FASTENERS & TIGHTENING INSTRUCTIONS

EN

CAUTION – FASTENER CARE

● Do not fully tighten screws, bolts, or connectors until all parts are properly aligned and assembled.

● Hand-tighten fasteners first, then secure them firmly. Do not over-tighten, as this may strip threads or split the material.

FR

ATTENTION – ENTRETIEN DES FIXATIONS

● Ne serrez pas complètement les vis, boulons ou raccords avant que toutes les pièces ne soient correctement alignées et assemblées.

● Serrez d'abord les fixations à la main, puis fixez-les fermement. Ne serrez pas trop, car cela pourrait endommager le filetage ou fendre le matériau.

DE

ACHTUNG – HINWEISE ZU BEFESTIGUNGSELEMENTEN

● Ziehen Sie Schrauben, Bolzen oder Verbindungsstücke erst dann vollständig fest, wenn alle Teile ordnungsgemäß ausgerichtet und montiert sind.

● Ziehen Sie die Befestigungselemente zuerst handfest an und sichern Sie sie anschließend fest. Überdrehen Sie die Schrauben nicht, da dies das Gewinde beschädigen oder das Material spalten kann.

ES

PRECAUCIÓN – CUIDADO DE LOS SUJETADORES

● No apriete completamente los tornillos, pernos o conectores hasta que todas las piezas estén correctamente alineadas y ensambladas.

● Apriete primero los sujetadores a mano y luego asegúrelos firmemente. No apriete en exceso, ya que esto podría pasar la rosca o agrietar el material.

PT

ATENÇÃO – CUIDADOS COM OS FIXADORES

● Não aperte totalmente os parafusos, cavilhas ou conectores até que todas as peças estejam devidamente alinhadas e montadas.

● Aperte primeiro os fixadores à mão e, em seguida, fixe-os firmemente. Não aperte em excesso, pois isso pode danificar a rosca ou rachar o material.

IT

ATTENZIONE – CURA DEI ELEMENTI DI FISSAGGIO

● Non stringere completamente viti, bulloni o connettori finché tutte le parti non sono correttamente allineate e assemblate.

● Stringere prima gli elementi di fissaggio a mano, quindi fissarli saldamente. Non stringere eccessivamente, poiché ciò potrebbe sgranare la filettatura o fessurare il materiale.

RO

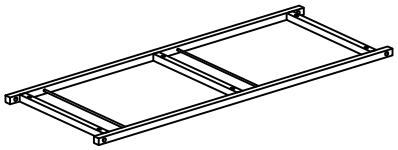

ATENȚIE – ÎNGRIJIREA ELEMENTELOR DE FIXARE

● Nu strângeți complet șuruburile, bolțurile sau conectorii până când toate piesele nu sunt aliniate și asamblate corect.

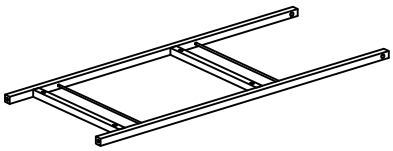

● Strângeți mai întâi elementele de fixare cu mâna, apoi fixați-le ferm. Nu strângeți excesiv, deoarece acest lucru poate deteriora filetul sau poate crăpa materialul.
