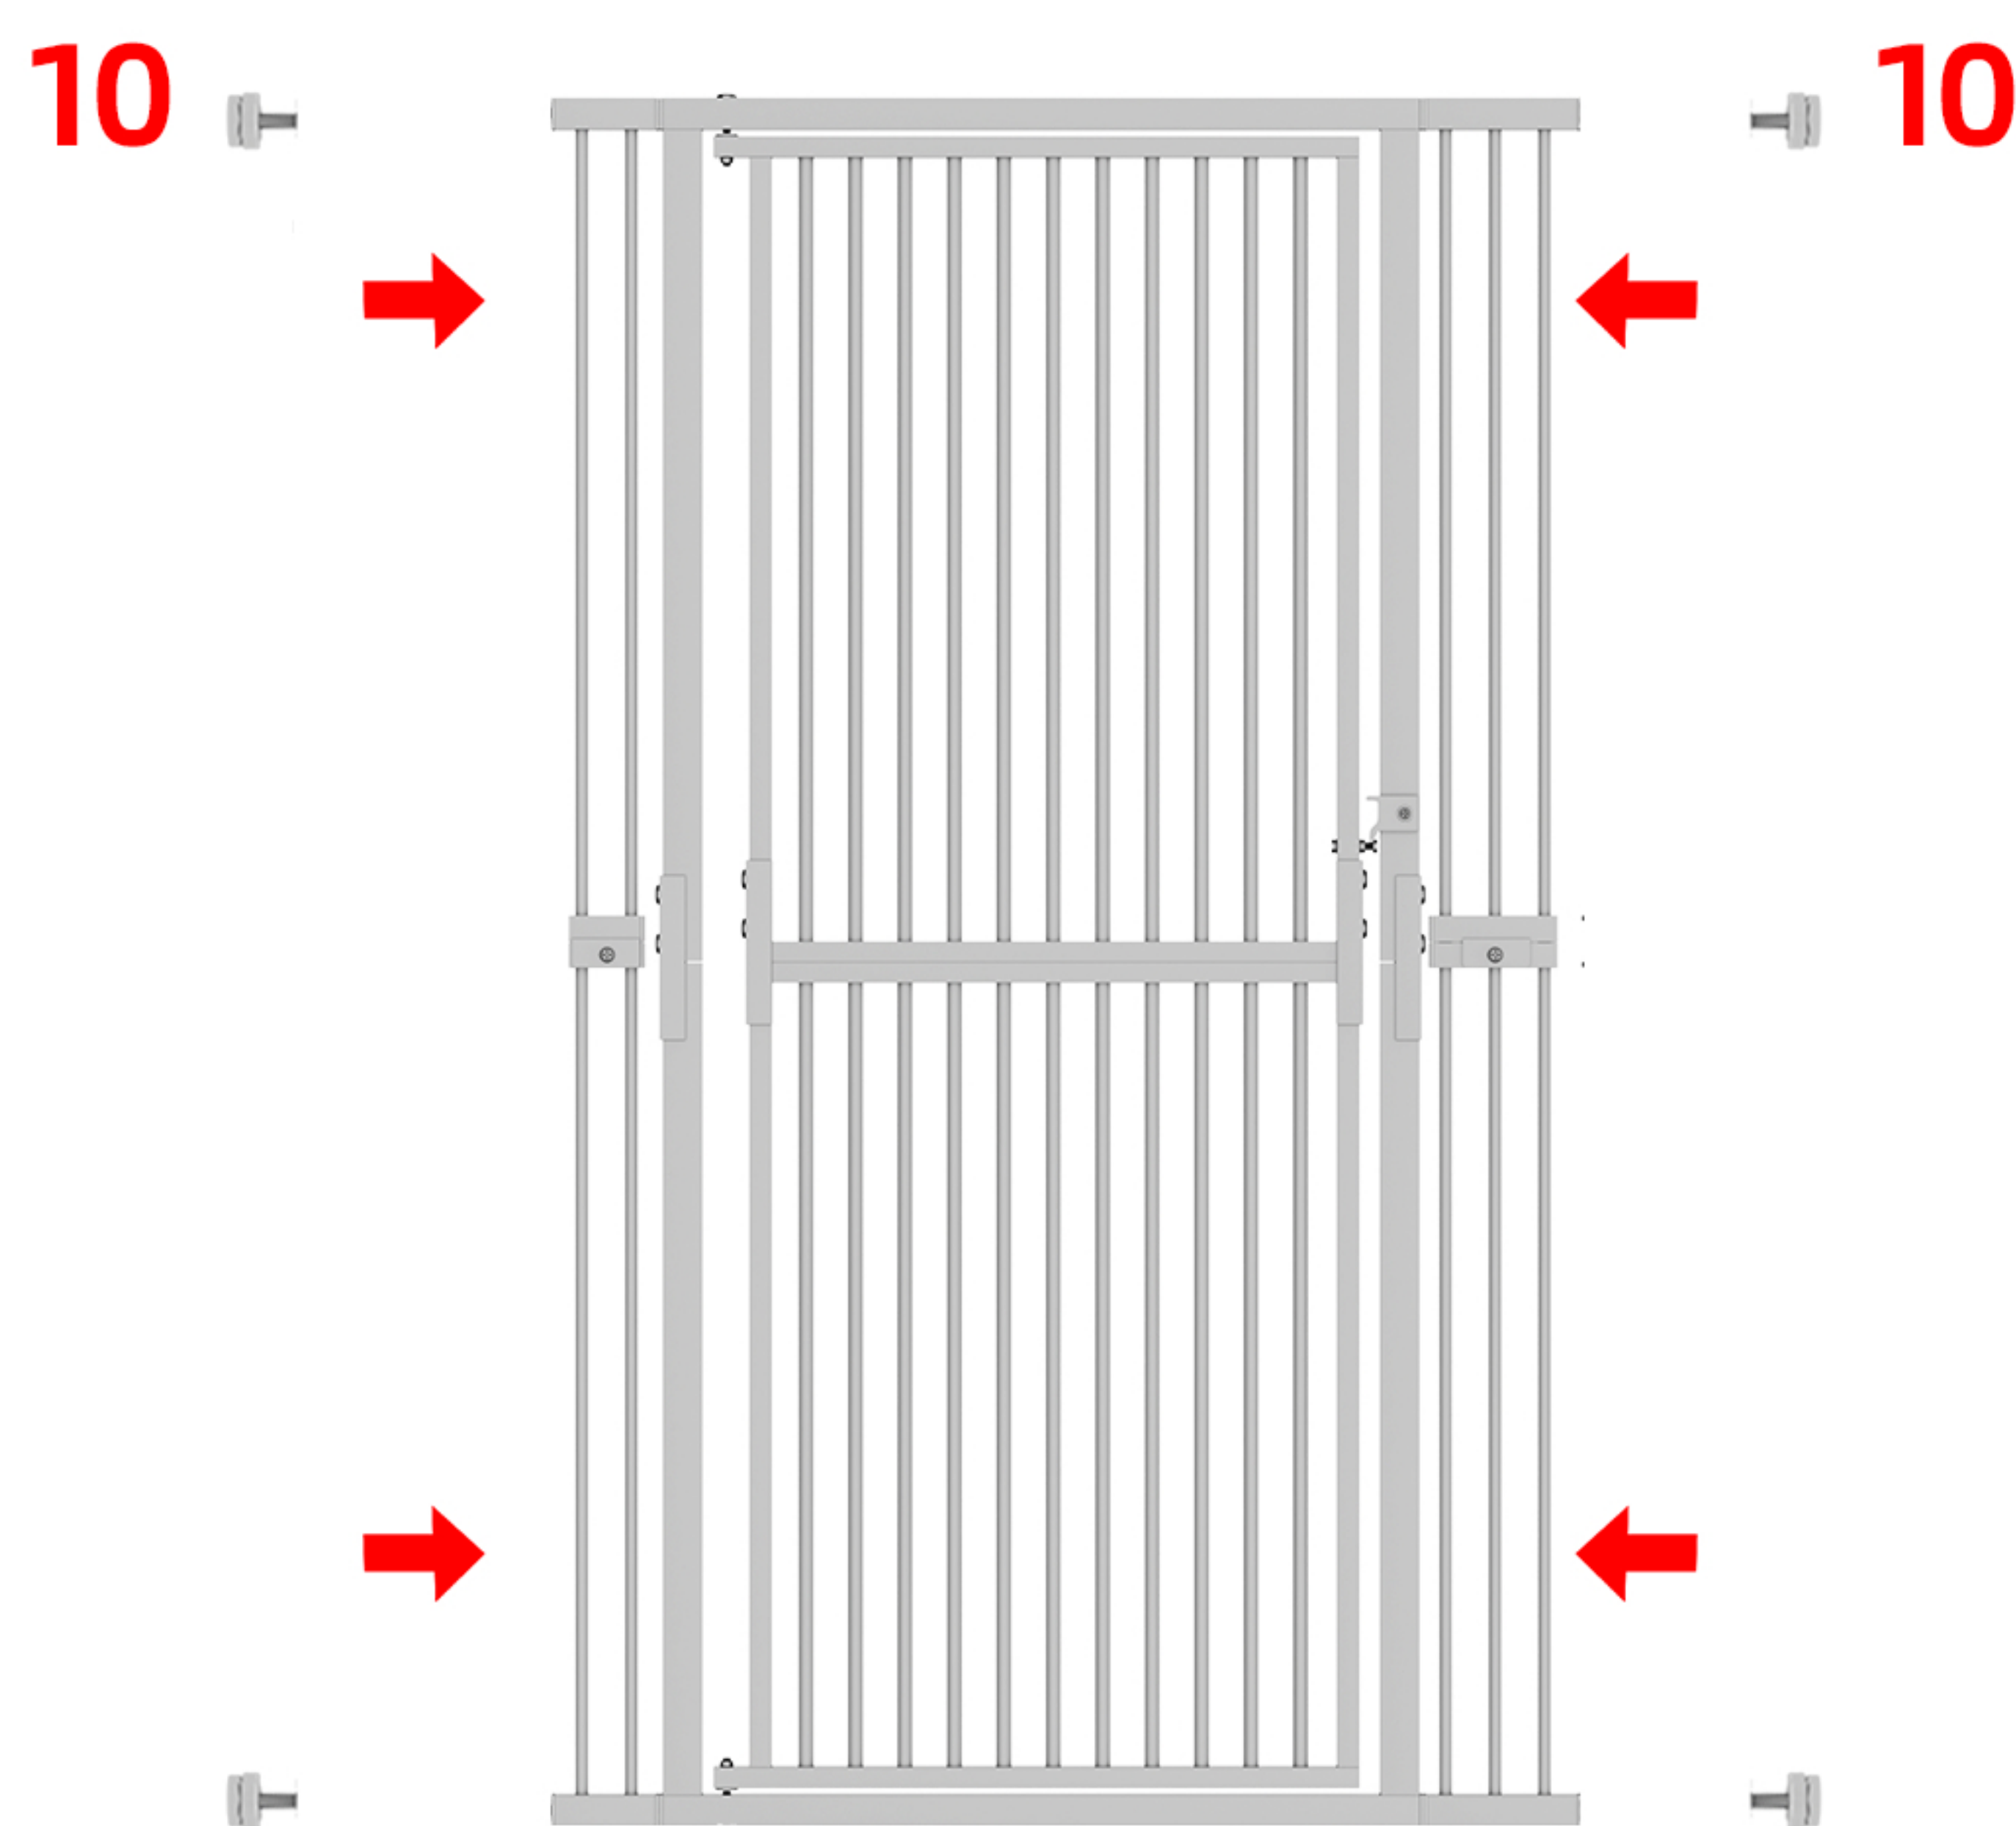

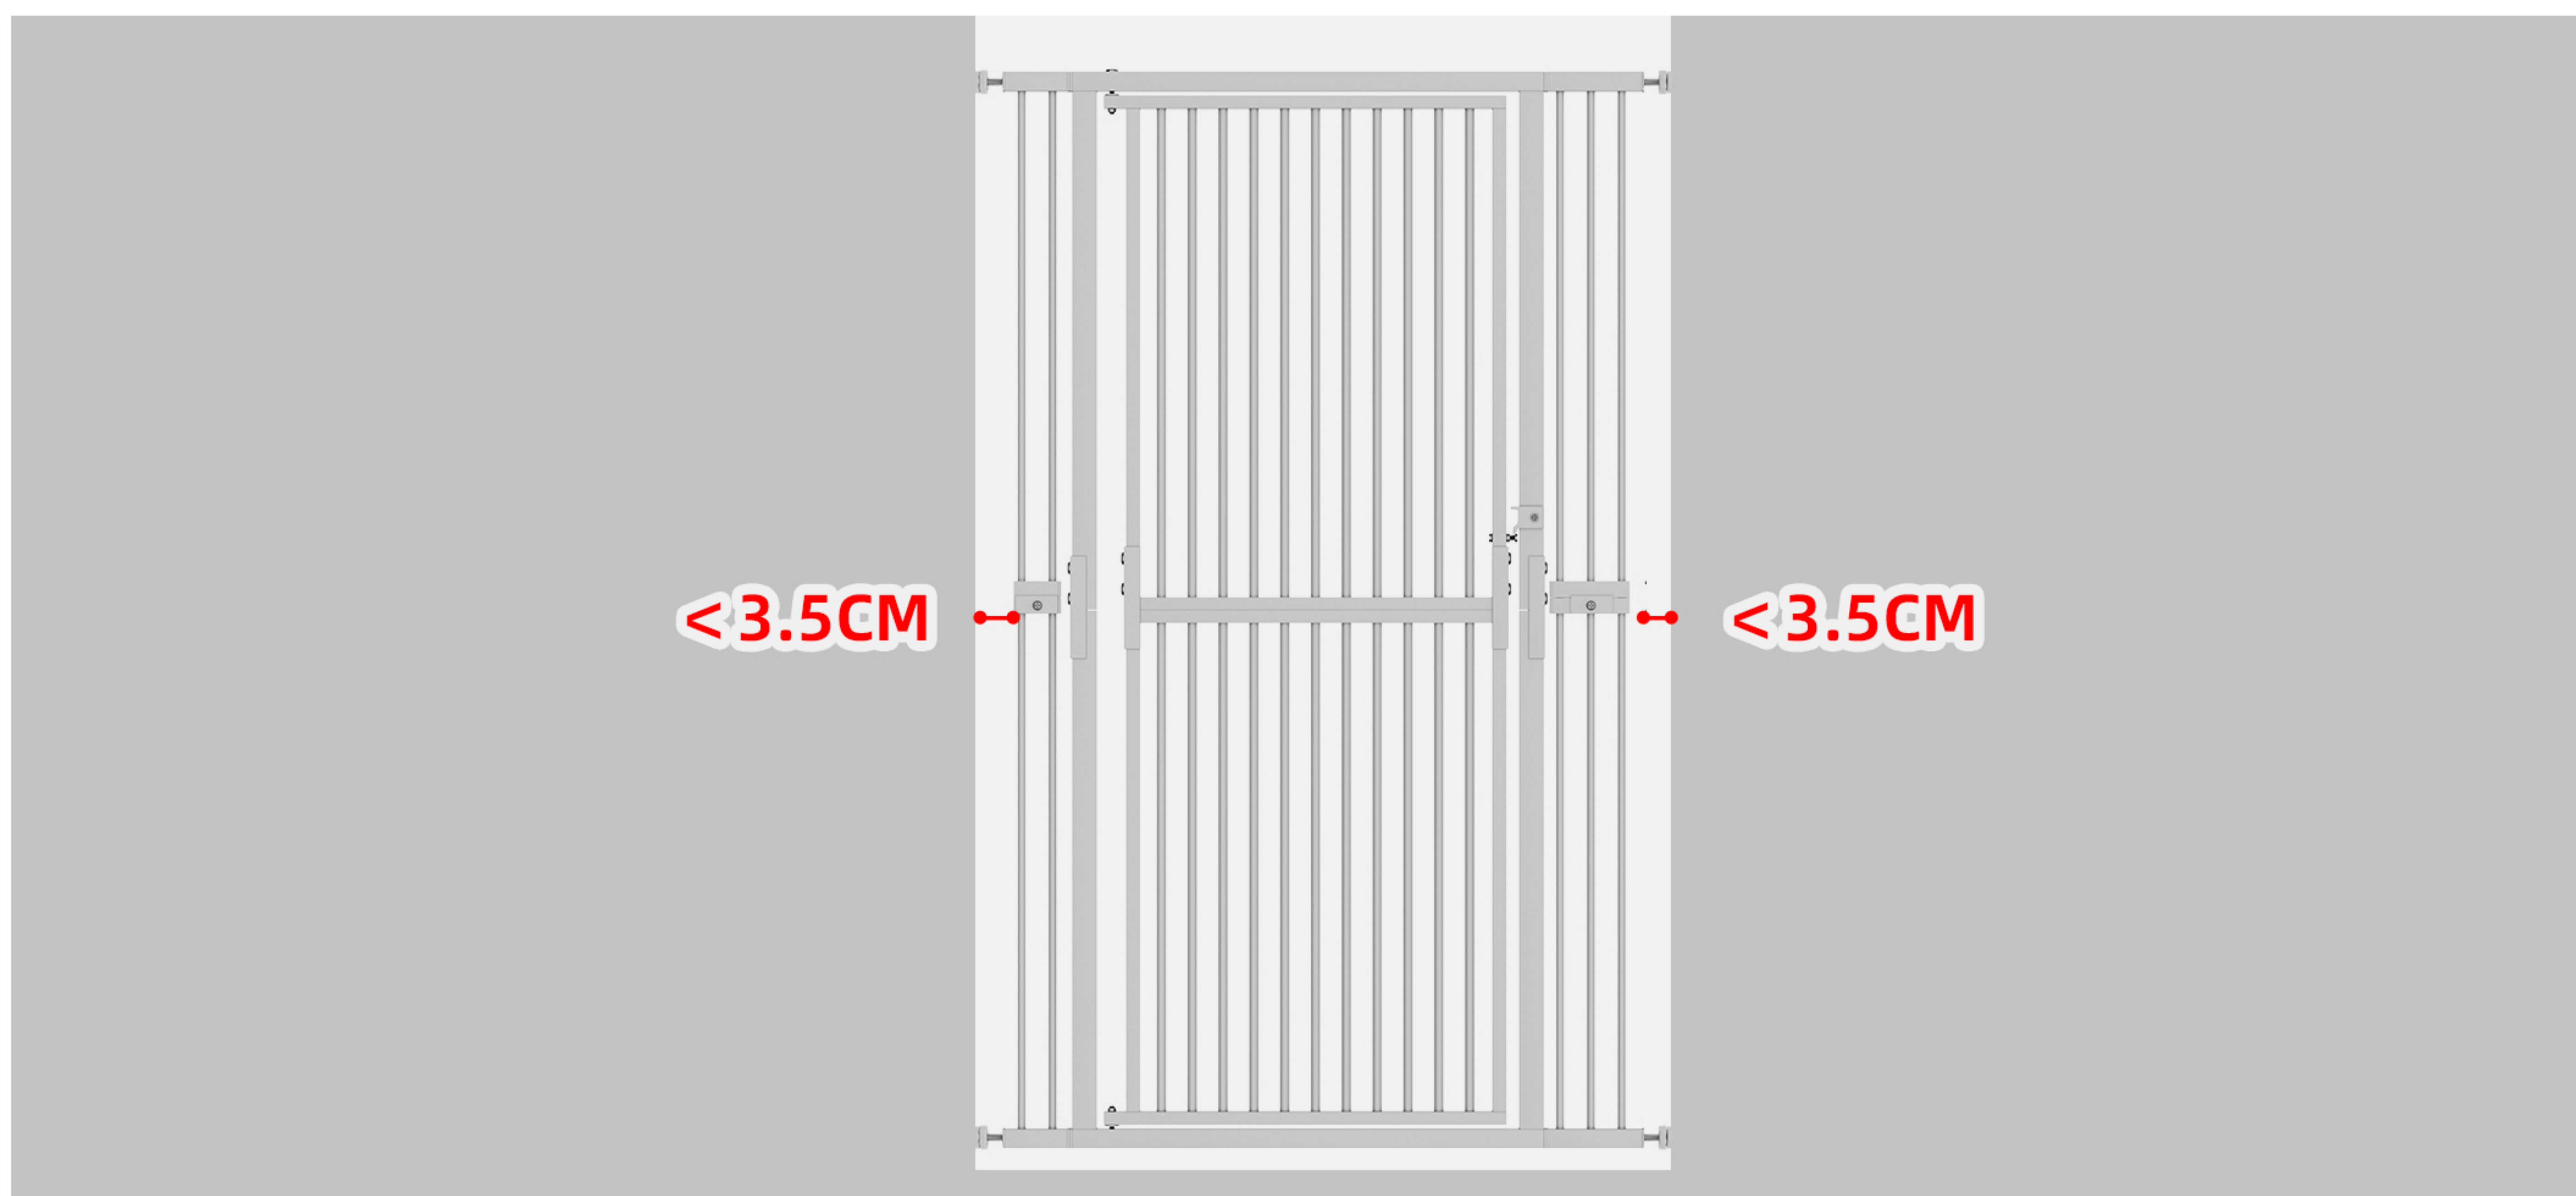

ES_ Si la distancia entre la pared y el tubo lateral no supera los 3,5 cm, no es necesario reducir la anchura con un poste (I+J), tal y como se muestra en la figura.

PT_ Se a distância entre a parede e o tubo lateral não for superior a 3,5 cm, não é necessário reduzir a largura com uma barra (I+J), tal como ilustrado na figura.

DE_ Wenn der Abstand zwischen der Wand und dem Seitenrohr nicht größer als 3,5 cm ist, muss die Breite nicht mit einer Stange (I+J) verringert werden, wie in der Abbildung dargestellt.

IT_ Se la distanza tra la parete e il tubo laterale non supera i 3,5 cm, non è necessario ridurre la larghezza con un'asta (I+J), come illustrato nella figura.

RO_ Dacă distanța dintre perete și țeava laterală nu depășește 3,5 cm, nu este necesar să se reducă lățimea cu ajutorul unei bare (I+J), așa cum se arată în figură.

EN_ If the width of the distance between the wall and the side pipe exceeds 3.5 CM, the width must be reduced with a rod (I+J) as shown in the picture. According to the actual size of the spacing, twist both of the nuts (11) to adjust the side spacing to ensure that the distance between the wall and the side pipe is <3.5 CM

FR_ Si la largeur de l'espace entre le mur et le tuyau latéral dépasse 3,5 cm, il faut réduire cet espace à l'aide d'une tige (I+J), comme indiqué sur l'illustration. En fonction de la largeur réelle de l'espace, serrez les deux écrous (11) pour ajuster l'écartement latéral, de manière à ce que la distance entre le mur et le tuyau latéral soit inférieure à 3,5 cm.

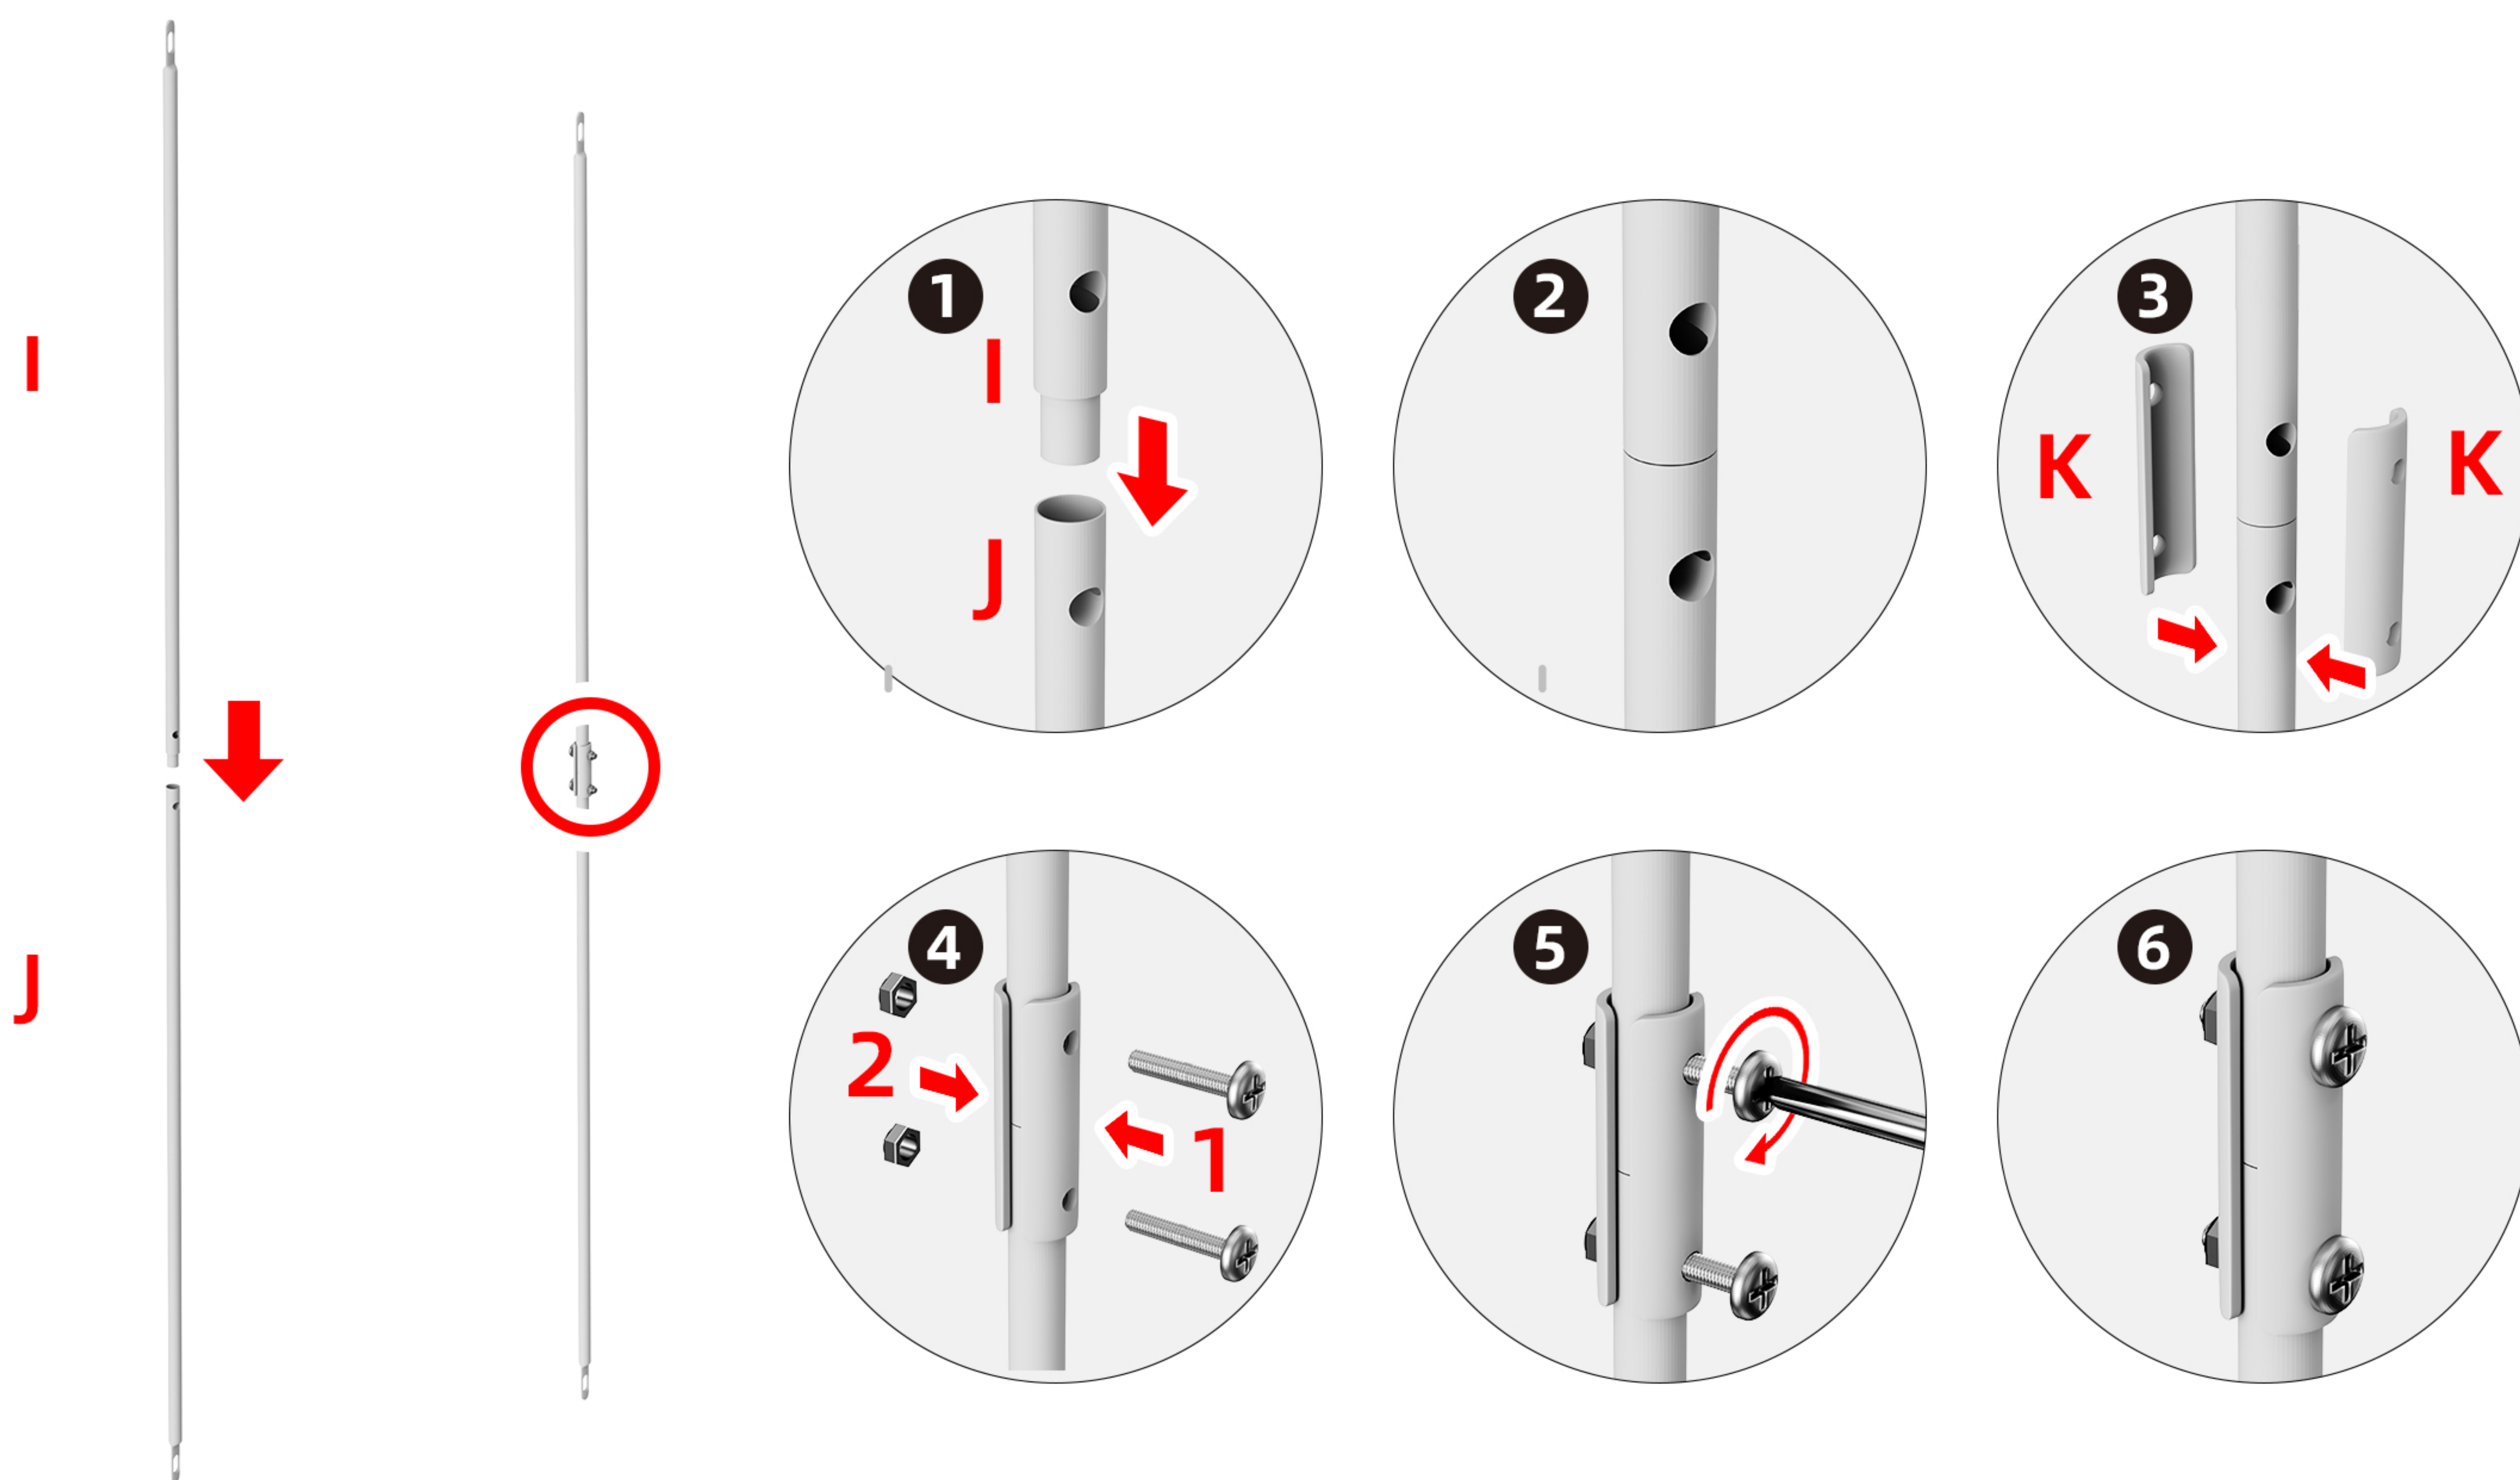

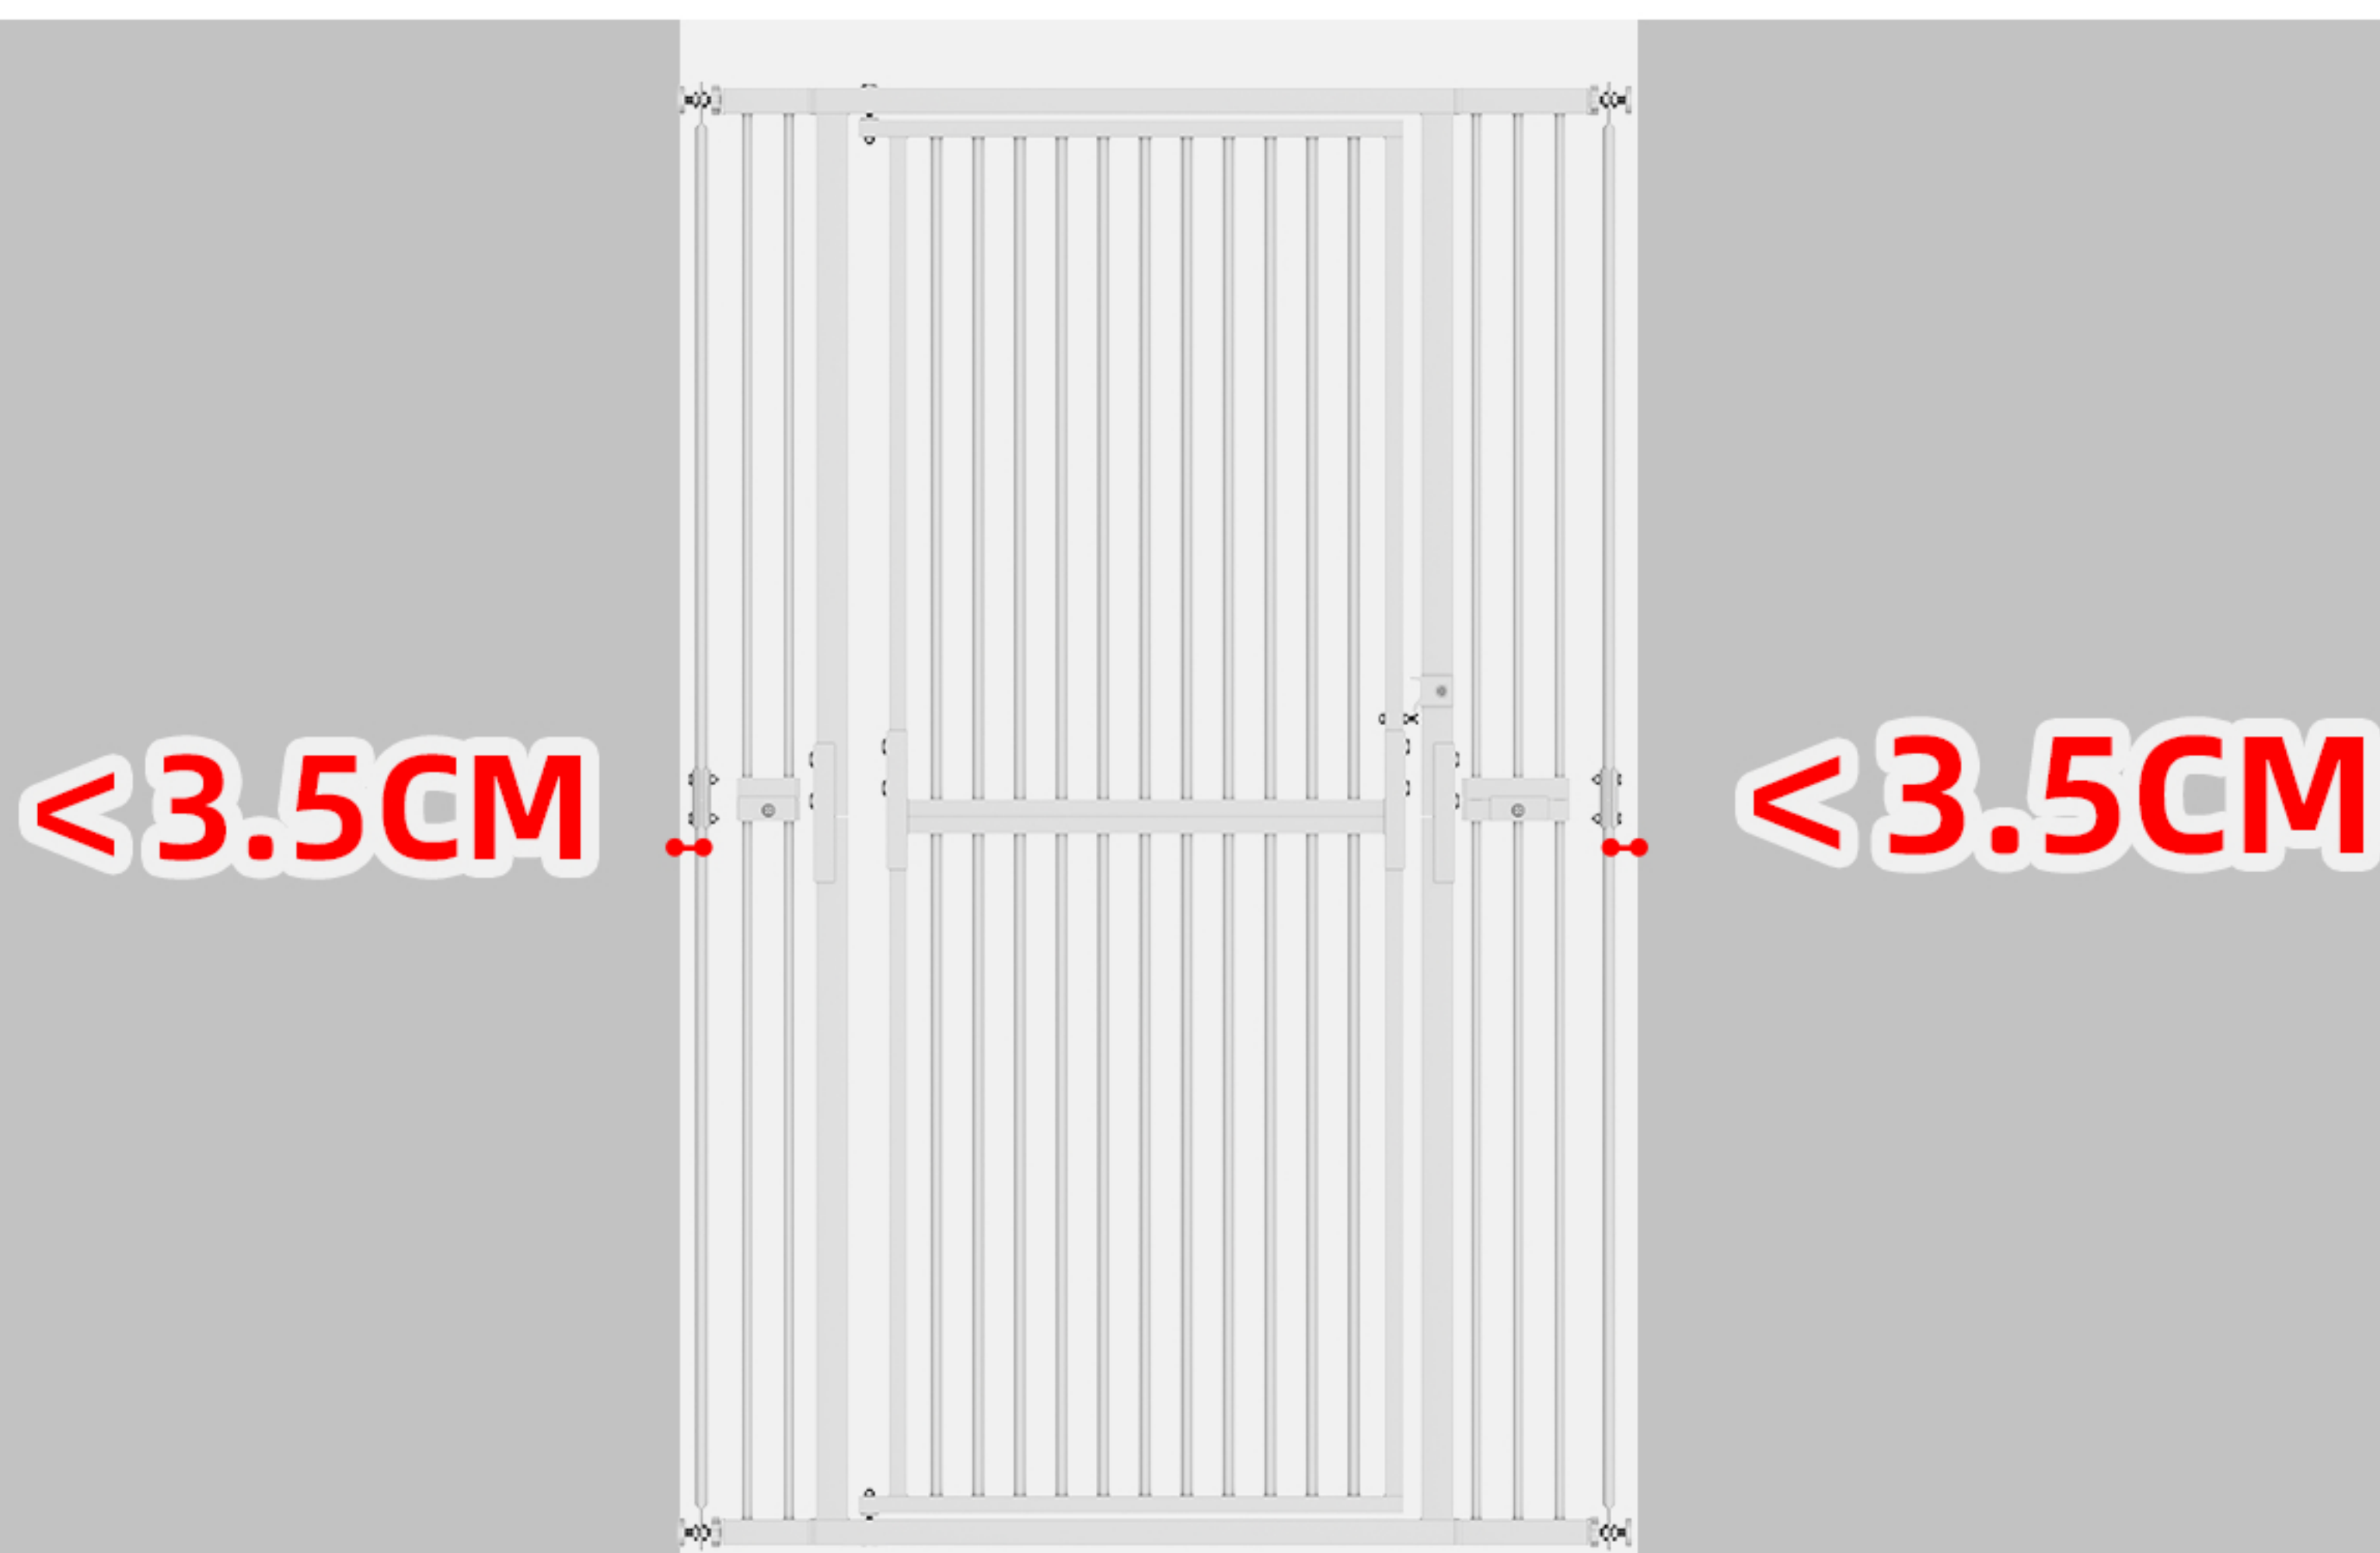

ES_ Si la distancia entre la pared y el tubo lateral supera los 3,5 cm, hay que reducirla con una varilla (I+J), tal y como se muestra en la imagen. Según la medida real del espacio, gira ambas tuercas (11) para ajustar la separación lateral y asegurarte de que la distancia entre la pared y el tubo lateral sea inferior a 3,5 cm.

PT_ Se a largura do espaço entre a parede e o tubo lateral exceder 3,5 cm, essa largura deve ser reduzida com uma haste (I+J), conforme ilustrado na imagem. De acordo com a dimensão real do espaço, aperte ambas as porcas (11) para ajustar o espaçamento lateral, de modo a garantir que a distância entre a parede e o tubo lateral seja <3,5 cm.

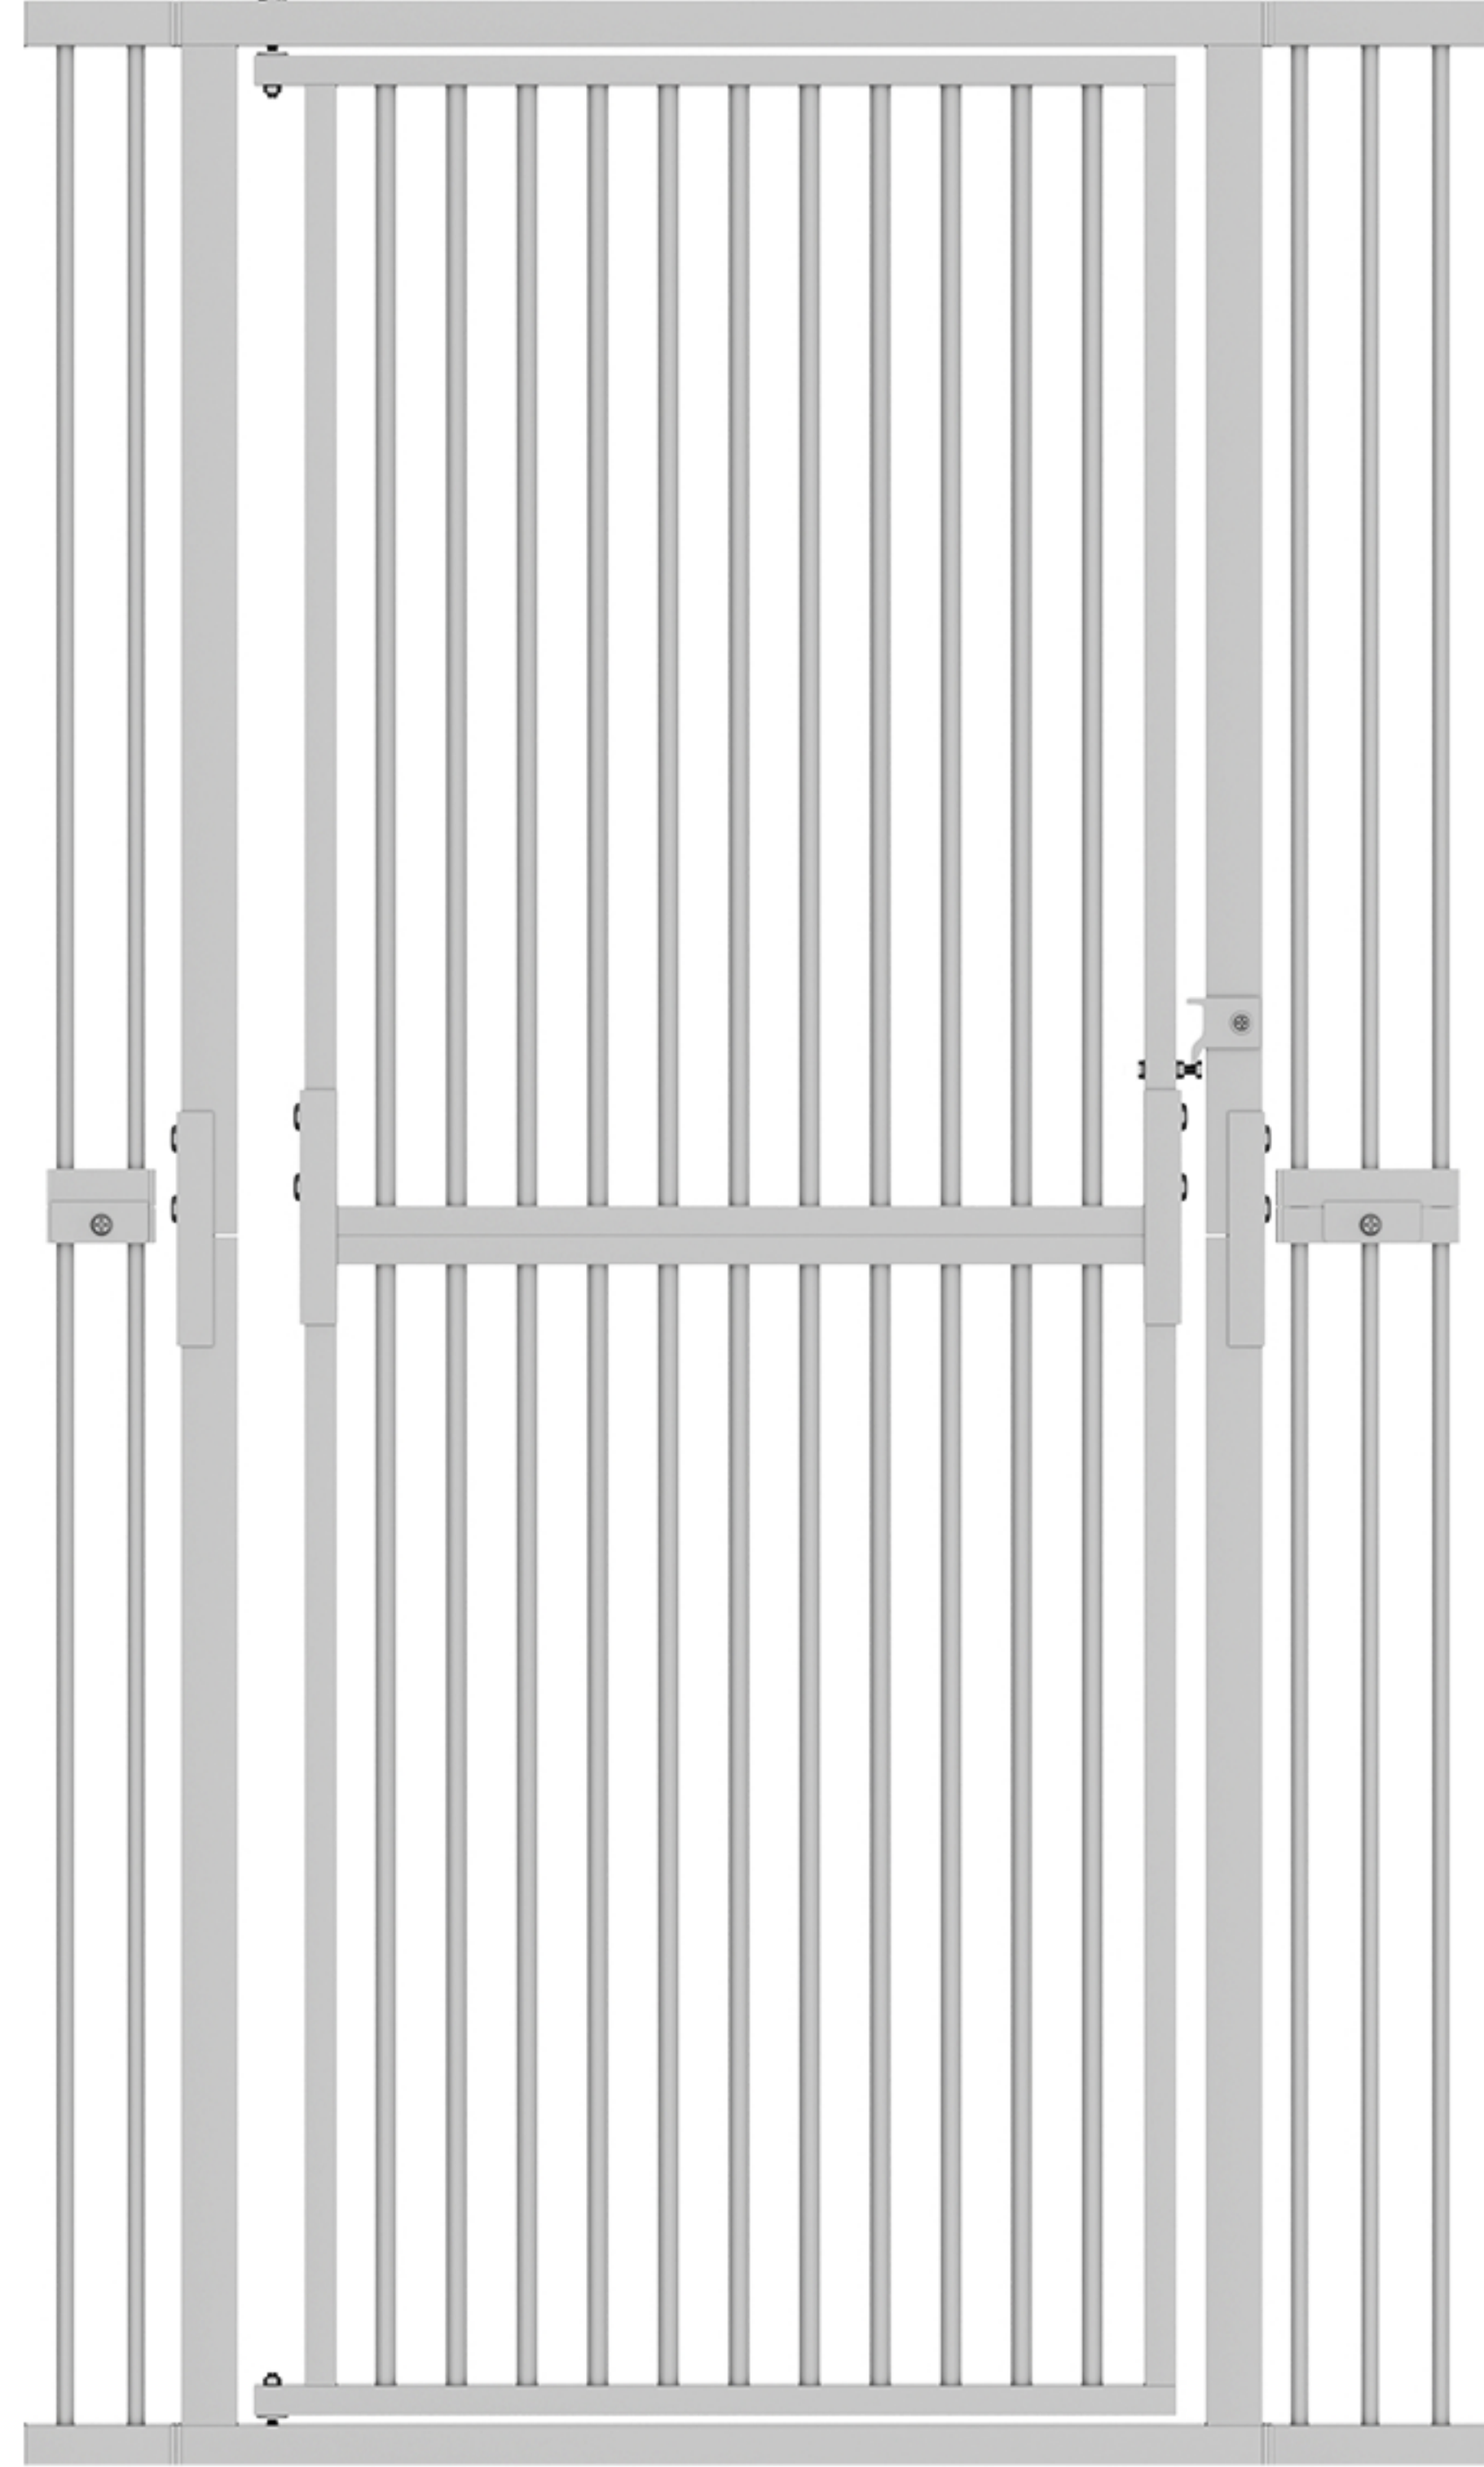

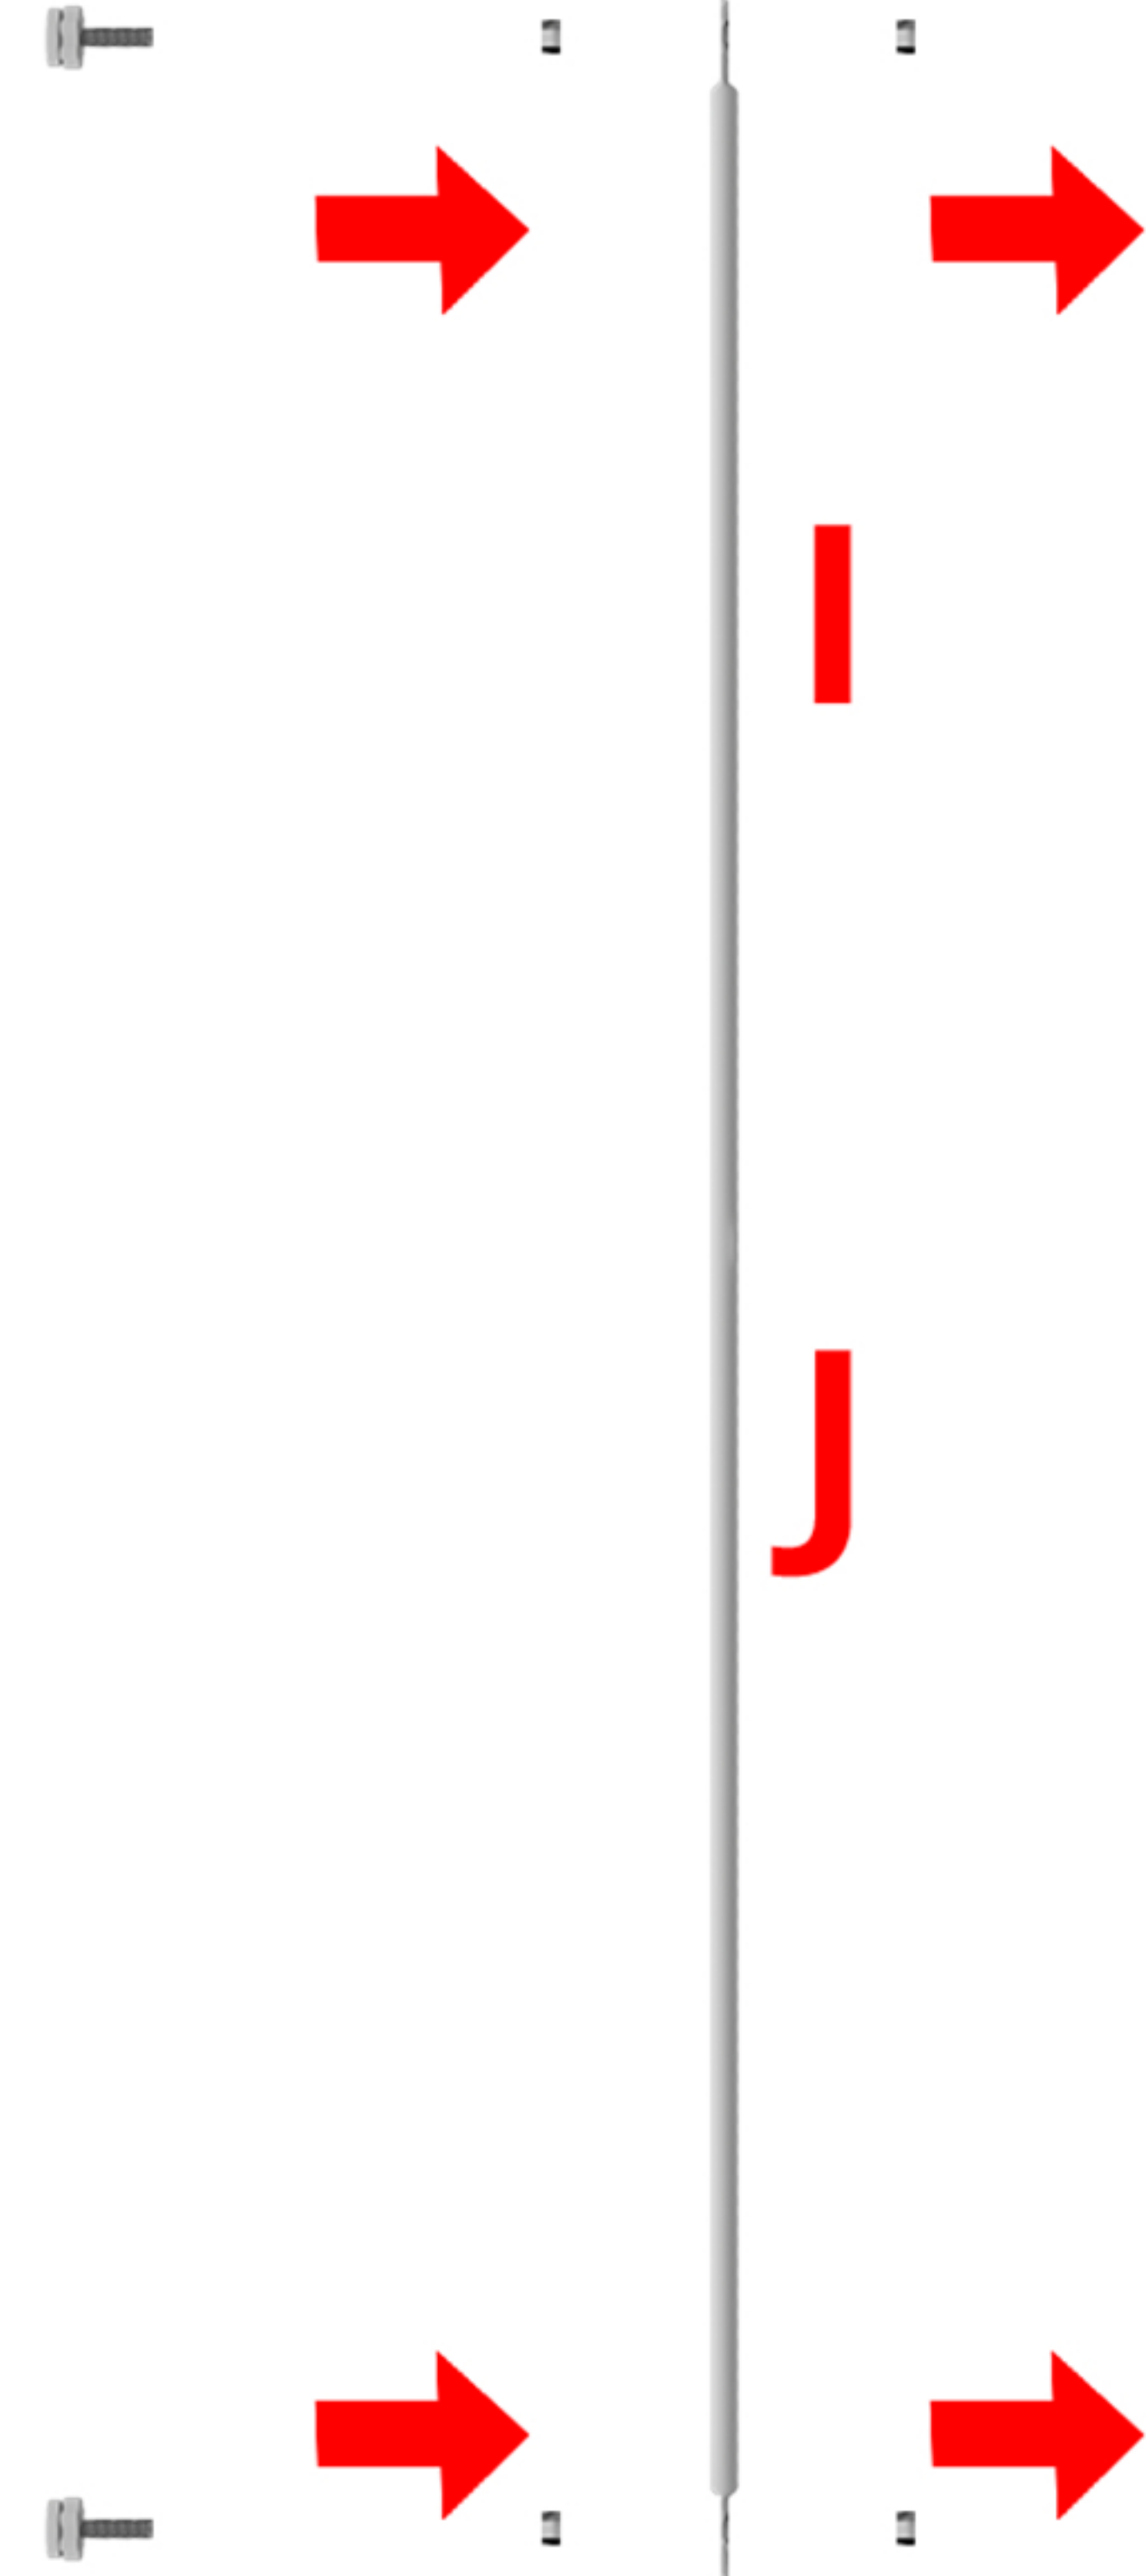

DE_ Wenn der Abstand zwischen der Wand und dem Seitenrohr mehr als 3,5 cm beträgt, muss dieser Abstand wie in der Abbildung gezeigt mit einer Stange (I+J) verringert werden. Je nach tatsächlicher Größe des Abstands drehen Sie beide Muttern (11), um den seitlichen Abstand so einzustellen, dass der Abstand zwischen der Wand und dem Seitenrohr <3,5 cm beträgt.

IT_ Se la distanza tra la parete e il tubo laterale supera i 3,5 cm, è necessario ridurla utilizzando un'asta (I+J), come illustrato nella figura. In base alla misura effettiva della distanza, serrare entrambi i dadi (11) per regolare la distanza laterale, in modo da garantire che la distanza tra la parete e il tubo laterale sia inferiore a 3,5 cm.

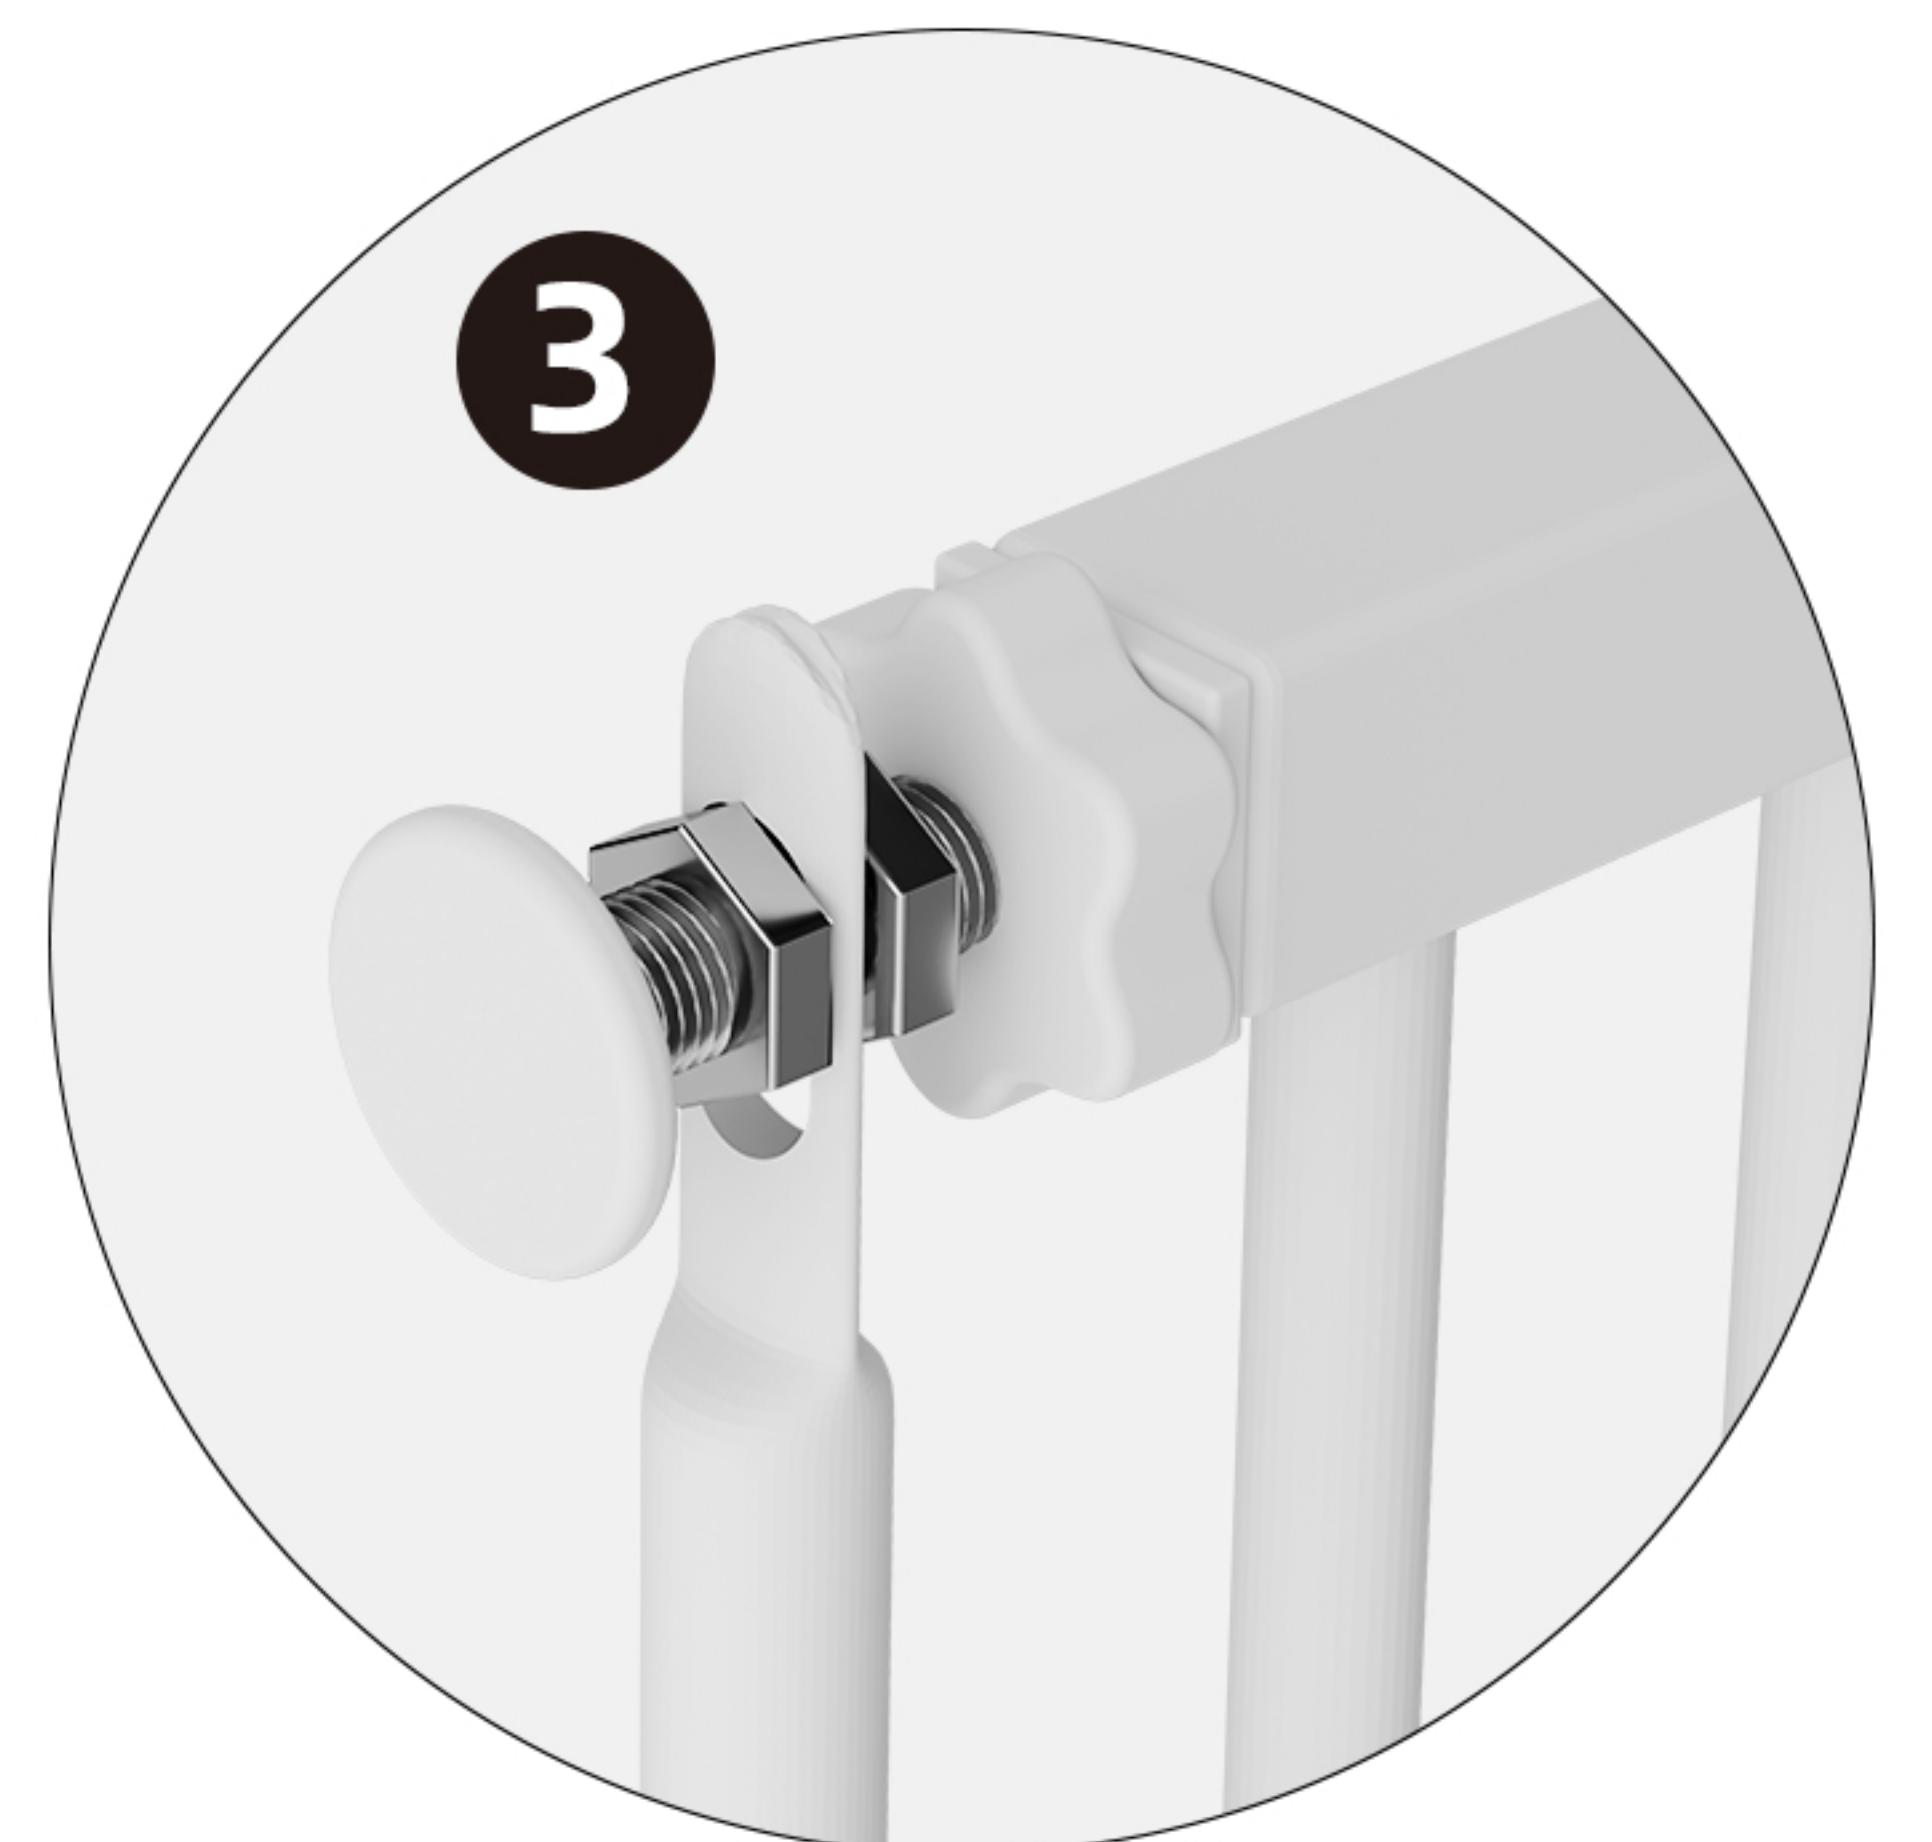

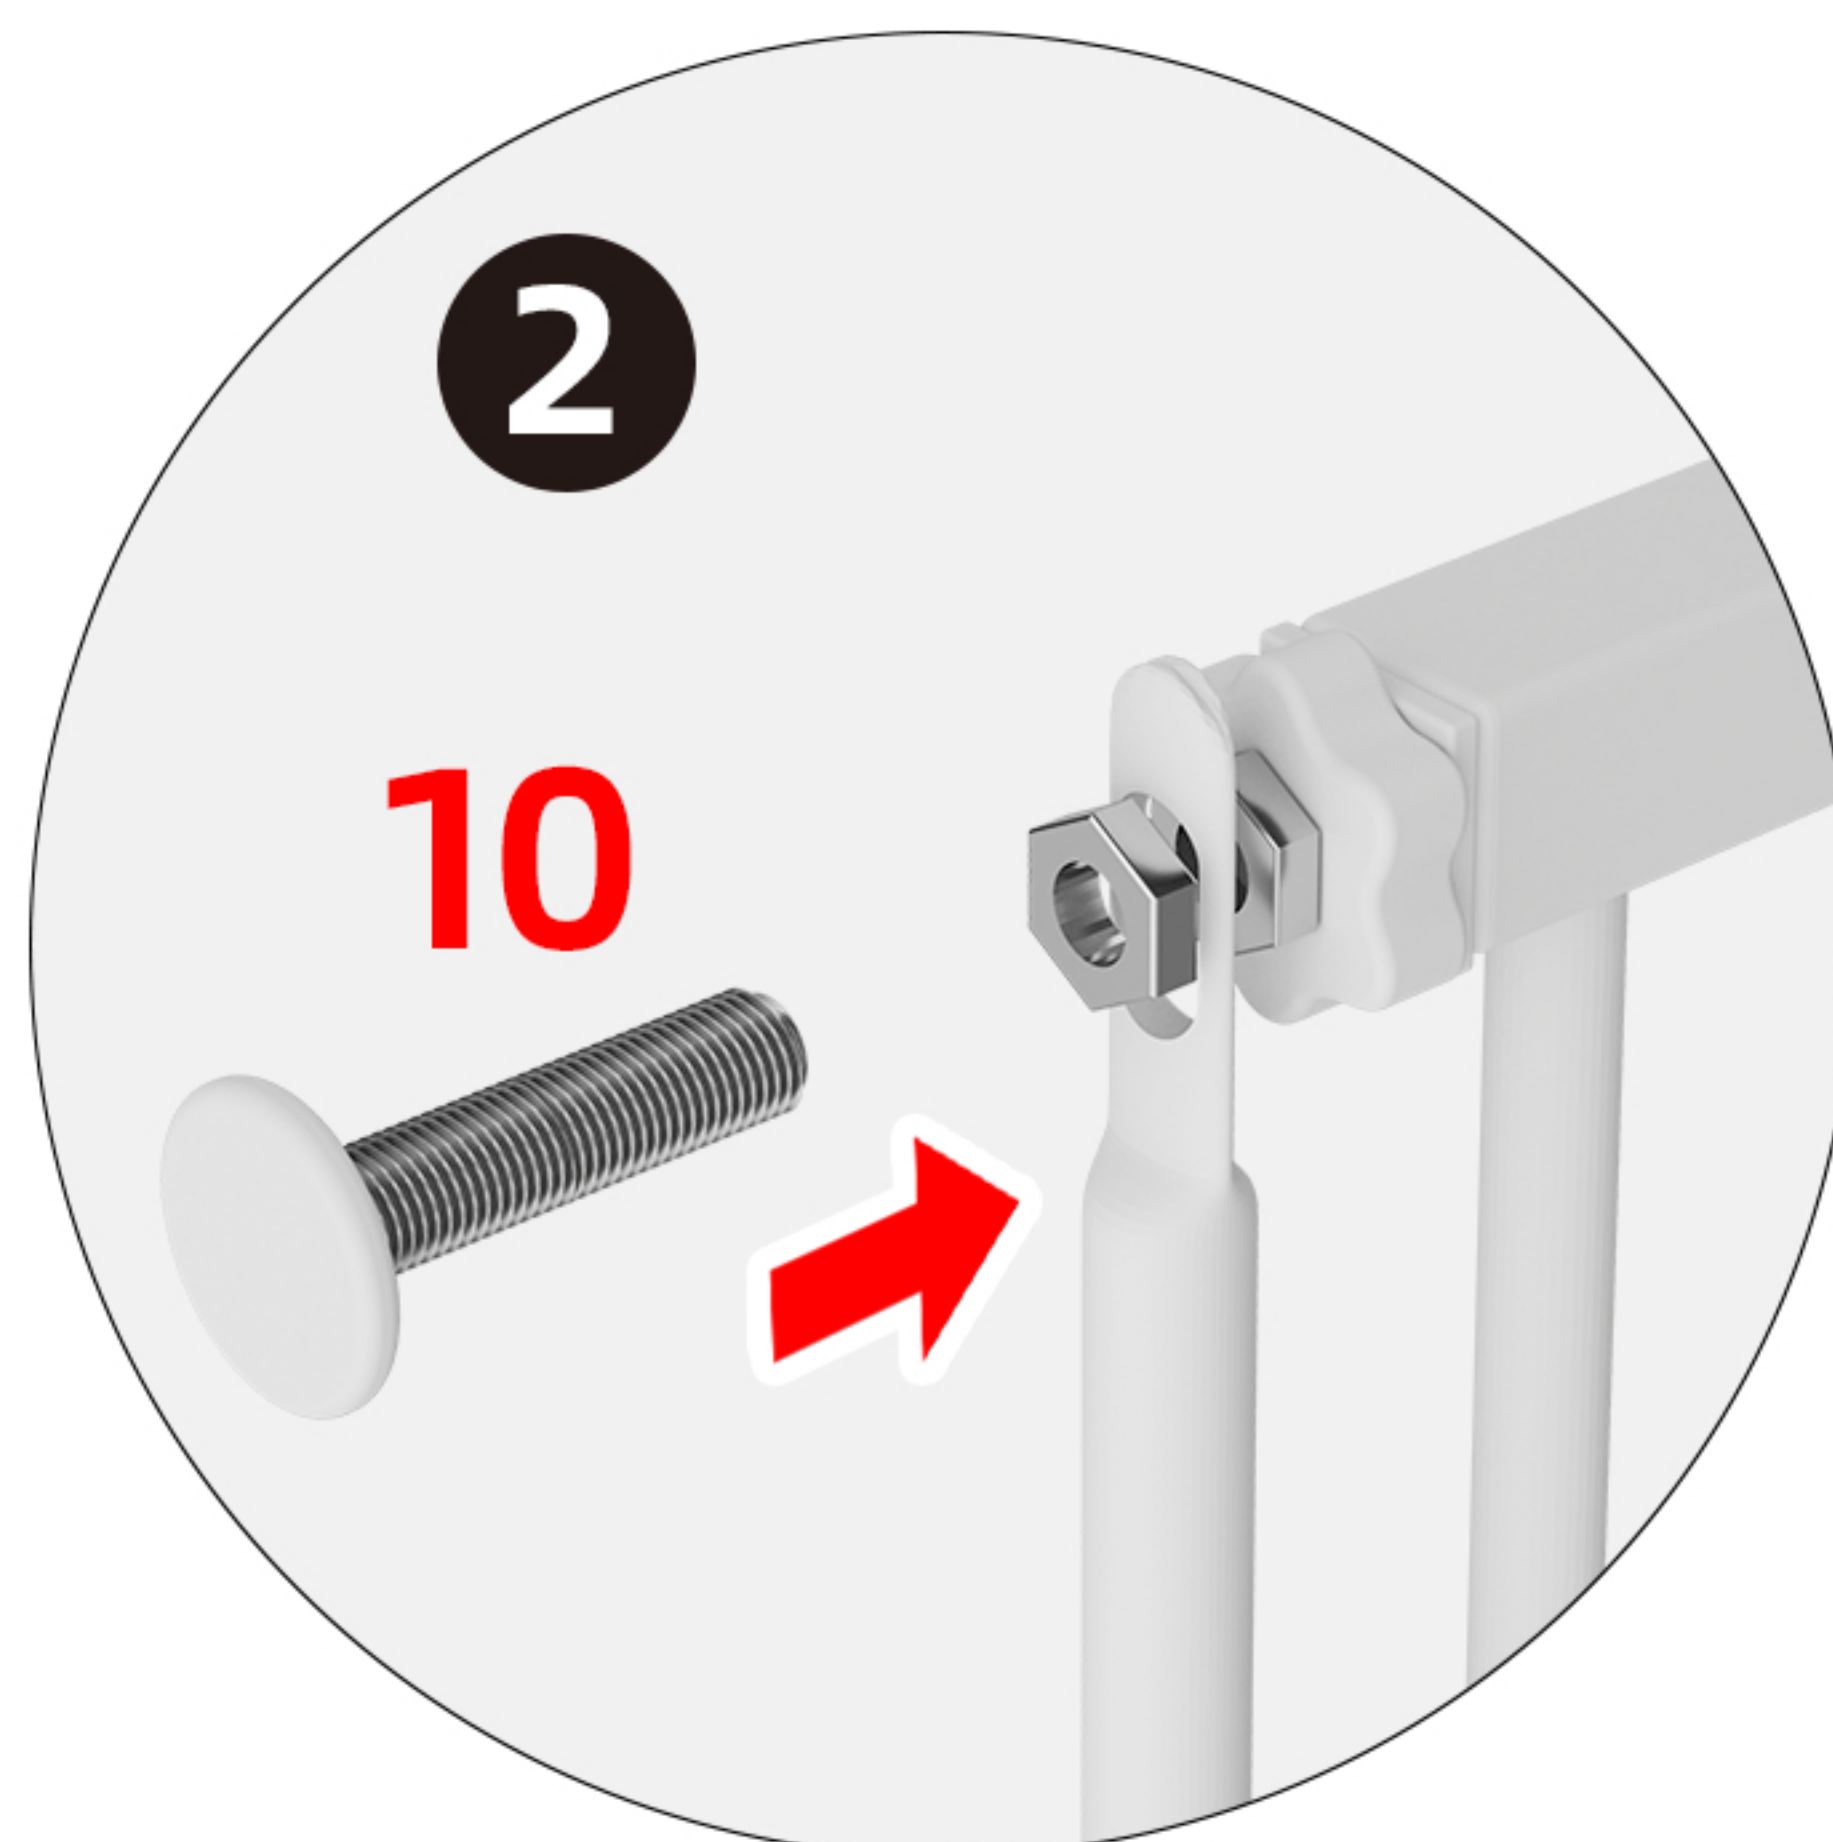

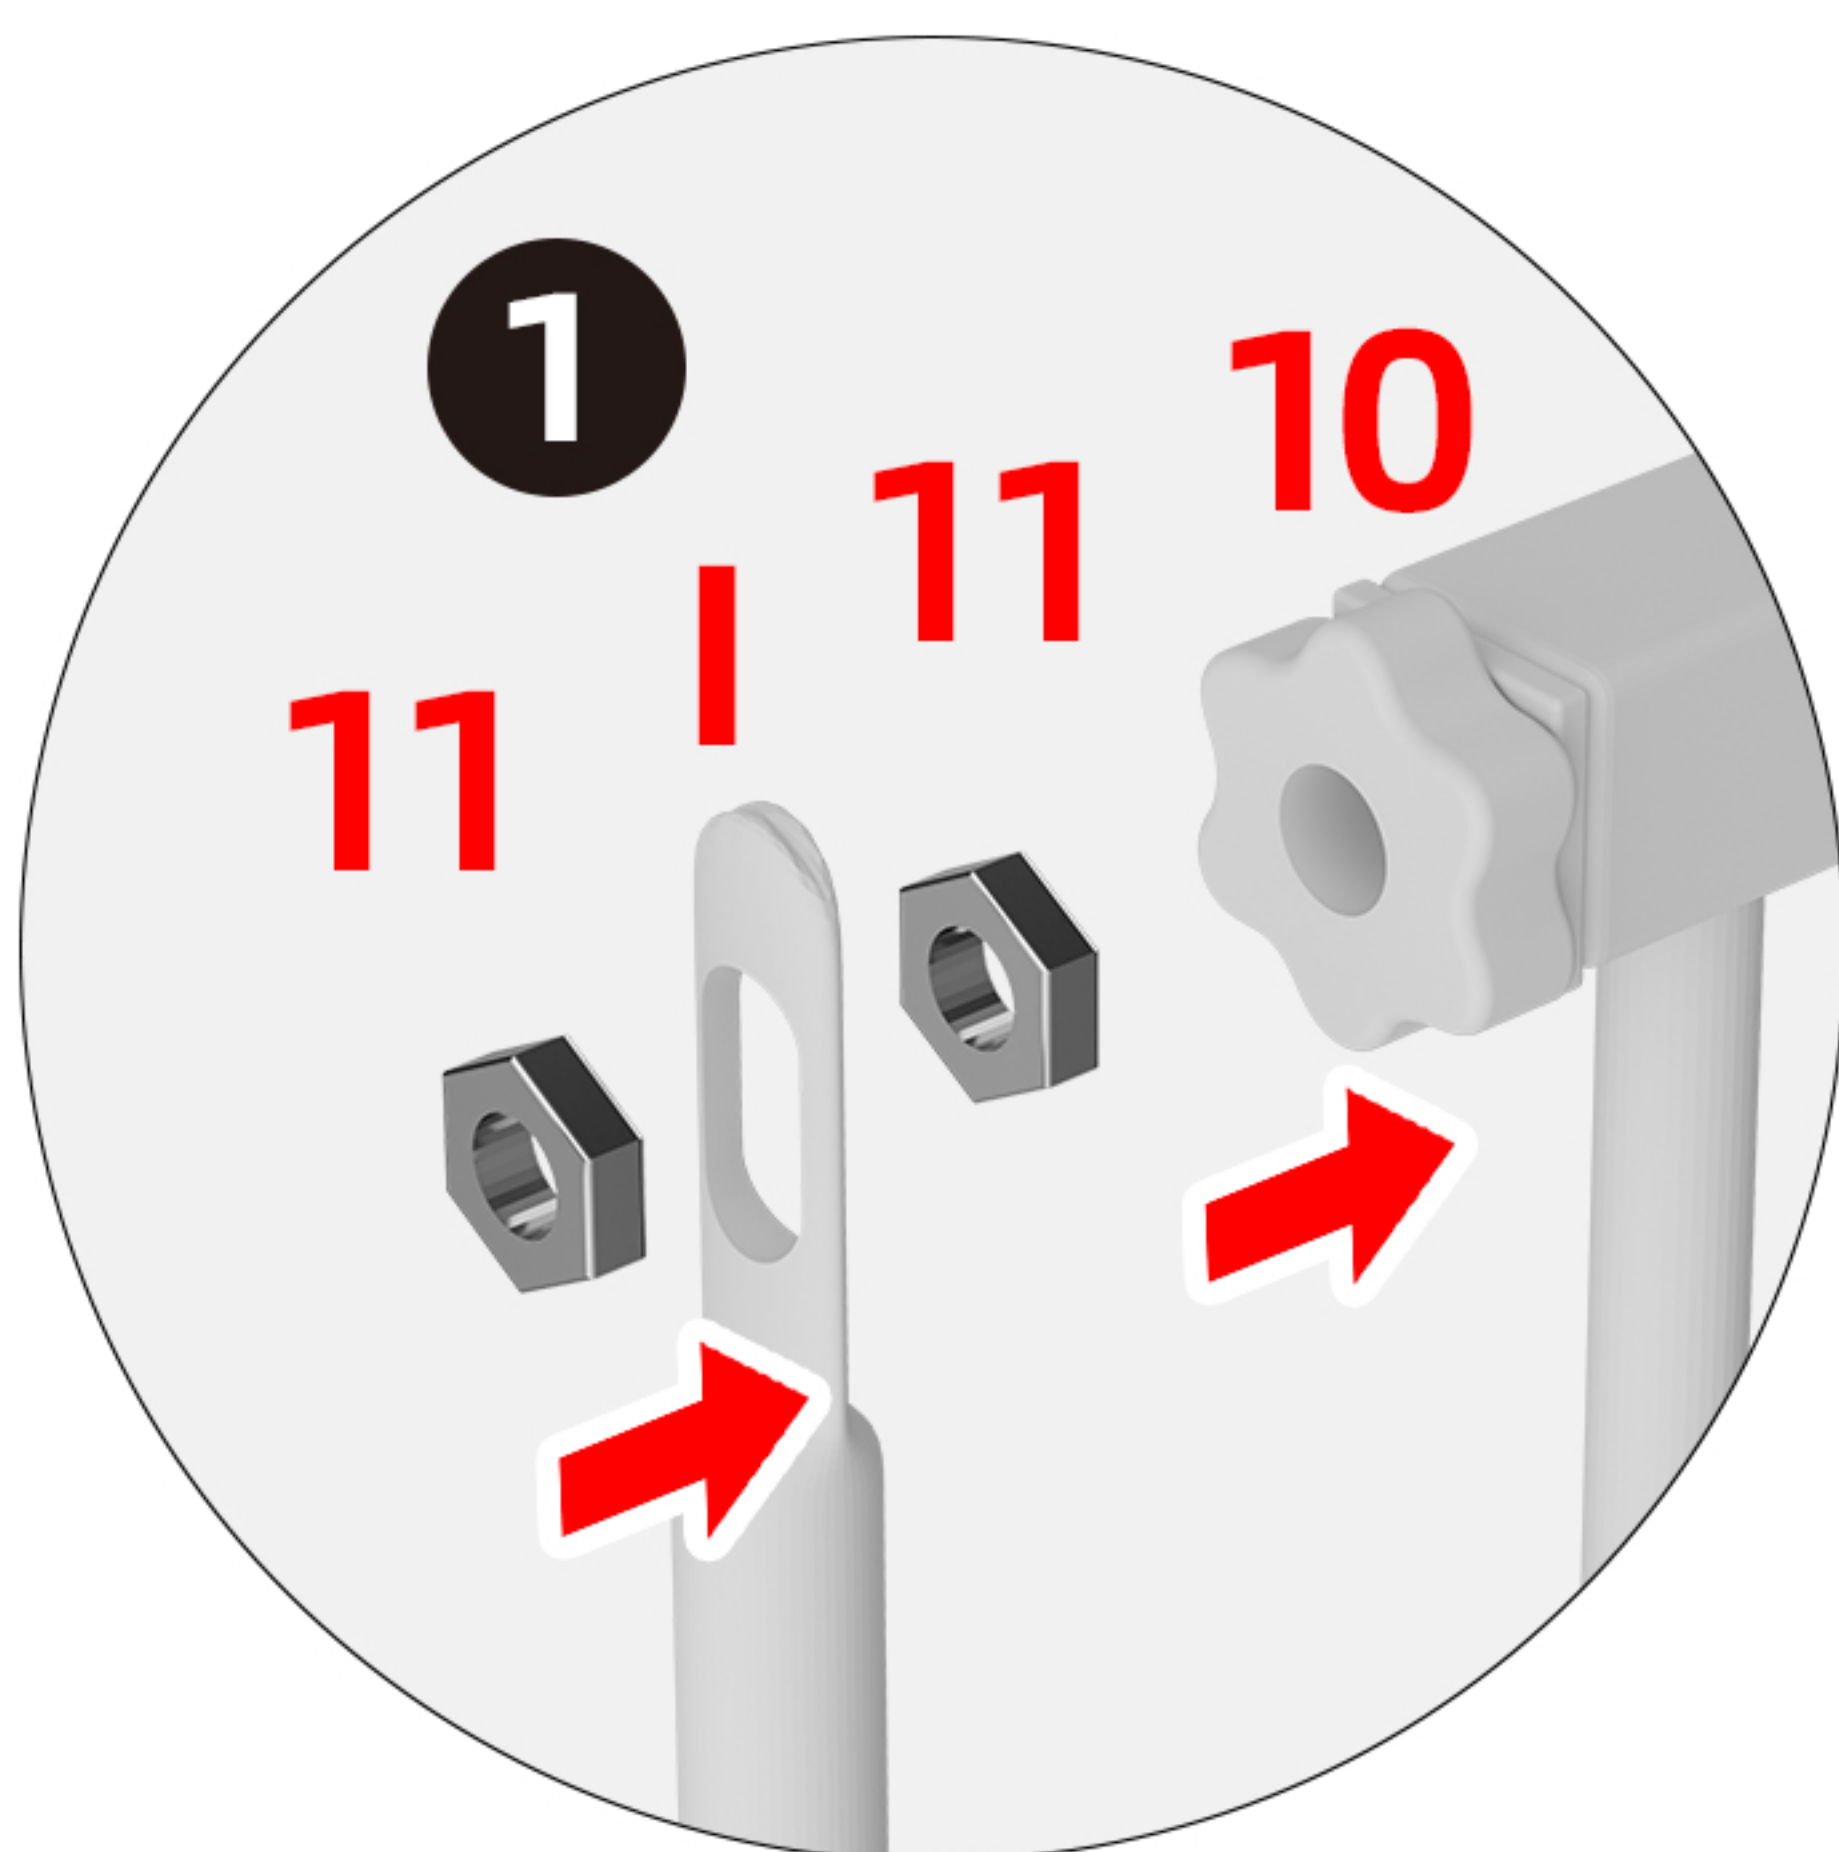

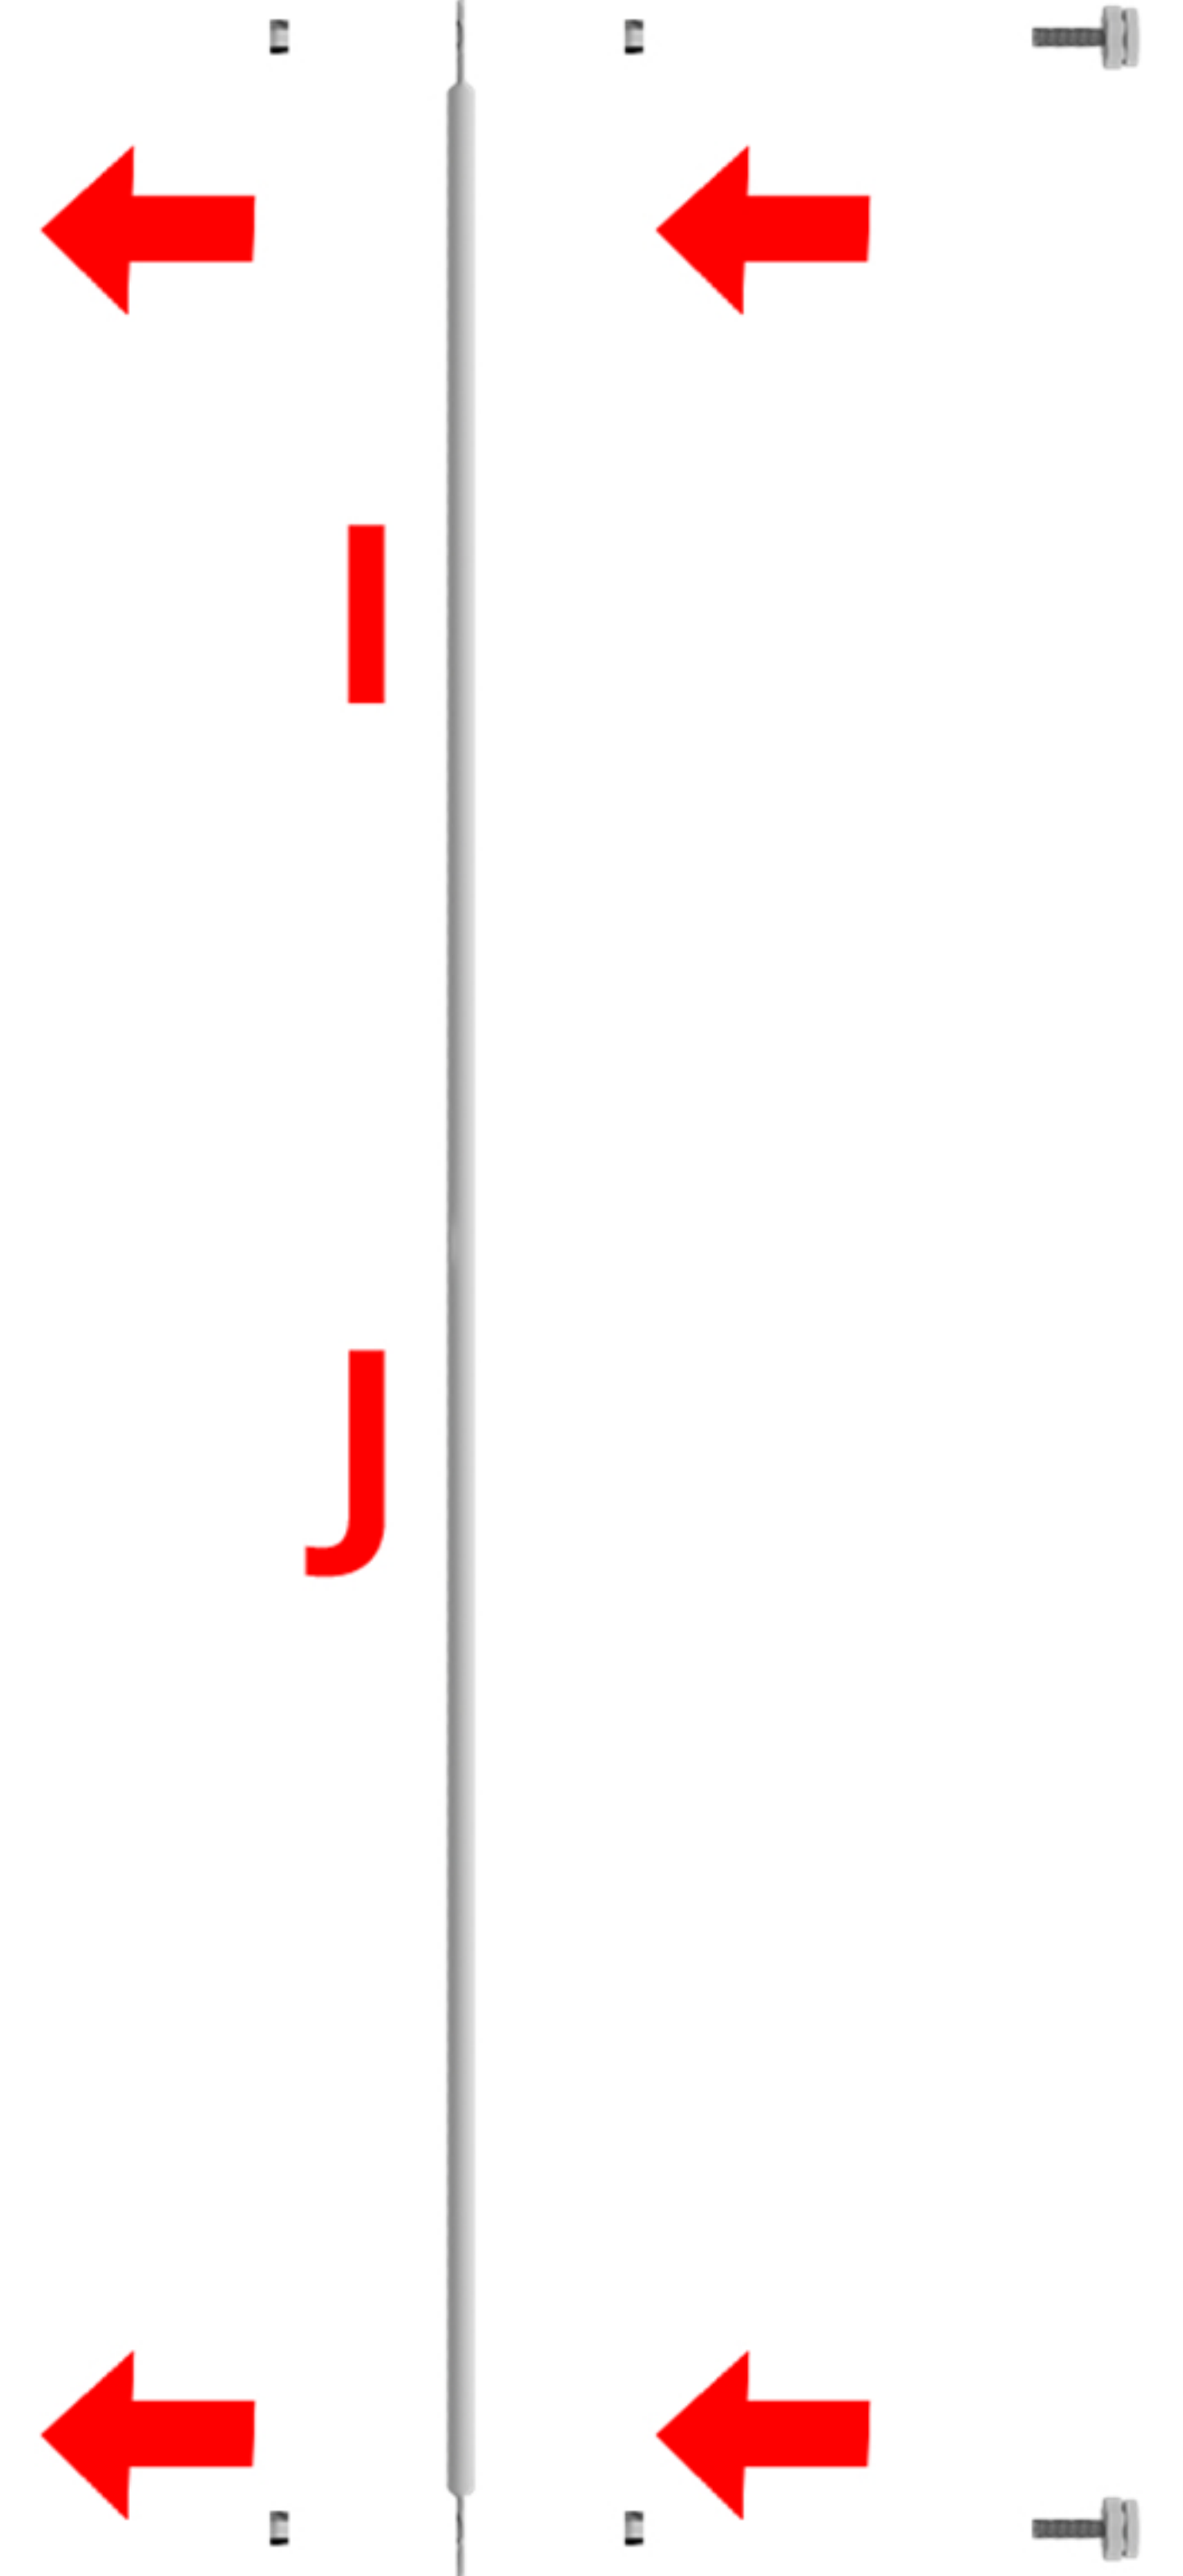

RO_ Dacă distanța dintre perete și țeava laterală depășește 3,5 cm, aceasta trebuie redusă cu ajutorul unei tije (I+J), așa cum se arată în imagine. În funcție de dimensiunea reală a distanței, strângeți ambele piulițe (11) pentru a regla distanța laterală, astfel încât distanța dintre perete și țeava laterală să fie <3,5 cm.
