DE_ Drehen Sie den Cam-Lock im Uhrzeigersinn, um ihn festzuziehen.

IT_ Ruotare il bloccaggio a camma in senso orario per stringere.

RO_ Rotiți blocarea cu came în sensul acelor de ceasornic pentru a strânge.

Installation Method

Step 1: Install Part A

Take Part 1 (Back Panel), Part 3 (Bottom Bar), Part 4 (Upper Bar), Part 6 (Right Side Panel), and Part 7 (Left Side Panel).

Insert the 28pcs of Part A into the pre-drilled assembly holes of each panel, respectively, then tighten and secure them with a screwdriver.

Step 2: Install the Bottom Panel Assembly

Take Part 1 (Back Panel), Part 2 (Bottom Panel), and Part 3 (Bottom Bar). Secure them by inserting and tightening 4pcs of Part B.

(Note: The arrow on Part B must be aligned with the direction of Part A (lock rod) before insertion. After inserting, tighten clockwise.)

Step 3: Install the Top Mesh Cover Assembly Take Part 5 (Top Mesh Cover) and Part 4 (Upper Bar). Secure them by inserting and tightening 2pcs of Part B.
(Note: The arrow on Part B must be aligned with the direction of Part A (lock rod) before insertion. After inserting, tighten clockwise.)

Step 4: Secure Step 2 and Step 3
Place the assemblies from Step 2 and Step 3 flat on the ground. Using 2pcs of Part B, insert and tighten them as shown in the diagram.
(Note: The arrow on Part B must be aligned with the direction of Part A (lock rod) before insertion. After inserting, tighten clockwise.)

Step 5: Install the Left and Right Side Panels

Take Part 6 (Right Side Panel) and Part 7 (Left Side Panel). Using 20pcs of Part B, tighten and secure them as shown in the diagram. Then align and install Part C (cable pass) in its designated position.

(Note: The arrow on Part B must be aligned with the direction of Part A (lock rod) before insertion. After inserting, tighten clockwise.)

Install the cable pass.

Place C2 on the outside of the glass container and C3 on the inside. Then rotate C3 clockwise.

Align the arrows and install C1 onto C2&C3.

Rotate to lock in the "CLOSE" direction

Step 6: Install the Glass Doors

Place the assembly from Step 5 flat on the ground as shown in the diagram. Take the two glass doors: first, slide the first door into the inner track, then slide the second door into the outer track.

Step 7: Install Accessories

Take Part G. Please refer to the exploded diagram below for detailed components. Part E/F can be attached to the outer glass door surface as desired.

1. Turn the key to remove the lock head.

2. Install the lock bar on the inner track glass door and tighten the screws with a screwdriver to secure it.

3. Slide the inner and outer track glass doors in the direction of the arrow.

4. Insert the lock head back and lock it in place in the direction of the arrow.

Take one piece of part F, peel off the protective film on one side, and carefully stick it flat onto the door handle, pressing firmly. Then peel off the protective film on the other side of part F and attach it to the glass door as needed. After sticking, press again to secure it in place.

Procédure d'installation

Étape 1 : Installation de la partie A

Prenez la pièce 1 (panneau arrière), la pièce 3 (barre inférieure), la pièce 4 (barre supérieure), la pièce 6 (panneau latéral droit) et la pièce 7 (panneau latéral gauche).

Insérez les 28 pièces de la partie A dans les trous de montage pré-perçés de chaque panneau, puis serrez-les et fixez-les à l'aide d'un tournevis.

Étape 2 : Installation de l'ensemble du panneau inférieur

Prenez la pièce 1 (panneau arrière), la pièce 2 (panneau inférieur) et la pièce 3 (barre inférieure). Fixez-les en insérant et en serrant les 4 pièces B.

(Remarque : avant l'insertion, la flèche indiquée sur la pièce B doit être alignée avec la direction de la pièce A (tige de verrouillage). Une fois insérée, serrez dans le sens des aiguilles d'une montre.)

Étape 3 : Installation de l'ensemble de la grille supérieure Prenez la pièce n° 5 (grille supérieure) et la pièce n° 4 (barre supérieure). Fixez-les en insérant et en serrant les 2 pièces B.

(Remarque : avant l'insertion, la flèche indiquée sur la pièce B doit être alignée avec la direction de la pièce A (tige de verrouillage). Une fois insérées, serrez dans le sens des aiguilles d'une montre.)

Étape 4 : Fixation des éléments des étapes 2 et 3

Posez les ensembles des étapes 2 et 3 à plat sur le sol.

À l'aide de 2 pièces de la pièce B, insérez-les et serrez-les comme indiqué sur le schéma.

(Remarque : la flèche sur la pièce B doit être alignée avec la direction de la pièce A (tige de verrouillage) avant l'insertion. Une fois insérée, serrez dans le sens des aiguilles d'une montre.)

Étape 5 : Installation des panneaux latéraux gauche et droit

Prenez la pièce 6 (panneau latéral droit) et la pièce 7 (panneau latéral gauche). À l'aide de 20 pièces de la pièce B, serrez-les et fixez-les comme indiqué sur le schéma. Alignez ensuite la pièce C (passage de câbles) et installez-la à l'emplacement prévu.

(Remarque : la flèche sur la pièce B doit être alignée avec la direction de la pièce A (tige de verrouillage) avant l'insertion. Après l'insertion, serrez dans le sens des aiguilles d'une montre.)

Installez le passe-câble.

Placez C2 à l'extérieur du récipient en verre et C3 à l'intérieur. Faites ensuite tourner C3 dans le sens des aiguilles d'une montre.

Alignez les flèches et fixez C1 sur C2 et C3.

Tourner pour verrouiller en position « FERMÉ »

Étape 6 : Installation des portes vitrées

Posez l'ensemble obtenu à l'étape 5 à plat sur le sol, comme indiqué sur le schéma. Prenez les deux portes vitrées : commencez par glisser la première porte dans le rail intérieur, puis glissez la deuxième porte dans le rail extérieur.

Étape 7 : Installation des accessoires

Prenez la pièce G. Reportez-vous au schéma éclaté ci-dessous pour connaître la liste détaillée des composants.

Les pièces E et F peuvent être fixées sur la surface extérieure de la porte vitrée selon vos préférences.

Piste extérieure
Porte vitrée

1. Tournez la clé pour retirer la tête de serrure.

2. Installez la barre de verrouillage sur la porte vitrée du rail intérieur et serrez les vis à l'aide d'un tournevis pour la fixer.

3. Faites coulisser les portes vitrées intérieures et extérieures dans le sens de la flèche.

4. Remettez la tête de verrouillage en place et verrouillez-la dans le sens de la flèche.

Prenez une pièce de la partie F, retirez le film protecteur d'un côté, puis collez-la soigneusement à plat sur la poignée de porte en appuyant fermement. Retirez ensuite le film protecteur de l'autre côté de la pièce F et fixez-la sur la porte vitrée comme indiqué. Une fois collée, appuyez à nouveau pour bien la fixer.

Método de instalación

Paso 1: Instalar la pieza A

Tome la pieza 1 (panel trasero), la pieza 3 (barra inferior), la pieza 4 (barra superior), la pieza 6 (panel lateral derecho) y la pieza 7 (panel lateral izquierdo).

Inserte las 28 piezas de la Parte A en los orificios de montaje pretaladrados de cada panel, respectivamente, y luego apriételas y fíjelas con un destornillador.

Paso 2: Instalar el conjunto del panel inferior

Tome la pieza 1 (panel trasero), la pieza 2 (panel inferior) y la pieza 3 (barra inferior). Fíjelas insertando y apretando las 4 piezas de la pieza B.

(Nota: La flecha de la pieza B debe estar alineada con la dirección de la pieza A (varilla de bloqueo) antes de la inserción. Una vez insertada, apriete en el sentido de las agujas del reloj.)

Paso 3: Instalar el conjunto de la cubierta de malla superior. Tome la pieza 5 (cubierta de malla superior) y la pieza 4 (barra superior). Fíjelas insertando y apretando las 2 piezas de la pieza B. (Nota: La flecha de la pieza B debe estar alineada con la dirección de la pieza A (varilla de bloqueo) antes de la inserción. Una vez insertadas, apriete en el sentido de las agujas del reloj.)

Paso 4: Fijar los elementos de los pasos 2 y 3

Coloque los conjuntos de los pasos 2 y 3 en posición horizontal sobre el suelo.

Utilizando 2 unidades de la pieza B, insértelas y apriételas tal y como se muestra en el esquema.

(Nota: La flecha de la pieza B debe estar alineada con la dirección de la pieza A (varilla de bloqueo) antes de la inserción. Una vez insertada, apriete en el sentido de las agujas del reloj.)

Paso 5: Instale los paneles laterales izquierdo y derecho

Tome la pieza 6 (panel lateral derecho) y la pieza 7 (panel lateral izquierdo). Utilizando 20 unidades de la pieza B, apriételas y fíjelas tal y como se muestra en el esquema. A continuación, alinee e instale la pieza C (pasacables) en su posición correspondiente.

(Nota: La flecha de la pieza B debe estar alineada con la dirección de la pieza A (varilla de bloqueo) antes de la inserción. Después de insertarla, apriete en el sentido de las agujas del reloj.)

Instala el pasacables.

Coloca C2 en el exterior del recipiente de cristal y C3 en el interior. A continuación, gira C3 en el sentido de las agujas del reloj.

Alinea las flechas e instala C1 en C2 y C3.

Gíralo para bloquearlo en la posición «CERRADO»

Paso 6: Instala las puertas de cristal

Coloca el conjunto del paso 5 en el suelo, tal y como se muestra en el esquema. Toma las dos puertas de cristal: primero, desliza la primera puerta por el carril interior y, a continuación, desliza la segunda puerta por el carril exterior.

Paso 7: Instalar los accesorios

Tome la pieza G. Consulte el esquema de piezas desmontadas que aparece a continuación para ver los componentes detallados.

Las piezas E y F se pueden fijar a la superficie exterior de la puerta de cristal según se desee.

1. Gira la llave para quitar el cabezal de la cerradura.

2. Instala la barra de bloqueo en la puerta de cristal del carril interior y aprieta los tornillos con un destornillador para fijarla.

3. Desliza las puertas de cristal con guías interior y exterior en la dirección de la flecha.

4. Vuelva a colocar el cabezal del cierre y fíjelo en su sitio en la dirección indicada por la flecha.

Tome una pieza de la pieza F, retire la lámina protectora de uno de los lados y péguela con cuidado sobre el tirador de la puerta, presionando con firmeza. A continuación, retire la lámina protectora del otro lado de la pieza F y fíjela a la puerta de cristal según sea necesario. Una vez pegada, vuelva a presionar para asegurarla en su sitio.

Método de instalação**Passo 1: Instalar a Parte A**

Pegue na Parte 1 (painel traseiro), na Parte 3 (barra inferior), na Parte 4 (barra superior), na Parte 6 (painel lateral direito) e na Parte 7 (painel lateral esquerdo).

Insira as 28 peças da Parte A nos orifícios de montagem pré-perfurados de cada painel, respectivamente, e, em seguida, aperte-as e fixe-as com uma chave de fendas.

**Passo 2: Instalar o conjunto do painel inferior**

Pegue a Peça 1 (painel traseiro), a Peça 2 (painel inferior) e a Peça 3 (barra inferior). Fixe-as inserindo e apertando 4 unidades da Peça B.

(Nota: A seta na Peça B deve estar alinhada com a direção da Peça A (haste de bloqueio) antes da inserção. Após a inserção, aperte no sentido horário.)

Passo 3: Instalar o conjunto da cobertura superior em malha Pegue na Peça 5 (Cobertura superior em malha) e na Peça 4 (Barra superior). Fixe-as inserindo e apertando 2 unidades da Peça B. (Nota: A seta na Peça B deve estar alinhada com a direção da Peça A (haste de bloqueio) antes da inserção. Após a inserção, aperte no sentido horário.)

Passo 4: Fixar os conjuntos dos Passos 2 e 3

Coloque os conjuntos dos Passos 2 e 3 na horizontal, apoiados no chão.

Utilizando 2 unidades da Peça B, insira-as e aperte-as conforme ilustrado no diagrama.

(Nota: A seta na Peça B deve estar alinhada com a direção da Peça A (haste de bloqueio) antes da inserção. Após a inserção, aperte no sentido horário.)

Passo 5: Instalar os painéis laterais esquerdo e direito

Pegue a Peça 6 (painel lateral direito) e a Peça 7 (painel lateral esquerdo). Utilizando 20 unidades da Peça B, aperte-as e fixe-as conforme ilustrado no diagrama. Em seguida, alinhe e instale a Peça C (passagem de cabos) na sua posição designada.

(Nota: A seta na Peça B deve estar alinhada com a direção da Peça A (haste de bloqueio) antes da inserção. Após a inserção, aperte no sentido horário.)

Instale o passador de cabos.

Coloque C2 na parte exterior do recipiente de vidro e C3 na parte interior. Em seguida, rode C3 no sentido horário.

Alinhe as setas e encaixe C1 em C2 e C3.

Gire para bloquear na direção «FECHAR»

Passo 6: Instalar as portas de vidro

Coloque o conjunto do Passo 5 apoiado no chão, conforme ilustrado no esquema. Pegue nas duas portas de vidro: primeiro, encaixe a primeira porta na calha interior e, em seguida, encaixe a segunda porta na calha exterior.

Passo 7: Instalar os acessórios

Pegue na peça G. Consulte o esquema de peças desmontadas abaixo para ver os componentes em detalhe.

As peças E/F podem ser fixadas na superfície exterior da porta de vidro, conforme desejado.

1. Rode a chave para retirar a cabeça da fechadura.

2. Instale a barra de bloqueio na porta de vidro do trilho interior e aperte os parafusos com uma chave de fendas para a fixar.

3. Deslize as portas de vidro das calhas interior e exterior na direção da seta.

4. Recoloque a cabeça do fecho e fixe-a no lugar, na direção da seta.

Pegue numa peça da peça F, retire a película protetora de um dos lados e cole-a cuidadosamente sobre a maçaneta da porta, pressionando com firmeza. Em seguida, retire a película protetora do outro lado da peça F e fixe-a na porta de vidro conforme necessário. Após a colagem, pressione novamente para fixá-la no lugar.

Montageanleitung

Schritt 1: Montage von Teil A

Nehmen Sie Teil 1 (Rückwand), Teil 3 (untere Leiste), Teil 4 (obere Leiste), Teil 6 (rechte Seitenwand) und Teil 7 (linke Seitenwand).

Führen Sie die 28 Teile von Teil A jeweils in die vorgebohrten Montageöffnungen der einzelnen Paneele ein und ziehen Sie sie anschließend mit einem Schraubendreher fest.

Schritt 2: Einbau der Bodenplattenbaugruppe

Nehmen Sie Teil 1 (Rückwand), Teil 2 (Bodenplatte) und Teil 3 (Bodenleiste). Befestigen Sie diese, indem Sie 4 Stück von Teil B einsetzen und festziehen.

(Hinweis: Der Pfeil auf Teil B muss vor dem Einsetzen in die Richtung von Teil A (Verriegelungsstange) ausgerichtet sein. Nach dem Einsetzen im Uhrzeigersinn festziehen.)

Schritt 3: Montage der oberen Netzabdeckung Nehmen Sie Teil 5 (obere Netzabdeckung) und Teil 4 (obere Stange). Befestigen Sie diese, indem Sie 2 Stück von Teil B einsetzen und festziehen.
(Hinweis: Der Pfeil auf Teil B muss vor dem Einsetzen in die Richtung von Teil A (Verriegelungsstange) ausgerichtet sein. Nach dem Einsetzen im Uhrzeigersinn festziehen.)

Schritt 4: Befestigen Sie die Teile aus Schritt 2 und Schritt 3
Legen Sie die Baugruppen aus Schritt 2 und Schritt 3 flach auf den Boden.
Führen Sie 2 Stück von Teil B ein und ziehen Sie sie wie in der Abbildung gezeigt fest.
(Hinweis: Der Pfeil auf Teil B muss vor dem Einsetzen in die Richtung von Teil A (Verriegelungsstange) ausgerichtet sein. Nach dem Einsetzen im Uhrzeigersinn festziehen.)

Schritt 5: Montage der linken und rechten Seitenwände

Nehmen Sie Teil 6 (rechte Seitenwand) und Teil 7 (linke Seitenwand). Befestigen Sie diese mit 20 Stück von Teil B wie in der Abbildung gezeigt. Richten Sie anschließend Teil C (Kabeldurchführung) aus und montieren Sie es an der vorgesehenen Stelle.

(Hinweis: Der Pfeil auf Teil B muss vor dem Einsetzen mit der Richtung von Teil A

(Verriegelungsstange) ausgerichtet sein. Nach dem Einsetzen im Uhrzeigersinn festziehen.)

Bringen Sie die Kabeldurchführung an.

Richte die Pfeile aus und setze C1 auf C2 und C3.

Zum Verriegeln in Richtung „CLOSE“ drehen

Setzen Sie C2 an die Außenseite des Glasbehälters und C3 an die Innenseite. Drehen Sie dann C3 im Uhrzeigersinn.

Schritt 6: Einbau der Glastüren

Legen Sie die Baugruppe aus Schritt 5 wie in der Abbildung gezeigt flach auf den Boden. Nehmen Sie die beiden Glastüren: Schieben Sie zunächst die erste Tür in die innere Schiene und anschließend die zweite Tür in die äußere Schiene.

Schritt 7: Zubehör montieren

Nehmen Sie Teil G zur Hand. Die einzelnen Komponenten entnehmen Sie bitte der untenstehenden Explosionszeichnung.

Die Teile E/F können nach Belieben an der Außenseite der Glastür angebracht werden.

1. Drehen Sie den Schlüssel, um den Schlosskopf zu entfernen.

2. Bringen Sie die Verriegelungsstange an der Glastür der inneren Schiene an und ziehen Sie die Schrauben mit einem Schraubendreher fest, um sie zu sichern.

3. Schieben Sie die inneren und äußeren Glasschiebetüren in Pfeilrichtung.

4. Setzen Sie den Verschlusskopf wieder ein und verriegeln Sie ihn in Pfeilrichtung.

Nehmen Sie ein Teil F, ziehen Sie die Schutzfolie auf einer Seite ab und kleben Sie es vorsichtig flach auf den Türgriff, wobei Sie es fest andrücken. Ziehen Sie anschließend die Schutzfolie auf der anderen Seite von Teil F ab und bringen Sie es wie gewünscht an der Glastür an. Drücken Sie es nach dem Aufkleben noch einmal fest an, um es zu fixieren.

Procedura di installazione

Fase 1: Installazione della Parte A

Prendere la Parte 1 (pannello posteriore), la Parte 3 (barra inferiore), la Parte 4 (barra superiore), la Parte 6 (pannello laterale destro) e la Parte 7 (pannello laterale sinistro).

Inserire i 28 pezzi della Parte A nei fori di montaggio preforati di ciascun pannello, quindi serrarli e fissarli con un cacciavite.

Fase 2: Installazione del gruppo pannello inferiore

Prendere la Parte 1 (pannello posteriore), la Parte 2 (pannello inferiore) e la Parte 3 (barra inferiore). Fissarle inserendo e serrando 4 pezzi della Parte B.

(Nota: prima dell'inserimento, la freccia sulla Parte B deve essere allineata con la direzione della Parte A (asta di bloccaggio). Dopo l'inserimento, serrare in senso orario.)

Fase 3: Installazione del gruppo copertura superiore in rete Prendere il componente 5 (copertura superiore in rete) e il componente 4 (barra superiore). Fissarli inserendo e serrando 2 pezzi del componente B.

(Nota: prima dell'inserimento, la freccia sul componente B deve essere allineata con la direzione del componente A (asta di bloccaggio). Dopo l'inserimento, serrare in senso orario.)

Fase 4: Fissare i componenti delle fasi 2 e 3

Appoggiare i gruppi assemblati nelle fasi 2 e 3 in posizione orizzontale sul pavimento.

Utilizzando 2 pezzi del componente B, inserirli e serrarli come illustrato nello schema.

(Nota: prima dell'inserimento, la freccia sul componente B deve essere allineata con la direzione del componente A (asta di bloccaggio). Dopo l'inserimento, serrare in senso orario.)

Fase 5: Montaggio dei pannelli laterali sinistro e destro

Prendere il componente 6 (pannello laterale destro) e il componente 7 (pannello laterale sinistro). Utilizzando 20 pezzi del componente B, serrarli e fissarli come illustrato nello schema. Quindi allineare e installare il componente C (passacavi) nella posizione prevista. (Nota: la freccia sulla Parte B deve essere allineata con la direzione della Parte A (asta di bloccaggio) prima dell'inserimento. Dopo l'inserimento, serrare in senso orario.)

Installare il passacavi.

Posizionare C2 all'esterno del contenitore di vetro e C3 all'interno. Quindi ruotare C3 in senso orario.

Allineare le frecce e montare C1 su C2 e C3.

Ruotare per bloccare in direzione "CHIUSO"

Fase 6: Installazione delle ante in vetro

Appoggiare il gruppo assemblato nella fase 5 sul pavimento, come illustrato nello schema.

Prendere le due ante in vetro: per prima cosa, far scorrere la prima anta nella guida interna, poi far scorrere la seconda anta nella guida esterna.

Passaggio 7: Installazione degli accessori

Prendere il componente G. Per i dettagli sui componenti, fare riferimento allo schema esploso riportato di seguito.

I componenti E/F possono essere fissati alla superficie esterna della porta in vetro a piacere.

1. Girare la chiave per rimuovere la testa della serratura.

2. Montare la barra di bloccaggio sulla guida interna della porta a vetri e serrare le viti con un cacciavite per fissarla.

3. Far scorrere le ante in vetro delle guide interna ed esterna nella direzione indicata dalla freccia.

4. Reinserire la testa del fermo e bloccarla in posizione seguendo la direzione della freccia.

Prendere un pezzo del componente F, rimuovere la pellicola protettiva da un lato e incollarlo con cura sulla maniglia della porta, premendo con decisione. Quindi rimuovere la pellicola protettiva dall'altro lato del componente F e fissarlo alla porta in vetro come richiesto. Una volta incollato, premere nuovamente per fissarlo saldamente in posizione.

Metoda de instalare

Pasul 1: Instalarea piesei A

Luați piesa 1 (panoul din spate), piesa 3 (bara inferioară), piesa 4 (bara superioară), piesa 6 (panoul lateral drept) și piesa 7 (panoul lateral stâng).

Introduceți cele 28 de piese din Partea A în orificiile de asamblare pre-forate ale fiecărui panou, apoi strângeți-le și fixați-le cu o șurubelniță.

Pasul 2: Montați ansamblul panoului inferior

Luați Piesa 1 (panoul din spate), Piesa 2 (panoul inferior) și Piesa 3 (bara inferioară). Fixați-le introducând și strângând cele 4 bucăți ale Piesei B.

(Notă: Săgeata de pe Piesa B trebuie aliniată cu direcția Piesei A (tija de blocare) înainte de introducere. După introducere, strângeți în sensul acelor de ceasornic.)

Pasul 3: Montați ansamblul capacului superior din plasă Luați Piesa 5 (capacul superior din plasă) și Piesa 4 (bara superioară). Fixați-le introducând și strângând cele 2 bucăți ale Piese B. (Notă: Săgeata de pe Piesa B trebuie aliniată cu direcția Piese A (tija de blocare) înainte de introducere. După introducere, strângeți în sensul acelor de ceasornic.)

Pasul 4: Fixați ansamblurile din pasul 2 și pasul 3

Așezați ansamblurile din pasul 2 și pasul 3 pe sol, în poziție orizontală.

Folosiți 2 bucăți din Piesa B, introduceți-le și strângeți-le conform schemei.

(Notă: Săgeata de pe Piesa B trebuie aliniată cu direcția Piese A (tija de blocare) înainte de introducere. După introducere, strângeți în sensul acelor de ceasornic.)

Pasul 5: Montați panourile laterale stânga și dreapta

Luați Piesa 6 (panoul lateral drept) și Piesa 7 (panoul lateral stâng). Folosind 20 de bucăți din Piesa B, strângeți-le și fixați-le conform schemei. Apoi aliniați și montați Piesa C (trecerea cablului) în poziția prevăzută.

(Notă: Săgeata de pe Piesa B trebuie aliniată cu direcția Piesei A (tija de blocare) înainte de inserare. După inserare, strângeți în sensul acelor de ceasornic.)

Instalați trecerea de cablu.

Așezați C2 pe partea exterioară a recipientului de sticlă și C3 pe partea interioară. Apoi rotiți C3 în sensul acelor de ceasornic.

Aliniați săgețile și montați C1 pe C2 și C3.

Rotiți pentru a bloca în direcția „CLOSE”

Pasul 6: Montarea ușilor de sticlă

Așezați ansamblul de la pasul 5 pe sol, așa cum se arată în schiță. Luați cele două uși de sticlă: mai întâi, glisați prima ușă în șina interioară, apoi glisați a doua ușă în șina exterioară.

Pasul 7: Instalarea accesoriilor

Luați piesa G. Vă rugăm să consultați schema de asamblare de mai jos pentru detalii privind componentele.

Pieșele E/F pot fi fixate pe suprafața exterioară a ușii de sticlă, după cum doriți.

1. Rotiți cheia pentru a scoate capul încuietorii.

2. Montați bara de blocare pe ușa de sticlă a șinei interioare și strângeți șuruburile cu o șurubelniță pentru a o fixa.

3. Glisați ușile glisante din sticlă, atât pe șina interioară, cât și pe cea exterioară, în direcția indicată de săgeată.

4. Introduceți din nou capul de blocare și fixați-l în poziție, în direcția indicată de săgeată.

Luați o bucată din piesa F, îndepărtați folia de protecție de pe o parte și lipiți-o cu grijă pe mânerul ușii, apăsând ferm. Apoi îndepărtați folia de protecție de pe cealaltă parte a piesei F și fixați-o pe ușa de sticlă, după cum este necesar. După lipire, apăsați din nou pentru a o fixa bine.
